---

I am sending this e-mail to support the $850k Go Bond Amendment for streetscape treatment along the I-25 corridor between 15th and 20th street. I have lived close by this location in North Denver for 36 years and my profession is in Landscape Architecture. Two years ago I sent council members Rafael Espinoza and Debbie Ortego an e-mail which I include below concerning the landscape along this corridor. I hope in our rapidly changing neighborhood, landscape improvements can help mitigate some of these building and traffic developments. I believe the streetscape and landscape improvements in this Go Bond project will be a very positive response to support pedestrians trying to navigate through this neglected, busy corridor.

The I-25 Landscape Treatment attachment, photos and sequestration doc. below was sent to Rafael and Debbie in July 2015
