MISGANA TESFAYE, MBA, EA

AUDIT • INNOVATION • INTEGRITY • LEADERSHIP

Leader with over 13 years of technical tax audit and organizational management experience with the State of Colorado, plus over 2 years of professional experience in private sector internal audit and accounting. Capable of planning and managing multiple engagements or projects within budgetary limitations. Proven history of delivering results on high profile projects through organizational development and change. Expertise in accounting, internal controls, staff recruitment and development, risk assessment, statistical sampling and data analytics. Thrive in a role requiring high level problem solving, organizational leadership and staff mentoring. Excellent ability to deliver practical solutions that solve complex problems.

Areas of Expertise

Government Administration • Government Auditing Standards • Financial Analysis • Financial Controls
Team Leadership & Motivation • Project Management • Process Improvement
Accounting Management • Consensus Building • Staff Training • Legal Research
Performance Audits • Budgeting & Forecasting • Variance Analysis

PROFESSIONAL EXPERIENCE

COLORADO DEPARTMENT OF REVENUE

2004-Present

TAX AUDIT MANAGER – REVENUE AGENT IV (JUN 2010-PRESENT)

NEW YORK REGION & MULTISTATE TAX COMMISSION AUDIT PROGRAMS (Jan 2015 - Present)

Set the strategic direction for the NY Metro Region Audit Program, as well as the Multistate Tax Commission (MTC) Joint Audit Program for the Colorado Department of Revenue (CDOR). The MTC is an intergovernmental agency working on behalf of states and taxpayers to administer tax laws that apply to multistate and multinational enterprises. Plan, direct, and execute audits under these 2 separate and distinct audit programs through a subordinate staff of 4 remote auditors based in the NY Metro Region, and a group of 5 Colorado based auditors.

- › Collaborate with MTC Executive Management to administer the Joint Audit Program for the State of Colorado. Plan, authorize, support and give final approval of audits conducted by the MTC on behalf of the State of Colorado.
- › Present the CDOR's most consequential tax audit findings to MTC Executive Management, as well as representatives of other states at annual audit committee meetings.
- › Collaborate with the Colorado Attorney General's Office and other external stakeholders to present and defend tax audit findings during potential litigation. Represented the CDOR in litigation as a "Rule 30(b)(6)" expert witness. Maintain the highest level of confidentiality and professionalism in this politically sensitive environment.
- › Conducted a nationwide auditor recruitment search through the Colorado State Personnel System (required a residency waiver) to restore auditor staffing levels in the NY region. Fully staffed the regional program in less than 9 months.
- › Reformed the NY regional audit program by providing vision and leadership to the remote auditors based in that region. Set clear objectives and provide auditors with the proper tools, training and other resources to achieve their goals.
- › Reduced overhead costs for the NY regional office by over 50% and increased regional audit coverage through an innovative virtual office approach. Leveraged the online audit case management technology implemented as Audit Selection Manager (below) to create a functional and effective remote field audit staff, which now covers a larger geographic area.

AUDIT SELECTION MANAGER (Jun 2010 - Dec 2014)

Oversaw the daily operations of the CDOR Audit Selection and Tracking Unit. Developed the annual tax audit plan and set the strategic direction for the CDOR Field Audit Section, which is comprised of over 100 auditors. Defined audit goals, objectives, policies and procedures; and introduced a modern data driven audit scoring and case management system to promote an efficient audit selection and tracking process.

- › Overhauled Field Audit Division internal controls, and authored an extensive policy manual to memorialize the new procedural framework. Presented the new policies and procedures to the entire division of professional auditors and the audit management team.
- › Served as the Project Liaison between CDOR Executive Management and Audit leadership for a period of 3 years for the Colorado Integrated Tax Architecture Project (CITA). Served as technical expert regarding all audit related activities; legal guidelines, work processes, policy changes, business requirements, and project milestones. Successfully accomplished many contentious project goals for the Audit Division by building consensus between these two groups.

COLORADO DEPARTMENT OF REVENUE

Continued...

- › Leveraged the CITA Project to conceive and implement CDOR's first automated data mining audit selection system. Created a sophisticated model that includes a risk scoring and data matching logic for robust audit lead identification. Provided technical subject matter expertise, business requirements, and selection criterion.
- › Spearheaded the design, implementation and transition to the Department's first paperless audit case management system. Seamlessly integrated over 6,000 paper audit files into paperless data cases linked directly to their corresponding accounts for permanent storage and instant retrieval.
- › Led a search for new accounting and audit talent. Recruited and retained supervisors, analysts and auditors to foster and maintain a collaborative, proactive and open working environment.
- › Supervised a team of 10 professional and support staff. Directly supervised; 3 auditors and 1 supervisor. Indirectly supervised; 1 lead audit analyst and 2 administrative assistants as 2nd-level indirect reports, and 3 audit analysts as 3rd-level indirect reports.

SENIOR AUDITOR – REVENUE AGENT I, II, & III (JUL 2004-JUN 2010)

- › Acted as the Computer Audit Specialist (CAS) for the Field Audit Section, mentoring audit staff on statistical sampling of electronic records and related documentation.
- › Orchestrated sampling plans to generate statistically significant audit samples from data sets covering companies in all industries, and of all sizes. Used ACL, MS Access and MS Excel software to extract and interpret large data sets.
- › Contributed all historical data, financial analysis and budgeting forecasts to support the leadership team in developing the "Change Request for Increased Travel Appropriation for TAC Field Audit" which was ultimately approved by the Colorado Joint Budget Committee.

COLORADO BUSINESS BANK

2002-2004

INTERNAL AUDITOR (JAN 2003-JUL 2004)

Performed audits on the operations, financial practices and internal controls of this business banking subsidiary of CoBiz Financial, a \$2.4 billion financial holding company. Worked extensively in the field to assess compliance with internal policies, laws and regulations. Wrote conclusions and work papers according to internal audit procedures, and delivered recommendations for improvement to management.

- › Assisted the audit team in developing more technologically advanced internal audit practices.

ACCOUNTANT (FEB 2002-JAN 2003)

Completed and maintained journal entries, accounts reconciliation, accruals, prepaid schedules, and fixed asset records. Delivered financial information, reports, and analyses related to daily loan and deposit balances, monthly budgeting, and month-end close.

- › Converted a manual, daily cash account reconciliation process into an automated data based system that improved accuracy and cut processing time from 2 hours down to 30 minutes.

EDUCATION & OTHER INFORMATION
