Hello, I live in district number 7 and I am writing in favor of support for the Alameda underpass and the Jewell Bridge projects. Both of these projects are needed so that people can bike and walk safely in busy areas. With the population in Denver increasing, we are encouraging people to get out of their cars more, but in order to do this, we need to have safe passage for pedestrians and cyclists. Currently it is a very dodgy affair to get from Platt Park neighborhood to the Platt Park bike trail. These improvements will improve both access and safety.

Thank you,

Stephanie Bruno
