Subject:	Constituent Support for Cycling Infrastructure in GO Bond

Dear City Council,

As an everyday bike commuter, our city's cycling infrastructure is a top concern of mine. Not only does cycling provide an efficient means of transportation within the city, it is also of inestimable benefit to riders' overall well-being, decreases congestion on our overburdened roads, and is an economic driver.

With that in mind, I urge you to support the projects in the GO Bond that support expanding our bike infrastructure in Denver, and making existing routes safer and more straightforward. Any further cuts to these projects would be unacceptable.

With your support, we can continue moving Denver forward.

Sincerely,
Gunnar Paulsen
