6. **Describe the proposed ordinance, including what the proposed ordinance is intended to accomplish, who's involved**
 - a. **Scope of Work**

For each year beginning in 2001, DIA purchased additional capacity at Metro's central treatment plant for treatment of contaminated stormwater on a "rent to own" basis pending a permanent capacity purchase. To that end DIA has formally requested to permanently purchase additional treatment capacity of four tons per day of treatment, for a total of eleven tons per day monthly average from Metro Wastewater Reclamation District.

We are requesting a sole source purchase agreement be issued to Metro Wastewater Reclamation District for additional treatment services. These services are required to maintain the treatment of spent aircraft deicing fluids collected by the airport. DIA collects and disposes (ADF) as a winter operations support service to the airlines. Without this purchase DIA will not be able to maintain these services at current levels or accommodate future growth in operations.
 - b. **Duration**

One time Purchase
