

Craig Allen

Craig Allen is an easygoing native of Colorado who was raised by his military parents in Ft. Carson, Colorado. Craig received many outstanding recognitions in high school by participating in the High Trails (a club for high achievers) and supporting peers as well as the staff members to improve the learning environment.

For 4 years he worked in a camp for disabled children and he was often selected to represent his school on several community outings.

After high school, Craig worked at Safeway for ten years. His time there came to an end due to health problems.

In July 2018, Craig moved to Thomas Bean Tower in Denver, Colorado. When Craig moved to Bean Tower, he immediately filled the vacant LRC President position because the residents insisted he take the position. He soon became a favorite of many residents because he was always willing to help and advocate for the seniors. He expressed his desire to bring life to the building by engaging the residents in social activities to get them to come out of their apartments.

When not assisting the Service Coordinator or the Manager, Craig is often found performing tasks, running errands or lending a helping hand to others.

Craig volunteered to be the contact person for the Denver Food Rescue Produce Delivery that's given out every Sunday in the building. He is the Chair of the Breakfast fundraising activity, Friday Night Movie, Weekly -Music Hour in the lobby and the community Yard Sale. He is a regular at the quarterly RCB meetings and often voice his concerns and ask questions on behalf of the residents at Bean Tower. He's always seeking ways to help and improve the building.

Craig is friendly and very generous with his time and giving but he's always seeking ways to do more and advance to the next level.
