Subject:	Buchtel and Colorado Intersection Improvements
Date:	Friday, June 09, 2017 11:25:10 AM

Dear Mayor Hancock, Deputy Chief of Staff, and City Council Members,

I'm writing to you today to request you put the Buchtel and Colorado Intersection Improvements Project back on the list for funding in the 2017 GO Bond. The protected bike lane would enable a through connection to the pedestrian/bike bridge across I-25 and would encourage more timid bikers, or families with children, to use the bike path on Buchtel Blvd. Additionally, adding crosswalks at Clayton and Monroe would help increase the safety in crossing Buchtel, as well as accessing the trail along Prairie Park. Traffic in this area has increased dramatically and will continue to do so as more people move into Denver. Making these improvements will greatly help with safety and could decrease some car traffic as it will encourage bikers & pedestrians to use the path.

Thank you for your consideration.

Sincerely,
Joyce Meyers
University Park Resident
