To whom it may concern:

Thank you for including the Alameda Avenue Underpass Replacement in the 2017 GO bond. This segment of road is a huge issue for east/west connectivity, compounded exponentially by rush hour traffic. Furthermore, the underpass is a big deterrent for bikers and pedestrians as drivers are often distracted by the heightened traffic and fail to yield to pedestrians. I urge you to continue to ensure this line item in the Go bond project list remains intact pending final approval. I look forward to a safer avenue to get to and from the light rail station to further alleviate traffic issues.

Thank you,
