Article 6. General Urban Neighborhood Context
Division 6.1 Neighborhood Context Description

DIVISION 6.1 NEIGHBORHOOD CONTEXT DESCRIPTION

SECTION 6.1.1 GENERAL CHARACTER

The General Urban Neighborhood Context is characterized by multi-unit residential uses in a variety of building forms. Single-unit and two-unit residential uses are also found in a mix of residential forms. Low-scale forms that may contain a mixture of uses within the same structure. Residential uses are primarily located along local and residential arterial streets. Commercial uses are primarily located along mixed-use arterial and main streets but may be located at or between intersections of local streets.

SECTION 6.1.2 STREET, BLOCK AND ACCESS PATTERNS

The General Urban Neighborhood Context consists of a regular pattern of block shapes surrounded by an orthogonal street grid. Orthogonal streets provide a regular pattern of pedestrian and vehicular connections through this context and there is a consistent presence of alleys. Block sizes and shapes are consistent and include detached sidewalks, tree lawns, street and surface parking, and landscaping in the front setback.

SECTION 6.1.3 BUILDING PLACEMENT AND LOCATION

Residential buildings typically have consistent, shallow to moderate front setbacks, shallow side setbacks and consistent orientation. Commercial buildings typically have consistent orientation and shallow front setbacks with parking at the rear and/or side of the building.

SECTION 6.1.4 BUILDING HEIGHT

The General Urban Neighborhood Context is characterized by moderate to high residential buildings and low to moderate commercial and mixed use structures in appropriate locations to promote a dense urban character. Lower scale structures are typically found in areas transitioning to a less dense urban neighborhood.

SECTION 6.1.5 MOBILITY

There is a balance of pedestrian, bicycle and vehicle reliance with greater access to the multi-modal transportation system.

Review Criteria: Consistency with Adopted Plans

Comprehensive Plan 2000

- Environmental Sustainability Strategy 2-B “*Protect and improve air quality by: Reducing vehicular pollution by expanding the use of transit and other travel alternatives, supporting telecommuting and home-based employment, increasing the mix of uses within neighborhoods, and expanding the use of alternative fuels*” (p. 38).
- Land Use Strategy 4-A to “*Encourage mixed-use, transit-oriented development that makes effective use of existing transportation infrastructure, supports transit stations, increases transit patronage, reduces impact on the environment, and encourages vibrant urban centers and neighborhoods*” (p. 60).
- Mobility Strategy 5-D “*Determine the potential for transit-oriented development at public transit stations, and encourage such opportunities whenever possible*” (p. 79).

Review Criteria: Consistency with Adopted Plans

Blueprint Denver (2002)

- Land Use Concept:
 - Urban Residential
 - *Higher density and primarily residential, but may include a noteworthy number of complementary commercial uses*
 - AOC and AOS
 - AOC - Areas where land use and transportation are closely linked
 - AOS – ROW at time of designation

Review Criteria: Consistency with Adopted Plans

Blueprint Denver (2002)

- Future Street Classification:
 - Perry Street – Main Street Collector
 - Collectors Balance mobility and land use
 - Main streets serve higher intensity land uses
 - 12th Avenue – Undesignated Local
 - Local access to property

Reminder: Evaluating whether the proposed zone district is consistent with the Future Street Classification, but not to assess the traffic impacts of a specific development proposal.

Land Use Recommendations

Recommendation 6: Housing Diversification

- *...Diversify housing options and encourage a healthy urban mix of incomes. Promote a range of housing types and costs at **higher densities in strategic locations (town centers, station areas, main streets)**” (p. 95).*

Recommendation 7: Infill Development

- *“**Support infill development. Mixed-use projects that include housing (combining low-income, affordable and market rate units) or offices over active ground floor uses (shops, restaurants and services) are especially appropriate in town centers, along main streets and in close proximity to transit stops**”.*

West Colfax Plan (2006)

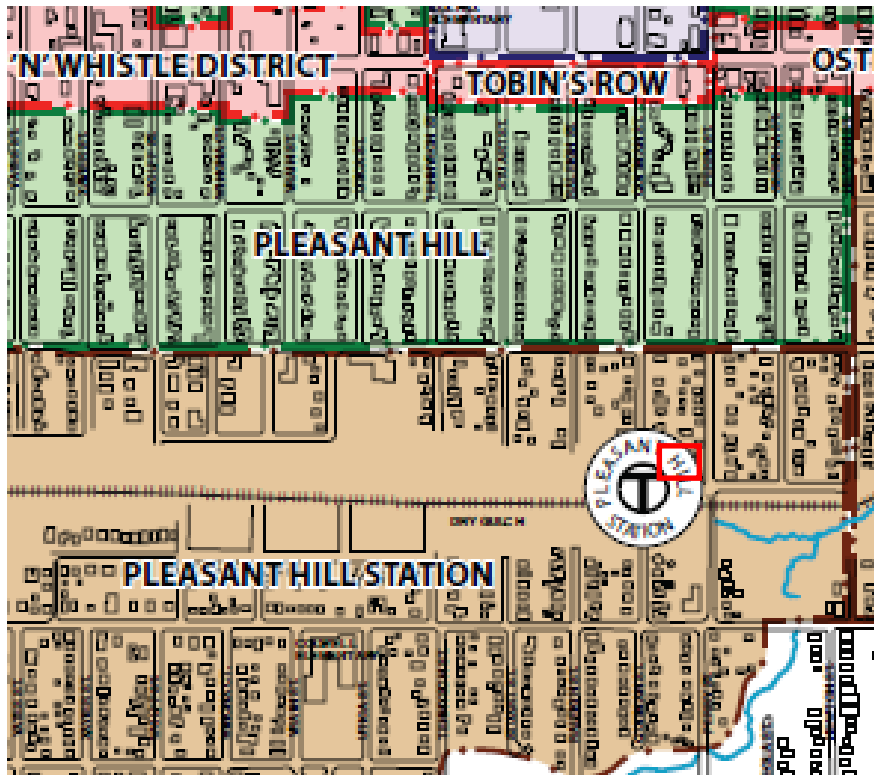

District Plan Recommendations

- “Pleasant Hill Transit Station”
 - *“Establish the appropriate regulatory conditions and incentives to facilitate the redevelopment of the edges of Villa Park and West Colfax neighborhoods near the rail facilities.”*
 - *“Pleasant Hill Station, Redevelopment sites in this area may include dilapidated residential structures (containing both single and multi-family units) close to the light rail stations areas*

Denver Zoning Code Review Criteria

1. Consistency with Adopted Plans

- CPD finds the rezoning is consistent with Comprehensive Plan 2000, Blueprint Denver: A Land Use and Transportation Plan (2002), West Colfax Plan (2006)

2. Uniformity of District Regulations

3. Further Public Health, Safety and Welfare

4. Justifying Circumstances

5. Consistency with Neighborhood Context, Zone District Purpose and Intent

Denver Zoning Code Review Criteria

1. Consistency with Adopted Plans
2. Uniformity of District Regulations
3. Further Public Health, Safety and Welfare
4. Justifying Circumstances
 - Changed Conditions
 - The land or its surrounding environs has changed or is changing to such a degree that it is in the public interest to encourage a redevelopment of the area or to recognize the changed character of the area (DZC 12.4.10.8.A.4)
 - CPD finds this criteria is met, the proposed map amendment is in response to the changed circumstances of the major public infrastructure investment in W light rail transit serving the area, the redevelopment of the former St. Anthony Hospital and the Knox and Perry Street stations in the area.
5. Consistency with Neighborhood Context, Zone District Purpose and Intent

5. Consistency with Neighborhood Context and Zone District Propose and Intent
 - **General Urban Neighborhood Context:**
 - Multi-unit residential uses in a variety of building forms. Low-scale commercial areas are embedded within residential areas.
 - Commercial uses occur in a variety of building forms that may contain a mixture of uses within the same structure.
 - **G-RX-5 Specific Intent:**
 - Promote safe, active, and pedestrian-scaled, diverse areas through the use of building forms that clearly define and activate the public realm.
 - Buildings in a Residential Mixed Use district can have ground story retail uses, but upper stories are reserved exclusively for housing or lodging accommodation uses.
