I would like to support this initiative in my neighborhood.

$850K of the funds will pay to fund streetscape improvements along Central Street, the frontage road along I-25, from 15th Street to 20th Street in District 1, near the Highland Bridge. This will be in support of trees, landscaping, pedestrian lighting, benches, and further commitments towards the maintenance of all. This is an area of land that was subject to an Intergovernmental Agreement between CDOT and Denver that was never funded by either government and the land lays fallow and a nuisance. The concepts will activate this edge and turn a blight into a multi purpose community amenity.

Best,
Lynn Harris
