Subject: Support Packard's Hill Historic District

Honorable Members of Council:
The proposal for a small historic district in North Denver is now in your hands.
Approving it would go a long way toward preserving the character, the sense of place, that survives in this section of West Highland.
Imagine, if you will, if the built environment along the north side of 32nd Ave between Osceola and Meade were to be scraped to allow a localized urban renewal redevelopment. What a loss that would be!
It is now up to you to protect us.
The historic preservation ordinance provides a tool to preserve such city treasures and the members of the LPC have determined that Packard Hill meets the requirements for the application of ordinance.
Please second their conclusions!

Thank you!

Steve Kite
