

MADISEN Q. FREDERICK

EDUCATION

MAY 2020

BACHELORS OF ARTS IN PSYCHOLOGY, THE UNIVERSITY OF COLORADO DENVER

Distinguished Honors: *Cum Laude* (GPA: 3.9)

EXPERIENCE

JULY 2021 – PRESENT

HOUSING ADVOCACY COALITION MANAGER, COLORADO GERONTOLOGICAL SOCIETY

- Maximize opportunities with current Colorado initiatives on housing policies, especially in the American Rescue Plan funds that are being allocated for housing and accessing some funding for older adult programming.
- Serve on community boards, advisory committees, and work with key influencers to guide and shape housing policy for older adults.
- Participate, in partnership with community advocates, in policy initiatives to improve health equity through housing supports.
- Recruit, organize, and support community advocates who want to work on changing current policies on housing for older adults, with a special focus on African American and Latinos.
- Review current policies, specifically in the City of Denver, as well as State of Colorado programs to identify ways to improve housing for older adults.

APRIL 2021 – PRESENT

ON CALL RESIDENTIAL CASE MANAGER, VOLUNTEERS OF AMERICA

- Provide case-management services.
- Assist residents with maintaining housing in the program as well as obtain housing in the community upon exit.
- Conduct needs-based and program eligibility assessments.
- Assist in connection to income resources and/or public benefits.

DECEMBER 2020 – APRIL 2021

SHELTER ASSOCIATE, CATHOLIC CHARITIES

- Accurately and promptly completes all required documentation and data for each client (physical case files, documenting case notes).
- Build rapport with clients.
- Maintains current and working knowledge of on-going events and human resources for clients.
- Serve as a point of contact, linking clients with both internal resources and external support systems within the community.
- Facilitates and maintains working communication networks across disciplinary teams.

AUGUST 2018 – MAY 2020

RESEARCH ASSISTANT, BIOPSYCHOSOCIAL PAIN MANAGEMENT LAB, CU DENVER

- Work interactively to conduct quantitative and qualitative clinical research exploring acute pain and resilience.
- Successful defense of two-year long multifaceted, empirically designed research thesis.
- Proficiency utilizing SPSS to conduct multi-level statistical analyses.
- Experience with IRB review, CITI training, and human subjects participatory research.
- Formal presentation of research thesis via poster at the Annual Society of Behavioral Medicine conference (May 2020) & CU Denver's Research and Creative Activities Symposium (May 2019 & May 2020).
