5. General description or background of proposed request. Attach executive summary if more space needed:

The Denver Police Department (DPD) replaced their outdated Offense Reporting System with the LexisNexis application named "DeskOfficer Online Reporting System" back in 2012; this system remains as DPD's main online Citizen Reporting tool. In 2016, DPD added the Request A Report functionality to the online reporting tool. This new functionality will allow citizens to request and pay for a report via denvergov.org (types of reports include, but are not limited to: accident, offense, arrest, and 911 call recordings). This contract amendment will allow for continued use and vendor support of the DeskOfficer Online Reporting tool including the Request A Report functionality. Support includes issue resolution assistance to ensure the application is functioning at its maximum capacity.

Note: LexisNexis has acquired many subsidiaries over the years and has many different business units. Specifically, the Desk Officer Reporting System (DORS), simply allows citizens to file online police reports. This business unit of LexisNexis doesn't have anything to do with its investigative, data aggregation, or data sharing products.
