Executive Summary

Speech-language pathologist and health innovation leader with more than a decade of experience supporting aging adults across the healthcare continuum - from acute hospital and rehabilitation settings to long-term memory care and hospice. Specialized in cognitive health, dementia, and swallowing disorders, I have advanced system-level improvements through hospital-wide policy adoption, interdisciplinary training, and equitable access to services. My work spans clinical research, digital health innovation, and community-based caregiver advocacy, with a commitment to improving independence, dignity, and quality of life for aging populations.

Professional Experience

Senior Account Executive | SiteRx | 2024–Present

- Partner with physician practices, ACOs, and health systems to expand access to clinical trials for older adults, aligning research participation with caregiver and community needs.
- Develop scalable strategies to integrate research opportunities into care delivery, promoting equity in access to aging-related services.

Account Executive | BrainCheck | 2022–2023

- Advanced adoption of digital cognitive assessment tools for early detection of cognitive changes in older adults.
- Collaborated with providers across primary care, neurology, geriatrics, and psychiatry to integrate care pathways that extend independence and patient education as well as reduce caregiver burden.

Account Manager | GLG BioPharma | 2021–2022

- Directed research engagements with biotech and pharma leaders in neurology and rare disease, informing development of therapies that impact aging populations.
- Connected commercial strategy with provider and caregiver insights to guide market access and patient support approaches.

Speech-Language Pathologist | St. David's HealthCare | 2016–2021

- Led hospital-wide adoption of dysphagia policy development, improving patient safety for aging adults across ICU and acute care.
- Trained caregivers, physicians, and interdisciplinary teams in dementia and swallowing care, supporting goals-of-care and end-of-life planning.
- Provided cognitive and swallowing interventions to older adults in inpatient rehab and long-term care.

Speech-Language Pathologist | Warm Springs Acute Medical | 2015–2016

- Supported families in navigating feeding tube management, hospice care, and palliative decision-making.

Clinical Educator | University of St. Augustine for Health Sciences | 2023–2024

- Mentored graduate SLP students; delivered training in dementia and swallowing care, building future workforce capacity in aging care considerations.

Research & Community Leadership

Research Fellow | Cambridge Health Alliance | Center for Mindfulness & Compassion | 2020–2022

- Supported NIH-funded mindfulness research on opioid use disorder, contributing to publication.

Group Facilitator | The Dinner Party | 2020–Present

- Lead peer-support groups for adults navigating grief, creating safe spaces for resilience and mental health.

Education

- M.S., Speech-Language Pathology | Texas State University
Graduate Cognate: Neurogenic Voice & Swallowing Disorders
- B.S., Communication Sciences & Disorders | Texas State University

Certifications

- Certificate of Clinical Competence (CCC-SLP), ASHA
- State Licensure for Speech-Language Pathology, Texas and Colorado

Megan Edge, M.S., CCC-SLP [REDACTED]
[REDACTED]

I am a speech-language pathologist and health innovation leader with more than a decade of experience supporting older adults across the continuum of care - from intensive care and rehabilitation to long-term memory care and hospice. My expertise spans dementia, cognitive health, and swallowing disorders, where I have advanced hospital-wide policy adoption, trained interdisciplinary teams, and guided families through complex caregiving and end-of-life decisions.

Beyond clinical practice, I have contributed to community-based and NIH-funded research on mindfulness interventions, with peer-reviewed publications in *The American Journal on Addictions* and *JAMA Network Open*. In the health technology sector, I have partnered with physician practices, ACOs, and health systems to expand access to clinical trials and digital tools that improve early identification of cognitive changes and promote equitable aging services.

I also serve as a volunteer facilitator for grief support groups and support youth and families through national nonprofit programs, combining professional and personal caregiving perspectives with community leadership.

I am committed to advancing policies and programs that promote independence, dignity, and equitable access to resources for older adults across Denver.
