FROM: Libbie Adams, Senior City Planner
DATE: February 16, 2023
RE: Official Zoning Map Amendment Proposal #2022I-00100 rezoning 4320 Morrison Rd, 753 S. Raleigh St, and 4849 W. Kentucky Ave from E-MX-3; E-MX-3, UO-1, UO-2; E-TU-C; and E-SU-D to OS-A.

Staff Report and Recommendation

Based on the criteria for review in the Denver Zoning Code, Staff recommends **approval** for Official Zoning Map Amendment Proposal #2022I-00100.

Request for Rezoning

Address: Future Site of Westwood Recreation Center and Westwood Park expansion: 4320 Morrison Rd, 753 S. Raleigh St, and 4849 W. Kentucky Ave.

Neighborhood/Council District: Westwood / Council District 3

RNOs: Hecho en Westwood, SouthWest Improvement Council, Inter-Neighborhood Cooperation (INC), and Strong Denver

Area of Property: 147,083 square feet or 3.37 acres

Current Zoning: E-MX-3; E-MX-3, UO-1, UO-2 (4320 Morrison Rd); E-TU-C (753 S. Raleigh St); and E-SU-D (4849 W. Kentucky Ave)

Proposed Zoning: OS-A

Property Owner(s): City and County of Denver, Department of Parks and Recreation

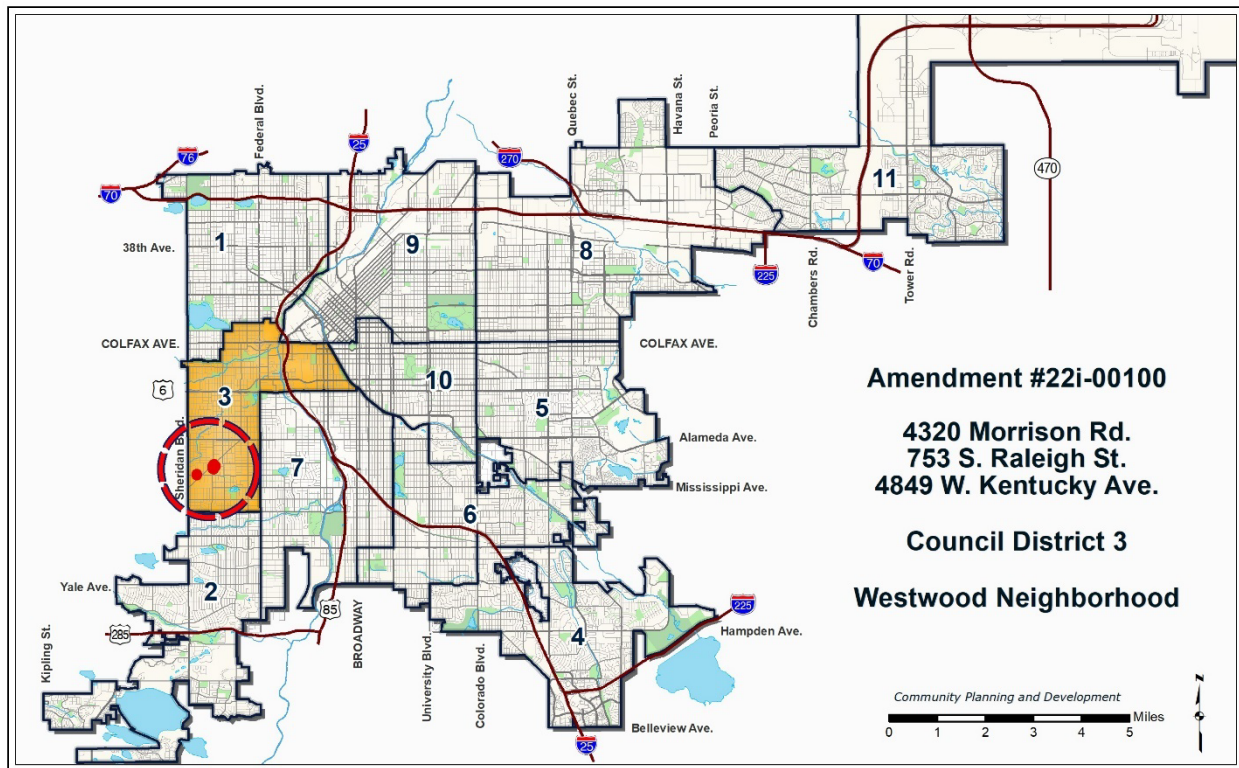

Owner Representative: Laura Aldrete, Community Planning and Development on behalf Department of Parks and Recreation

Summary and Purpose

- This proposed rezoning would impact city-owned parcels in two separate locations in the Westwood neighborhood that are to be used for expansion of an existing park and the construction of a new recreation center. The Westwood Recreation Center parcels (4320 Morrison Rd and 753 S. Raleigh St) are bounded by Morrison Rd. to the northwest, W. Walsh Pl. to the northeast, S. Raleigh St. to the east, and W. Ohio Ave. to the south. 4849 W. Kentucky Ave. is proposed to be an expansion of Westwood Park and is bounded by W. Kentucky Ave. to the south and Westwood Park to the north and west.
- The Westwood Recreation Center project is funded through the Elevate Denver Bond Program, which voters approved in 2017. A public input process was held in early 2018 to identify the community's most desired projects and identified health and wellness as a high priority with a recreation service-gap in west Denver. The city acquired the parcels included in the proposed rezoning in 2019 and 2020.
- The E-MX-3 and E-MX-3, UO-1, UO-2 zone districts currently in effect at 4320 Morrison Rd. are mixed-use, three-story districts allowing for commercial, retail, and residential uses. Part of the site also includes the adult use overlay (UO-1) and billboard use overlay (UO-2).

- E-TU-C (753 S. Raleigh St.) is a two-unit district allowing the urban house, duplex, and tandem house building forms on a minimum zone lot size of 5,500 square feet.
- S-SU-D at 4849 W. Kentucky Ave. where the Westwood Park is proposed to expand, is a single-unit district allowing for single-unit residential uses on a minimum zone lot size of 6,000 square feet.
- The Open Space Public Parks District (OS-A) is intended to protect and preserve public parks owned, operated, or leased by the City and managed by the City's Department of Parks and Recreation (DPR) for park purposes. Further details of the requested zone district can be found in the proposed zone district section of the staff report (below) and in Article 9 of the Denver Zoning Code (DZC).

Existing Context

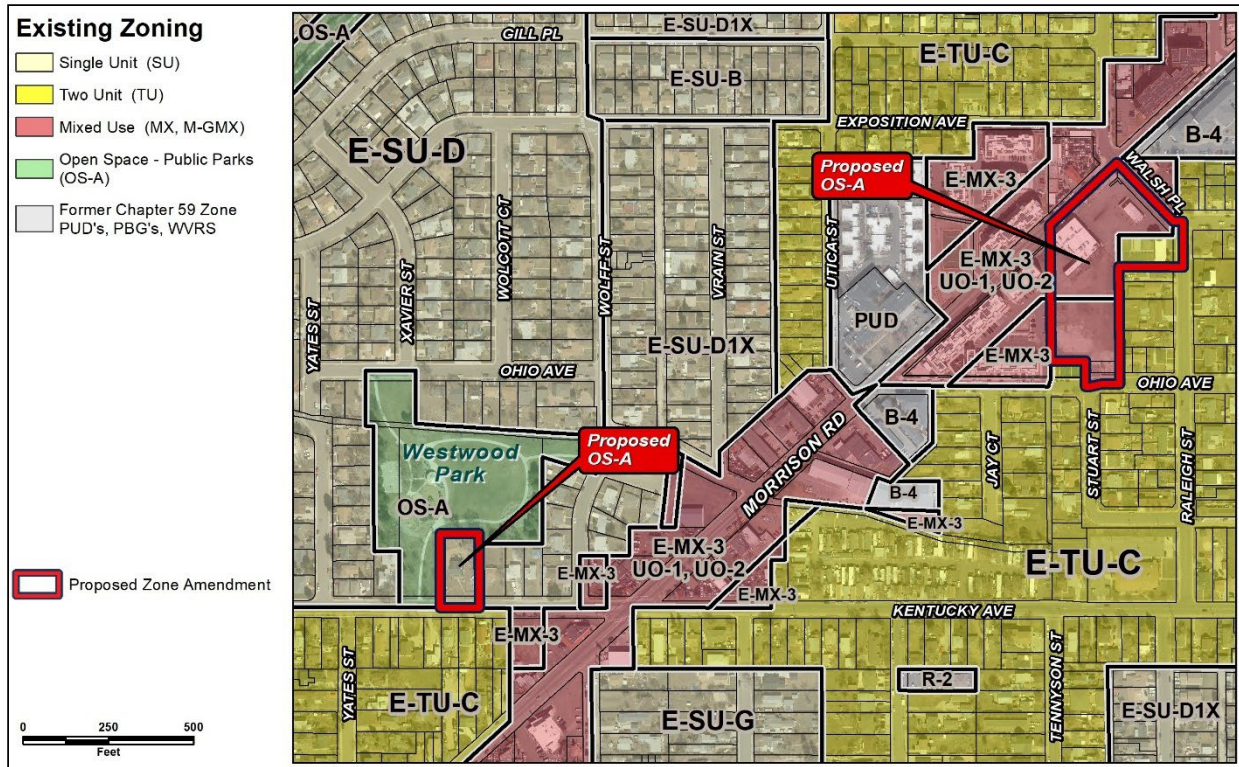

The subject property is in Westwood neighborhood, which is made up of single-unit and two-unit residential uses. Mixed-use districts are primarily located along Morrison Rd. The neighborhood is mostly regular blocks and linear streets, but some areas have more curvilinear streets.

The following table summarizes the existing context proximate to the subject rezoning area:

	Existing Zoning	Existing Land Use	Existing Building Form/Scale	Existing Block, Lot, Street Pattern
Rezoning Area	E-MX-3, UO-1, UO-2; E-TU-C; E-SU-D	Commercial/retail, multi-unit residential, and single-unit residential	The site for the proposed recreation center is currently vacant and 4849 W. Kentucky Ave. has already become a part of the Westwood Park	Generally regular blocks with linear streets and attached sidewalks.
North	E-MX-3, UO-1, UO-2; OS-A	Industrial, park/open space	Single-story Automotive repair and sales; park/open space	
South	E-TU-C	Single-unit residential	Single-story houses with curb cuts and attached sidewalks	
East	E-MX-3, UO-1, UO-2; E-TU-C; E-SU-D	Office, Single-unit residential	Single-story legal office and single-story house	
West	E-MX-3, UO-1, UO-2; OS-A	Multi-unit residential; park/open space	Three-story multi-unit residential structure with detached sidewalk and park/open space	

1. Existing Zoning

Westwood Recreation Center Property (4320 Morrison Rd. and 753 S. Raleigh St.)

The proposed rezoning area is currently zoned E-MX-3; E-MX-3, UO-1, UO-2; and E-TU-C, which are all within the Urban Edge neighborhood context in the Denver Zoning Code. E-MX-3 (Urban Edge – Mixed Use – 3 stories) is a mixed-use district allowing the Town House, Drive Thru Services, Drive Thru Restaurant, and Shopfront building forms. The maximum height ranges from 38 feet for the Town House building form to 45 feet for the other three forms. The purpose of this district is to “promote safe, active, and pedestrian-scaled, diverse areas and enhance the convenience and ease of walking, shopping and public gathering within and around they city’s neighborhoods” (DZC Section 4.2.4.A).

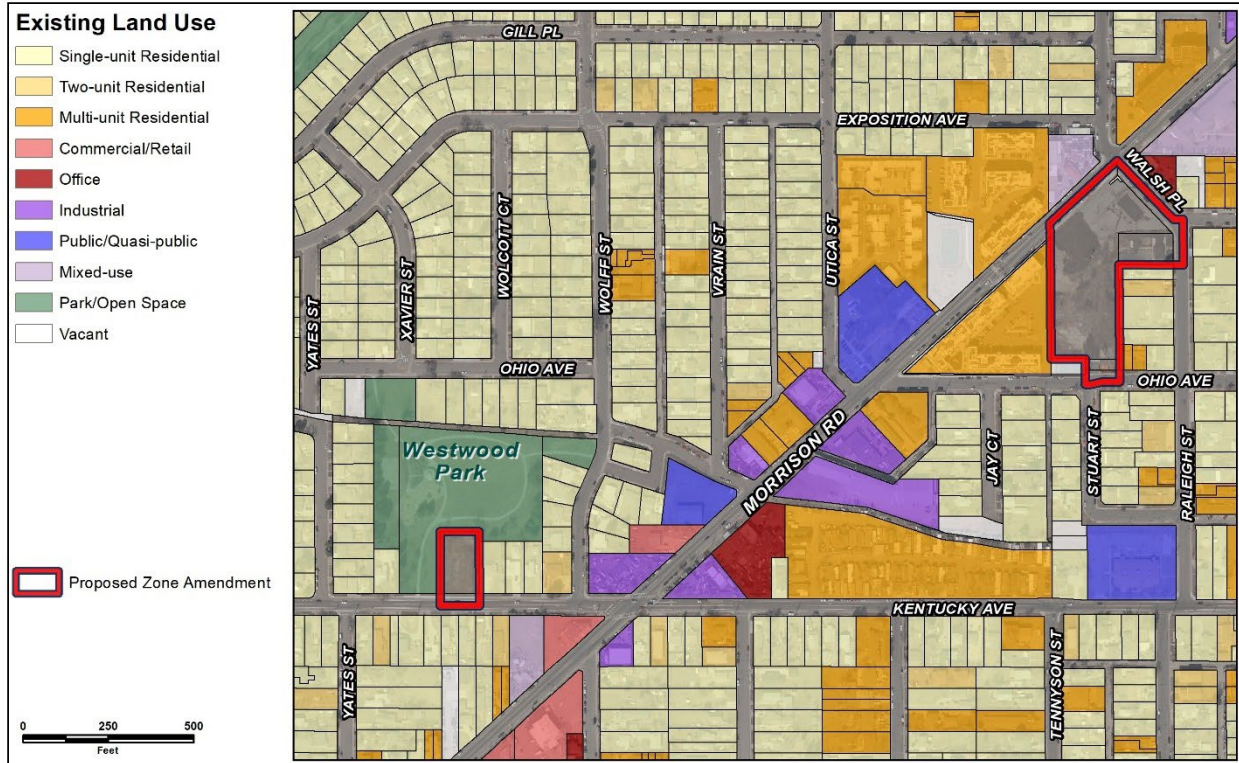

E-TU-C (Urban Edge – Two Unit – C) allows up to two units on a minimum zone lot size of 5,500 square feet. The permitted primary building forms include urban house, duplex, and tandem house. The maximum allowed height is 2.5 stories or 30 to 35 feet. Additionally, the Urban House and Duplex forms allow for a maximum of 1 story or 17 to 19 feet in the rear 35% of the yard. The Tandem House form allows up to 24 feet in the rear 35%. The intent of the district is to promote and protect residential neighborhoods within the character of the Urban Edge neighborhood context.

Westwood Park Expansion Property (4849 W. Kentucky Ave.)

The E-SU-D (Urban Edge – Single Unit – D) zone district is a single-unit residential district allowing the Urban House primary building form on a minimum zone lot of 6,000 square feet.

The maximum allowed height is 2.5 stories or 30 to 35 feet. Additionally, the Urban House form allows for a maximum of 1 story or 17 to 19 feet in the rear 35% of the zone lot. The intent of the district is to promote and protect residential neighborhoods within the character of the Urban Edge neighborhood context.

View of property directly west of the subject site, looking north from W. Kentucky Ave.

Proposed Zoning

The requested Open Space Public Parks District (OS-A) zone district is intended to protect and preserve public parks owned, operated, or leased by the City and managed by the City's Department of Parks and Recreation for park purposes. Building form standards, design, and development standards in the OS-A zone district are determined by either the City Council or by the Manager of Parks and Recreation. Permitted uses, number of uses, and applicable use limitations are determined by the Manager of Parks and Recreation.

Summary of City Agency Referral Comments

As part of the DZC review process, the rezoning application is referred to potentially affected city agencies and departments for comment. A summary of agency referral responses follows:

Assessor: Approved – No Response

Real Estate, Asset Management: Approved – No Comments

Denver Public Schools: Approved – No Response

Department of Public Health and Environment: Approve Rezoning Only – Will require additional information at Site Plan Review

Denver Department of Public Health & Environment – Division of Environmental Quality (EQ) does not guarantee approval of any proposed development project at this site by providing a response to this Official Map Amendment Referral Agency Review Request. Future development is subject to existing land use controls and other environmental requirements in accordance with applicable local, state, and federal environmental regulations and statutes. EQ recommends the Property Owner conduct an environmental site assessment to determine the potential presence, nature, and extent of possible contamination on the site and to identify specific cleanup needs associated with future development. EQ may have additional information about localized potential environmental concerns at the site. However, providing such information about a specific site is beyond the scope of these zoning application comments.

Parks and Recreation: Approved – No Comments

Department of Transportation and Infrastructure, Surveyor: Approved – No Comments

Development Services, Project Coordination: Approved – No Response

Development Services, Fire Prevention: Approved – No Response

Development Services, Transportation: Approved – No Response

Development Services, Wastewater: Approved – No Response

Public Review Process

	Date
Westwood Project Kickoff Survey	September 2020 to May 2021
Demolition Event – project team walked attendees through future site of recreation center	March 19, 2021
Virtual Public Meeting	March 2021
Focus Groups	March to June 2022
In-person Public Meeting	May 2022
Westwood Recreation Programming Survey	May 9, 2022
Tabling Events – project team attended community events to discuss the project	April to September 2022
CPD informational notice of receipt of the rezoning application to all affected members of City Council, registered neighborhood organizations, and property owners:	October 11, 2022
Property legally posted for a period of 15 days and CPD written notice of the Planning Board public hearing sent to all affected members of City Council, registered neighborhood organizations, and property owners:	November 22, 2022
Planning Board public hearing (Planning Board unanimously recommended approval of the rezoning):	December 7, 2022
CPD written notice of the Land Use, Transportation and Infrastructure Committee meeting sent to all affected members of City Council and registered neighborhood	December 30, 2023

organizations, at least ten (10) working days before the meeting:	
Land Use, Transportation and Infrastructure Committee of the City Council:	January 10, 2023

 - **Registered Neighborhood Organizations (RNOs)**
 To date, no comment letters have been received from Registered Neighborhood Organizations.
 - **General Public Comments**
 To date, no other public comments have been received.

Criteria for Review / Staff Evaluation

The City Attorney’s Office has determined this to be a legislative map amendment proposal. Therefore, the criteria for review of this legislative rezoning proposal are found in DZC, Sections 12.4.10.7 and 12.4.10.8, as follows:

DZC Section 12.4.10.7

1. Consistency with Adopted Plans
2. Uniformity of District Regulations and Restrictions
3. Public Health, Safety and General Welfare

DZC Section 12.4.10.8

1. Justifying Circumstances
2. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

1. Consistency with Adopted Plans

The following adopted plans apply to this property:

- *Comprehensive Plan 2040 (2019)*
- *Blueprint Denver (2019)*
- *Game Plan for a Healthy City (2019)*
- *Westwood Neighborhood Plan (2016)*

Comprehensive Plan 2040

The proposed text amendment and rezoning are consistent with *Comprehensive Plan 2040* strategies, which are organized by vision element.

Rezoning the subject properties to OS-A will add more park and open space to the Westwood neighborhood. Therefore, the map amendment is consistent with the following Equitable, Affordable and Inclusive strategies:

- Equitable, Affordable and Inclusive Goal 1, Strategy C – “Improve equitable access to resources that improve quality of life, including cultural and natural amenities, health care, education, parks, recreation, nutritious food and the arts” (p. 28).
- Equitable, Affordable and Inclusive Goal 7, Strategy C – “Design and program public spaces and recreation centers to accommodate people of all ages and abilities” (p. 30).

The Department of Parks and Recreation has undertaken significant community engagement in the Westwood Neighborhood to meet the following Strong and Authentic Neighborhoods strategy:

- Strong and Authentic Neighborhoods goal 5, Strategy A – “Ensure that parks and recreational programs reflect the unique context and cultural identity of the neighborhoods they share” (p. 35).

The map amendment will create more park space and allow for a recreation center in a high need part of the city. Therefore, the map amendment is consistent with the following Environmentally Resilient strategy:

- Environmentally Resilient Goal 6, Strategy A – “Recognize parks, public space, trees and plants as vital elements of green infrastructure and ensure that the provision of these elements keeps pace with Denver’s growth” (p. 54).

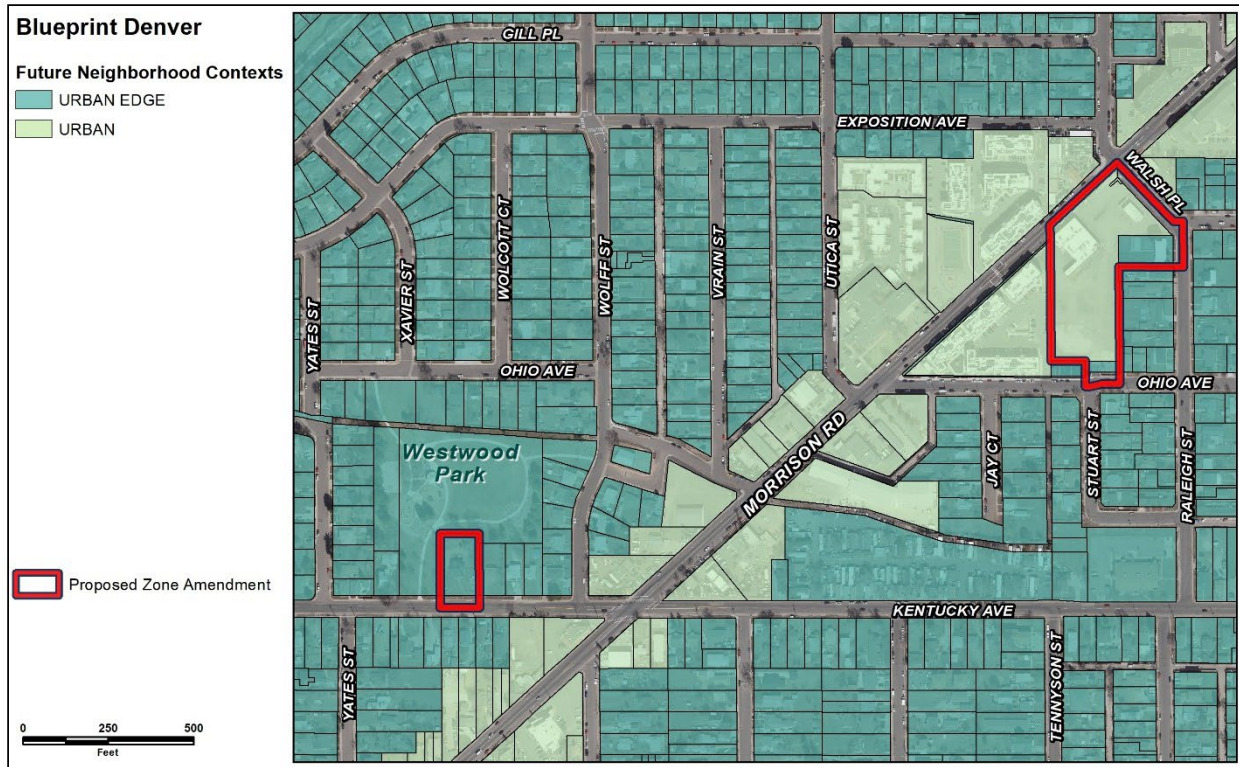

Rezoning to allow for the Westwood Recreation Center and expand Westwood Park will meet the following Healthy and Active strategies:

- Healthy and Active Goal 2, Strategy A – “Ensure equitable access to parks and recreation amenities for all residents” (p. 58).
- Healthy and Active Goal 2, Strategy C – “Expand the supply of parks, recreational facilities and programs relative to Denver’s population growth” (p. 58).

Blueprint Denver

Blueprint Denver was adopted in 2019 as a supplement to *Comprehensive Plan 2040* and establishes an integrated framework for the city’s land use and transportation decisions. *Blueprint Denver* identifies the subject property as part of the Public Park and Open Space place type within the Districts Context and provides guidance from the future growth strategy for the city.

Blueprint Denver Future Neighborhood Context

In Blueprint Denver, future neighborhood contexts are used to help understand differences between land use, built form, and mobility at high scale, between neighborhoods.

Westwood Recreation Center Properties (4320 Morrison Rd. and 753 S. Raleigh St.)

Blueprint identified the future neighborhood contexts for these properties as Urban (4320 Morrison Rd.) and Urban Edge (753 S. Raleigh St.). The urban neighborhood context is described as “small multi-unit residential and mixed-use areas typically embedded in 1-unit and 2-unit residential areas” with “good walkability with short, predictable blocks” (p. 136). The Urban Edge neighborhood context is described as “predominately residential and tends to act as a transition between urban and suburban areas” with “good walkability with short, predictable blocks” (p. 205).

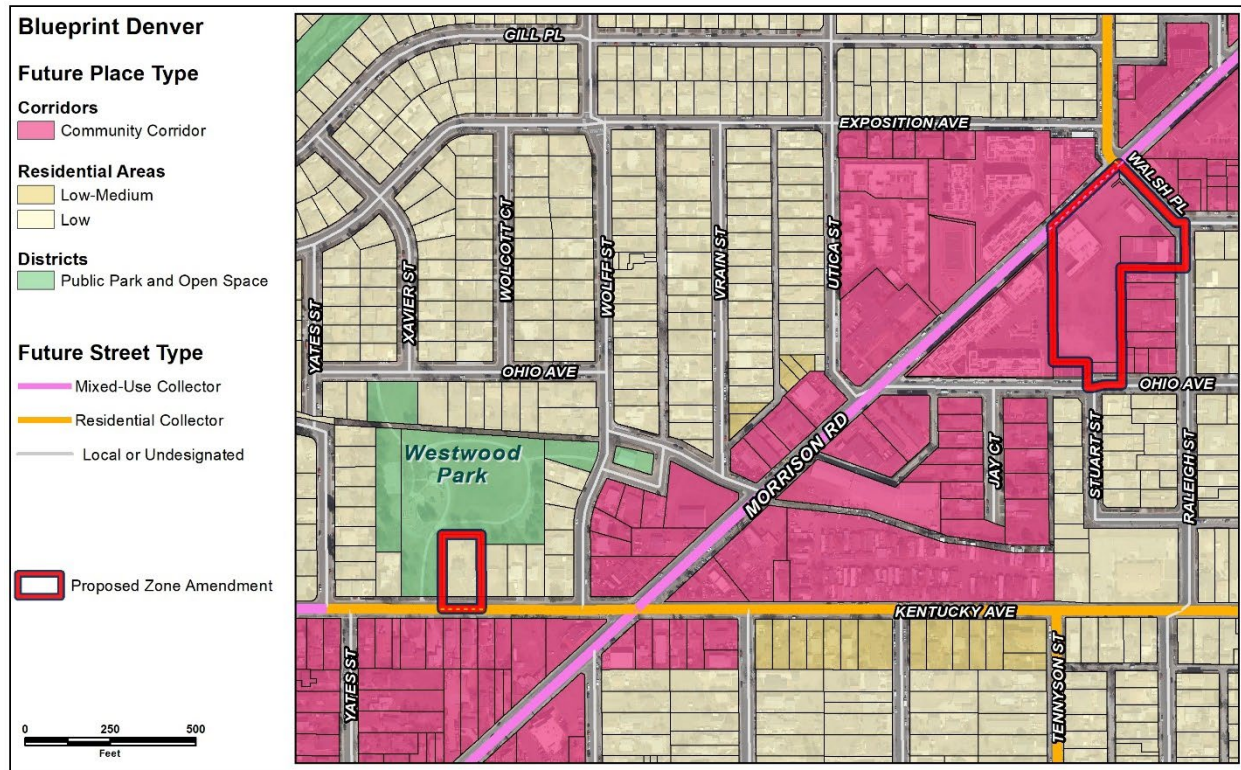

Westwood Park Expansion Property (4849 W. Kentucky Ave.)

The proposed rezoning is within the Urban Edge neighborhood context. The Urban Edge neighborhood context is described as “predominately residential and tends to act as a transition between urban and suburban areas” with “good walkability with short, predictable blocks” (p. 205).

Parks and Open Spaces are important and necessary land uses within all of Denver’s neighborhood contexts. OS-A is “intended to protect and preserve public parks owned, operated or leased by the City and managed by the City’s Department of Parks and Recreation (“DPR”) for park purposes” (DZC Section 9.3.2.1.A). OS-A is consistent with the future neighborhood contexts because parks and open spaces are important and necessary elements within an urban and urban edge neighborhood,

supports the variety of land uses included in the Urban and Urban Edge Contexts, and makes the city's neighborhoods complete.

Blueprint Denver Future Places and Street Types

Westwood Recreation Center Properties (4320 Morrison Rd. and 753 S. Raleigh St.)

The properties proposed for the future recreation center are within the Community Corridor future place type. This place type “provides some mix of office, commercial and residential” uses with “a wide customer draw both of local residents from surrounding neighborhoods and from other parts of the city” (p. 212 & 226). Public spaces in these areas “are flexible to benefit different types of users and daily activities throughout the year” (p. 212 & 226).

Westwood Park Expansion Property (4849 W. Kentucky Ave.)

The property proposed for the Westwood Park expansion is designated as Low Residential in *Blueprint Denver*. This place type is “predominately single- and two-unit uses on small or medium lots... Outdoor space is often privatized in the form of yards. There is also access to public parks” (p. 214).

Because Open Space districts are intended to be parks that are embedded in any neighborhood and owned or operated by the city, the proposed OS-A is consistent with *Blueprint’s* Community Corridor and Low Residential guidance to provide access to flexible park space.

Blueprint Denver Street Types

Street types help inform the appropriate intensity of the adjacent development (p. 67).

Westwood Recreation Center Properties (4320 Morrison Rd. and 753 S. Raleigh St.)

Blueprint Denver classifies Morrison Rd. as a Mixed-use Street Collector, and collectors “are in between a local street and an arterial street; they collect movement from local streets and convey it to arterial streets” (p. 159). The use and built form characteristics of Mixed-use streets are described as a “varied mix of uses including retail, office, residential and restaurants. Buildings are pedestrian-oriented, typically multi-story, usually with high building coverage with a shallow front setback” (p. 159).

The other streets abutting the site, W. Walsh Pl., S. Raleigh St., and W. Ohio Ave., are all classified as local streets. *Blueprint* describes Local streets as “vary[ing] in their land uses and are found in all neighborhood contexts. They are most often characterized by residential uses” (p. 161).

The permitted uses, number of uses, and applicable use limitations in the OS-A district are determined by the Manager of Parks and Recreation so a variety of civic uses are permitted, consistent with the Mixed-use and local street types.

Westwood Park Expansion Property (4849 W. Kentucky Ave.)

Blueprint Denver classifies W. Kentucky Ave. as a Residential Collector, which “are in between a local street and an arterial street; they collect movement from local streets and convey it to arterial streets” (p.159). The use and built form characteristics of Residential streets is described as “primarily residential uses, but may also include schools, civic uses, parks, small retail nodes and other similar uses” (p.160). The proposed OS-A district is consistent with these descriptions as it is intended for park use and to be compatible when embedded in residential neighborhoods (DZC Section 9.3.1).

Growth Strategy

Blueprint Denver’s growth strategy map is a version of the future places map, showing the aspiration for distributing future growth in Denver (p. 51).

Westwood Recreation Center Properties (4320 Morrison Rd. and 753 S. Raleigh St.)

The recreation center property is part of the Community Centers and Corridors growth areas strategy, where are anticipated to experience 25% of housing growth and 20% of job growth. Blueprint Denver calls for an “intentional approach to direct most of our growth to key centers and corridors [to] help achieve citywide equity goals to benefit all residents...regional centers are complemented by mid-sized community centers and corridors where underutilized infill redevelopment can be repurposed” (p. 48-49). Rezoning to OS-A to allow for a recreation center will not bring more housing but may allow for more jobs, and the new center will support growth that is occurring along the Morrison Rd. corridor.

Westwood Park Expansion Property (4849 W. Kentucky Ave.)

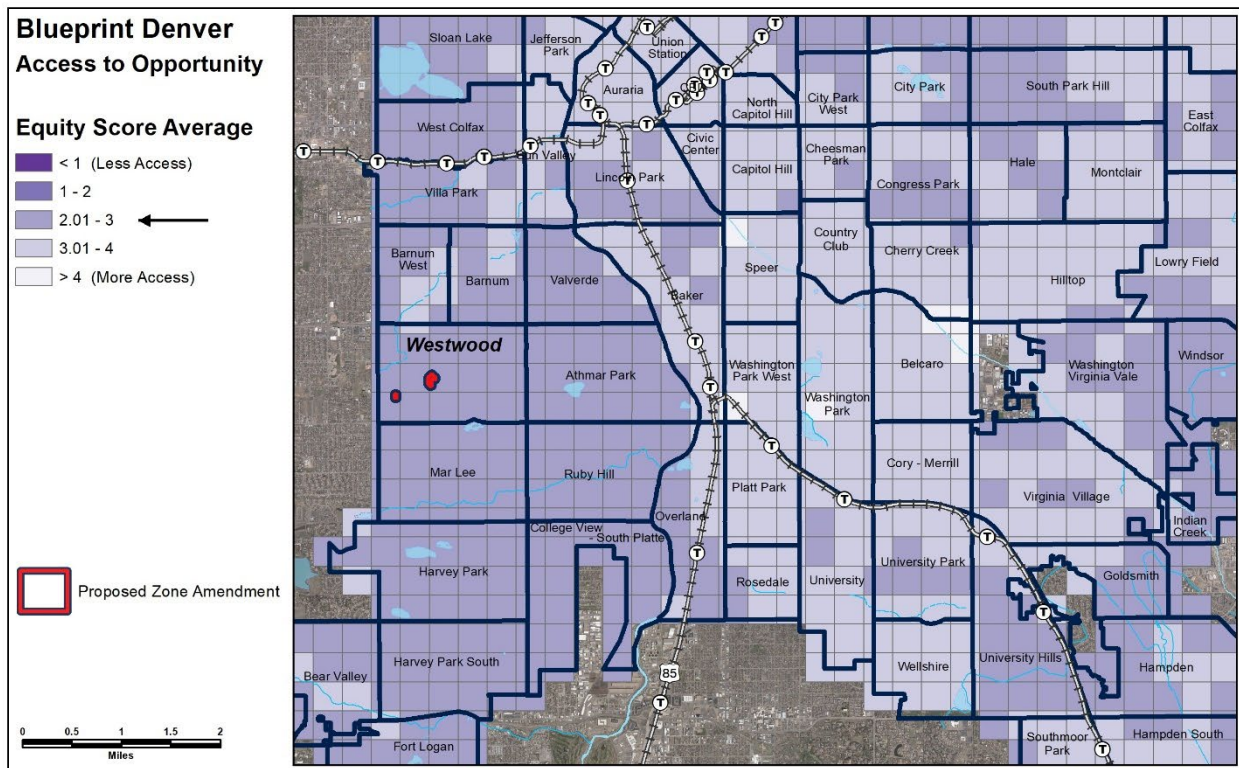

The park property is part of the “All other areas of the city” growth area. These areas anticipate experiencing around 20% of new housing growth and 10% of new employment growth by 2040 (p. 51). This growth area is “mostly residential areas with embedded local centers and corridors, take a smaller amount of growth intended to strengthen the existing character of our neighborhoods” (p. 49). The proposed map amendment will not provide any additional housing or jobs, but it will support the growth in the residential area surrounding the park.

Blueprint Denver Equity Concepts

Blueprint Denver identifies three equity concepts to consider for planning and implementation: improving access to opportunity, reducing vulnerability to displacement, and expanding housing and jobs diversity. These concepts and supplemental data are used to evaluate large area rezonings, such as this one, with the goal of improving equity in the surrounding area through increasing housing option and types.

In this case, the subject site scores as having average access to opportunity, higher vulnerability to involuntary displacement, and lower than average housing and jobs diversity.

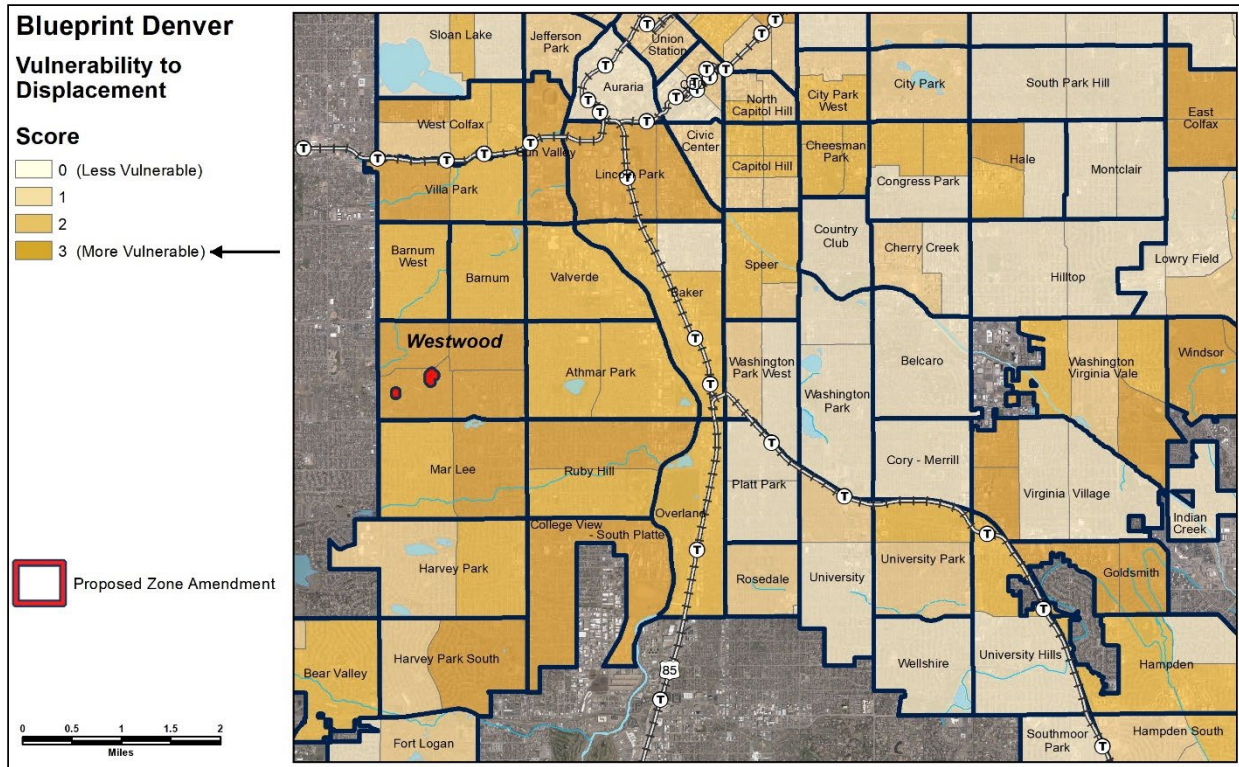

I. Access to Opportunity

This equity concept is measured using a six-indicator index of data points for neighborhood equity and scores measuring access to amenities, services and quality transit. Generally, Westwood is shown as having moderate access with less access to grocery stores, public transit, and healthcare. The area also is less equitable in the percentage of childhood obesity and life expectancy compared to citywide. The neighborhood has slightly higher than average access to centers and corridors with commercial development located along Morrison Rd. and public parks.

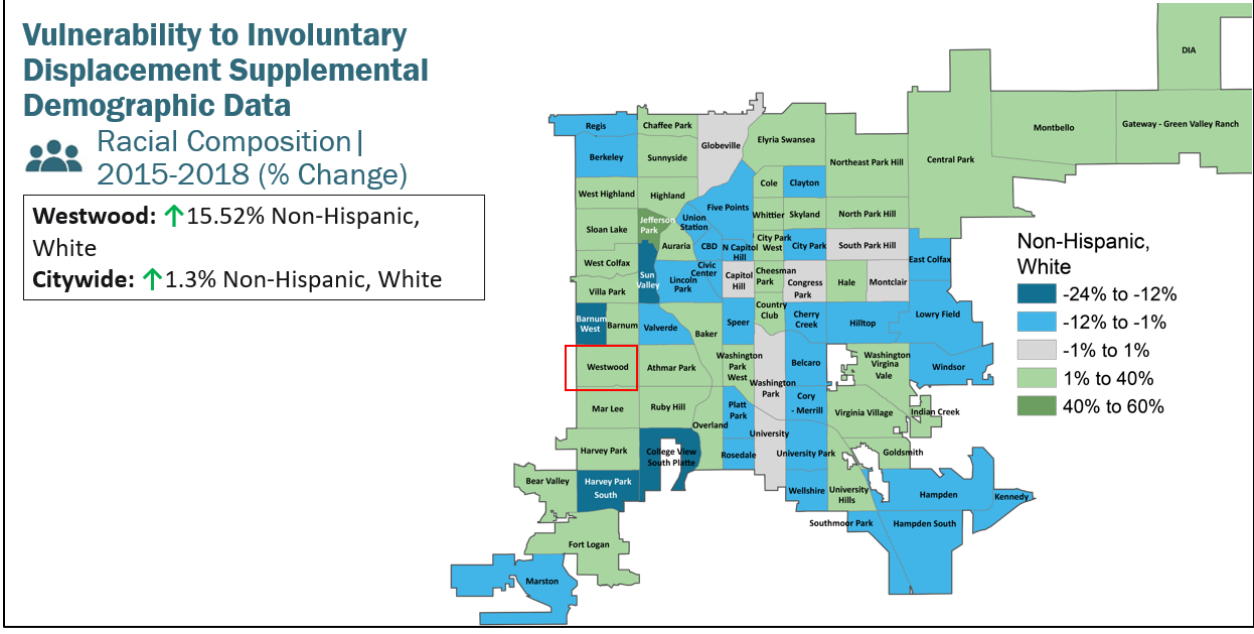

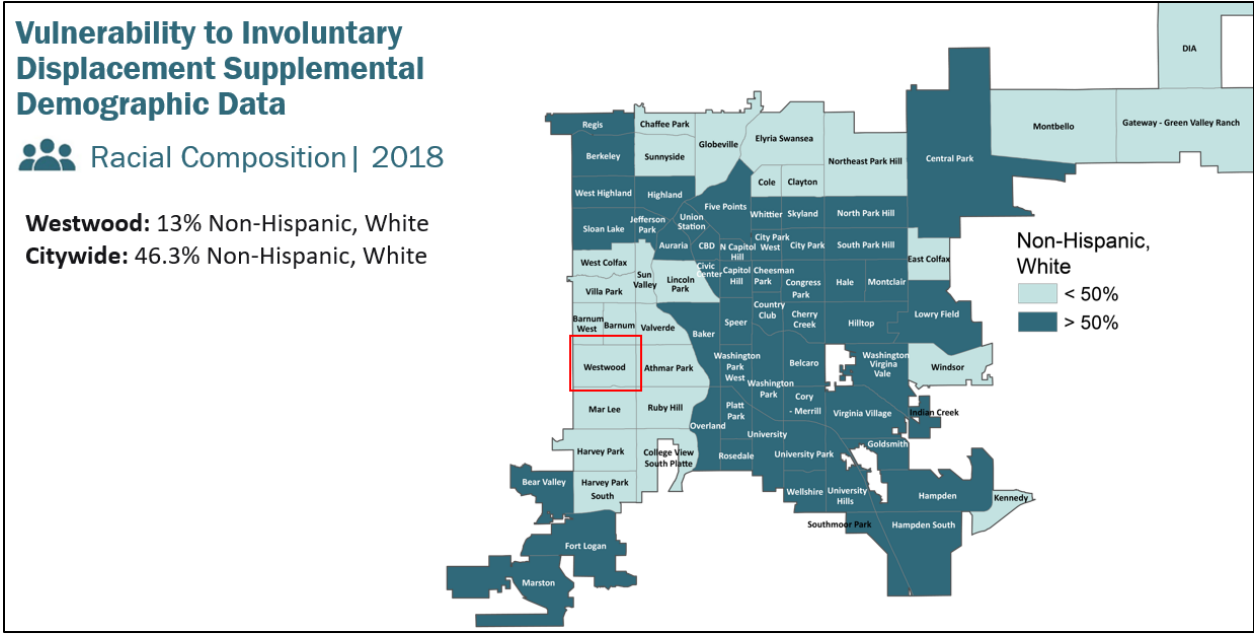

Rezoning to OS-A, a district for parks and open space owned or operated by the city, will allow for additional park and recreation space in Westwood, which may make this area more equitable in terms of childhood obesity and life expectancy.

II. Vulnerability to Involuntary Displacement

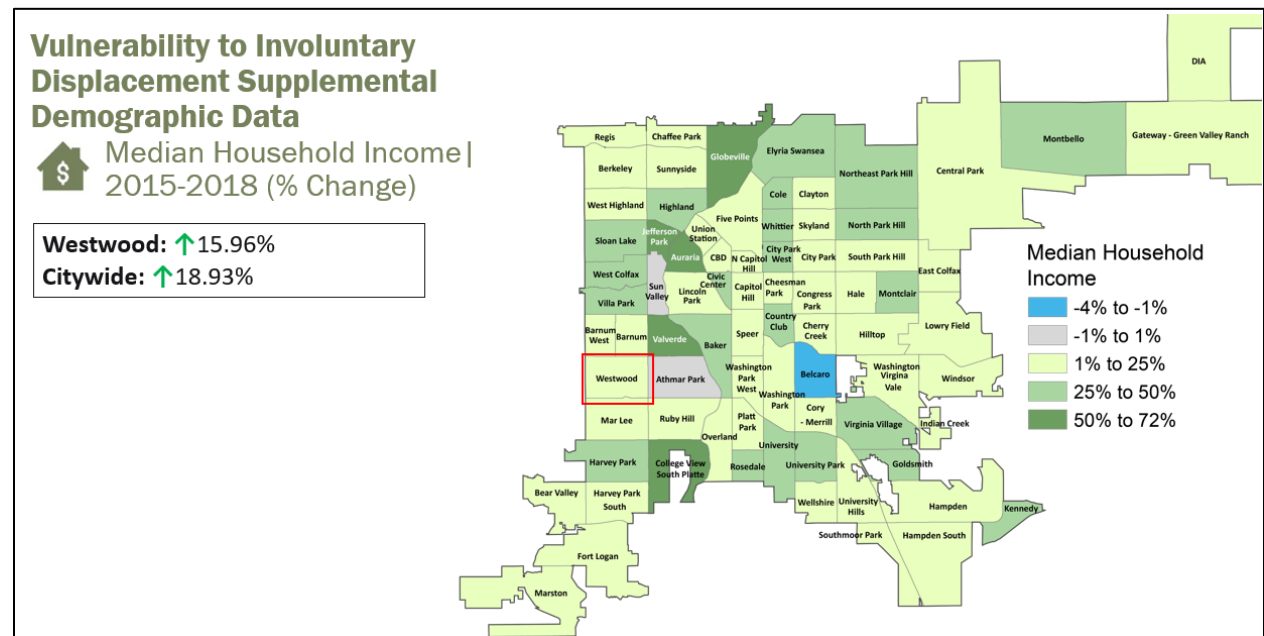

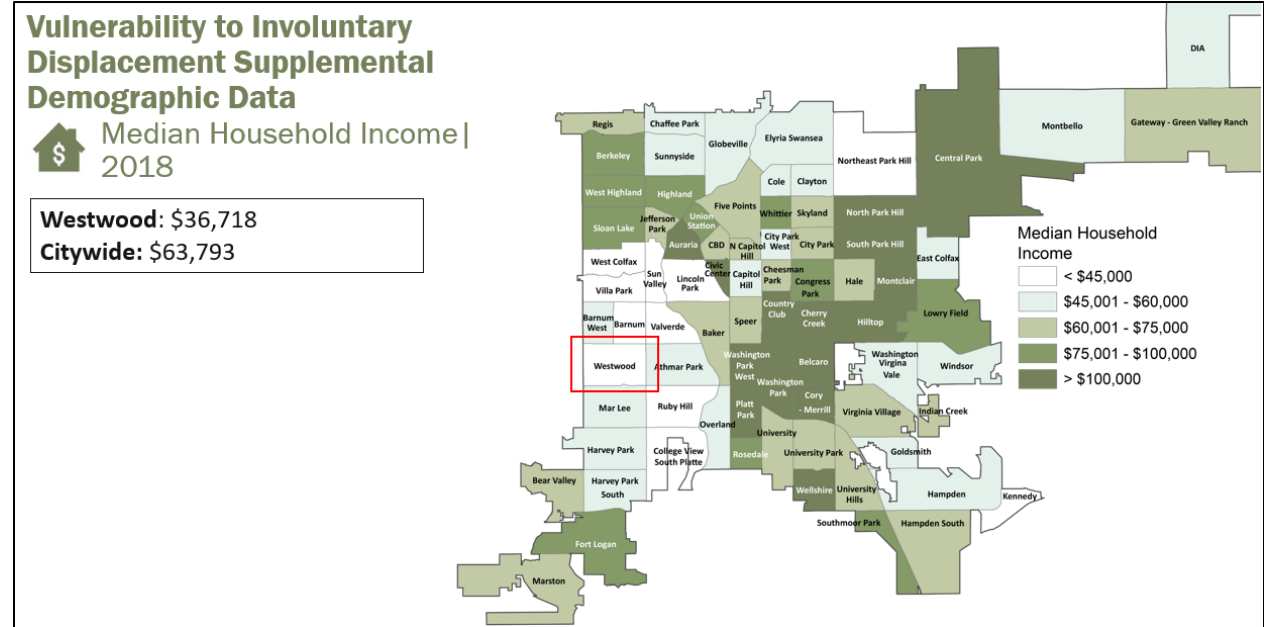

This concept seeks to stabilize residents and businesses who are vulnerable to displacement due to increasing property values and rents. The basis for measuring vulnerability to involuntary displacement was developed by the Department of Housing Stability (HOST) and combines the following data points from the U.S. Census: median household income, percent of renter-occupied units and percent of residents with less than a college degree. Westwood is vulnerable to involuntary displacement based on all three of the indicators.

The equity analysis also contains supplemental data that highlights demographic changes and housing market conditions for the area. This data can be used to help better understand vulnerability to displacement, including how the demographics of the area have changed over time. As the Westwood neighborhood is more vulnerable to displacement, key data points from the supplemental analysis that help illustrate economic and demographic changes that sharply contrast with citywide trends are highlighted below.

In 2018, Westwood has a smaller percentage of non-Hispanic, White residents than Denver. However, it saw a greater increase in the racial composition (percent of non-Hispanic, White) of residents between 2015 and 2018 compared to Denver. This could indicate that some displacement has already occurred in this area.

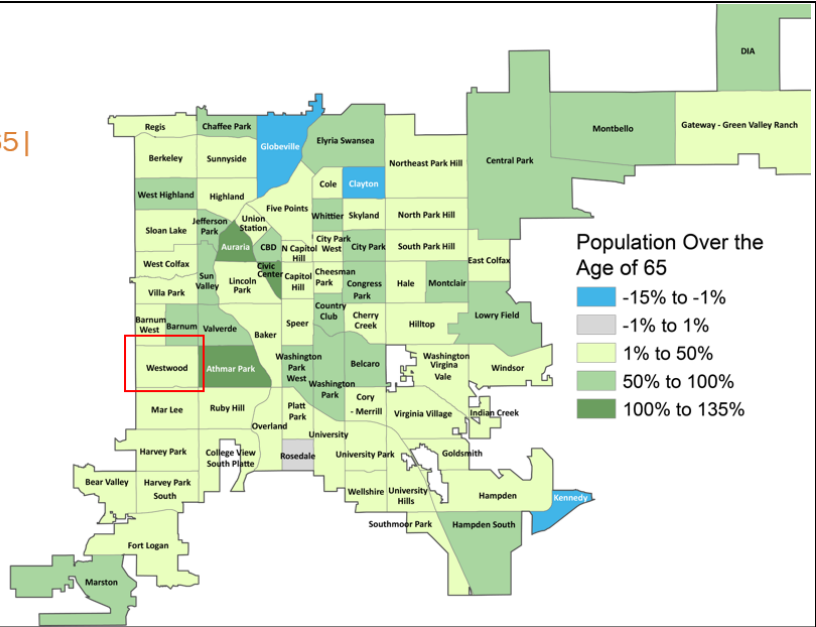

The median household income is significantly lower in Westwood (\$36,718) than citywide (\$63,793), and incomes are increasing at a slower rate than in Denver as a whole.

Vulnerability to Involuntary Displacement Supplemental Demographic Data

Population Over the Age of 65 | 2015-2018 (% Change)

Westwood: ↑29.39%
Citywide: ↑6.54%

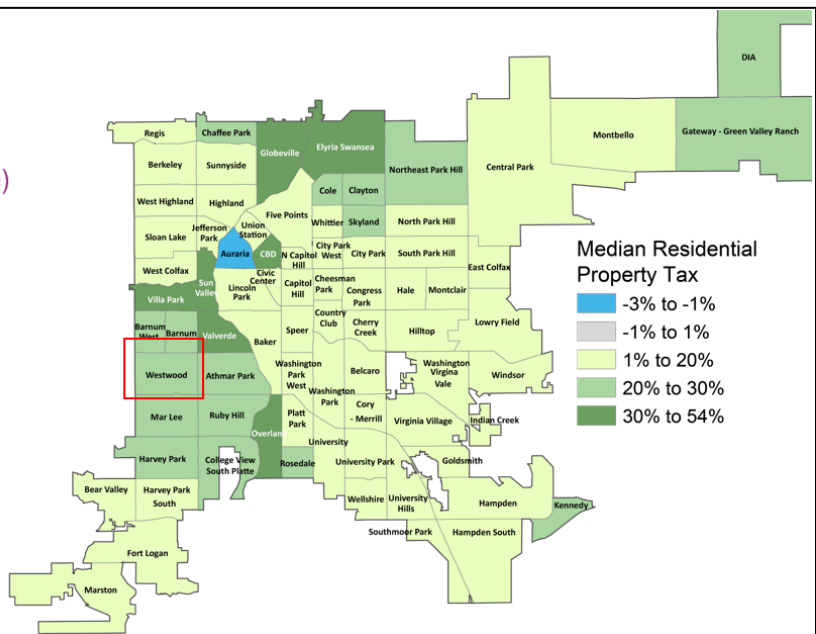

The percentage of the population over the age of 65 within Westwood (8.41%), is very comparable to the percentage of Denver’s population over 65 (11.4%). However, the neighborhood has experienced a significant increase in residents over the age of 64, making it potentially more vulnerable to involuntary displacement.

Vulnerability to Involuntary Displacement Supplemental Housing Market Data

Median Residential Property Tax | 2018-2020 (% Change)

Westwood: ↑28.57%
Citywide: ↑7.63%

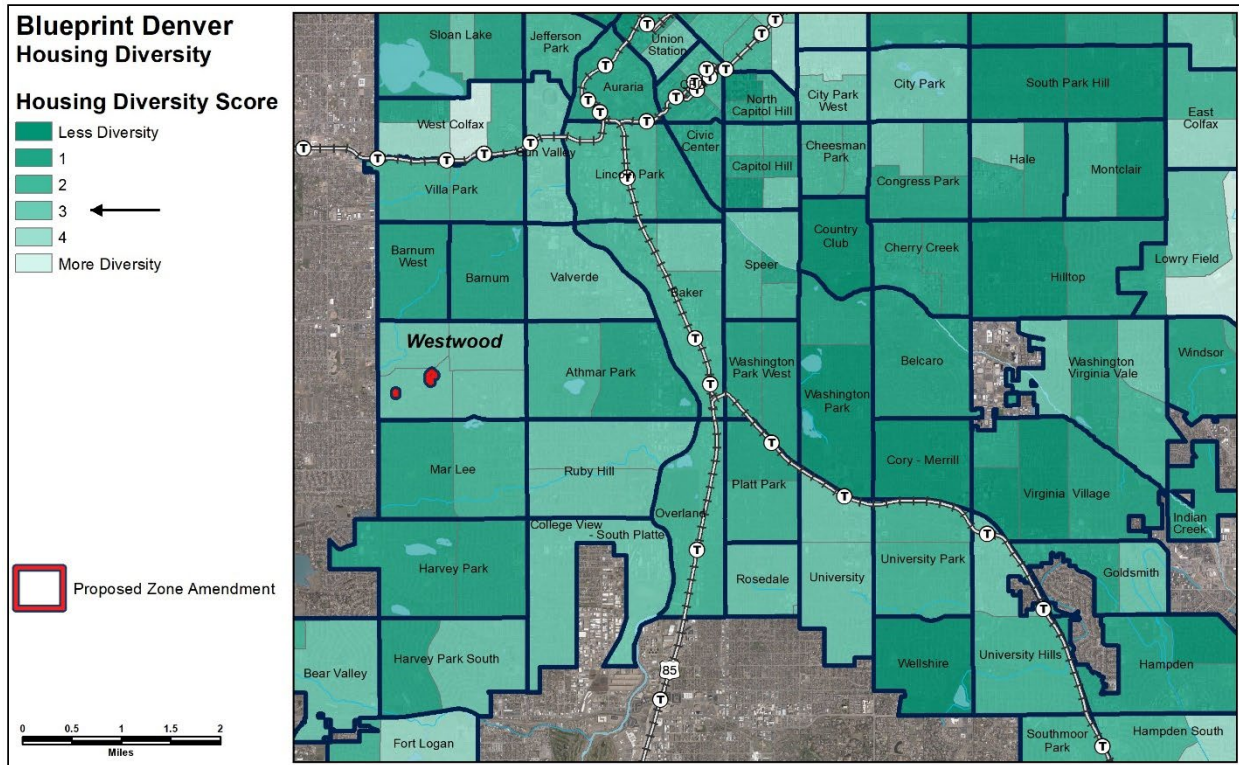

Lastly, Westwood experienced some of the highest increases in median residential property tax in the city. The neighborhood saw a 28.57% increase while the citywide increase was 7.63% for 2018.

The city understands that city-led public infrastructure investments, such as additional property for a park and recreation center, can catalyze private investment in an area and contribute to displacement of existing residents and businesses. As a result, the city created a coordinated effort between multiple departments to better understand and mitigate the potential displacement impacts, so public investments benefit those who already live and work there. This effort focused on several capital projects proposed, one being the Westwood Recreation Center, and identified anti-displacement strategies to include in budget requests for 2022. The strategies funded in the 2022 budget are listed below:

- Indie/Visible Program: This program assists micro and small businesses with online marketing & digital presence.
- Community Support Mini-grants: Grants for community groups and non-profit organizations to implement community-designed and led development projects including strengthening navigation to service delivery in Neighborhood Equity & Stabilization (NEST) priority neighborhoods, which includes Westwood.
- Peer Navigators: Connect residents and businesses at risk of displacement to city programs and other programs in their area.
- Expand Business Impact Opportunity (BIO) Fund/American Rescue Plan Act (ARPA): This fund supports small businesses challenged by changing neighborhood demographics and construction impacts. It's expanding to include services such as rent subsidy, relocation assistance, community-serving retail space, etc.
- Housing Prioritization Policy: This policy provides households at risk of or who have been displaced from their neighborhood or from Denver priority access to newly developed or preserved affordable housing.
- Community Land Trusts (CLT): Expand city dollars to fund existing CLTs and/or seed new CLTs.
- Extend covenants for affordable housing: A set of strategies for extending covenants including engaging with income-restricted property owners, extending notice of expiration rules, and partnering with the Denver Housing Authority and other partners to purchase properties.
- Acquire existing affordable housing units: Expand existing loans and grants to partner with developers to purchase existing naturally occurring affordable housing (NOAH) in order to preserve exiting affordable units.

III. Expanding Housing and Jobs Diversity

This concept seeks to provide a better and more inclusive range of housing and employment options in all neighborhoods. A diverse range of housing options, including different prices, sizes, types and a mix of rental and for-sale is key to encouraging complete neighborhoods and households of all types and incomes. Similarly, access to quality employment options allows residents of varying incomes and education levels to find jobs and wealth-building opportunities.

The housing diversity score combines Census tract-level data measuring the percentage of middle-density housing (housing with 2-19 units), home size diversity, ownership versus rental, housing costs, and the number of income-restricted units. This area offers higher than average diversity, scoring as more diverse than the citywide average for missing middle housing, diversity in bedroom counts, and income restricted units. Generally, this area has lower than citywide averages for the ratios of owners to renters and housing costs. The proposed rezoning will not provide additional housing and therefore does not impact or exacerbate the current housing diversity.

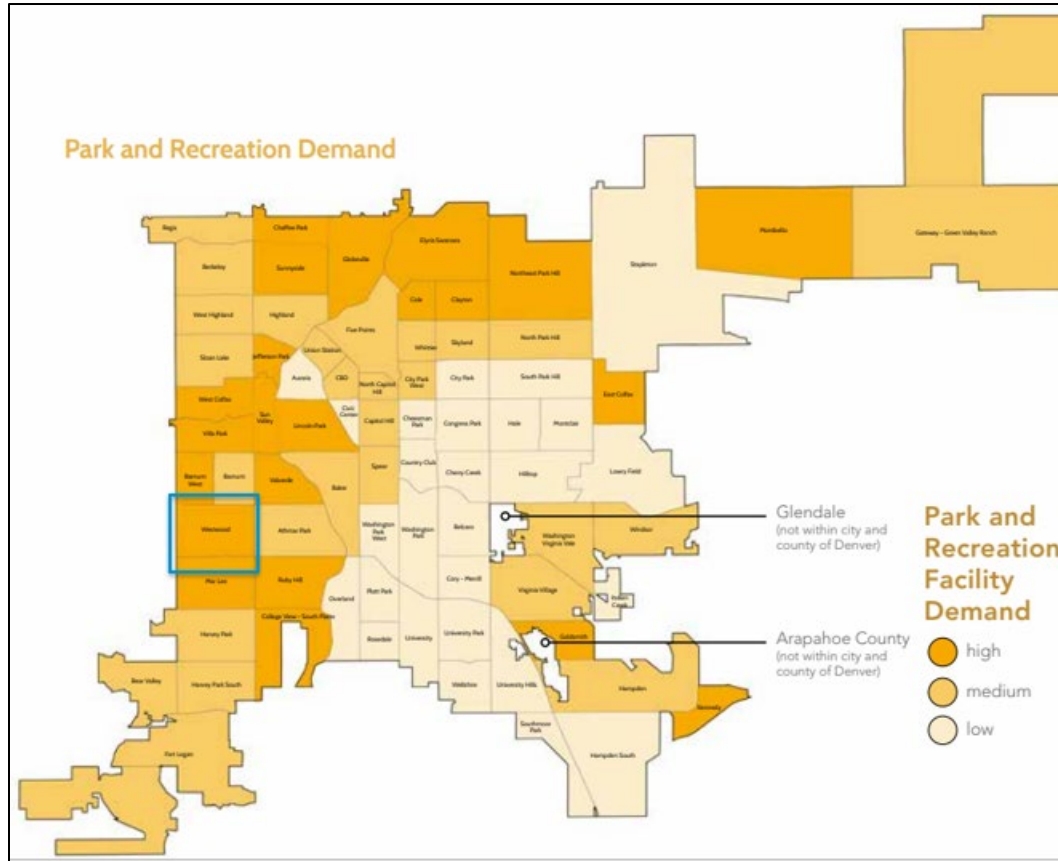

The map above shows the mix of jobs in areas of the city (dominant industry depicted by color). There is not enough data to classify the type of jobs in this part of Westwood because there are less than 100 jobs per acre, which is typical of largely residential areas. There are a total of 29 jobs or 0.2 jobs per acre. The proposed rezoning to OS-A is not expected to impact jobs diversity.

Game Plan for a Healthy City

Game Plan for a Healthy City provides both a vision and a strategic roadmap for the future of Denver’s parks, hundreds of facilities, and recreation programs, and 20,000 acres of park landscapes. Rezoning to allow for a recreation center and more park space is consistent with the following recommendations:

- *Recommendation 3.1: Acquire land and build facilities to keep pace with growth and meet 10-minute walk standard and service goals.*
- *Recommendation 4.2: Identify and focus park and programmatic resources in underserved neighborhoods (pg. 133).*

The plan also identifies Westwood as a neighborhood with a high demand for a park and recreation facility, as seen in the map below. This rezoning would allow for additional park space and a recreation center in an area that currently has less access to park facilities, consistent with plan guidance.

Westwood Neighborhood Plan

The *Westwood Neighborhood Plan* was adopted in 2016 and outlines the vision, recommendations, and implementation strategies for evolution and enhancement of the community. The plan sets forth goals, strategies, and recommendations to create a connected, celebrated, resilient, and healthy Westwood.

Rezoning the subject properties to OS-A to allow for more public park and recreation space will create more opportunities for the community to gather within their neighborhood, consistent with the following recommendation:

- B.2.A Create Community Gathering Places: culturally relevant spaces with diverse uses, activities, services and gathering areas help to draw people to gather and create desirable destinations in the community. Opportunities for these places include Morrison Road, Federal Boulevard, Alameda Avenue and Kentucky Avenue (p. 42).

The property at 4849 W. Kentucky Ave. will expand the Westwood Park and will increase the park frontage along Kentucky Ave., making the park more visible, consistent with the following recommendation:

- A.2.C Refine Neighborhood Green Spaces – Westwood Park: This park is the largest in Westwood, however it is under-used by residents primarily because it is hidden behind private property and does not have sufficient amenities for all ages of residents. Improvements to the park should include:

- Enhancement of existing play features
- Active and passive recreation opportunities for all ages including a walking path
- Enhanced entry elements and wayfinding to better connect the park to Morrison Road
- Neighborhood gathering spaces such as plaza spaces
- Additional park programming and amenities such as water fountains, restrooms, shade structures, and seating
- Potential private property acquisition to increase viability of the park (p. 28).

The rezoning of 4320 Morrison Rd. and 753 S. Raleigh to OS-A will enable a recreation center, consistent with the following transformative project 2.

- Transformative Project 2: Strengthen Community Resources and Spaces
 - Build a West Denver recreation center: The construction of a new recreation or community center in Westwood is the ultimate goal. A Denver recreation center would not only provide opportunities for healthy living and positive after-school and summer activities for youth, but it would also serve as a much-needed community gathering space. While challenges include land acquisition and capital construction costs, residents and stakeholders and the City should continue to advocate and work for a new recreation and community center in the Westwood neighborhood (p. 69).

2. Uniformity of District Regulations and Restrictions

The proposed rezoning to OS-A will result in the uniform application of zone district building form, use, and design regulations.

3. Public Health, Safety and General Welfare

The proposed rezoning will improve public health, safety, and general welfare by facilitating the creation of more public park space. According to the Centers for Disease Control and Prevention “having access to places for physical activity, such as parks and trails, encourages community residential to participate in physical activity and do so more often (Parks, Trails and Health: <https://www.cdc.gov/healthyplaces/healthtopics/parks.htm>). In the equity analysis, this area scores as less equitable in life expectancy and child obesity so the additional of new open space that is publicly accessible could improve these metrics.

4. Justifying Circumstance

The application identifies rezoning out of the Former Chapter 59 and into the Denver Zoning Code as the Justifying Circumstance under DZC Section 12.4.10.8.A.4, “Since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such a change may include Changed or changing conditions in a particular area, or in the city generally; or a city adopted plan; or that the city adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning.”

As discussed above, the Westwood Neighborhood Plan, adopted in 2016, discusses expanding Westwood Park and acquiring land for a recreation center. In addition, the city acquired the

properties between 2019 and 2020, making it eligible for the OS-A zone district, which applies to city-owned parks. These changes, which have occurred since the current zoning was established in 2010, justify rezoning the subject sites to OS-A to allow DPR to expand a park and facilitate a recreation center on these sites.

5. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

The requested OS-A zone district is within the Open Space Context, which “consists of all forms of public and private parks and open spaces. The context accommodates ranging from very active to completely passive, and from those embedded in a neighborhood to sites that are large enough to stand alone. Active sites may include high use areas such as ball fields, while passive areas focus on resource protection, trails, walking and biking... Buildings in the Open Space Context are typically placed where access is highest, and are often located away from view of the general public...Buildings are typically low in scale, although some open space areas with active recreational uses support large-scale facilities” (DZC 9.3.1). The Open Space Context is intended to apply in a variety of contexts, including the surrounding Suburban context of this neighborhood. This context is appropriate for this low-scale residential neighborhood.

Open Space Public Park District (OS-A) “is intended to protect and preserve public parks owned, operated or leased by the City and managed by the City’s Department of Parks and Recreation (“DPR”) for park purposes” (DZC 9.3.2.1.A). The city acquired the subject properties and intends to use them as public park space owned by the city, consistent with the intent of the OS-A district.

Did you contact the City Council District Office regarding this application ?		<input type="checkbox"/> Yes - if yes, state date and method _____ <input type="checkbox"/> No - if no, describe why not (in outreach attachment, see bottom of p. 3)	

REZONING REVIEW CRITERIA (ACKNOWLEDGE EACH SECTION)	
<p>General Review Criteria DZC Sec. 12.4.10.7.A</p> <p>Check box to affirm and include sections in the review criteria narrative attachment</p>	<p><input type="checkbox"/> Consistency with Adopted Plans: The proposed official map amendment is consistent with the City's adopted plans, or the proposed rezoning is necessary to provide land for a community need that was not anticipated at the time of adoption of the City's Plan.</p> <p>Please provide a review criteria narrative attachment describing how the requested zone district is consistent with the policies and recommendations found in each of the adopted plans below. Each plan should have its' own subsection.</p> <p>1. Denver Comprehensive Plan 2040</p> <p>In this section of the attachment, describe how the proposed map amendment is consistent with <i>Denver Comprehensive Plan 2040's</i> a) equity goals, b) climate goals, and c) any other applicable goals/strategies.</p> <p>2. Blueprint Denver</p> <p>In this section of the attachment, describe how the proposed map amendment is consistent with: a) the neighborhood context, b) the future place type, c) the growth strategy, d) adjacent street types, e) plan policies and strategies, and f) equity concepts contained in <i>Blueprint Denver</i>.</p> <p>3. Neighborhood/ Small Area Plan and Other Plans (List all from pre-application meeting, if applicable):</p> <hr/>
<p>General Review Criteria: DZC Sec. 12.4.10.7. B & C</p> <p>Check boxes to the right to affirm and include a section in the review criteria for Public Health, Safety and General Welfare narrative attachment.</p>	<p><input type="checkbox"/> Uniformity of District Regulations and Restrictions: The proposed official map amendment results in regulations and restrictions that are uniform for each kind of building throughout each district having the same classification and bearing the same symbol or designation on the official map, but the regulations in one district may differ from those in other districts.</p> <p><input type="checkbox"/> Public Health, Safety and General Welfare: The proposed official map amendment furthers the public health, safety, and general welfare of the City.</p> <p>In the review criteria narrative attachment, please provide an additional section describing how the requested rezoning furthers the public health, safety and general welfare of the City.</p>
<p>Review Criteria for Non-Legislative Rezoning: DZC Sec. 12.4.10.8</p> <p>For Justifying Circumstances, check box and include a section in the review criteria narrative attachment.</p> <p>For Neighborhood Context, Purpose and Intent, check box and include a section in the review criteria narrative attachment.</p>	<p>Justifying Circumstances - One of the following circumstances exists:</p> <p><input type="checkbox"/> The existing zoning of the land was the result of an error;</p> <p><input type="checkbox"/> The existing zoning of the land was based on a mistake of fact;</p> <p><input type="checkbox"/> The existing zoning of the land failed to take into account the constraints of development created by the natural characteristics of the land, including, but not limited to , steep slopes, floodplain, unstable soils, and inadequate drainage;</p> <p><input type="checkbox"/> Since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest. Such change may include:</p> <p style="padding-left: 20px;">a. Changed or changing conditions in a particular area, or in the city generally; or,</p> <p style="padding-left: 20px;">b. A City adopted plan; or</p> <p style="padding-left: 20px;">c. That the City adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning.</p> <p><input type="checkbox"/> It is in the public interest to encourage a departure from the existing zoning through application of supplemental zoning regulations that are consistent with the intent and purpose of, and meet the specific criteria stated in, Article 9, Division 9.4 (overlay Zone Districts) of this Code.</p> <p>In the review criteria narrative attachment, please provide an additional section describing the selected justifying circumstance. If the changing conditions circumstance is selected, describe changes since the site was last zoned. Contact your pre-application case manager if you have questions.</p> <p><input type="checkbox"/> The proposed official map amendment is consistent with the description of the applicable neighborhood context, and with the stated purpose and intent of the proposed Zone District.</p> <p>In the review criteria narrative attachment, please provide a separate section describing how the rezoning aligns with a) the proposed district neighborhood context description, b) the general purpose statement, and c) the specific intent statement found in the Denver Zoning Code.</p>

REQUIRED ATTACHMENTS

Please check boxes below to affirm the following **required** attachments are submitted with this rezoning application:

- Legal Description of subject property(s). **Submit as a separate Microsoft Word document.** View guidelines at: <https://www.denvergov.org/content/denvergov/en/transportation-infrastructure/programs-services/right-of-way-survey/guidelines-for-land-descriptions.html>
- Proof of ownership document for each property owner signing the application, such as (a) Assessor's Record, (b) Warranty deed, or (c) Title policy or commitment dated no earlier than 60 days prior to application date. If the owner is a corporate entity, proof of authorization for an individual to sign on behalf of the organization is required. This can include board resolutions authorizing the signer, bylaws, a Statement of Authority, or other legal documents as approved by the City Attorney's Office.
- Review Criteria Narratives. See page 2 for details.

ADDITIONAL ATTACHMENTS (IF APPLICABLE)

Additional information may be needed and/or required. Please check boxes below identifying additional attachments provided with this application.

- Written narrative explaining reason for the request** (optional)
- Outreach documentation attachment(s).** Please describe any community outreach to City Council district office(s), Registered Neighborhood Organizations (RNOs) and surrounding neighbors. If outreach was via email- please include email chain. If the outreach was conducted by telephone or meeting, please include contact date(s), names and a description of feedback received. If you have not reached out to the City Council district office, please explain why not. (optional - encouraged)
- Letters of Support.** If surrounding neighbors or community members have provided letters in support of the rezoning request, please include them with the application as an attachment (optional).
- Written Authorization to Represent Property Owner(s)** (if applicable)
- Individual Authorization to Sign on Behalf of a Corporate Entity** (e.g. if the deed of the subject property lists a corporate entity such as an LLC as the owner, this document is required.)
- Other Attachments.** Please describe below.

PROPERTY OWNER OR PROPERTY OWNER(S) REPRESENTATIVE CERTIFICATION

We, the undersigned represent that we are the owner(s) of the property described opposite our names, or have the authorization to sign on behalf of the owner as evidenced by a Power of Attorney or other authorization attached, and that we do hereby request initiation of this application. I hereby certify that, to the best of my knowledge and belief, all information supplied with this application is true and accurate. I understand that without such owner consent, the requested official map amendment action cannot lawfully be accomplished.

August 25, 2022

Laura Aldrete
Executive Director
Community Planning and Development

Dear Laura:

I am writing to request the initiation of an official map amendment on behalf of Parks and Recreation to rezone 4320 Morrison Road, 755 S. Raleigh Street, 4201 W Ohio Ave and 4849 Kentucky Ave from E-MX-3, UO-1, UO-2, E-TU-C E-SU-D all to OS-A district.

The properties were acquired by the City and County of Denver with the intent to build a recreation center and provide more greenspace to the Westwood neighborhood.

The addition to Westwood Park as well as the construction of a new Recreation Center will add much needed recreation opportunities and green space to the neighborhood. Westwood Recreation Center project is funded through the Elevate Denver Bond Program, approved by voters in 2017 to enhance mobility, safety, and quality of life across Denver. The public input process held in early 2018 to identify the community's most desired projects identified health and wellness as a high priority throughout the city, with a recreation service-gap in west Denver—the future recreation center will be the first in the neighborhood. In addition to numerous opportunities for neighbors to engage in a healthy lifestyle through fitness and educational activities, the recreation center will provide a community gathering space where programs and resources can be more easily accessed. Denver Parks & Recreation is excited to have the opportunity to bring the Westwood neighbors' dream into reality through this rezoning amendment.

Please contact Molly Lanphier at Molly.Lanphier@denvergov.org if there are any questions or additional clarification is required. If this person becomes unavailable, I will designate another individual as a point-of-contact for this application.

Sincerely,

Allegra "Happy" Haynes
Executive Director, Department of Parks and Recreation
City and County of Denver

A.1: Consistency with Adopted Plans – describe relevant adopted plans and how proposed map amendment is consistent with those plan recommendations

The proposed map amendments include the rezoning of three (3) properties from E-SU-D to OS-A in the Westwood neighborhood. Two of these properties (4320 Morrison Rd., 753 S. Raleigh St.) will combine to build the foundation for the new Westwood recreation center, and the third property (4849 W. Kentucky Ave.) will increase acreage and visibility of Westwood Park.

Westwood Recreation Center: Approved by voters in 2017, the Westwood Recreation Center project was funded through the Elevate Bond to enhance mobility, safety, and quality of life across Denver. The public input process held in early 2018 to identify the community’s most desired projects, identified health and wellness as a high priority throughout the city, with a recreation service-gap in west Denver—the future recreation center will be the first in the neighborhood. In Winter 2020, Denver Parks & Recreation (DPR) finalized the land purchase of 4320 Morrison Rd. and 753 S. Raleigh St. to serve as the future home of a neighborhood recreation center.

Westwood Park Parcel: Denver Parks & Recreation (DPR) acquired the 0.5-acre parcel at 4849 W. Kentucky Ave. in early 2020. The parcel is located directly adjacent to the established Westwood Park, located along its southern border on W. Kentucky Ave. Westwood Park recently underwent a planning process in 2016-2017. This process, led by the Trust for Public Land (TPL), included several rounds of community and stakeholder involvement, and resulted in the construction of a new playground and picnic pavilion. Additionally, through the planning process, the parcel at 4849 W. Kentucky Ave. was identified as a desired acquisition to increase both visibility into and acreage of the park. The proposed map amendment will allow for this community vision to become a reality by integrating the newly acquired parcel with the park.

Comprehensive Plan 2040 (2019)

Comprehensive Plan 2040 creates a vision and defines goals to tie together the city’s plans and policies. Six vision elements make up the framework of the plan. This map amendment aligns with four of these six vision elements, which promote an increase of quality-of-life infrastructure, including parks, to communities in need of equitable access to these services and amenities.

- **Vision Element:** Equitable, Affordable, and Inclusive
 - o **Goal 1:** Ensure all Denver residents have safe, convenient, and affordable access to basic services and a variety of amenities.
 - **Strategy C:** Improve equitable access to resources that improve quality of life, including cultural and natural amenities, health care, education, parks, recreation, nutritious food, and the arts.
 - o **Goal 7:** Make neighborhoods accessible to people of all ages and abilities.
 - **Strategy C:** Design and program public spaces and recreation centers to accommodate people of all ages and abilities.
 - Both the recreation center and the park will be open and accessible to all abilities, including play elements that are particularly catered to youth with restricted mobility.

- **Vision Element:** Strong & Authentic Neighborhoods
 - **Goal 5:** Create and preserve parks and public spaces that reflect the identity of Denver’s neighborhoods.
 - **Strategy A:** Ensure that parks and recreational programs reflect the unique context and cultural identity of the neighborhoods they share
 - Authentic community engagement will be a cornerstone of both projects. To truly reflect the community and meet its desires, a robust community engagement plan will be carried out, working with the Council member, businesses, nonprofits, and schools throughout the neighborhood to create a final product that truly reflects and meets the neighborhood’s desires.

The Westwood parcel and recreation center will both add green space to the Westwood neighborhood that is accessible, free to all and encourages physical activity. This vision directly aligns with the following vision elements and aligning strategies:

- **Vision Element:** Environmentally Resilient
 - **Goal 6:** Protect and expand Denver’s green infrastructure network.
 - **Strategy D:** Preserve and enhance the city’s system of parkland and adapt park landscapes to be more climate and heat resistant.

- **Vision Element:** Healthy & Active
 - **Goal 1:** Create and enhance environments that support physical activity and healthy living.
 - **Strategy A:** Recognize parks, recreation, and the urban forest as vital components of a complete community
 - **Strategy C:** Design safe public spaces and recreational areas to serve people of all ages and backgrounds.

 - **Goal 2:** Provide high-quality parks, recreation facilities and programs that serve all Denver residents.
 - **Strategy A:** Ensure equitable access to parks and recreation amenities for all residents.
 - **Strategy B:** Make Denver’s healthy outdoor lifestyle accessible to residents of all ages and backgrounds.
 - **Strategy C:** Expand the supply of parks, recreational facilities, and programs relative to Denver’s population growth.

Blueprint Denver (2019)

Blueprint Denver is the framework for the city’s major land use and transportation decisions, establishing citywide policies and specific strategies to achieve the vision for an inclusive city in 2040. Both map amendments support the future neighborhood context, complete neighborhoods & networks, street types, and growth strategy outlined in *Blueprint Denver*.

- **Vision: Inclusive City**
 - **Improving Access:** Creating more equitable access to quality-of-life amenities, health, and quality education.

- In the “Measuring Access to Opportunity” map (p. 34) the Westwood neighborhood has less access to opportunity
 - There is currently no recreation center serving the Westwood neighborhood. Through the My Denver program, this recreation center will provide free recreation services to both the neighborhood’s youth and seniors.
- **Future Neighborhood Context Map**
Public Parks and Open Spaces supported by the OS-A districts are important and necessary places in all the city's neighborhood contexts consistent with both the Urban and Urban Edge neighborhood contexts.
- **Urban (753 S Raleigh St. & 4849 W Kentucky Ave):** Small multi-unit residential and mixed-use areas are typically embedded in 1-unit and 2-unit residential areas. Block patterns are generally regular with a mix of alley access. Buildings are lower scale and closer to the street.
 - **Urban Edge: (4320 Morrison Rd, 753 S Raleigh St & 4849 W Kentucky Ave)** Contains elements of the suburban and urban contexts. Small multi-unit residential and commercial areas are typically embedded in 1-unit and 2-unit residential areas. Block patterns are generally regular with a mix of alley access. Buildings are lower scale and generally set back farther from the street.
- **Future Place Type**
- OS-A allows for a variety of uses up to the discretion of the executive director of DPR, consistent with the propose future place types.
 - **Community Corridor (Westwood Recreation Center):** Typically provides some mix of office, commercial and residential uses. A wide customer draw both of residents from surrounding neighborhoods and from other parts of the city. Activity levels during different times of the day will vary depending on the type and mix of uses. Have a distinctly linear orientation along the street. Lot coverage is typically higher, with open spaces that are often accommodated by spaces between buildings rather than along the street. Heights are generally up to 5 stories. Due to shorter lot depths, special attention is needed for transitions to nearby residential areas.
 - **Residential Low (Westwood Park parcel):** Generally characterized by single unit uses on larger lots. Accessory dwelling units and compatible two-unit uses are appropriate and can be thoughtfully integrated. Limited mixed-use along some arterial and collector streets and at intersections, as well as where commercial uses have been already established. Outdoor space is often privatized in the form of yards. There is also access to public parks.
- **Growth Area Strategy**
OS-A will allow for a new recreation center and an expanded park, which has been advocated for by the neighborhood and are necessary for a growing city. The recreation center will bring more jobs to the area. Recreation Center will prioritize hires within the neighborhood.

- **Community Center and Corridors (Westwood Recreation Center)**
 - 20% of new jobs by 2040
 - 25% of new households by 2040
 - A new recreation center will allow for more jobs within the Westwood community
 - **All Other Areas of the City (Westwood Park parcel)**
 - 10% of new jobs by 2040
 - 20% of new households by 2040
- **Future Street Type**
- **Morrison Rd: Main Street Collector (Westwood Recreation Center):** Characterized by a mix of uses including retail, services, and restaurants, as well as residential. Buildings are pedestrian oriented, with little front setback, a continuous street wall, and high transparency. Street level uses are highly activated, including café seating in the right-of-way
 - The future Westwood Recreation Center will maintain some open space, which will allow for high transparency and for the space surrounding the actual building to be activated.
 - **W. Kentucky Ave.: Residential Collector (Westwood Park parcel):** Primarily residential uses, but may also include schools, civic uses, parks, small retail nodes and other similar uses. Buildings on residential streets usually have a modest setback. The depth of the setback varies by neighborhood context. OS-A is a park and open space district consistent with the residential street type designation.

Game Plan for a Healthy City (2019)

The *Game Plan for a Healthy City* provides both a vision and a strategic roadmap for the future of Denver’s parks, hundreds of facilities, recreation programs, and 20,000 acres of park landscapes. *The Game Plan* is supported through four guiding principles, two of which directly support the proposed map amendment. Denver Parks and Recreation created a neighborhood equity map, which measures equity in terms of park and socioeconomic indicators. The Westwood neighborhood is a high need area. Having more green space and recreation opportunities is a priority here.

- **Guiding Principle: Every Person**
 - **Goal 7:** Achieve equitable access for underserved communities to parks and recreation amenities for all members of the community. Westwood has been identified as an area that has less access to parks and open space so rezoning will increase public park access for Westwood residents, closing an existing gap within the city.
- **Guiding Principle: Every Dollar**
 - **Goal 13:** Increase supply of parks, facilities, and resources relative to Denver’s population growth.

Westwood Neighborhood Plan (2016)

The *Westwood Neighborhood Plan* creates a vision for a healthier, connected and economically vibrant Westwood. Among the plan's five goals, the first goal listed specifically aims to increase access to recreation and green space.

- **Recommendation A: A Connected Westwood**

• **2.C: Refine Neighborhood Green Spaces (Westwood Park parcel)**

- Westwood Park: This park is the largest in Westwood, however it is under-used by residents primarily because it is hidden behind private property and does not have sufficient amenities for all ages of residents. Rezoning to expand the existing Westwood Park will make the park more visible to the community as the new property is on a more accessible street. Additionally, a larger park will allow for more park amenities for the community. Improvements to the park should include:
 - Enhancement of existing play features
 - Active and passive recreation opportunities for all ages including a walking path
 - Enhanced entry elements and wayfinding to better connect the park to Morrison Road
 - Neighborhood gathering spaces such as plaza spaces
 - Additional Park programming and amenities such as water fountains, restrooms, shade structures, and seating
 - Potential private property acquisition to increase viability of the park.

• **2.D: Increase Neighborhood Green Spaces Improving Access**

- While refining and enhancing existing open spaces is the priority, the neighborhood would benefit from increasing the total acreage of open space and tree canopy. Opportunities to increase the neighborhood's open-space in the neighborhood through land acquisition and public-private partnerships. New development is encouraged to provide publicly accessible private open-spaces and plazas, particularly along Morrison Road. Rezoning the properties to OS-A will allow for more parks and open space along Morrison Rd consistent with this strategy.

Both proposed map amendments set out to be a community gathering place, which authentically reflect the Westwood neighborhood. Depending on the community's input the site will either be permissible through the City and County of Denver or be kept free and open for public use. This directly aligns with the below Recommendation:

- **Recommendations B: A Celebrated Westwood**

• **2.A: Create Community Gathering Places**

- Culturally relevant spaces with diverse uses, activities, services and gathering areas help to draw people together and create desirable destinations in the community. Opportunities for these places include Morrison Road.
- Public spaces and neighborhood open spaces should be versatile, accessible, and adaptable to appeal to a broad range of cultural groups and interests. Spaces should include culturally appropriate amenities for celebrations and family gatherings.
- Ensure that public spaces are available for businesses, organizations, and residents for temporary transformations. Reservation of spaces should be straightforward and

simple, even to those who do not speak English, with one entity that coordinates multiple community spaces.

- **2.C: Cultivate Opportunities for Public Life**

- Park Life Recommendations: Design to support events such as birthday celebrations, wedding receptions, quincenera receptions, and other culturally relevant celebrations to occur within neighborhood parks and open spaces such as Westwood Park. The design of parks should go beyond recreation and promote the opportunities for family gatherings, celebrations, and events. Design elements that support public life include gazebos, picnic shelters, plazas, fountains, and grills. Parks and Recreation should evaluate permitting process and park restrictions to allow for culturally relevant uses such as pinatas and temporary child play areas.
 - Both proposed map amendments set out to be a community gathering place, which authentically reflect the Westwood neighborhood. Depending on the community's input the site will either be permissible through the City and County of Denver or be kept free and open for public use.

- **Recommendation C: Promote Responsible Development**

- **1.A: Morrison Road Influence Area**

- Future zoning should support high quality development that respects the surrounding residential uses. Future regulatory tools should enable flexibility of uses and building forms along Morrison Road. Developments should have:
 - Pedestrian oriented, street-level, active commercial uses
 - A mix of uses
 - Pedestrian entries onto the primary street
 - Increased street-level transparency
- Corridor development along Residential Edges should respect the residential transition by
 - Providing mid-density residential development with units facing the street
 - Not “turning its back” on the low-density residential with blank walls, services areas, or other inappropriate commercial functions
 - Creating a transition area that is Urban Residential in character

OS-A is consistent with the Morrison Rd. Influence area by allowing for pedestrian friendly designs, gathering spaces and opportunity to reflect the neighborhood's character.

- **1.B: Encourage Neighborhood-Scaled Development**

- **Pedestrian Shopping Corridor**

- Pedestrian shopping Corridors serve many of the everyday needs of the residents within Westwood and the surrounding neighborhoods. **A vertical and horizontal mix of land uses should include commercial, residential, employment opportunities, and community serving organizations.** Occasionally, pedestrian shopping corridors contain small neighborhood serving retail or public gathering spaces that can act as a

regional draw. These corridors are scaled to be compatible with surrounding residential neighborhoods.

- OS-A allows for uses that are up to the discretion of the executive director of DPR, which could be a variety of uses. Additionally, rezoning to OS-A will allow for more neighboring gathering spaces consistent with the pedestrian shopping corridor character area.

Equity Analysis

Access to Opportunity: Westwood currently ranks an average of 2.5 out of 4. Westwood Recreation Center & Westwood Park allow for increased accessibility to recreation and parks. The neighborhood currently has a lower average life expectancy and higher rates of child obesity than the overall city average. Providing more opportunities to recreate in a formal or informal setting can positively impact both these indicators.

Vulnerability to Involuntary Displacement: Westwood currently has a score of 3 out of 3, meaning the neighborhood is highly vulnerable to involuntary displacement. The median household income within the Westwood neighborhood (\$36,718) is well below the city (\$63,793) and has seen a slower rate of increase. Between 2015 and 2018 residents living with a disability increased 16.68% in the area, more than double the city-wide rate. In these same years, Westwood has seen an increase of 15.52% in the non-Hispanic, white population. Between 2018 and 2020 the median residential property tax has increased 28.57%. Again, this is significantly higher than the city-wide rate (7.63%).

In some instances, public investments may lead indirectly to increased displacement pressures. Recognizing this, Denver has formed a City Investment Impact Committee to look at large public infrastructure investments that may contribute to displacement of existing residents and businesses, especially in areas already vulnerable to displacement, and assess how the city can better understand and mitigate these displacement impacts so investments benefit those who already live and work there.

The Department of Housing and Stability (HOST) has created a prioritization policy that will provide households at risk of displacement to newly developed or preserved affordable housing. HOST is proposing a policy to help displaced residents and those at risk of displacement access to any qualifying affordable housing citywide, with higher priority given to neighborhood residents in areas, such as Westwood where public/private investment creates involuntary displacement pressure. According to HOST's affordable housing dashboard, the city has helped finance \$9,391,974 to preserve 952 units as income-restricted.

In addition, Denver Parks and Recreation has been in close contact with staff at the Neighborhood Equity & Stabilization initiative to proactively communicate with the neighborhood about the improved amenities and available city programs and resources to mitigate against displacement pressures. Housing Diversity: Westwood has an average score of 3 out of 5. It lacks diversity in the mix of owned and rented homes as well as housing costs. It remains diverse in bedroom counts within houses and the number of income restricted units. The proposed rezoning is to facilitate park and recreation activity on publicly owned parkland and does not include residential use. As a result, the Westwood parks' projects will not directly affect housing diversity,

Job Diversity: There are 29 jobs per .2 acres with a lack of manufacturing and innovation jobs and a plethora of retail jobs. The recreation center will be an opportunity to add more jobs within the

community. Recreation Centers give preference to candidates that live in the neighborhood they serve. Many recreation staff make a career out of a first job at a recreation center and serve Parks and Recreation in a variety for capacities, making a career out of an entry level opportunity.

A.2 Public Health, Safety and General Welfare: The proposed official map amendment furthers the public health, safety, and general welfare of the City.

Children that grow up in Denver are more obese than previous generations, especially in low income neighborhoods, like Westwood. According to the New York Times, by 2030 nearly one in two adults will be obese; no state will have less than 35 percent of residents who are obese. According to the Centers for Disease Control and Prevention (CDC), only 25 percent of American adults engage in recommended levels of physical activity, and 29 percent engage in no leisure-time physical activity at all. This sedentary lifestyle is contributing to an increased incidence of obesity along with obesity-related diseases, such as high blood pressure, diabetes, congestive heart failure, and stroke. A recent report by the Outdoor Foundation concluded that nearly half the US population did not participate in any outdoor recreation in 2018. The proposed rezoning to OS-A will allow Denver to adding parks and recreation facilities, which are proven to improve the health, safety and general welfare of the city in the following ways:

Increase Physical Activity:

- The closer people live to a park and the safer they feel in the park, the more likely they are to walk or bike to those places and utilize the park for physical activity (TPL, 2016).
- A report by the U.S. surgeon general found that people who engage in regular physical activity benefit from “reduced risk of premature death; reduced risk of coronary heart disease, hypertension, colon cancer, and non-insulin-dependent diabetes; improved maintenance of muscle strength, joint structure, and joint function; reduced body weight and favorable redistribution of body fat; improved physical functioning if they suffer from poor health; and healthier cardiovascular, respiratory, and endocrine systems” (CDC, 1996).
- A group of studies reviewed in the American Journal of Preventive Medicine showed that “creation of or enhanced access to places for physical activity combined with informational outreach” produced a 48.4 percent increase in the frequency of physical activity (Kahn, et al, 2006)
- The same studies showed that easy access to a place to exercise results in a 5.1 percent median increase in aerobic capacity, along with weight loss, a reduction in body fat, improvements in flexibility, and an increase in perceived energy ((Kahn, et al, 2006)
- A RAND Corporation study found that Los Angeles residents who live near parks visit them and exercise more often than people who live greater distances from green spaces.(RAND, 2005)
- A positive correlation between environmental infrastructure (such as trails and recreation facilities and enjoyable scenery) and physical activity was found in a study of environmental determinants. The national study included 1,818 people, a majority of whom were low income (Brownson et al., 2001).
- Teens that used recreation centers were 75% more likely to engage in the highest category of moderate to vigorous physical activity, according to a long-term study of over 17,000 teenagers. This national study provided the first evidence that community recreation facilities are important for adolescent activity (Gordan-Larson, 2000).
- Teens that used recreation centers were 75% more likely to engage in the highest category of moderate to vigorous physical activity, according to a long-term study of over 17,000 teenagers. This national study provided the first evidence that community recreation facilities are important for adolescent activity (Gordan-Larson, 2000).

Increase Mental Health:

- Research on recreational activities has shown that green space is associated with enhanced mental alertness, attention, and cognitive performance (Frumkin, 2003).

Provide environmental benefits:

- By reducing air and water pollution, protecting areas from inappropriate development, and mitigating urban heat islands
- Parks and recreation centers help people reduce their risk of illness and injury by providing safe spaces where people can play and exercise away from busy streets and commercial zones.

Decrease Stress:

- A study done in the UK found that people living 1 kilometer away from a green space have nearly 50 percent higher odds of experiencing stress than those living less than 300 meters from a green space (NRPA, 2016)
- Respondents who do not report stress have more than 50 percent higher odds of visiting a green space at least a few days a week than those reporting stress. Results also showed that the more often respondents visited green spaces, the less stress they experienced (Stigsdotter, 2010),).
- People who lived in close proximity to natural space had significantly improved mental health up to three years after their move. Compared to pre-move mental health scores, individuals who moved to greener areas had significantly better mental health recorded three years after the move (Stigsdotter, 2010),).
- Scientists in the Netherlands found that people who lived in residential areas with the least green spaces had a 44 percent higher rate of physician-diagnosed anxiety disorders than people who lived in the greenest residential areas. The effect was strongest among those most likely to spend their time near home, including children and those with low levels of education and income ((Stigsdotter, 2010)

Reduces Crime

- In 1998, a neighborhood in Austin, Texas, saw a 44% reduction in juvenile crime following the opening of a recreation center (TPL, 2001).
- Recreation Centers allow adolescents a chance to have a safe place to go while not in school, instead of being on the street and possibly partaking in negative behavior.

A.3

Westwood Recreation & Westwood Park Parcel

Justifying Circumstances – describe the justifying circumstance.

Since the date of the approval of the existing Zone District, there has been a change to such a degree that the proposed rezoning is in the public interest.

- *Changed or changing conditions in a particular area*
 - o *Both properties have been bought by the City and County of Denver. Both will be available for public use and add green space to the Westwood neighborhood. This rezoning request will promote and protect the public interest.*
- *A City adopted plan*
- *That the City adopted the Denver Zoning Code and the property retained Former Chapter 59 zoning*

Since 2010, several plans have been adopted that directly align with the proposed rezoning. Comprehensive Plan 2040, Blueprint Denver, Game Plan for a Healthy City, and the Westwood Neighborhood Plan support the rezoning of these parcels from E-MX-3, E-TU-C, and E-SU-D to Open Space (OS-A).

Specifically, Gameplan discusses expanding parks and open space consistent with population growth. Westwood has been specifically identified as an area with park access gaps. In DPR's Park Equity Index, Westwood was identified as an area with the greatest need for park investment based off the following factors:

- Access: Percent of neighborhood outside 10-minute walk
- Previous 10 years of investments
- Park acres per 1000 residents
- Population density (population per square mile)
- Percentage of population under 18
- Percentage of overweight and obese adults
- Percentage of population in poverty
- Percent of population identified as minorities (non-white)

A.4

Westwood Recreation & Westwood Park Parcel Justifying Circumstances – describe how the criterion is met.

The City and County of Denver recently purchased three different properties that will serve as recreation and green space for the Westwood neighborhood. Denver Parks and Recreation (DPR) plans on adding 0.5 acres to Westwood Park as well as building a new neighborhood recreation center (is there a way to indicate the rec center & the park are in 2 different locations, which will also have green space available for play, recreation and leisure activities. The addition of all properties aligns with the neighborhood's hope to create a healthy, happy, community that has easy access to green space and recreation opportunities. The request to rezone the properties to OS-A aligns with DPR's motives to maintain the property for the community in perpetuity.

9.3.1 Open Space General Character

Open Space context is intended to apply in a variety of contexts, including the surrounding Urban and Urban Edge context of the Westwood neighborhood. This context is appropriate for this generally low-scale residential neighborhood.

The Open Space Context consists of all forms of public and private parks and open spaces. The context accommodates sites ranging from very active to completely passive, and from those embedded in a neighborhood to sites that are large enough to stand alone. Active sites may include high use areas such as ball fields, while passive areas focus on resource protection, trails, walking and biking.

9.3.2.1. Open Space Public Parks District (OS-A)

a. The OS-A district is intended to protect and preserve public parks owned, operated or leased by the City and managed by the City's Department of Parks and Recreation ("DPR") for park purposes. The subject properties are owned by the city, and intended for use as public parks, consistent with the OS-A district.

9.3.4.1 Uses and Required Minimum Parking

A. OS-A Zone District: Permitted uses, number of uses and applicable use limitation, in the OS-A zone district, shall be determined by the manager of Parks and Recreation

Westwood Outreach & Engagement Future Westwood Recreation Center

The number one priority of Westwood Recreation Center is to build a recreation center that is authentically Westwood. In order to do this, the project team prioritizes robust community engagement in this historically marginalized neighborhood.

Working with leadership as well as Councilwoman Torres' office, the project team created a Community Advisory Group (CAG), which meets on a regular basis throughout the design and construction of Westwood Recreation Center. The following members serve on the CAG:

Arturo Garcia
Business Owner

Lee Rains Thomas
Parks and Recreation Advisory Board

Cindia Reyes
Community Member

Michelle Tijerna
Mental Health Center of Denver

Crystal Munoz
Roots Family Center

Mirian Alvarez
Westwood Unidos

Daisy Rocha Vasquez
Council District #3

Norma Brambilla
Westwood Unidos

Father Joseph Dang
Community Leader

Pearl Lopez
Denver Police Department

Fernando Branch
Colorado I Have a Dream

Perla Manquero
Sewall Child Development Center

Jose Esparza
BuCu West

Rosa Vergil
Una Mano Esperanza

Karimme Quintana
Westwood Unidos/ Lifespan Local

Ruben Moya
Community Member

Kasandra Ornelas
Southwest Denver Coalition

Steve Rovello
Denver Indian Center

Keo Frasier
Denver Housing Authority

Tanil Maldonado
Community Member

Lance Guanella
Southwest Improvement Council

Yuridia Bahena
Re: Vision

In addition to the Community Advisory Group, a comprehensive public engagement process has been implemented. The engagement approach will include a range of innovative methods/activities to maximize input from busy stakeholders (working, caring for families, etc.) who cannot always attend a meeting. The overall goal is to ensure representative, inclusive participation and input from the local communities, project partners, and decision makers. All community outreach efforts have been available in English, Spanish and Vietnamese.

Westwood Project Kick-Off Survey- 9/2020-5/2021

The first Westwood survey was open from September 2020 to May 2021. It was promoted through postcards, flyers, yard signs and emails and resulted in 323 responses. The purpose of this initial survey was to get feedback from a representative group on what the community wanted.

Demolition Event- 3/19/2021

An in person demolition event was held where the project team walked people through the future site of the Recreation Center. This event celebrated the start of demolition.

Public Meeting #1- March 2022

The first public meeting was conducted virtually with about 60 attendees. The project team reviewed survey results and conducted zoom polls to gauge desired activities.

Focus Groups- Conducted March-June 2022

Focus groups were done in order to hear from groups that had not participated in the first survey. The focus groups were done with the following communities within the Westwood neighborhood:

- Vietnamese community
- • Youth (aged 13-17)
- • Active older adults / seniors
- • Native American community
- • Arabic-speaking community
- • Local Businesses & Organizations
- • Youth (elementary school age)
- • Westwood Unidos

Public Meeting #2- May 2022

This meeting was held in person to hone in on the community's priorities and preferences for the recreation center.

Westwood Recreation Programming Survey- 5/9/2022- 232 Responses

The second survey was for people that could not attend the public meeting.

Tabling Events

The project team took advantage of community events by showing up and talking about the project at the following events:

- Westwood Block Party – 4/30/22
- Cinco de Mayo – 5/7/22
- Safe Summer Kickoff GO Day – 6/4/22
- Chili fest - 9/10/22
