## 5. General description or background of proposed request. Attach executive summary if more space needed:

This contract with Hensel Phelps Construction CO. has allowed the Business Technologies Division at Denver International Airport (DEN) to procure professional services to perform such tasks required to construct and/or build a communication infrastructure. This will consist of locating and/or relocating existing cable infrastructure and installation of new services to support new construction of buildings, standalone communications 'huts'. This request is to include language through an amendment to the contract to allow for the two-year extension to the term that was included in the original contract. This amendment will provide DEN with continuity of services to construct and/or build a communication infrastructure. The services provided under this contract must be maintained and any gap could cause significant safety and operational impacts to DEN internal distribution frame (IDF) rooms, and other structural components that require telecommunications services.
