### Scope of work:

Denver will cooperate in the acquisition, preparation, use, and distribution of digital orthoimagery developed through the Denver Regional Aerial Photography Project ("DRAPP"). This contract included Nearmap, DRAPP and Planimetric.

Services provided under the DRCOG contract or potential future services:

- NearMap – Aerial Service provided by a vendor that DRCOG manages. Two flights a year, every year.
- Denver Regional Aerial Photography Project (DRAPP) – High-quality aerial photography, once every two years, even years.
- Denver Regional Planimetric Data Project – GIS vector data capture from DRAPP (sidewalks, parking lots, edge of pavement, driveways, trails) Every two years, odd years - DRAPP Lidar and contour data – Once every seven years. - Regional Land Use Land Cover Project - A pilot land use land cover endeavor was undertaken by DRCOG. In March 2021, DRCOG received a Water Plan Grant from the Colorado Water Conservation Board, as well as contributions from nine local partners, to create a similar deliverable covering the entire 6,000 square mile region and using 2020 imagery. This project was completed in April of 2022. I think that Parks and Rec, or CPD, may have contributed to this. There are no plans to obtain the data again, but it could change.
