RE: Official Zoning Map Amendment Application #2016I-00068 to change the zoning of parcels at 1100 Federal Blvd. and 2929 W. 10th Ave. (collectively referred to as 2929 W. 10th Ave.) from PUD #487 to C-MX-5

Staff Report and Recommendation

Based on the criteria for review in the Denver Zoning Code, Staff recommends approval for Application #2016I-00068.

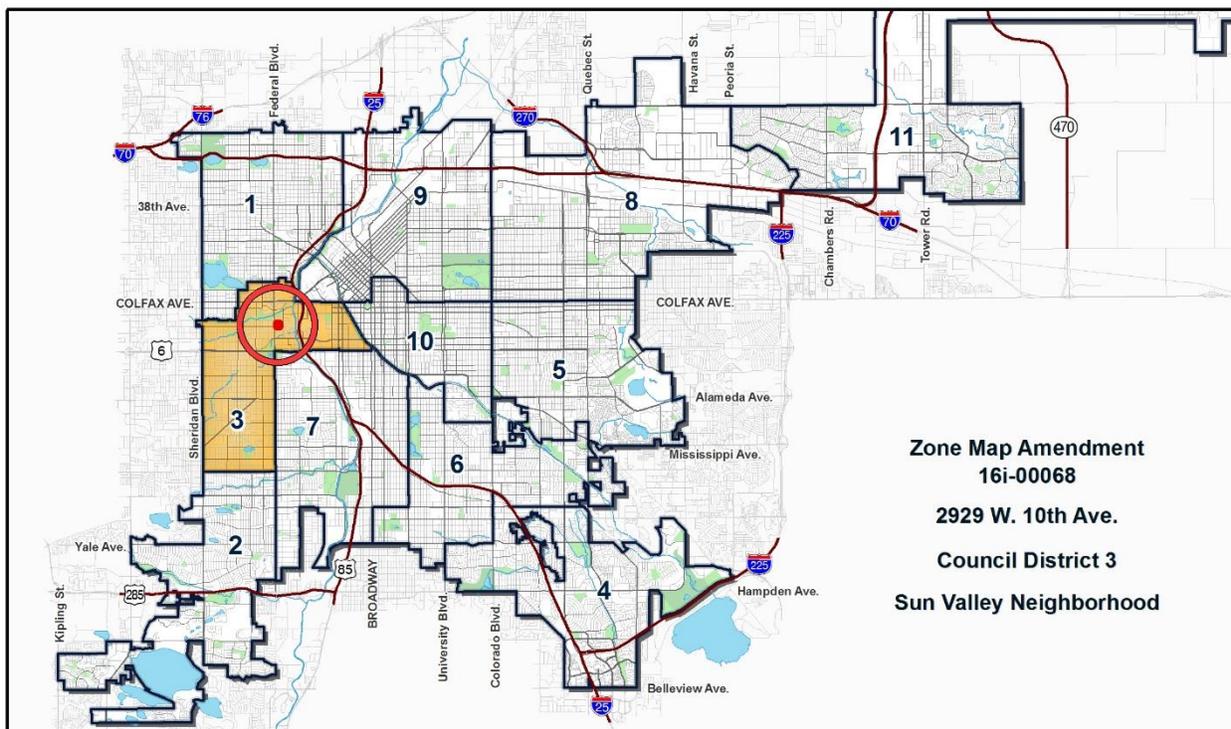

Request for Rezoning

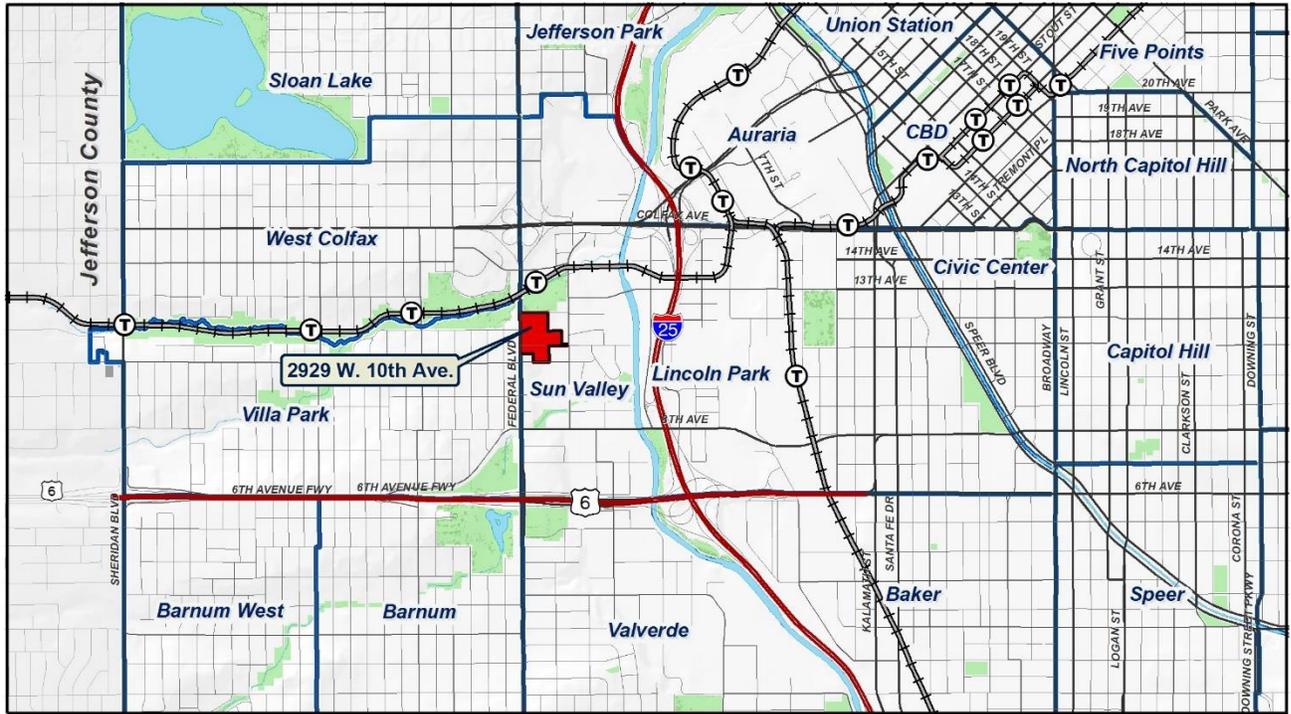

Address: 1100 Federal Blvd. and 2929 W. 10th Ave. (collectively referred to in application as 2929 W. 10th Ave.)
Neighborhood/Council District: Sun Valley, Council District 3
RNOs: Sun Valley Community Coalition, West Denver United, Federal Boulevard Corridor Improvement Partnership, Inter-Neighborhood Cooperation, Center City Denver Residents Organization
Area of Property: 12.18 acres
Current Zoning: PUD # 487
Proposed Zoning: C-MX-5
Property Owner(s): Denver Public Facilities Leasing Trust; Denver Health and Hospital Authority
Applicant: Denver Department of Human Services

Summary of Rezoning Request

- This is a request to rezone a campus of health care and social services facilities located in the Sun Valley statistical neighborhood near the intersection of Federal Blvd. and Holden Pl.
- The campus comprises Denver Human Services' Richard T. Castro Human Services Center, Denver Health's Westside Clinic, a parking garage and a building that formerly housed the Denver Family Crisis Center until that facility's closure in 2016.
- The current zoning on the site is Former Chapter 59 PUD #487.
- The requested C-MX-5 zone district is in the Urban **C**enter context, allowing **M**ixed uses, generally up to **5** stories in height. C-MX districts are intended to encourage a mix of residential and commercial uses with pedestrian-friendly design standards.

- The purpose of the proposed rezoning is twofold: to establish zoning from the current Denver Zoning Code that is in line with surrounding zoning and implements local planning objectives; and to permit adaptive reuse of the site by allowing more flexibility than the current PUD.
- A key catalyst for this proposal is a desire to re-use the former Family Crisis Center, at 2929 W. 10th, which provided shelter for displaced youth until its closure in 2016. The PUD specifies that residential care uses on the site may only serve children under 12. Denver Human Services' Office of Behavioral Health Strategies proposes reopening the building as a residential care facility for adults experiencing mental health crises. Referred to as a "Solutions Center," this proposed facility is one of several city efforts aimed at addressing homelessness and helping people get into stable, longer-term housing.
- The C-MX-5 zone district permits residential care facilities, including shelters, uses as regulated by the DZC's Use Limitations for Group Living uses.
- This is the second rezoning request to impact PUD #487. Approximately 1/4 of the PUD's previous area was rezoned to C-MX-5 in 2017 for similar reasons. This request is for the remaining balance of the PUD.

Existing Context

The existing context for this request is a 12-acre complex of 2, 3 and 4-story office buildings, a 3-story parking garage and surface parking. The complex is situated between Rude Park and Lakewood Gulch to the north, multi-unit housing to the east and south, and Federal Blvd. to the west. It is served by streets at the perimeter of the block, and the interior is served by drive aisles and walkways, including the vacated former alignment of 11th Ave. The immediate area includes several subsidized housing developments, including a large Denver Housing Authority apartment complex. Major industrial uses, including an Xcel Energy substation, are nearby. North of Lakewood Gulch are the Decatur-Federal RTD light rail station and parking lots for Mile High Stadium.

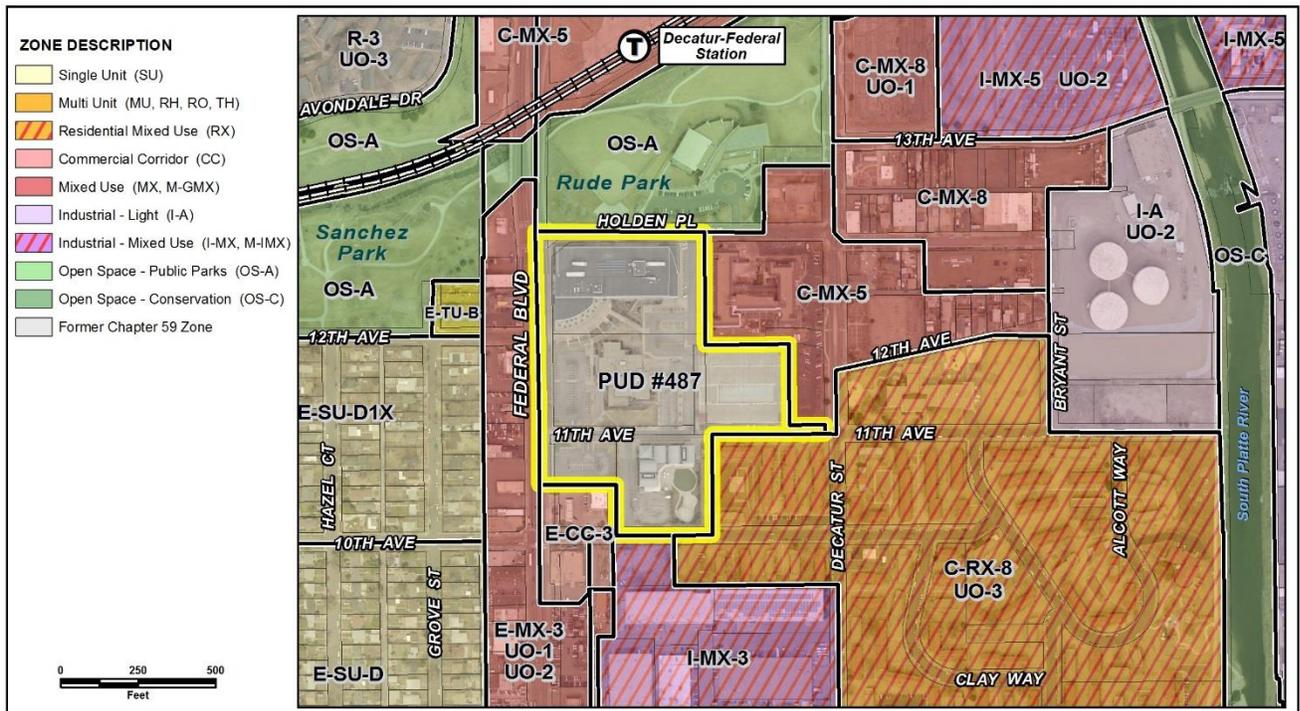

The following table summarizes the existing context proximate to the subject site:

	Existing Zoning	Existing Land Use	Existing Building Form/Scale	Existing Block, Lot, Street Pattern
Site	PUD 487	Office and Medical uses, Parking	2- and 3-story office buildings, parking garage	Generally rectangular grid of streets, with larger block sizes and no alleys. Site primarily served by internal drive aisles, including former 11 th Ave. alignment.
North	OS-A, C-MX-5	Recreational/Park (Rude), Quasi-Public (Recreation Center)	Mix of apartments, small commercial structures	
South	I-MX-3, E-CC-3	Multi-Unit residential, Industrial	2-story linear apartment complexes arranged around lawns and recreation spaces; larger-scale industrial structures further to the south.	
East	C-MX-5, C-RX-8 UO-3	Single-Unit, Multi-Unit residential, DHA (public housing)	mix of apartment and single-unit housing, elementary school	
West	E-MX-3 UO-1, UO-2. Farther west: OS-A, E-SU-D1x, E-TU-B	Commercial (along Federal), Park (Paco Sanchez), Residential	Federal Blvd. corridor commercial structures, single-unit detached housing	

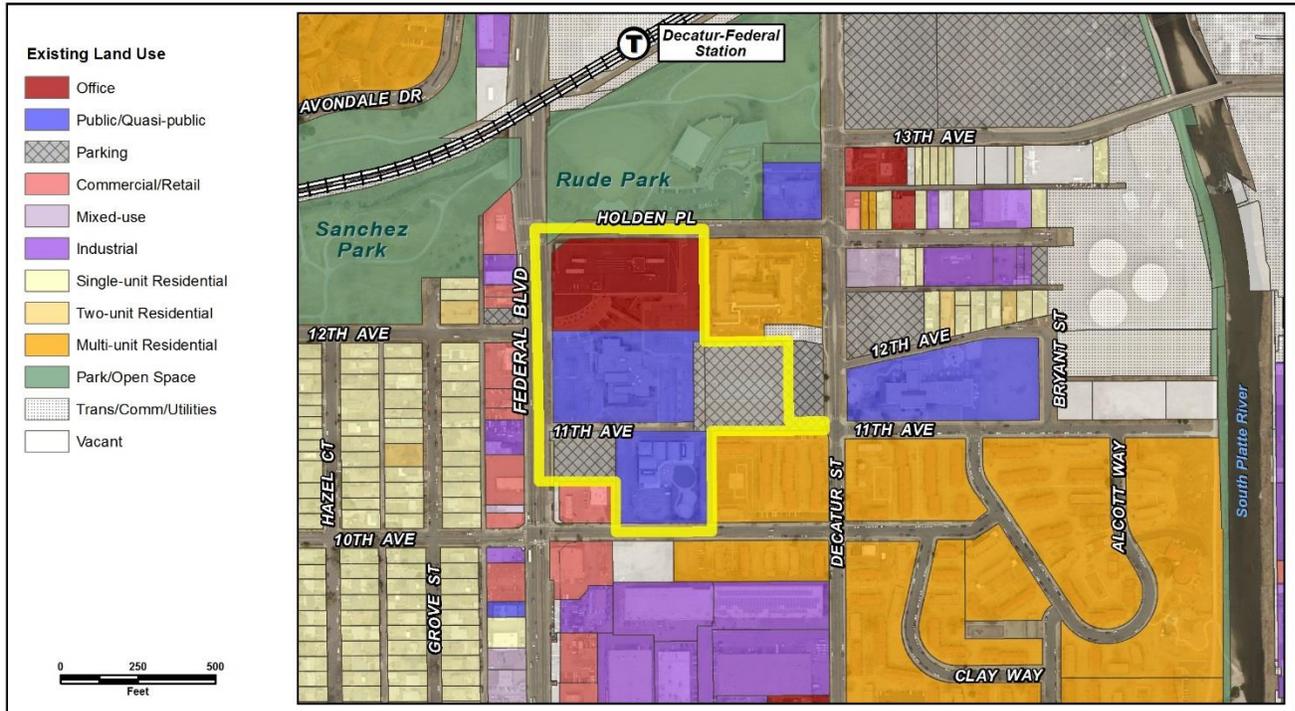

1. Existing Zoning

The current zoning on the site is Former Chapter 59 PUD #487. The site is designated as Subarea 1 in the PUD. A former Subarea 2 of PUD #487 was rezoned to C-MX-5 in 2017, also to allow for expanded uses. The PUD permits Office, Child Care, Medical or Dental Clinic, Parking and a facility described as Residential Care/Family Counseling/Evaluation/Therapy facility limited to overnight stays for youth 0-12 years of age.

2. Existing Land Uses

Assessor data shows the existing uses of the site are offices, medical clinics and surface parking.

3. Existing Building Form and Scale

Existing building forms and scales found in the area are shown in the series of 45-degree aerials and street-view images of key sites on the following pages, sourced from Google Maps.

Summary of City Agency Referral Comments

As part of the DZC review process, the rezoning application is referred to potentially affected city agencies and departments for comment. A summary of agency referral responses follows:

Public Works – City Surveyor: Approved. There is a typo in the first description third paragraph. The word "REBARD" should be REBAR. The first description matches with what is recorded at reception number 2005132001. The second description matches with what is recorded at reception number 1982094164. (Note: some discrepancies were later discovered in the legal description by CPD GIS staff and have since been addressed with an update legal description. This staff report will be updated to reflect any modifications of the Surveyor's approval.)

Development Services – Project Coordination: Approved – No Comments

Development Services – Wastewater: There is no objection to the rezone, however applicant should be under notice that the Public Works will not approve any development of this property without assurance that there is sufficient sanitary and storm sewer capacity. A sanitary study and drainage study may be necessary. These studies may result in a requirement for the developer to install major infrastructure improvements or a limit to development if current infrastructure is insufficient.

Asset Management: Approved – No Comments

Department of Public Health and Environment: Approved with comments. The Property is adjacent to a leaking underground storage tank site at 1000 N Federal Blvd. The site is the location of a leaking underground storage tank (LUST) where a confirmed release was noted in 2007. The release was investigated, remediated and monitored through July 2010 when the Colorado Department of Labor and Employment, Division of Oil and Public Safety (OPS) issued a closure letter. Based on information provided by OPS, the LUST site is hydraulically up gradient and could be environmental concern for the Property if

excavations encounter groundwater. Denver Department of Public Health and Environment is not aware of other environmental concerns on the Property and concurs with the rezoning request.

Additional generalized comments followed about radon mitigation, asbestos and lead-based paint, fugitive particulate emissions and the Noise Ordinance.

Registered Neighborhood Organizations (RNOs)

- The RNOs identified on page 1 of this report were notified of this application. The Sun Valley Community Coalition took a vote on the proposal at their August 7 meeting, during which 7 members (6 adults, 1 youth) voted to support the application, and 12 members (9 adults, 3 youth) voted to oppose it.
- The Coalition provided the following commentary in August: Members feel that due to the unmet neighborhood needs, the best use of the Family Crisis Center located at 2929 W 10th is as a youth mental health facility that would serve the significant numbers of youth already living in Sun Valley (and surrounding neighborhoods) who have experienced trauma from past homelessness, basic needs insecurity, domestic/relationship violence, child abuse/neglect and/or as refugees as well as those youth that will move to Sun Valley as a result of development which will triple the number of subsidized and affordable units(1,000+). There is general disappointment that the City would not

consider use of that facility for a school with strong mental health component, or other youth mental health services.

While there is appreciation for the City's disclosure of the true reason for the rezoning application which is to repurpose the facility to become The Solution Center providing emergency mental health and substance in-patient care up to 5 days with an additional 30 days transitional housing for 43 individuals experiencing mental health crisis, there continues to be concern as to how this effort promotes the safety and well-being of the neighborhood. It will be next door to over 200 affordable units that primarily house women and children, the Westside Health Clinic which serves a large percentage of children, and in close proximity to additional family housing and within one block of an elementary school.

Members did appreciate that the City postponed the application to engage with the Choice Neighborhood Planning process and its Community Advisory Board, agreeing to provisions that no known registered sex offenders would be admitted and that a Good Neighbor Agreement and Community Advisory Board would be developed. There are still a lot of unknowns. There is also concern that while the City says there are no plans for redeveloping other parcels within the PUD, the rezoning application infers that approval would allow for other kinds of mixed use development in the future. Similarly, Denver Health has stated that while there are no immediate plans for redeveloping its parcels, it is anticipated that the aging and maximumly utilized Westside Health Center will need to be addressed at a future date. The rezoning to CMX-5 provides substantial leeway for future development with no plan in place other than converting the Family Crisis Center and some renovations to the Castro Building to increase capacity. While this administration has stated that it will continue to engage with community development efforts, there is no required process that future administrations will do so. And given that the impacted neighborhood was not included in decisions to repurpose this community asset, it has been expressed by members that there is little to encourage a more hopeful outlook.

On the positive side, those voting to Support the rezoning stated that the Solution Center, recognized that The Solution Center will provide a badly needed service for the greater Denver community - helping to close a service gap and preventing more serious incidents from occurring.

- The Sun Valley Community Coalition sent another letter on Nov. 8 reiterating that they do not support the rezoning, and requesting that the matter be postponed until agreement is reached on a proposed Good Neighbor Agreement that would address community concerns such as criteria for admissions to the Solutions Center (i.e. a prohibition on sex offenders, etc.), transparency and external impacts. This letter is attached to the staff report.

Other Public Input

- Staff received three letters related to this rezoning – one in support of the would-be Solutions Center operator Mental Health Center of Denver (MHCD) and two others specifically in support of the proposed rezoning.

Planning Board

This proposed rezoning was considered by the Denver Planning Board on Wednesday, Sept. 5. The board voted 7:1 to recommend approval.

Criteria for Review / Staff Evaluation

The proposed rezoning is to rezone from PUD 487 Subarea 1 to C-MX-5. The criteria for review of this rezoning application are found in DZC, Sections 12.4.10.7 and 12.4.10.8, as follows:

DZC Section 12.4.10.7

1. Consistency with Adopted Plans
2. Uniformity of District Regulations and Restrictions
3. Public Health, Safety and General Welfare

DZC Section 12.4.10.8

1. Justifying Circumstances
2. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

Sec. 12.4.10.7, General Review Criteria Applicable to All Zone Map Amendments

A. Consistency with Adopted Plans

The following Adopted Plans apply to the subject properties:

- Denver Comprehensive Plan 2000
- Blueprint Denver (2002)
- Decatur-Federal Station Area Plan (2013)

Denver Comprehensive Plan 2000

The proposal is consistent with many Denver Comprehensive Plan strategies, including:

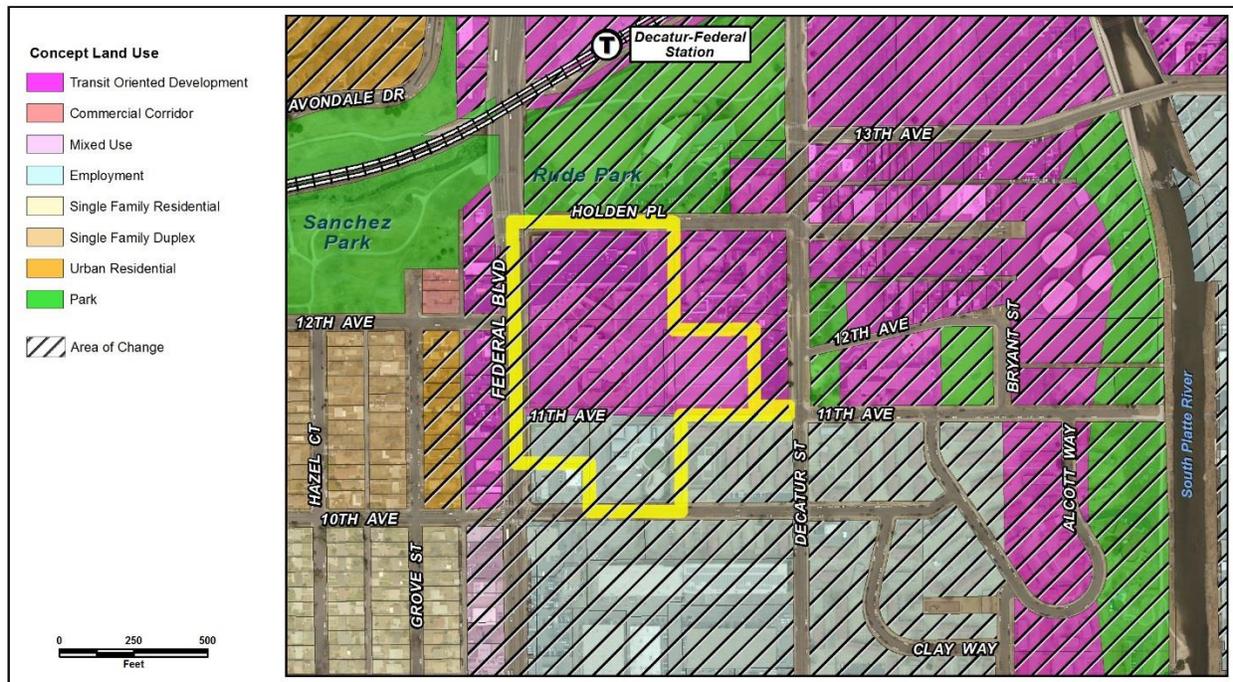

- Environmental Sustainability Strategy 2-F – Conserve land by: promoting infill development within Denver at sites where services and infrastructure are already in place. Designing mixed-use communities and reducing sprawl, so that residents can live, work and play within their own neighborhoods. Creating more density at transit nodes. (p. 39)
- Environmental Sustainability Strategy 4-A – Promote the development of sustainable communities and centers of activity where shopping, jobs, recreation and schools are accessible by multiple forms of transportation, providing opportunities for people to live where they work. (p. 41)
- Land Use Strategy 3-B – Encourage quality infill development that is consistent with the character of the surrounding neighborhood; that offers opportunities for increased density and more amenities; and that broadens the variety of compatible uses. (p. 60)
- Land Use Strategy 4-A – Encourage mixed-use, transit-oriented development that makes effective use of existing transportation infrastructure, supports transit stations, increases

transit patronage, reduces impact on the environment, and encourages vibrant urban centers and neighborhoods. (p. 60)

- Mobility Strategy 4-E – Continue to promote mixed-use development, which enables people to live near work, retail and services. (p. 78)
- Denver’s Legacies Strategy 3-A – Identify areas in which increased density and new uses are desirable and can be accommodated. (p. 99)

The proposed map amendment will enable mixed-use development at an infill location where services and infrastructure are already provided and where additional transit-oriented development (TOD) investment is planned. The opening of the Decatur-Federal light rail station has helped catalyze opportunities for sustainable transit-oriented living, consistent with Comprehensive Plan 2000. The C-MX-5 zone district broadens the variety of uses to include additional commercial uses to allow for residents to access additional services with pedestrian-friendly design standards appropriate for the site considering its opportunity for TOD infill development. The rezoning is consistent with these plan recommendations.

Blueprint Denver

Concept Land Use: According to the Blueprint Denver Plan Map, updated by subsequent adopted plans, this site spans two Concept Land Uses. The northern two-thirds of the site, north of 11th Ave., has a concept land use of Transit Oriented Development (TOD), while the portion of the site south of 11th Ave. is designated as an Employment District.

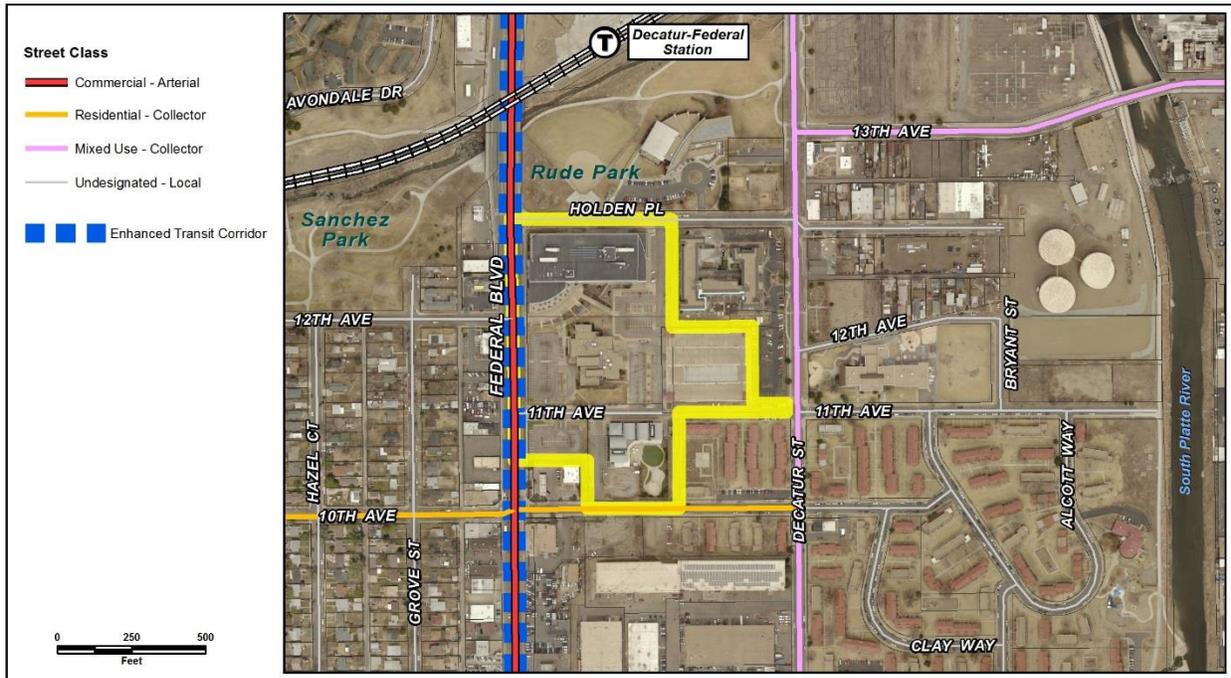

TOD areas are unique in that they “offer an alternative to traditional development patterns by providing housing, services and employment opportunities for a diverse population in a configuration that

facilitates pedestrian and transit access” (P. 44). These areas are intended to develop or redevelop with compact, mid- to high-density development featuring a pedestrian-friendly and attractive pedestrian environment. The C-MX-5 zone district is consistent with this future land use classification because it enables a wide variety of commercial, residential, office, public facilities and other similar land uses, and because the C-MX-5 building form standards promote an attractive pedestrian environment.

Employment areas “contain office, warehousing, light manufacturing and high-tech uses such as clean manufacturing or information technology” (p. 39) and are typically located in areas with access to major arterials and/or interstates. The area of the subject site designated for Employment is further described in the Decatur Federal Station Area Plan as “Employment TOD” (see Decatur Federal Station Area Plan, below), which is intended to have a similar fine-grained, transit- and pedestrian-friendly urban form as it redevelops in the future. The C-MX-5 zone district permits many employment uses, including office, communications, retail and limited manufacturing and industrial uses, while providing the building form standards that will enable the development over time of transit-oriented employment uses in this area. Moreover, the less-intensive employment uses permitted by the C-MX-5 zone will help provide a transition between the more intense uses of the Employment Area envisioned south of 11th Ave. and the more mixed-use oriented Transit-Oriented Development area north of 11th Ave. as this area redevelops in the future.

Area of Change: The subject site is designated by Blueprint Denver as an Area of Change. The goal for Areas of Change is to channel growth where it will be beneficial and can best improve access to jobs, housing and services with fewer and shorter auto trips” (p. 127). Rezoning to the C-MX-5 zone district will enable the site to accommodate new uses and services that will improve access to jobs, housing and services. Therefore, the rezoning application is consistent with the Blueprint Denver Area of Change recommendations.

Street Classifications: This site has frontage on several streets, including Decatur Street, Federal Blvd., 10th Ave. and Holden Place. It also spans a one-block stretch of 11th Ave. which runs east from Federal and terminates into parking lots within the subject area.

Blueprint Denver classifies Decatur Street as a Mixed Use Collector. According to Blueprint Denver, “collectors are designed to provide a greater balance between mobility and land access within residential, commercial and industrial area” (p. 51). Mixed Use Streets are “located in high-intensity mixed-use commercial, retail and residential areas with substantial pedestrian activity” and are “attractive for pedestrians and bicyclists” (p. 57).

Blueprint Denver identifies Federal Blvd. as a Commercial Arterial, which typically serves commercial areas and retail strip centers with parking lot access points along the street. Such streets are intended to balance traffic mobility with access to nearby businesses and activities (P. 58). Pedestrian facilities are among the priority design elements recommended for Commercial Arterials.

Holden Place and 11th Ave. are designated by Blueprint Denver as Local Streets, which are intended primarily to provide local access. “Mobility on local streets is typically incidental and involves relatively short trips at lower speeds to and from other streets” (p. 51).

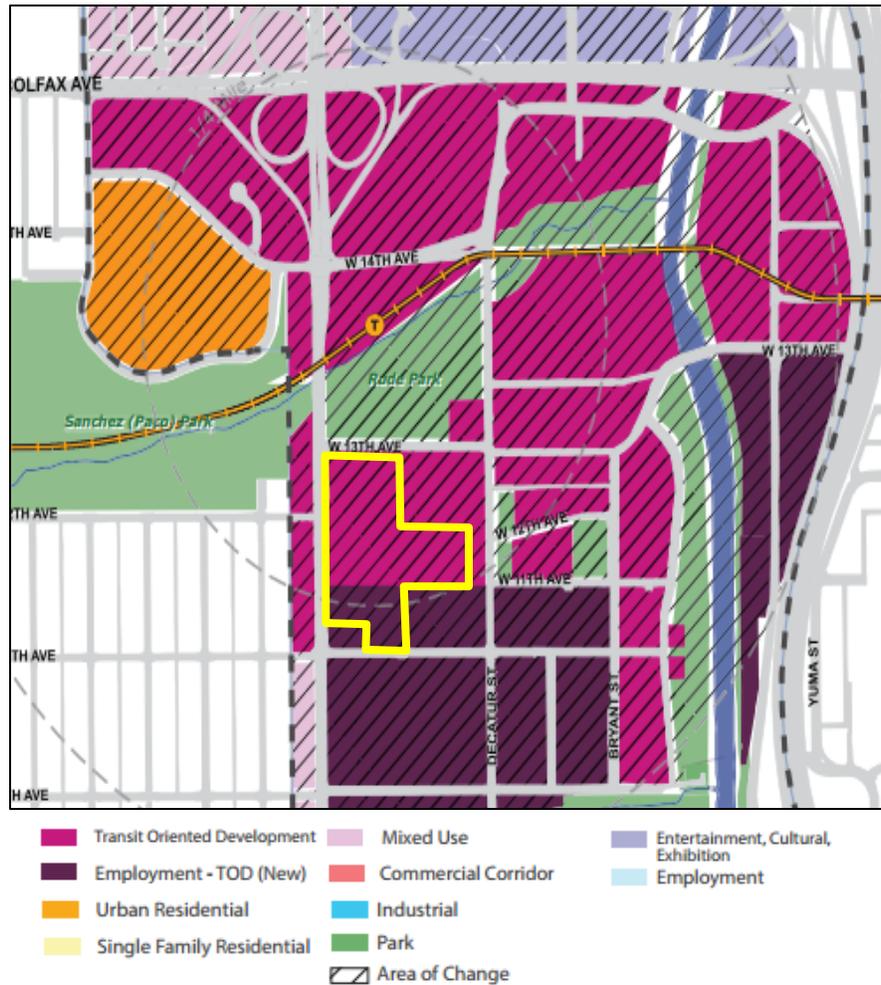

The C-MX-5 zone district is consistent with the recommendations of these future street classifications, as the zone district will allow for a broad mix of uses, and require pedestrian-friendly design within close proximity to the Decatur-Federal light rail station. The existing PUD zone districts do not have any standards related to street level activation such as transparency, or pedestrian entries which would support a mixed-use street (e.g. Decatur) and pedestrian functionality of a commercial arterial (Federal). The rezoning to C-MX-5 at the subject site is consistent with Blueprint Denver’s plan recommendations.

PUD Zoning: Blueprint Denver recommends rezoning obsolete PUDs. “Concerns with PUDs are that their widespread proliferation has increased the complexity of regulating land use, and the conditions they place on development sometimes perform poorly and inflexibly once the PUD has been adopted.

This issue can be addressed if the city acts on the authority to repeal obsolete PUD zoning and change it to a more appropriate district” (p. 82). Rezoning to a standard zone district will eliminate the inflexibility of the old PUD, consistent with Blueprint Denver’s recommendation.

Decatur-Federal Station Area Plan

The Decatur-Federal Station Area Plan was adopted by City Council in April of 2013, and applies to the subject property. The Plan establishes a long range vision and guiding principles for the development and future of the Decatur-Federal Station area. The elements of this Plan will direct the community toward a vision for a celebrated, connected, innovative and healthy Station Area.

Character Areas: The Decatur-Federal Station Area Plan designates the subject site as the Transit Oriented Development and Employment TOD. Recommendations relevant to the TOD character area are as follows:

- Encourage both a vertical and horizontal mix of land uses including multifamily residential, office, commercial, and public uses (p. 40).
- Attract high quality, mixed income residential communities within the TOD area (a transformative project in this Plan). Encourage housing development that meets the needs of families, young professionals, students and elderly households of various income levels. A variety of residential building forms appropriate for this TOD include row houses, low-, mid-, and high-rise multifamily, and live/work (p. 40).
- Encourage a mix of building heights and variation in building forms to provide visual interest, needed sunlight, air circulation and natural view corridors. Respect maximum building heights of 5 to 12 stories, per the Maximum Building Heights Map (p. 40).

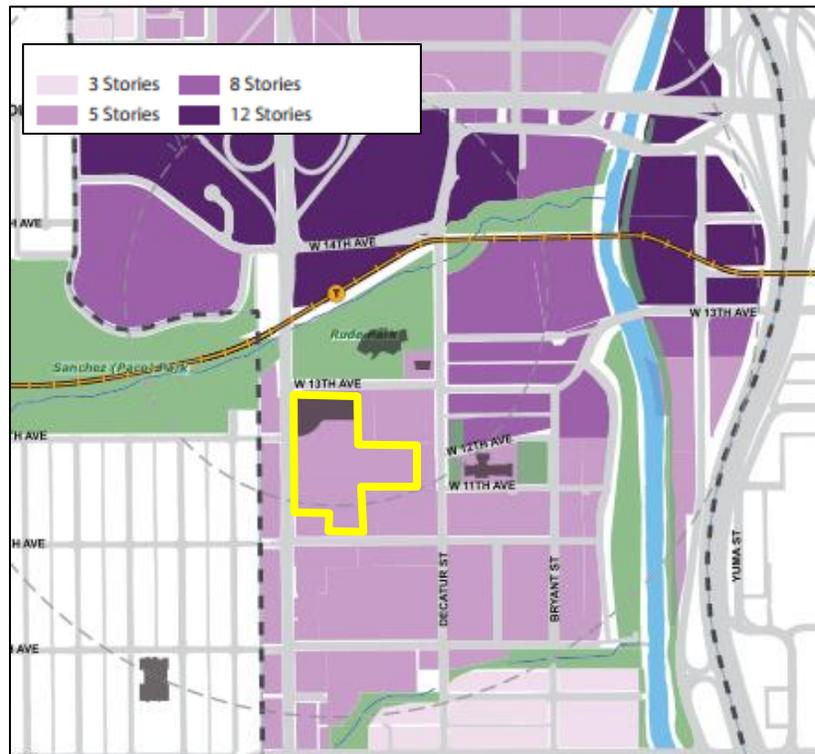

A portion of the subject site (between 10th and 11th Avenues) is part of a larger area designated as Employment Transit Oriented Development. Much of the larger area is currently a public housing complex. The Denver Housing Authority has plans to eventually replace the housing with a new, mixed-income, mixed-use development closer to the RTD station to the north. Much of the area that is now the housing complex is envisioned for fine-grained, transit friendly employment-related development. The Decatur Federal Station Area Plan's recommendations relevant to this character area are comparable to those for the Transit Oriented Development Character Area, and include:

- Encourage a vertical and horizontal mix of land uses, including light industrial, small office, institutional/vocational, commercial, flex and live/work (p. 50).
- Create more compact development patterns with smaller blocks, a connected street grid and consistent building frontages that spatially define streets and open spaces. (p. 50)

The C-MX-5 zone will implement the design objectives and provide for many of the uses envisioned by these designations in the Decatur Federal Station Area Plan.

Area of Change: The Decatur Federal Station Area Plan designates the subject site as an Area of Change which is more specifically described as "locations where Denver intends to direct residential and employment growth taking advantage of existing and planned transit infrastructure" (p. 92). The subject property is located within ¼ mile of the rail station and able to accommodate additional residential and employment growth.

Building Heights: The Decatur-Federal Station Area Plan identified several urban design principles aimed at maximizing development quality and pedestrian amenities, especially within areas identified for TOD and Employment TOD. These included a map of recommended building heights conceived to ensure appropriate variation and transitions to adjacent areas. The subject site is recommended for maximum building heights of five stories (see map, right). The proposed C-MX-5 zone district is consistent with these recommendations, as it will encourage higher intensity mixed use development with pedestrian-friendly design standards, up to a height of 5 stories (p. 39-40).

B. Uniformity of District Regulations and Restrictions

The proposed rezoning to C-MX-5 will result in the uniform application of zone district building form, use and design regulations.

C. Public Health, Safety and General Welfare

The proposed official map amendment furthers the public health, safety, and general welfare of the City primarily through implementation of the city's adopted land use plans including Comprehensive Plan 2000, Blueprint Denver, the Decatur-Federal Station Area/Sun Valley Neighborhood Plan. Additionally, the allowance for more community serving uses will promote the public health, safety, and general welfare of the City. The improved pedestrian environment created by the C-MX-5 building form standards improves the general welfare of the community.

Sec. 12.4.10.8 Additional Review Criteria for Non-Legislative Rezonings

A. Justifying Circumstance

The application identifies several changed or changing conditions as the Justifying Circumstance under DZC Section 12.4.10.8.A.4.a. Since the approval of the current PUD in 1999, the City and more specifically the Sun Valley neighborhood has undergone significant change. Some of the more notable changes are associated with the planning, construction and opening of the Decatur-Federal light rail station, creating a shift in transportation opportunity that supports higher-intensity, mixed use development. Large portions of nearby properties located within the station area are pursuing redevelopment and rezoning, signaling an evolution in the surrounding environs. Additionally, many adopted plan recommendations state and further reinforce that redevelopment and reinvestment of the area is desired. As stated in the application, the current zoning does not reflect the City's vision as reinforced by the Decatur-Federal Station Area Plan. Accordingly, Sec. 12.4.10.8.A.4.a. is an appropriate justifying circumstance for the proposed rezoning. Additionally, this proposal is consistent with the criteria set forth in Sec. 12.4.10.8.A.4.c., as it would result in the rezoning of Former Chapter 59 zoning to a district from the Denver Zoning Code.

B. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

The requested C-MX-5 zone district is within the Urban Center Neighborhood Context. The Mixed Use Zone Districts are intended to promote safe, active, and pedestrian-scaled, diverse areas through the

use of building forms that clearly define and activate the public street edge (DZC 7.1). The neighborhood context generally consists of multi-unit residential and mixed-use commercial strips and commercial centers. The Urban Center Neighborhood Context consists of a regular pattern of block shapes surrounded by an orthogonal street grid, providing a pattern of pedestrian and vehicular connections and a consistent presence of alleys. Block sizes and shapes are consistent and include detached sidewalks, tree lawns, street and surface parking, and landscaping in the front setback. Buildings typically have consistent orientation and shallow setbacks with parking at the rear or side of a building. The Urban Center Neighborhood Context is characterized by moderate to high building heights to promote a dense urban character. There are also high levels of pedestrian and bicycle use with the greatest access to the multimodal transportation system (DZC, Division 7.1). It is appropriate to apply zoning within the Urban Center Neighborhood Context at this location because of the adopted plan vision described earlier as well as the multimodal transportation context. The proposed rezoning to C-MX-5 will lead to development that is consistent with the zone district purpose and intent.

BARGAIN AND SALE DEED

THE CITY AND COUNTY OF DENVER, a municipal corporation and home rule city of the State of Colorado (Grantor"), having an address of City and County Building, Room 350, Denver, Colorado 80202, for good and valuable consideration, the receipt and sufficiency of which are acknowledged, hereby sells and conveys to the DENVER HEALTH AND HOSPITAL AUTHORITY, a body corporate and political subdivision of the State of Colorado (Grantee"), having an address of 660 Bannock, 5th Floor, Denver, Colorado 80204, the real property in the City and County of Denver, State of Colorado, that is more particularly described on Exhibit A attached to and made a part of this deed, together with all its appurtenances, all buildings and improvements (including without limitation, all fixtures, trade fixtures, walkways, parking lots and structures, signs and landscaping), all underground tunnels now located under or on such real property, all water rights, all air space above such property, and all easement rights appurtenant to such real property or necessary for the use thereof (collectively, the "Property").

Grantee agrees that Grantor shall have and is hereby granted a power of termination with right of re-entry with respect to the Property upon the occurrence of the events set forth in paragraphs 1, 2 and 3 below:

1. The occurrence or existence of any one of the following events:
 - a. If the Grantee voluntarily abandons, vacates or surrenders all or substantially all of the Property other than pursuant to the terms and conditions of the Transfer Agreement, dated as of January 1, 1997 between Grantor and Grantee (the "Transfer Agreement") and other than pursuant to an eminent domain or condemnation proceeding initiated by the Grantor;
 - b. The Grantee shall file a petition in bankruptcy; be adjudicated insolvent or bankrupt; petition or apply to any tribunal for the appointment of a receiver of any trustee or similar officer for the Grantee or a substantial part of the assets of the Grantee; or shall commence any proceedings under any bankruptcy, reorganization, arrangement, readjustment of debt, dissolution or liquidation law or statute of any jurisdiction, whether now or hereafter in effect, that remains undismissed for a period of ninety days or more;
 - c. If a court of competent jurisdiction determines that the Grantee has failed to perform its Mission (as such term is defined in the Transfer Agreement); or
 - d. An event of default shall occur under any mortgage encumbering all or any part of the Property (which mortgage is permitted pursuant to the terms of the Transfer

#223141v4

Agreement) with respect to an indebtedness in excess of \$10,000,000 and the mortgagee shall have provided notice to the Grantee of its intention to accelerate the debt and commence the exercise of such mortgagee's remedies against the Grantee.

2. The mortgagee, if any, under any mortgage given by the Grantee in accordance with the provisions of Transfer Agreement encumbering all or any part of the Property shall fail to exercise any right of cure given to such mortgagee pursuant to the Transfer Agreement; and

3. The period of thirty days shall have elapsed after (a) the occurrence of an event described in paragraph 1 above and (b) any mortgagee's failure to cure as set forth in paragraph 2 above.

Grantee also agrees that upon dissolution of Grantee, the Property and all other assets of the Grantee shall automatically revert to Grantor and Grantor is hereby granted a right of reverter.

Grantee further agrees that Grantee may not sell or otherwise transfer title to any of the Property (or any buildings or improvements comprising a part of the Property) unless (1) the sale or transfer is in compliance with C.R.S. § 25-29-104 (2), and (2) is approved by the Grantor.

Each of the foregoing agreements of Grantee is intended to be and shall be construed as a covenant running with the Property.

The terms and conditions of the Transfer Agreement shall not merge into the habendum, granting or reversionary clauses of this Deed and shall survive delivery of this Deed and all other documents delivered in connection herewith.

EXECUTED AND DELIVERED to be effective as of the 1st day of January, 1997.

BARGAIN AND SALE DEED

THE CITY AND COUNTY OF DENVER, a municipal corporation and home rule city of the State of Colorado (Grantor"), having an address of City and County Building, Room 350, Denver, Colorado 80202, for good and valuable consideration, the receipt and sufficiency of which are acknowledged, hereby sells and conveys to the DENVER HEALTH AND HOSPITAL AUTHORITY, a body corporate and political subdivision of the State of Colorado (Grantee"), having an address of 660 Bannock, 5th Floor, Denver, Colorado 80204, the real property in the City and County of Denver, State of Colorado, that is more particularly described on Exhibit A attached to and made a part of this deed, together with all its appurtenances, all buildings and improvements (including without limitation, all fixtures, trade fixtures, walkways, parking lots and structures, signs and landscaping), all underground tunnels now located under or on such real property, all water rights, all air space above such property, and all easement rights appurtenant to such real property or necessary for the use thereof (collectively, the "Property").

Grantee agrees that Grantor shall have and is hereby granted a power of termination with right of re-entry with respect to the Property upon the occurrence of the events set forth in paragraphs 1, 2 and 3 below:

1. The occurrence or existence of any one of the following events:
 - a. If the Grantee voluntarily abandons, vacates or surrenders all or substantially all of the Property other than pursuant to the terms and conditions of the Transfer Agreement, dated as of January 1, 1997 between Grantor and Grantee (the "Transfer Agreement") and other than pursuant to an eminent domain or condemnation proceeding initiated by the Grantor;
 - b. The Grantee shall file a petition in bankruptcy; be adjudicated insolvent or bankrupt; petition or apply to any tribunal for the appointment of a receiver of any trustee or similar officer for the Grantee or a substantial part of the assets of the Grantee; or shall commence any proceedings under any bankruptcy, reorganization, arrangement, readjustment of debt, dissolution or liquidation law or statute of any jurisdiction, whether now or hereafter in effect, that remains undismissed for a period of ninety days or more;
 - c. If a court of competent jurisdiction determines that the Grantee has failed to perform its Mission (as such term is defined in the Transfer Agreement); or
 - d. An event of default shall occur under any mortgage encumbering all or any part of the Property (which mortgage is permitted pursuant to the terms of the Transfer

#223141v4

Agreement) with respect to an indebtedness in excess of \$10,000,000 and the mortgagee shall have provided notice to the Grantee of its intention to accelerate the debt and commence the exercise of such mortgagee's remedies against the Grantee.

2. The mortgagee, if any, under any mortgage given by the Grantee in accordance with the provisions of Transfer Agreement encumbering all or any part of the Property shall fail to exercise any right of cure given to such mortgagee pursuant to the Transfer Agreement; and

3. The period of thirty days shall have elapsed after (a) the occurrence of an event described in paragraph 1 above and (b) any mortgagee's failure to cure as set forth in paragraph 2 above.

Grantee also agrees that upon dissolution of Grantee, the Property and all other assets of the Grantee shall automatically revert to Grantor and Grantor is hereby granted a right of reverter.

Grantee further agrees that Grantee may not sell or otherwise transfer title to any of the Property (or any buildings or improvements comprising a part of the Property) unless (1) the sale or transfer is in compliance with C.R.S. § 25-29-104 (2), and (2) is approved by the Grantor.

Each of the foregoing agreements of Grantee is intended to be and shall be construed as a covenant running with the Property.

The terms and conditions of the Transfer Agreement shall not merge into the habendum, granting or reversionary clauses of this Deed and shall survive delivery of this Deed and all other documents delivered in connection herewith.

EXECUTED AND DELIVERED to be effective as of the 1st day of January, 1997.

The proposed rezoning is to rezone from PUD 487 Subarea 1 to C-MX-5. The criteria for review of this rezoning application are found in DZC, Sections 12.4.10.7 and 12.4.10.8, as follows:

DZC Section 12.4.10.7

1. Consistency with Adopted Plans
2. Uniformity of District Regulations and Restrictions
3. Public Health, Safety and General Welfare

DZC Section 12.4.10.8

1. Justifying Circumstances
2. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

Sec. 12.4.10.7, General Review Criteria Applicable to All Zone Map Amendments

A. Consistency with Adopted Plans

The following Adopted Plans apply to the subject properties:

- Denver Comprehensive Plan 2000
- Blueprint Denver (2002)
- Decatur Federal Station Area Plan (2013)

Denver Comprehensive Plan 2000

The proposal is consistent with many Denver Comprehensive Plan strategies, including:

- Environmental Sustainability Strategy 2-F – Conserve land by: promoting infill development within Denver at sites where services and infrastructure are already in place. Designing mixed-use communities and reducing sprawl, so that residents can live, work and play within their own neighborhoods. Creating more density at transit nodes. (p. 39)
- Environmental Sustainability Strategy 4-A – Promote the development of sustainable communities and centers of activity where shopping, jobs, recreation and schools are accessible by multiple forms of transportation, providing opportunities for people to live where they work. (p. 41)
- Land Use Strategy 3-B – Encourage quality infill development that is consistent with the character of the surrounding neighborhood; that offers opportunities for increased density and more amenities; and that broadens the variety of compatible uses. (p. 60)
- Land Use Strategy 4-A - Encourage mixed-use, transit-oriented development that makes effective use of existing transportation infrastructure, supports transit stations, increases transit patronage, reduces impact on the environment, and encourages vibrant urban centers and neighborhoods. (p. 60)
- Mobility Strategy 4-E – Continue to promote mixed-use development, which enables people to live near work, retail and services. (p. 78)
- Denver’s Legacies Strategy 3-A – Identify areas in which increased density and new uses are desirable and can be accommodated. (p. 99)

The proposed map amendment will enable mixed-use development at an infill location where services and infrastructure are already provided and where additional transit-oriented development (TOD)

investment is planned. The opening of the Decatur/Federal light rail station has helped catalyze opportunities for sustainable transit-oriented living, consistent with Comprehensive Plan 2000. The C-MX-5 zone district broadens the variety of uses to include additional commercial uses to allow for residents to access additional services with pedestrian-friendly design standards appropriate for the site considering its opportunity for TOD infill development. The rezoning is consistent with these plan recommendations.

Blueprint Denver

Concept Land Use: According to the Blueprint Denver Plan Map, updated by subsequent adopted plans, this site spans two Concept Land Uses. The northern two-thirds of the site, north of 11th Ave., has a concept land use of Transit Oriented Development (TOD), while the portion of the site south of 11th Ave. is designated as an Employment District.

TOD areas are unique in that they “offer an alternative to traditional development patterns by providing housing, services and employment opportunities for a diverse population in a configuration that facilitates pedestrian and transit access” (P. 44). These areas are intended to develop or redevelop with compact, mid- to high-density development featuring a pedestrian-friendly and attractive pedestrian environment. The C-MX-5 zone district is consistent with this future land use classification because it enables a wide variety of commercial, residential, office, public facilities and other similar land uses, and because the C-MX-5 building form standards promote an attractive pedestrian environment.

Employment areas “contain office, warehousing, light manufacturing and high-tech uses such as clean manufacturing or information technology” (p. 39) and are typically located in areas with access to major arterials and/or interstates. The area of the subject site designated for Employment is further described in the Decatur Federal Station Area Plan as “Employment TOD.” (See Decatur Federal Station Area Plan, below), which is intended to have a similar fine-grained, transit- and pedestrian-friendly urban form as it redevelops in the future. The C-MX-5 permits many employment uses, including office, communications, retail and limited manufacturing and industrial uses, while providing the building form standards that will enable the development over time of transit-oriented employment uses in this area. Moreover, the less-intensive employment uses permitted by the C-MX-5 zone will help provide a transition between the more intense uses of the Employment Area envisioned south of 11th Ave. and the more mixed-use oriented Transit-Oriented Development area north of 11th Ave. as this area redevelops in the future.

Area of Change: The subject site is designated by Blueprint Denver as an Area of Change. The goal for Areas of Change is to channel growth where it will be beneficial and can best improve access to jobs, housing and services with fewer and shorter auto trips” (p. 127). Rezoning to the C-MX-5 zone district will enable the site to accommodate new uses and services that will improve access to jobs, housing and services. Therefore, the rezoning application is consistent with the Blueprint Denver Area of Change recommendations.

Street Classifications: This site has frontage on several major streets, including Decatur Street, Federal Blvd., 10th Ave. and Holden Place. It also spans a one-block stretch of 11th Ave. which runs east from Federal and terminates into parking lots within the subject area.

Blueprint Denver classifies Decatur Street as a Mixed Use Collector. According to Blueprint Denver, “collectors are designed to provide a greater balance between mobility and land access within residential, commercial and industrial area” (p. 51). Mixed Use Streets are “located in high-intensity mixed-use commercial, retail and residential areas with substantial pedestrian activity” and are “attractive for pedestrians and bicyclists” (p. 57).

Blueprint Denver identifies Federal Blvd. as a Commercial Arterial, which typically serves commercial areas and retail strip centers with parking lot access points along the street. Such streets are intended to balance traffic mobility with access to nearby businesses and activities (P. 58). Pedestrian facilities are among the priority design elements recommended for Commercial Arterials.

Holden Place and 11th Ave. are designated by Blueprint Denver as Local Streets, which are intended primarily to provide local access. “Mobility on local streets is typically incidental and involves relatively short trips at lower speeds to and from other streets” (p. 51).

The C-MX-5 zone district is consistent with the recommendations of these future street classifications, as the zone district will allow for a broad mix of uses, and require pedestrian-friendly design within close proximity to the Decatur-Federal light rail station. The existing PUD zone districts do not have any standards related to street level activation such as transparency, or pedestrian entries which would support a mixed-use street (e.g. Decatur) and pedestrian functionality of a commercial arterial (Federal). The rezoning to C-MX-5 at the subject site is consistent with Blueprint Denver’s plan recommendations.

PUD Zoning: Blueprint Denver recommends rezoning obsolete PUDs. “Concerns with PUDs are that their widespread proliferation has increased the complexity of regulating land use, and the conditions they place on development sometimes perform poorly and inflexibly once the PUD has been adopted. This issue can be addressed if the city acts on the authority to repeal obsolete PUD zoning and change it to a more appropriate district” (p. 82). Rezoning to a standard zone district will eliminate the inflexibility of the old PUD, consistent with Blueprint Denver’s recommendation.

Decatur Federal Station Area Plan

The Decatur Federal Station Area Plan was adopted by City Council in April of 2013, and applies to the subject property. The Plan establishes a long range vision and guiding principles for the development and future of the Decatur/Federal Station area. The elements of this Plan will direct the community toward a vision for a celebrated, connected, innovative and healthy Station Area.

Area of Change: The Decatur Federal Station Area Plan designates the subject site as an Area of Change which is more specifically described as “locations where Denver intends to direct residential and employment growth taking advantage of existing and planned transit infrastructure” (p. 92). The subject property is located within ¼ mile of the rail station and able to accommodate additional residential and employment growth.

Building Heights: The Decatur Federal Station Area Plan identified several urban design principles aimed at maximizing development quality and pedestrian amenities, especially within areas identified for TOD and Employment TOD. These included a map of recommended building heights conceived to ensure appropriate variation and transitions to adjacent areas. The subject site is recommended for maximum building heights of five stories (see map, right). The proposed C-MX-5 zone district is consistent with these recommendations, as it will encourage higher intensity mixed use development with pedestrian-friendly design standards, up to a height of 5 stories (p. 39-40).

B. Uniformity of District Regulations and Restrictions

The proposed rezoning to C-MX-5 will result in the uniform application of zone district building form, use and design regulations.

C. Public Health, Safety and General Welfare

The proposed official map amendment furthers the public health, safety, and general welfare of the City primarily through implementation of the city’s adopted land use plans including Comprehensive Plan 2000, Blueprint Denver, the Decatur-Federal Station Area/Sun Valley Neighborhood Plan. Additionally, the allowance for more community serving uses will promote the public health, safety, and general welfare of the City. The improved pedestrian environment created by the C-MX-5 building form standards improves the general welfare of the community.

Sec. 12.4.10.8 Additional Review Criteria for Non-Legislative Rezonings

A. Justifying Circumstance

The application identifies several changed or changing conditions as the Justifying Circumstance under DZC Section 12.4.10.8.A.4, “The land or its surrounding environs has changed or is changing to such a degree that it is in the public interest to encourage a redevelopment of the area or to recognize the changed character of the area.”

Since the approval of the current PUD in 1999, the City and more specifically the Sun Valley neighborhood has undergone significant change. Some of the more notable changes are associated with the planning, construction and opening of the Decatur/Federal light rail station, creating a shift in transportation opportunity that supports higher-intensity, mixed use development. Large portions of nearby properties located within the station area are pursuing redevelopment and rezoning, signaling an evolution in the surrounding environs. Additionally, many adopted plan recommendations state and further reinforce that redevelopment and reinvestment of the area is desired. As stated in the application, the current zoning does not reflect the City’s vision as reinforced by the Decatur Federal Station Area Plan. Accordingly, Sec. 12.4.10.8.A.4 is an appropriate justifying circumstance for the proposed rezoning.

B. Consistency with Neighborhood Context Description, Zone District Purpose and Intent Statements

The requested C-MX-5 zone district is within the Urban Center Neighborhood Context. The Mixed Use Zone Districts are intended to promote safe, active, and pedestrian-scaled, diverse areas through the use of building forms that clearly define and activate the public street edge (DZC 7.1). The neighborhood context generally consists of multi-unit residential and mixed-use commercial strips and commercial centers. The Urban Center Neighborhood Context consists of a regular pattern of block shapes surrounded by an orthogonal street grid, providing a pattern of pedestrian and vehicular connections and a consistent presence of alleys. Block sizes and shapes are consistent and include detached sidewalks, tree lawns, street and surface parking, and landscaping in the front setback. Buildings typically have consistent orientation and shallow setbacks with parking at the rear or side of a building. The Urban Center Neighborhood Context is characterized by moderate to high building heights to promote a dense urban character. There are also high levels of pedestrian and bicycle use with the greatest access to the multimodal transportation system (DZC, Division 7.1). It is appropriate to apply zoning within the Urban Center Neighborhood Context at this location through the adopted plan vision described earlier as well as the multimodal transportation context. The proposed rezoning to C-MX-5 will lead to development that is consistent with the zone district purpose and intent.

To whom it may concern:

I am writing this letter to show my support for the Solution Center project and the opportunity that MHCD and the City have to expand services to those in crisis. As a peer specialist, I am a person with lived experience in mental health. For many years, I utilized services at MHCD that helped support me when I was in crisis and set my life on the right path. Throughout my life I have struggled with my own mental health, and I am well and employed at this time in part by the services I was able to access through MHCD.

With my own lived experience, including treatment followed by supportive employment and subsequent full-time employment, I know our community continues to grow stronger because of MHCD's work. I was able to get help and support when I needed it and later was able to get off social security and other benefits due to my employment. I have found there are few people out there who do not experience crisis in one form or another.

It is important that people who are in crisis are not taken to jail for their mental illness and that there is a place in the city where people can be helped and supported to get back on their feet. The services provided by the Mental Health Center of Denver, allowed my life to change positively and I know that my future is stable. My life is no longer defined by my mental health.

Sincerely,

Andrea Banks

To whom it may concern:

I am writing on behalf of a close friend who lives in Denver and has utilized the services of the Mental Health Center (MHCD). This individual, who has struggled with a substance use disorder and depression throughout his adult life, is alive today thanks in large part to the services offered by MHCD.

Following a suicide attempt and interaction with the criminal justice system, my friend started receiving services from MHCD. Today, he has a stable living situation, obtained work through 2Succeed—a vocational and employment support program offered by MHCD—and has a team of treatment providers supporting him in his ongoing recovery.

With my own lived experience, including family members who have struggled with mental illness, our community is stronger because of MHCD's work. Mental health affects everyone—either directly or indirectly.

It is critically important we have a crisis support system that provides compassionate care rather than a one-way ticket to jail. When I think of the importance of supporting individuals like my friend, I'm reminded of the line from Christopher Robin in *Winnie the Pooh*:

“Promise me you’ll always remember — you’re braver than you believe, and stronger than you seem, and smarter than you think.”

Because of the Mental Health Center of Denver, my friend is alive and has confidence his best days are ahead.

Sincerely,

RE: Application: #2016I-00068
2929 W 10th Ave Denver Human Services

Dear Members of the City Council and Mr. Webb:

Please consider this letter as a letter of support for the rezoning application referenced above. The new zoning request follows those that are recommended in the Decatur Federal Plan as well as the General Development Plans that have already been approved.

Should this change of zoning be approved, EarthLinks also supports the proposed use of the former Family Crisis Center as a Solutions Center for treatment and temporary housing of adults facing mental health challenges.

Thank you for your consideration.

Sincerely,

A handwritten signature in blue ink that reads "Kathleen M. Cronan".

Re: 2929 W. 10th Avenue rezoning PUD #487 to CMX-5
set for public hearing and final vote on Nov. 13, 2018

Dear Councilman Lopez,

We are respectfully requesting your leadership to postpone the vote scheduled for Nov. 13th pending the development of a Good Neighbor Agreement that addresses neighborhood concerns regarding the City's intent to repurpose the Family Crisis Center building located at this address. The City has disclosed the primary reason for the rezoning application is to allow for the implementation of a Solution Center for adults experiencing behavioral crises related to mental health.

Numerous conversations with City representatives and the selected contractor, Mental Health Centers of Denver, have taken place only after we received official notification that the application had been filed and we reached out to them and learned of their intent. We have been told that this is the only development planned for the Denver Human Services-Denver Health campus and it is the primary reason for the application for re-zoning.

We are asking for this postponement because as of today we still have no assurances in writing that neighborhood resident concerns will be addressed so as to mitigate the risk created by locating this Center at the doorstep of long-planned affordable housing that when completed, will house 2,000+ children and their mostly female single parents plus an elementary school – all within a 3 and 4 block radius directly east of the Solution Center.

It is our understanding that Denver's Solution Center, modeled upon a similar center in Seattle, will provide a 5-day crisis stabilization unit with an additional 30 days of temporary housing for a capacity of 45 adults. While the neighborhood acknowledges Denver's need for this alternative to jail and hospitalization that will serve hundreds of adults experiencing a mental health crisis many of which are

homeless, we also believe that neighborhood residents deserve written assurance that neighborhood safety and quality of life is also a priority.

I am forwarding the draft offered by MHCD with neighborhood's modifications and additions (in blue) that we submitted to MHCD and the City on October 25th. Our modifications and additions are mostly clauses taken from the Seattle Crisis Center GNA, the result of months of collaborative meetings, and that we believe to be relevant and helpful for Denver. On Oct. 30th, we received some answers to questions that had come up and a communication from MHCD stating that our draft response is under review and that we will hear from them by Nov. 23rd, ten days after the scheduled vote. We were frankly surprised that MHCD and the City did not readily agree to add these clauses since they were mostly taken directly from the model. However, MHCD and the Office of Behavioral Health Strategies, Department of Human Services (the contracting entity) did attend our monthly registered neighborhood meeting on Nov 6th and indicated that they did take our response very seriously but were trying to sort out if and how these points could be incorporated into a GNA and subsequently, the provider contract.

Councilman Lopez, we urge you and your colleagues to grant this postponement. The City leadership has asked all neighborhoods to do its part to ensure equitable opportunity for its citizens. We believe that Sun Valley is at the forefront of that effort. Sun Valley neighborhood residents, through an extensive participatory process have agreed to live vertically and in density so that hundreds more of Denver's most vulnerable families, seniors and disabled, many of whom have experienced challenging life experiences, will be afforded housing, jobs and economic opportunity.

With leadership provided by the Sun Valley EcoDistrict and the Denver Housing Authority, neighborhood residents, organizations and businesses have engaged in a 6-year process that has planned for all aspects of healthy living, including mental health. With so many single-parent working families, the Sun Valley neighborhood has and will continue to have a strong focus on children. Many, along with their parent, have experienced trauma related to basic needs (food, housing) insecurity and/or relationship violence. Currently, families must travel across town for MHCD services for their children, wait times are long and capacity is often full, particularly for day treatment services.

With this in mind, it is the wishes of the neighborhood that the Family Crisis Center continue to serve youth and the foremost reason why the Sun Valley Community Coalition took the position not to support the proposed zoning amendment. The 1999 Zoning Map Amendment established the Family Crisis Center as a resource to the community with specific conditions, and while the residential aspect of the model may no longer be considered a best practice, the day treatment service component (education in a therapeutic environment) is still relevant and needed. Because of this preference that needs no zoning change and because there are no other development plans for the PUD requiring a zoning change, the Sun Valley

Community Coalition has taken the position not to support the rezoning of 2929 W. 10th Ave. at this time.

If the City Council decides to approve the rezoning and sanction the implementation of the Crisis Solution Center over neighborhood preferences, then we ask that you address the understandable neighborhood anxiety and help ensure that the neighborhood is safe and enjoyable through a thoughtful and intentional GNA that works for the good of all.

The 1999 Zoning Map Amendment that added the Family Crisis Center to the PUD documents the rezoning as “an integral step in a development project that unites neighbors, government agencies and the private sector to work together toward positive social services solutions for the citizens of Denver.” Had the City chosen to engage with us regarding their plans prior to their filing of the rezoning application, we would have been happy to work together for the best solution. Sadly that did not happen. A thoughtful and intentional Good Neighbor Agreement, that is taken seriously and upheld, will help reestablish the trust and cooperation previously experienced.

Thank you for your consideration,

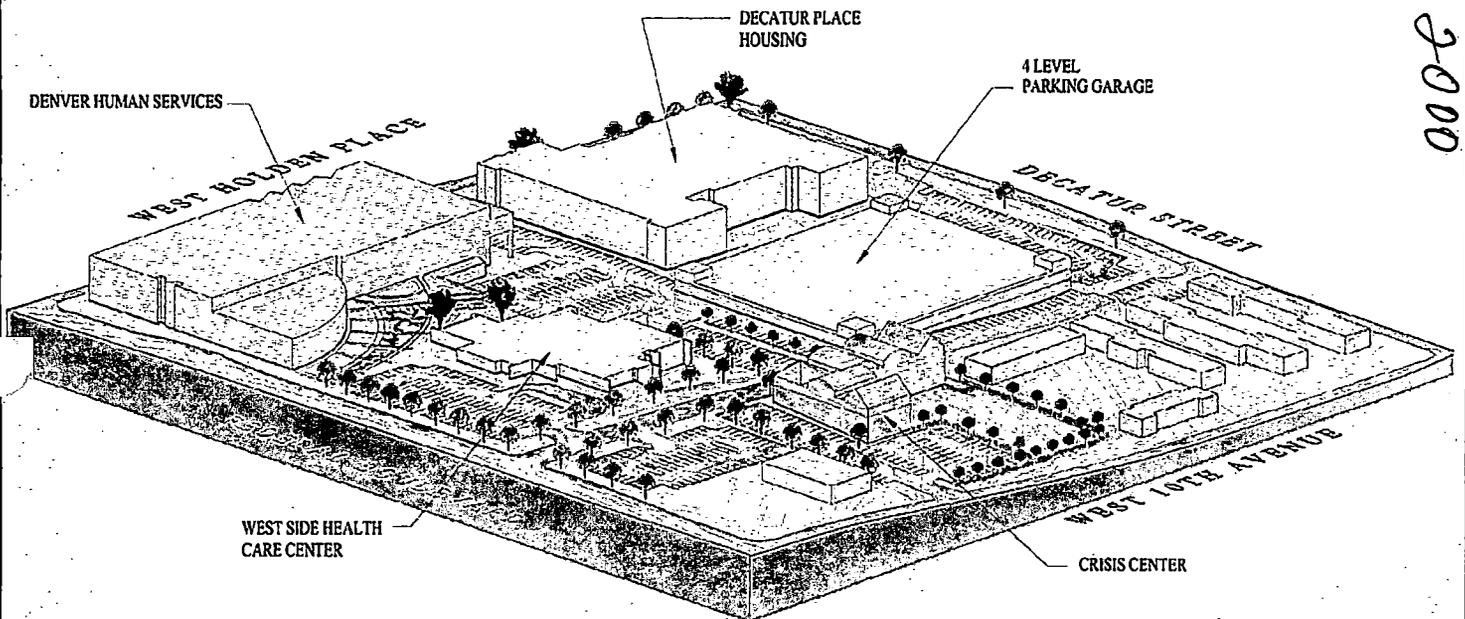

Jeanne M Granville, President

14. Proposed Zone
 PUD

15. Explain in detail the legal basis for the proposal: either (a) an error in the zoning map as approved by City Council, or (b) the changed or changing conditions that in the public interest make the map amendment necessary.

The legal basis for the proposal is changed condition or changing conditions. The changed condition is the critical need to provide a residential care use to be used as a crisis center for children in the Denver community.

16. State the land use and development proposed for the property to be rezoned. Include the time schedule (if any) for development.

The subject property will contain Denver Human Services (Office and child day care), Westside Health Center (Medical Clinic), Decatur Place (Multiple unit dwelling and child day care), the Crisis Center (a residential care use) and a parking garage. The proposed parking structure will be opened in the fall of the year 2000 and the Crisis Center will be completed by the summer of 2001. The other uses are existing.

17. Describe the nature and effect of the proposed amendment.
 The amendment adds a new building - the Human Services Family Crisis Center to the master plan in order to consolidate services near the new Richard T. Castro Headquarters for Human Services. This will be convenient to client using multiple services. The site plan also includes a parking structure to meet off-street parking requirements of the campus and to supply additional special event parking. The parking structure will be used during business hours for the employees and clients for Human Services and Westside Health Center. After hours and on weekends, it will be used as overflow parking for Rude Park recreation Center and the Stadium. This PUD also splits the former PUD #409 into two subarea development parcels to provide for the independent development of each subarea and to facilitate any future amendments to this proposed PUD.

3. **WRITTEN STATEMENT**

- a. The proposed P.U.D. and the market which it is intended to serve.

The proposed PUD and application for Zone Map Amendment (rezoning) for the Richard T. Castro Human Services Campus is an integral step in a development project that unites neighbors, government agencies and the private sector to work together toward positive social services solutions for the citizens of Denver.

The idea of a Human Services Campus is to connect services whose goals are to improve the quality of our neighborhoods and lives in the City and County of Denver.

The neighborhood groups work hard to protect and enhance their surroundings for the benefit of their residents. Denver Housing Authority, owner of Sun Valley Housing, works to provide good housing alternatives for the citizens of Denver. Mercy Housing, which operates Decatur Place, concentrates on housing for single parents. The Department of Human Services of the City and County of Denver continually strives to provide service to the citizens of Denver to move clients from assistance to self-sufficiency.

All of the goals of Human Services have come together on this campus. This rezoning application adds a crisis center and a parking structure to the campus. The design of the Human Services Center campus meets the needs of the clients and personnel of the Human Services Department, the neighborhood, and Denver overall.

The Human Services Campus is central to the human services clients and it is highly accessible via 412 RTD buses per day. The frequent buses run all weekdays and evenings which allows flexibility into the future if typical work hours change or expand. Alternative transportation to better serve clients, provides employees with more options and assists in cutting down on pollution. The property is also served by the historic trolley route and the City's bike routes. Future transportation and RTD plans include light rail access and additional bike routes. All these transportation options make getting to the Human Services Campus easier and less stressful, particularly for clients of social services. It is hoped that this is the beginning of a positive experience associated with the City and its agencies, both as a client, neighbor and as an employee.

Rude Park and Recreation Center is adjacent to the campus. Rude Park Recreation Center is scheduled for replacement. The new recreation facility will benefit from shared parking opportunities with the Human Services Campus along with the new stadium.

The vision of the original PUD was to cluster the services offered by the Department of Human Services and the Denver Health Medical so that, the citizens of the City, and especially those in need receive better, more efficient, lower cost services at a highly accessible location. An individual or family are able to access the Human Services Center via public transit or automobile, utilize the on-site drop in and full day child care center, receive job and skill training classroom education, access Social and Health Care services, and finally, visit Rude Park which offers open space and recreational facilities. By combining these social, health, education and child care service providers at the 12th and Federal site, the City and County of Denver will move toward its goal of helping the disadvantaged to become self sufficient and independent.

The addition of the Crisis Center building and the parking structure – continues this vision established in the original PUD.

This new PUD improves the quality of life for the citizens of Denver. The adding of the Crisis Center to this site supports the Mayor's vision of clustered City services. The Design and Construction Management Division of the Department of Public Works is pleased to submit this refined application on behalf of Denver Capital Leasing Corporation.

- b. The proposed P.U.D. and its relationship to the Denver Comprehensive Plan. Where the applicant's objectives are not in substantial conformance with the Denver Comprehensive Plan, the applicant should discuss the changing conditions that justify approval of the proposed P.U.D. District. For help on this contact the Planning Office (303-640-2736).

The proposed zone change request is supported by the Denver Comprehensive Plan. Policies UD-P-1 & 2 which encourage City departments to strive for a high quality of design in their projects, and to make urban design a required element in all Requests for Proposals and Qualifications for public design and construction projects. Policy NE-P-13 encourages applicant's proposing a change to a more intense zone district to mitigate negative impacts on existing uses. Policies NE-P-20-22 encourage off-street parking facilities to be designed, landscaped and located in a manner that minimizes disruption to adjacent properties and streets. Parking to service uses such as those proposed through this application should be diverted from residential neighborhoods wherever possible. Policy NE-P-30 encourages the use of PUD zoning on large vacant tracts of land where appropriate. Policy NE-P-32 states that the location of public facilities should be subject to a design review process to encourage compatibility with surrounding residential areas. Policy NE-P-40 states: "There may be conflicts between neighborhood interests and projects of citywide benefit. In an effort to balance those interests the City should consider alternative designs and mitigation strategies that meet the goal of preserving neighborhood livability while still achieving overall city objectives. The City will encourage citizen input at all stages of review." Finally, Policy RS-P-40 states that while the City should seek to intensify and restructure activities in existing strip areas, this should not result in the degradation of surrounding areas.

- c. How the proposed P.U.D. district relates to the character of the surrounding neighborhood

The new Human Services Center headquarters is located on Federal Boulevard and West Holden Place. It clusters the services of the Denver Department of Social Services on this site. The new Crisis Center will be located just southeast of the Westside Health Center and the parking garage will be east of the Westside Health Center.

The new Crisis Center sits on a site that includes pedestrian walkways and plazas. Emphasis has been placed on easy building access for bus riders, cyclists, pedestrians from nearby neighborhoods as well as the automobile commuter. The

parking areas and the parking garage have landscaped buffers where they adjoin residential properties and street design has been created to move traffic away from residential areas and onto Federal Boulevard.

It is the desire of the applicant to provide opportunities for housing on this site and contribute to affordable housing stock in this neighborhood. At one point, incorporating a housing component into the parking garage was strongly considered, but a deficiency of funding interrupted the plan. However, if this P.U.D. is amended, a housing component will be incorporated in the plan.
