 - a. Scope of Work**

To remain compliant with the FAA, Denver International Airport (Airport) has elected to develop an electronic Airport Layout Plan (eALP)/ Airport-wide Geographic Information System (A-GIS). The FAA is also implementing a policy to require airports to provide airfield, facility, and obstacle data to their database in support of their NextGen modernization program. The Airport and Woolpert will work with the Federal Aviation Administration (FAA) to ensure that all collected data and analysis satisfies these requirements. This data collection will include all necessary professional engineering, surveying, planning, and project management services related to the completion of the required airport and aeronautical data collection supporting the planning, development, and optionally construction activities.
