Subject:	[EXTERNAL] Please Vote AGAINST the Safe Injection Site Proposal
Date:	Monday, November 26, 2018 9:09:18 AM

Good morning,

I would like to register my opinion AGAINST establishing safe injection sites. We have kids who go to school hungry, families that struggle to pay electrical bills in the winter, and an incredible lack of mental health facilities. We have job programs for the homeless that are always underfunded and overworked, schools that are struggling to fully staff their classrooms (much less buy tissues or pencils), and police officers working double overtime because they are understaffed. Respectfully, we have many better uses for our money than to supervise people who choose to use illegal drugs.

Thank you,
Kate Horton
