Purpose: This contract (or these contracts) provide on-call professional engineering services to support the Capital Projects Management program, as well as provide general engineering services throughout Public Works, as requested. These services include, but are not limited to: hydraulic and hydrologic studies, feasibility analyses and full project design for storm sewer basins and facilities; sanitary sewer system analyses and full project design; utility coordination, relocation and permitting; surveying; traffic engineering; geotechnical investigations; and other Civil Engineering design services.

Scope of services with performance bench marks: See Purpose above

Cost/value: Originally \$3,000,000, with this Amendment it will be increased to \$4,000,000

Source of funds: CIP, Grant, Discretionary and others on a work order basis.

Benefit: This Amendment will allow the consultant to continue to perform under this contract. It will allow the City to utilize the unused budget capacity to complete additional projects. Billing rates currently being used will not change, providing a financial benefit to the City. This Amendment will eliminate delays in the work by allowing for an interim measure to address the accelerated influx of design work surrounding the I-70 project until new contracts are in place.
