II. BACKGROUND AND PURPOSE

- a. In 1996, Congress explicitly envisioned the Temporary Assistance for Needy Families (TANF) program as a critical support for families to gain the needed skills and knowledge to care for children in their own home and to promote job preparation and access to work. TANF is also often the only source of financial support for families and can be a portal to other critical safety net programs, including Supplemental Security Income (SSI), the Supplemental Nutrition Assistance Program (SNAP) (previously known as food stamps), Child Care Assistance Program (CCAP), and Medicaid. States can use TANF creatively and provide supports and services directly responsive to the needs of underserved families.

In response to this need and with the flexibility afforded under the TANF legislation, the City is seeking to improve adult and child outcomes for the most vulnerable families entrusted in our care. The goal of the Colorado Works/TANF Program in Denver is to promote the long-term economic well-being of our community, through preparation for and attachment to employment for those who are able to work. The City's CW/TANF Program is designed to engage individual participants with the services, opportunities, resources, and tools needed to successfully move toward stability and self-sufficiency. Denver Human Services (DHS) facilitates robust community gains by partnering with local businesses, educational institutions, and other service providers in the

area, and advocating for participants as a vital part of the DHS support network. For those who are not readily able to work, Denver's CW/TANF program offers supports and services intended to increase employability and promote family safety and stability.

Science tells us that it is never too late to help adults build up their core capabilities, and that we can have a life-long impact if adults support the development of these skills in childhood. When adults have opportunities to build the core skills that are needed to be productive participants in the workforce and to provide stable, responsive environments for the children in their care, our economy will be stronger, and the next generation of citizens, workers, and parents will thrive. We also know that programs that provide support and "bridging" by crossing barriers of race, gender, socioeconomic status as well as "bonding" by tying participants and staff into a supportive community has positive long-term impact. The City realizes the importance of these services and supports and is seeking them for those most in need in our community, including the link to social capital and its effectiveness in supporting low-income persons through the transition to employment.

- b. DHS is responsible for administering eligibility for CW/TANF pursuant to Colorado Revised Statutes (CRS) at section 24-4-103 (11) CRS, and Colorado Code of Regulations (CCR), 9-CCR-2503-6. DHS and contractor shall share responsibility for workforce case management and/or supplemental services, depending on participants' circumstances.
- c. Jewish Family Service of Colorado, Inc. (JFS) is identified as a subrecipient for the purposes of this agreement and is therefore subject to all terms, conditions and regulatory requirements required of federal funding subrecipients per 2 CFR Part 200, as well as specific rules and regulations for CW/TANF.

III. FOCUS POPULATION(S)

- a. General CW/TANF eligibility criteria:

 - ii. Resident of Colorado.
 - iii. Citizen of the United States, a legal alien, a refugee, or a permanent resident.
 - iv. Family income is less than \$75,000 a year.
- b. Participants referred for workforce case management services and supplemental services have been determined as eligible for CW/TANF and are currently receiving TANF Basic Cash Assistance (BCA).
- c. Adult members of the CW/TANF receiving family are limited to 60 months of CW/TANF BCA during their lifetime. Services provided will need to be achievable

d. Geographic Service Areas

i. Contractor shall engage focus populations Citywide.

e. DHS has developed service lanes to provide specific services based on the participants assessment criteria. The services lanes are:

Service Lane 1 - Job Ready. Participants in this lane have the required marketable vocational skills, commitment, and experience to gain and maintain entry level employment. They may have minimal barriers that will not supersede their ability to become employed. Participants are ready to engage in work experience or on the job training, intern and externships, interview and resume preparation and practice, and active, supported job searching. Long-term family income is anticipated to be through employment earnings.

Service Lane 2 - Short to long-term barrier resolution. Participants in this lane have at least some of the marketable vocational skills, commitment and/or work experience to gain or maintain employment. Long-term family income is anticipated to be through employment earnings. Some participants may have time-limited barriers to employment as documented by a qualified professional such as education and soft skills/professionalism.

Service Lane 3 - Employment alternatives. Participants in this lane have permanent or long-term barriers to employment as documented by a qualified professional. These individuals have disabilities or significant barriers that likely prevent them from becoming employed and will be supported in applying for other programs such as federal Social Security Administration (SSA) disability programs.

Service Lane 4 - Longer-term barrier to employment with employment being the long-term goal. Participants in this lane require intensive case management due to either major barriers such as homelessness, mental/physical health, etc., that must be mitigated before employment may be addressed or time-limited eligibility for services while they receive a TANF 60-month extension.

Service Lane 5 - Self-directed activity (maternity, long-term education, etc.). Participants in this lane require only minimal case management while their situation remains largely unchanged and stable over long periods of time.
