Subject: Krisana Park Conservation Overlay District

This matter is scheduled to be presented to City Council on Monday, November 21, 2016. I had planned to testify as Chair of the INC Zoning and Planning Committee and advise Council that the INC Zoning and Planning Committee had voted to support the Conservation Overlay District at its July 23, 2016 meeting. The following motion to support was made, seconded and passed by the committee by a vote of 24 in favor and 1 abstention:

"Inter-Neighborhood Cooperation should express to the Planning Board and City Council that it supports the establishment of Krisana Park Conservation District 5 because it is strongly supported by the neighborhood and it will help to conserve an important affordable mid-century modern architectural style in Denver."

Unfortunately, I will be traveling to visit with family and I will not be able to testify in support of the Krisana Park Conservation Overlay District as I had planned. Please present this memorandum to City Council and ask that it be included in the record. The INC Zoning and Planning Committee wishes to document its strong support for the approval of the Krisana Park Conservation Overlay District.

Thank you for your consideration.

Margie Valdez, Chair, INC Zoning and Planning Committee
