## GENERAL PROVISIONS

The following clauses apply to this contract. In some instances, these general clauses have been expanded upon in other sections/exhibits of/to this contract. To the extent that other provisions of the contract provide more specificity than these general clauses, the more specific provision shall control.

1. Governmental Immunity. Notwithstanding any other provision to the contrary, no term or condition of this contract shall be construed or interpreted as a waiver, express or implied, of any of the immunities, rights, benefits, protection or other provisions of the Colorado Governmental Immunity Act, Section 24-10-101 et.seq., CRS, as now or hereafter amended. The parties understand and agree that liability for claims for injuries to persons or property arising out of negligence of the State of Colorado, its departments, institutions, agencies, boards, officials and employees is controlled and limited by the provisions of Section 24-10-101 et.seq., CRS and the risk management statutes, Section 24-30-1501, et.seq., CRS as now or hereafter amended.
2. Available Funds Contingency
  - a. Available Funds. The State is prohibited by law from making commitments beyond the term of the State's current fiscal year; therefore, Contractor's compensation beyond the State's current Fiscal Year is contingent upon the continuing availability of State appropriations as provided in the Colorado Special Provisions. Payments pursuant to this Contract shall be made only from available funds encumbered for this Contract and the State's liability for such payments shall be limited to the available amount remaining of such encumbered funds. In the event that state funds become unavailable for this Contract, as determined by the State, the State may immediately terminate this Contract or amend it accordingly.
  - b. Federal Funds Contingency. Payment pursuant to this contract, if in federal funds, whether in whole or in part, is subject to and contingent upon the continuing availability of federal funds for the purposes hereof. In the event that said funds, or any part thereof, become unavailable, as determined by the State, the State may immediately terminate this contract or amend it accordingly without liability including liability for termination costs.
3. Billing Procedures. The State shall establish billing procedures and requirements for payment due the Contractor in providing performance pursuant to this contract. The Contractor shall comply with the established billing procedures and requirements for submission of billing statements. The State shall comply with CRS 24-30-202(24) when paying vendors upon receipt of a correct notice of the amount due for goods or services provided hereunder.
4. Exhibits - Interpretation. Unless otherwise stated, all referenced exhibits are incorporated herein and made a part of this contract. Unless otherwise stated, the terms of this contract shall control over any conflicting terms in any of its exhibits. In the event of conflicts or inconsistencies between this contract and its exhibits or attachments, such conflicts or inconsistencies shall be resolved by reference to the documents in the following order of priority: 1) the Special Provisions of this Contract; 2) the Additional Provisions **Exhibit A** and its attachments if included; 3) the Contract (other than the Special Provisions); 4) the RFP if applicable and attached; 5) the Scope/Statement of Work **Exhibit B** and its attachments if included; 6) the Contractor's proposal if applicable and attached; 7) other exhibits/attachments in their order of appearance.

The conditions, provisions, and terms of any RFP attached hereto, if applicable, establish the minimum standards of performance that the Contractor must meet under this Contract. If the Contractor's Proposal, if attached hereto, or any attachments or exhibits thereto, or the Scope/Statement of Work **Exhibit B**, establish or create standards of performance greater than those

set forth in the RFP, then the Contractor shall also meet those standards of performance under this Contract.

5. Notice and Representatives. For the purposes of this contract, the representative for each party is as designated herein. Any notice required or permitted may be delivered in person or sent by registered or certified mail, return receipt requested, to the party at the address provided, and if sent by mail it is effective when posted in a U.S. Mail Depository with sufficient postage attached thereto. Notice of change of address or change of representative shall be treated as any other notice.
6. Contractor Representations - Qualifications/Licenses/Approvals/Insurance. The Contractor certifies that, at the time of entering into this contract, it and its agents have currently in effect all necessary licenses, certifications, approvals, insurance, etc. required to properly provide the services and/or supplies covered by this contract in the state of Colorado. Proof of such licenses, certifications, approvals, insurance, etc. shall be provided upon the State's request. Any revocation, withdrawal or non-renewal of necessary license, certification, approval, insurance, etc. required for the Contractor to properly perform this contract, shall be grounds for termination of this contract by the State.

Contractor certifies that it is qualified to perform such services or provide such deliverables as delineated in this contract.

7. Legal Authority. The Contractor warrants that it possesses the legal authority to enter into this contract and that it has taken all actions required by its procedures, by-laws, and/or applicable law to exercise that authority, and to lawfully authorize its undersigned signatory to execute this contract and bind the Contractor to its terms. The person(s) executing this contract on behalf of the Contractor warrant(s) that such person(s) have full authorization to execute this contract.
8. Insurance – Contractor. The Contractor is a “public entity” within the meaning of the Colorado Governmental Immunity Act (CGIA), section 24-10-101, *et seq.*, C.R.S., as amended. Therefore, at all times during the initial term of this Contract, and any renewals or extensions hereof, the Contractor shall maintain such liability insurance, by commercial policy or self-insurance, as is necessary to meet its liabilities under the CGIA. If requested by the State, the Contractor shall provide the State with written proof of such insurance coverage.
9. Rights in Data, Documents and Computer Software or Other Intellectual Property. All intellectual property including without limitation, databases, software, documents, research, programs and codes, as well as all, reports, studies, data, photographs, negatives or other documents, drawings or materials prepared by the Contractor in the performance of its obligations under this contract shall be the exclusive property of the State. Unless otherwise stated, all such material shall be delivered to the State by the Contractor upon completion, termination, or cancellation of this contract. Contractor shall not use, willingly allow, or cause to have such materials used for any purpose other than the performance of the Contractor’s obligations under this contract without the prior written consent of the State. All documentation, accompanying the intellectual property or otherwise, shall comply with the State requirements which include but is not limited to all documentation being in a paper, human readable format which is useable by one who is reasonably proficient in the given subject area. Software documentation shall be delivered by Contractor to the State that clearly identifies the programming language and version used, and when different programming languages are incorporated, identifies the interfaces between code programmed in different programming languages. The documentation shall contain source code which describes the program logic, relationship between any internal functions, and identifies the disk files which contain the various parts of the code. Files containing the source code shall be delivered and their significance to the program described in the documentation. The documentation shall describe error messages and the location in the source code, by page, line number, or other suitable identifier, where the error message is generated. The Contractor warrants that the delivered software will be sufficiently descriptive to enable maintenance and modification of the software. The State’s ownership rights described herein shall include, but not be limited to, the right to copy, publish, display, transfer, prepare derivative works, or otherwise use the works.

If any material is produced under this Contract and the parties hereto mutually agreed that said material could be copyrighted by Contractor or a third party, then the State, and any applicable federal funding entity, shall, without additional cost, have a paid in full, irrevocable, royalty free, and non-exclusive license to reproduce, publish, or otherwise use, and authorize others to use, the copyrightable material for any purpose authorized by the Copyright Law of the United States as now or hereafter enacted. Upon the written request of the State, the Contractor shall provide the State with three (3) copies of all such copyrightable material.

10. Confidential or Proprietary Information. Subject to the Public (Open) Records Act, section 24-72-101, *et seq.*, C.R.S., as amended, if the Contractor obtains access to any records, files, or other information of the State in connection with, or during the performance of, this Contract, then the Contractor shall keep all such records, files, or other information confidential and shall comply with all laws and regulations concerning the confidentiality of all such records, files, or information to the same extent as such laws and regulations apply to the State. Contractor shall protect the confidentiality of all information accessed, used, held, created or received in connection with this Contract and shall insure that any subcontractors or agents of Contractor protect the confidentiality of all information under this Contract. Contractor shall access, use and disclose confidential information only for the operation and administration of the Contract, and shall not directly or indirectly disclose confidential information after the term of the Contract. Contractor shall implement appropriate safeguards as are necessary to prevent accidental or unauthorized use or disclosure of confidential information and shall maintain a comprehensive written information privacy and security program that includes administrative, technical and physical safeguards for maintaining and transmitting electronic confidential information. Contractor shall promptly notify the State if Contractor breaches the confidentiality of any information covered by this Contract. Any breach of confidentiality by the Contractor, or third party agents of the Contractor, shall constitute good cause for the State to cancel this Contract, without liability to the State. Any State waiver of an alleged breach of confidentiality by the Contractor, or third party agents of the Contractor, does not constitute a waiver of any subsequent breach by the Contractor, or third party agents of the Contractor.

The Contractor must identify to the State the information that it considers confidential or proprietary. This is a continuing obligation. Confidential or proprietary information for the purpose of this paragraph is information relating to Contractor's research, development, trade secrets, business affairs, internal operations and management procedures and those of its customers, clients or affiliates, but does not include information lawfully obtained by third parties, information which is in the public domain, or information which is or could have been acquired/developed independently by the State or a third party. Notwithstanding the foregoing, the State shall not be in violation of its obligations under this section should it disclose confidential information if such disclosure is, in the sole opinion of the State's legal counsel, required by applicable law and/or legal process (including, but not limited to, disclosures required pursuant to the Colorado (Open) Public Records Act, sections 24-72-201, *et. seq.*, C.R.S., as now or hereafter amended). The State shall endeavor to provide notice to the Contractor, as promptly as practicable under the circumstances, of any demand, request, subpoena, court order or other action requiring such disclosure, in order to afford Contractor the opportunity to take such lawful action as it deems appropriate to oppose, prevent or limit the disclosure, solely at its own instance and expense; but nothing herein shall be construed to require the State to refuse or delay compliance with any such law, order or demand.

11. Records Maintenance, Performance Monitoring & Audits. The Contractor shall maintain a complete file of all records, documents, communications, and other materials that pertain to the operation of the program/project or the delivery of services under this contract. Such files shall be sufficient to properly reflect all direct and indirect costs of labor, materials, equipment, supplies and services, and other costs of whatever nature for which a contract payment was made. These records shall be maintained according to generally accepted accounting principles and shall be easily separable from other Contractor records.

The Contractor shall protect the confidentiality of all records and other materials containing personally identifying information that are maintained in accordance with this contract. Except as

provided by law, no information in possession of the Contractor about any individual constituent shall be disclosed in a form including identifying information without the prior written consent of the person in interest, a minor's parent, guardian, or the State. The Contractor shall have written policies governing access to, duplication and dissemination of, all such information and advise its agents, if any, that they are subject to these confidentiality requirements. The Contractor shall provide its agents, if any, with a copy or written explanation of these confidentiality requirements before access to confidential data is permitted.

The Contractor authorizes the State, the federal government or their designee, to perform audits and/or inspections of its records, at any reasonable time during the term of this contract and for a period of six (6) years following the termination of this contract, to assure compliance with the state or federal government's terms and/or to evaluate the Contractor's performance. Any amounts the State paid improperly shall be immediately returned to the State or may be recovered in accordance with other remedies.

All such records, documents, communications, and other materials shall be the property of the State unless otherwise specified herein and shall be maintained by the Contractor in a central location as custodian for the State on behalf of the State, for a period of six (6) years from the date of final payment or submission of the final federal expenditure report under this contract, unless the State requests that the records be retained for a longer period, or until an audit has been completed with the following qualification. If an audit by or on behalf of the federal and/or state government has begun but is not completed at the end of the six (6) year period, or if audit findings have not been resolved after a six (6) year period, the materials shall be retained until the resolution of the audit findings.

The Contractor shall permit the State, any other governmental agency authorized by law, or an authorized designee thereof, in its sole discretion, to monitor all activities conducted by the Contractor pursuant to the terms of this contract. Monitoring may consist of internal evaluation procedures, reexamination of program data, special analyses, on-site verification, formal audit examinations, or any other procedures as deemed reasonable and relevant. All such monitoring shall be performed in a manner that will not unduly interfere with contract work.

12. Taxes. The State, as purchaser, is exempt from all federal excise taxes under Chapter 32 of the Internal Revenue Code [No. 84-730123K] and from all state and local government use taxes [C.R.S. 39- 26-114(a) and 203, as amended]. The Contractor is hereby notified that when materials are purchased for the benefit of the State, such exemptions apply except that in certain political subdivisions the vendor may be required to pay sales or use taxes even though the ultimate product or service is provided to the State. These sales or use taxes will not be reimbursed by the State.
13. Conflict of Interest. During the term of this contract, the Contractor shall not engage in any business or personal activities or practices or maintain any relationships which conflict in any way with the Contractor fully performing his/her obligations under this contract.

Additionally, the Contractor acknowledges that, in governmental contracting, even the appearance of a conflict of interest is harmful to the interests of the State. Thus, the Contractor agrees to refrain from any practices, activities or relationships which could reasonably be considered to be in conflict with the Contractor's fully performing his/her obligations to the State under the terms of this contract, without the prior written approval of the State.

In the event that the Contractor is uncertain whether the appearance of a conflict of interest may reasonably exist, the Contractor shall submit to the State a full disclosure statement setting forth the relevant details for the State's consideration and direction. Failure to promptly submit a disclosure statement or to follow the State's direction in regard to the apparent conflict shall be grounds for termination of the contract.

Further, the Contractor, and its subcontractors or subgrantees, shall maintain a written code of standards governing the performance of its employees engaged in the award and administration of

contracts. No employee, officer, or agent of the Contractor, subcontractor, or subgrantee shall participate in the selection, or in the award or administration of a contract or subcontract supported by Federal funds if a conflict of interest, real or apparent, would be involved. Such a conflict would arise when:

- a. The employee, officer or agent;
- b. Any member of the employee's immediate family;
- c. The employee's partner; or
- d. An organization which employs, or is about to employ, any of the above,

has a financial or other interest in the firm selected for award. The Contractor's, subcontractor's, or subgrantee's officers, employees, or agents will neither solicit nor accept gratuities, favors, or anything of monetary value from Contractor's potential contractors, or parties to subagreements.

14. Inspection and Acceptance (Services) and Contractor Warranty. The State reserves the right to inspect services provided under this contract at all reasonable times and places during the term of the contract. "Services" as used in this clause includes services performed or tangible material produced or delivered in the performance of services. If any of the services do not conform with contract requirements, the State may require the contractor to perform the services again in conformity with contract requirements, with no additional payment. When defects in the quality or quantity of service cannot be corrected by re-performance, the State may (1) require the contractor to take necessary action to ensure that the future performance conforms to contract requirements and (2) equitably reduce the payment due the contractor to reflect the reduced value of the services performed. These remedies in no way limit the remedies available to the State in the termination provisions of this contract, or remedies otherwise available at law.

Contractor warrants that all supplies furnished under this contract shall be free from defects in materials or workmanship, are installed properly and in accordance with manufacturer recommendations or other industry standards, and will function in a failure-free manner for a period of one (1) year from the date of delivery or installation. Contractor shall, at its option, repair or replace any supplies that fail to satisfy this warranty during the warranty period. Additionally, Contractor agrees to assign to the State all written manufacturer warranties relating to the supplies and to deliver such written warranties to the State.

15. Adjustments in Price. Adjustments to contract prices are allowable only so long as they are mutually agreeable by the parties and so long as they are included within a contract amendment made prior to the effective date of the price adjustments and made pursuant to the State of Colorado Fiscal Rules, signed by the parties, and approved by the State Controller or designee. The Contractor shall provide cost or pricing data for any price adjustment subject to the provisions of the Cost or Pricing Data Section of the Colorado State Procurement Rules. Any adjustment in contract price pursuant to the application of a clause in this contract shall be made in one or more of the following ways:

- a. By agreement on a fixed-price adjustment;
- b. By unit prices specified in the contract;
- c. In such other manner as the parties may mutually agree; or
- d. In the absence of agreement between the parties, by a unilateral determination by the procurement officer of the costs attributable to the event or situation covered by the clause, plus appropriate profit or fee.

16. Contract Modifications. This contract is subject to such modifications as may be required by changes in Federal or State law, or their implementing regulations. Any such required modification shall automatically be incorporated into and be part of this contract on the effective date of such change as if fully set forth herein. If either the State or the Contractor desires to modify the terms and conditions of this Contract, then the parties shall execute a standard written amendment to this Contract initiated by the State. The standard written amendment must be executed and approved in accordance with all applicable laws and rules by all necessary parties including the State Controller or delegate.

17. Litigation. The Contractor shall within five (5) calendar days after being served with a summons, complaint, or other pleading which has been filed in any federal or state court or administrative agency notify the State that it is a party defendant in a case which involves services provided under this contract. The Contractor shall deliver copies of such document(s) to the State's Executive Director. The term "litigation" includes an assignment for the benefit of creditors, and filings in bankruptcy, reorganization and/or foreclosure.
18. Notice of Breach and Dispute Resolution: If the State or the Contractor believes in good faith that the other party has failed to timely complete a deliverable, or has otherwise committed a material breach of this Contract, then the non-breaching party shall notify the breaching party in writing of the alleged breach within ten (10) business days of: 1) the date of the alleged breach if the non-breaching party is aware of the breach at the time it occurs; or 2) the date that the non-breaching party becomes aware of the breach.

Upon receipt of written notice of an alleged breach of the Contract, the breaching party shall have ten (10) business days, or such additional time as may be agreed to in writing between the parties, within which to cure the alleged breach or to notify the non-breaching party in writing of the breaching party's belief that a material breach of this Contract has not occurred. Failure of the breaching party to cure or respond in writing within the above time period shall result in the non-breaching party being entitled to pursue any and all remedies available at law or in equity.

Except as herein specifically provided otherwise, disputes concerning the performance of this contract which cannot be resolved by the designated contract representatives shall be referred in writing to a senior departmental management staff designated by the department and a senior manager designated by the Contractor. Failing resolution at that level, disputes shall be presented in writing to the Executive Director and the Contractor's chief executive officer for resolution. This process is not intended to supersede any other process for the resolution of controversies provided by law.

The Contractor and its sureties shall be liable for any damage to the State resulting from the Contractor's breach, whether or not the Contractor's right to proceed with the work is terminated. The State reserves the right, in its sole discretion, to determine whether or not to accept substituted performance tendered by the Contractor or the Contractor's sureties and acceptance is dependent upon completion of all applicable inspection procedures.

19. Remedies: In addition to any other remedies provided for in this contract, and without limiting its remedies otherwise available at law, the State may exercise the following remedial actions if the Contractor substantially fails to satisfy or perform the duties and obligations in this contract. Substantial failure to satisfy the duties and obligations shall be defined to mean significant insufficient, incorrect or improper performance, activities, or inaction by the Contractor. Without limitation, these remedial actions include:
- a. withhold payment to Contractor until the necessary services or corrections in performance are satisfactorily completed; and/or
  - b. require the vendor to take necessary action to ensure that the future performance conforms to contract requirements; and/or
  - c. request the removal from work on the contract of employees or agents of Contractor whom the State justifies as being incompetent, careless, insubordinate, unsuitable, or otherwise unacceptable, or whose continued employment on the contract the State deems to be contrary to the public interest or not in the best interest of the State; and/or
  - d. deny payment for those services or obligations which have not been performed and which due to circumstances caused by Contractor cannot be performed, or if performed would be of no value to the State; denial of the amount of payment must be reasonably related to the value of work or performance lost to the State; and/or
  - e. suspend Contractor's performance pending necessary corrective action as specified by the State without Contractor's entitlement to adjustment in price/cost or schedule; and/or

- f. modify or recover payments (from payments under this contract or other contracts between the State and the vendor as a debt due to the State) to correct an error due to omission, error, fraud and/or defalcation; and/or
- g. terminate the contract.

These remedies in no way limit the remedies available to the State in the termination provisions of this contract, or remedies otherwise available at law.

20. Termination.

- a. Termination for Default. The State may terminate the contract for cause. In the event this contract is terminated for cause, the State will only reimburse the Contractor for accepted work or deliverables received up to the date of termination. In the event this contract is terminated for cause, final payment to the Contractor may be withheld at the discretion of the State until completion of final audit. Notwithstanding the above, the Contractor shall not be relieved of liability to the State for any damages sustained by the State by virtue of any breach of the contract by the Contractor, and the State may withhold any payment to the Contractor for the purposes of mitigating its damages until such time as the exact amount of damages due to the State from the Contractor is determined. If it is determined that the Contractor was not in default then such termination shall be treated as a termination for convenience as described herein. In the event of termination, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the contractor under this contract shall, at the option of the State, become its property, and the Contractor shall be entitled to receive reasonable compensation for any services and supplies delivered and accepted. The Contractor shall be obligated to return any payment advanced under the provisions of this contract.
- b. Termination for Convenience. The State shall have the right to terminate this contract at any time the State determines necessary by giving the Contractor at least twenty (20) calendar days prior written notice. If notice is so given, this contract shall terminate on the expiration of the specified time period, and the liability of the parties hereunder for further performance of the terms of this contract shall thereupon cease, but the parties shall not be released from the duty to perform their obligations up to the date of termination. In the event of termination, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the contractor under this contract shall, at the option of the State, become its property, and the Contractor shall be entitled to receive reasonable compensation for any satisfactory services and supplies delivered.

In the event that the State terminates this contract under the Termination for Convenience provisions, the Contractor is entitled to submit a termination claim within ten (10) days of the effective date of termination. The termination claim shall address and the State shall consider paying the following costs:

- I. the contract price for performance of work, which is accepted by the State, up to the effective date of the termination;
- II. reasonable and necessary costs incurred in preparing to perform the terminated portion of the contract;
- III. reasonable profit on the completed but undelivered work up to the date of termination;
- IV. the costs of settling claims arising out of the termination of subcontracts or orders, not to exceed 30 days pay for each subcontractor;
- V. reasonable accounting, legal, clerical, and other costs arising out of the termination settlement.

In no event shall reimbursement under this clause exceed the contract amount reduced by amounts previously paid by the State to the Contractor.

- c. Immediate Termination. This contract is subject to immediate termination, in whole or in part, by the State without further liability in all of the following circumstances:
    - I. In the event that the State determines that the health, safety, or welfare of persons receiving services may be in jeopardy;
    - II. Upon verifying that the Contractor has engaged in or is about to participate in fraudulent or other illegal acts; or
    - III. If State or federal funds are not appropriated, or otherwise become unavailable to fund this Contract.
21. Stop Work Order. Upon written approval by the State Procurement Officer or delegee, the State may, by written order to the Contractor, at any time, and without notice to any surety, require the Contractor to stop all or any part of the work called for by this contract. This order shall be for a specified period after the order is delivered to the Contractor. Any such order shall be identified specifically as a stop work order issued pursuant to this clause. Upon receipt of such an order, the Contractor shall forthwith comply with its terms and take all reasonable steps to minimize the incurring of costs allocable to the work covered by the order during the period of work stoppage. Before the stop work order expires, as legally extended, the State Procurement Officer or delegee shall either:
- a. Cancel the stop work order; or
  - b. Terminate the work covered by such order; or
  - c. Terminate the contract.

If a stop work order issued under this clause is properly canceled, the Contractor shall have the right to resume work. An appropriate adjustment shall be made in the delivery schedule or contract price, or both, and the contract shall be modified accordingly in writing pursuant to the terms of this contract dealing with contract modifications, if:

- a. The stop work order results in increased time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
- b. The Contractor asserts claim for such an adjustment within thirty (30) days after the end of the period of work stoppage.

If the work covered by such order is terminated for default or convenience, the reasonable costs resulting from the stop work order shall be allowed by adjustment or otherwise and such adjustment shall be in accordance with the Price Adjustment Clause of this contract.

22. Venue. The parties agree that exclusive venue for any action related to performance of this contract shall be in the City and County of Denver, Colorado.
23. Understanding of the Parties.
- a. Complete Integration. This contract is intended as the complete integration of all understandings between the parties. No prior or contemporaneous addition, deletion, or other amendment hereto shall have any force or effect whatsoever, unless embodied herein in writing. No subsequent novation, renewal, addition, deletion, or other amendment hereto shall have any force or effect unless embodied in a written contract executed and approved pursuant to the State Fiscal Rules.
  - b. Severability. To the extent that this contract may be executed and performance of the obligations of the parties may be accomplished within the intent of the contract, the terms of this contract are severable, and should any term or provision hereof be declared invalid or become inoperative for any reason, such invalidity or failure shall not affect the validity of any other term or provision hereof.

- c. Binding Agreement. Except as herein specifically provided otherwise, it is expressly understood and agreed that this contract shall inure to the benefit of and be binding upon the parties hereto and their respective successors and assigns. All rights of action relating to enforcement of the terms and conditions shall be strictly reserved to the State and the named Contractor. Nothing contained in this agreement shall give or allow any claim or right of action whatsoever by any other third person. It is the express intention of the State and the Contractor that any such person or entity, other than the State or the Contractor, receiving services or benefits under this agreement shall be deemed an incidental beneficiary only.
- d. Waiver. The waiver of any breach of a term hereof shall not be construed as a waiver of any other term, or the same term upon subsequent breach.
- e. Continuing Obligations. The State and the Contractor's obligations under this contract shall survive following termination or expiration to the extent necessary to give effect to the intent and understanding of the parties.
- f. Assignment and Change In Ownership, Address, Financial Status. Except as herein specifically provided otherwise, the rights, duties and obligations of the Contractor arising hereunder cannot be assigned, delegated, subgranted or subcontracted except with the express prior written consent of the State, which consent shall not be unreasonably withheld. STATEMENT OF WORK  
To Original Contract Number 2022\*0902

**These provisions are to be read and interpreted in conjunction with the provisions of the contract specified above.**

- I. **Entity Name:** Denver Department of Public Health and Environment
- II. **Project Description:** This project serves to develop, implement and evaluate evidence-based Maternal and Child Health (MCH) local action plans that promote and contribute to healthy outcomes for Colorado women, children and youth. The MCH program includes upstream, population health strategies that improve the lives of the maternal child health population. Every five years, Colorado's MCH Program conducts a state-level needs assessment of the health and well-being of women, children, youth and families to guide state and local public health work and to meet Title V MCH Block Grant requirements. The goal of the assessment is to gather information to understand what issues are facing this population and then to identify seven to ten specific priorities that can be positively impacted by public health work during the next five years. State and local MCH staff use the selected MCH priorities to focus efforts, align resources, and to positively impact the lives of Colorado women or reproductive age (15 -44), children and youth including those with special health care needs, and their families. For FY 2021 - 2025, the priorities are: Create Safe and Connected Built Environments, Improve Access to Supports, Increase Economic Mobility, Increase Prosocial Connection, Increase Social Emotional Wellbeing, Promote Positive Child and Youth Development, and Reduce Racial Inequities.

Local public health agencies select the priorities that will most impact the current health related issues in their jurisdictions. By implementing the strategies and activities in the customized local action plans the objectives of this project will be achieved and one or more of the three health impact areas, which were also identified in the needs assessment process, will be addressed.
