Comprehensive Plan 2040

Comprehensive Plan 2040

- *Equitable, Affordable and Inclusive Goal 1, Strategy A: Increase development of housing units close to transit and mixed use developments*
- *Equitable, Affordable, and Inclusive Goal 1, Strategy B: Improve equitable access to resources that improve quality of life, including cultural and natural amenities, health care, education, parks, recreation, nutritious food and the arts.*
- *Equitable, Affordable and Inclusive Goal 2 Strategy A – Create a greater mix of housing options in every neighborhood for all individuals and families*
- *Environmentally Resilient Goal 8, Strategy A- Promote infill development where infrastructure and services are already in place (p.54).*
- *Environmentally Resilient Goal 8, Strategy B- Encourage mixed-use communities where residents can live, work and play in their own neighborhoods (p. 54).*

Denver Zoning Code Review Criteria

1. Consistency with Adopted Plans

- *Comprehensive Plan 2040*
- *Blueprint Denver (2019)*

Blueprint Denver 2019

Future Neighborhood Context: Urban

- Small multi-unit residential and low-intensity mixed use buildings are typically embedded in single-unit and two-unit residential areas. Block patterns are a regular grid with consistent alley access. Where they occur, multi-unit buildings are low-scale. Mixed-use buildings are sited in a pedestrian-friendly manner near the street.

Blueprint Denver 2019

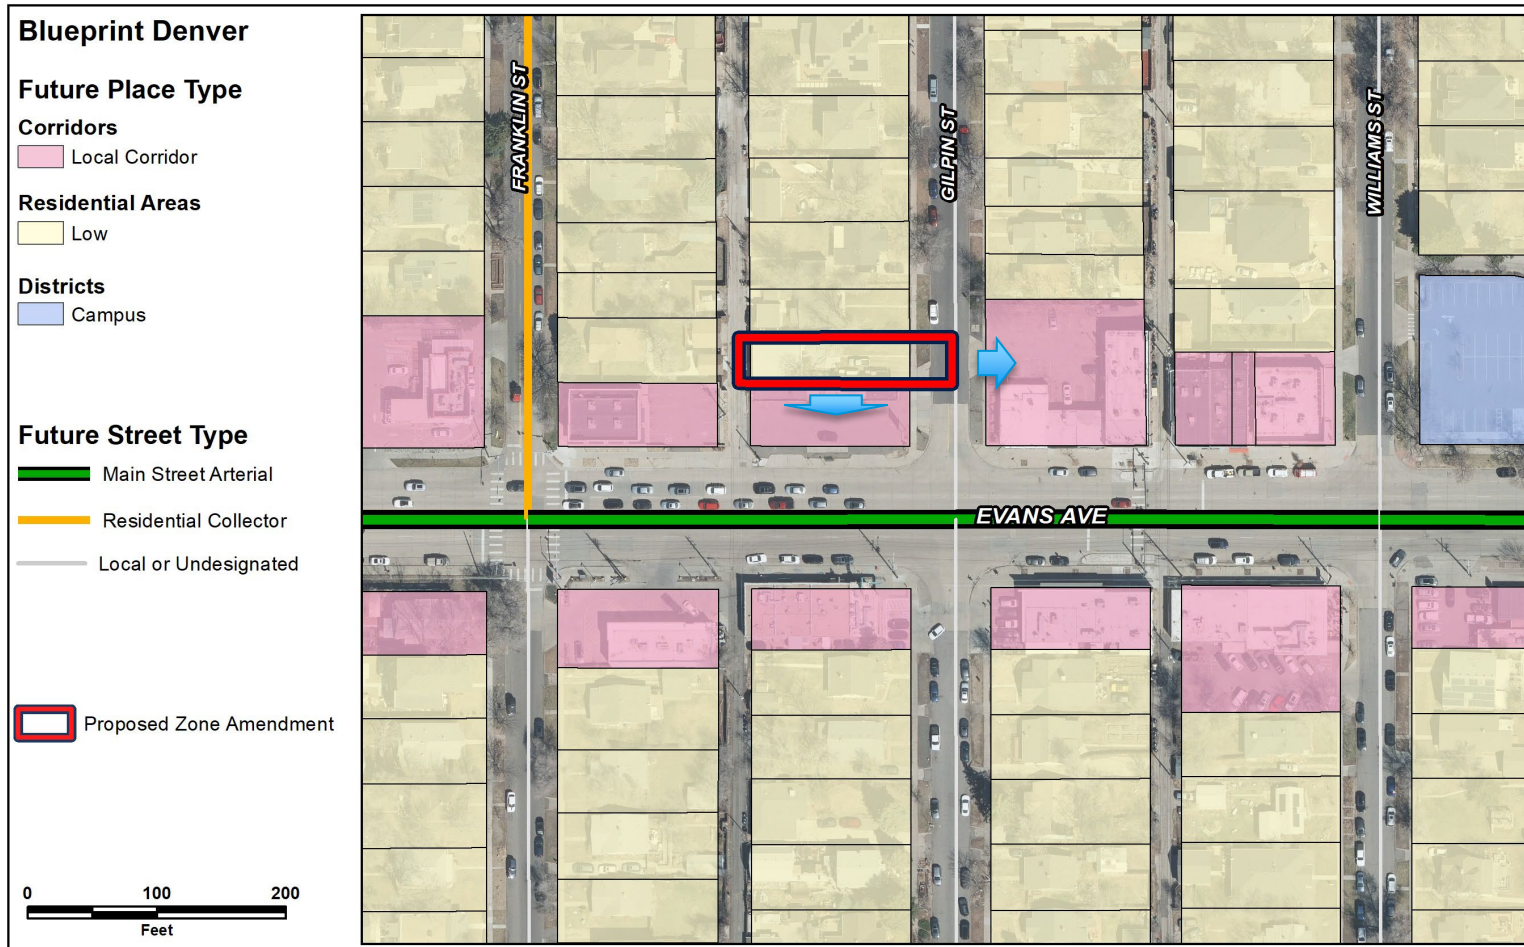

Future Place Type: Low Residential

- Predominately single- and two-unit uses on smaller lots.
- Accessory dwelling units and duplexes are appropriate and can be thoughtfully integrated where compatible.
- Some civic and institutional uses are compatibly integrated throughout and limited mixed-use can occur along arterial and collector streets, as well as where commercial uses have been already established.
- Vacant institutional uses on corners or select sites may be appropriate locations to introduce additional residential intensity.
- Medium building coverage. Buildings are generally up to 2.5 stories in height.

Evaluation is based on the proposed zone district is consistent with the Future Street Classification, not to assess the traffic impacts of a specific development proposal.

Blueprint Denver 2019

Adjacent Future Place Type: Local Corridor

- Primarily provides options for dining, entertainment and shopping.
- May also include some residential and employment uses.
- Typically frequented by residents of the neighborhood.
- Highest activity levels during evenings and weekends.
- Buildings have a distinctly linear orientation along the street with very shallow setbacks.
- The scale is intimate with a focus on the pedestrian.
- The public realm is typically defined by lower-scale buildings with active frontages.
- Heights are generally up to 3 stories. Although generally well integrated into the surrounding neighborhood, a limited transition may be needed.

Evaluation is based on the proposed zone district is consistent with the Future Street Classification, not to assess the traffic impacts of a specific development proposal.

Applying Blueprint Denver to Rezoning Requests

Blueprint Denver components to consider in rezoning requests:

Always Applicable

Places map

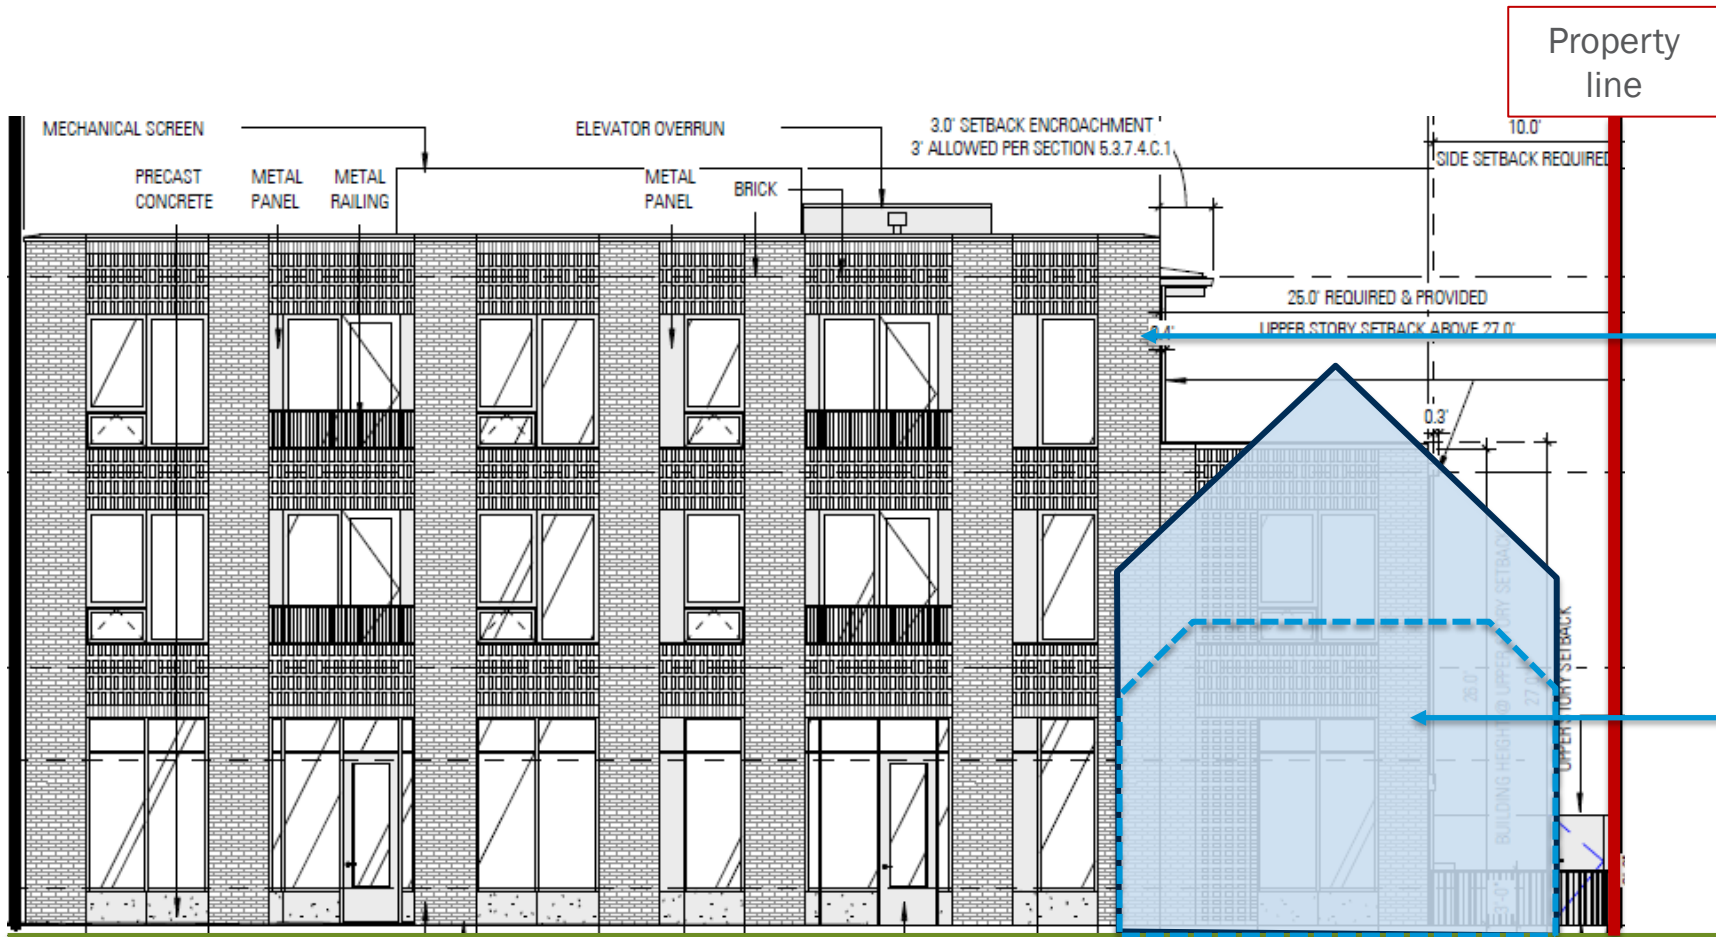

The future places map shows which place description(s) should be used to evaluate the appropriateness of the proposed zone district. Since it is a citywide map, the boundaries of the mapped places should be interpreted with limited flexibility, especially at edges, if the request furthers the goals of *Blueprint Denver* and is consistent with the overall intent of the places map.

- The boundaries of the future places map **should** be interpreted with limited flexibility, especially at the edges...
- The request furthers the goals of Blueprint Denver and is consistent with the overall intent of the places map
 - Allows range of uses described in the plan
 - Supports plan goals to support mixed-use corridors close to amenities
 - Does not expand the depth of the corridor beyond what has already been established

Future Places and Zoning Pattern

Building Form: Upper Story Setback

South Gilpin Street

Proposed building subject property:

- 10' side setback
- 25' upper story setback
- 45' maximum height

Potential urban house built in the current zone district:

- 3' side setback
- 17' bulk plane
- 30' Max height - front 65%
- 17' Max height - rear 35%
