### 5. General description or background of proposed request. Attach executive summary if more space needed:

This contract provides body worn cameras (BWC) for the Police and Sheriff Departments as required by CRS 24-31-902 as well as other Safety organizations (eg – Street Engagement Team and Fire Department). The BWCs are fully integrated with Evidence.com, the Axon digital evidence management platform. The integration allows digital evidence, collected from BWC and 3<sup>rd</sup> party sources, to be uploaded directly into the platform and shared to prosecuting agencies.

The Evidence.com digital evidence management platform is key component to the contract. It centralizes the collection and sharing of digital evidence as part of the criminal justice process. It allows close collaboration, and mitigation of discovery risks, with agencies such as the Denver District Attorney's Office that has standardized on the Evidence.com platform. The contract provides for unlimited storage of both Axon and 3<sup>rd</sup> party generated digital evidence.

Incorporated is an upgrade to aging electronic control weapon (ECW) hardware (Tasers) in the Police and Sheriff Departments that will no longer be supported and are at the end of or past end of useful life. ECW is a critical less lethal option when attempting to deescalate, gain compliance, and decrease risk of injury to personnel and bystanders. The ECW systems are integrated with both BWC and Evidence.com platforms to provide seamless activation of the BWC and collection of evidence from ECW deployment and BWC activation. Additionally, aging interview room hardware for DPD will be replaced at multiple facilities to support criminal and internal investigation activities.
