Rezoning Review Criteria Narrative
3300 N Irving St
Denver, CO 80211

Consistency with Adopted Plans

Denver Comprehensive Plan 2040

The proposed rezoning aligns well with Denver’s Comprehensive Plan 2040 in the following ways:

- **Environmentally Resilient**
 - “Promoting infill development where infrastructure and services are already in place”
 - “Encouraging mixed-use communities where residents can live, work and play in their own neighborhoods”
- **Economically Diverse and Vibrant**
 - “Broaden the tax base with a focus on fiscal activity that is resilient to changes over time”
 - “Promote small, locally-owned businesses and restaurants that reflect the unique character of Denver”
- **Equitable, Affordable, and Inclusive**
 - “Increase development of housing units close to transit and mixed-use developments”
 - “Create a greater mix of housing options in every neighborhood for all individuals and families”

Blueprint Denver

The proposed rezoning aligns well with Blueprint Denver in the following ways:

- **Neighborhood Context**
 - The subject property is located on an **Urban Corridor** that “Typically provides some mix of office, commercial, and residential uses.”
 - The surrounding buildings in the neighborhood reach as high as 12 stories, with most in the 2-5 story range, and provide a mix of office, commercial, and residential uses.
- **Adjacent Street Types**
 - The subject property is located adjacent to 32nd & Lowell which has a mixture of building types including office, commercial, and residential that range in height from 1-12 stories
- **Plan Policies and Strategies**
 - Land Use and Built Form’s | An Evolving City: “With the expected increase in population, neighborhoods will need to accommodate some growth. Balancing the preservation of neighborhood character with the demands for additional housing and jobs is a key focus of this plan’s recommendations.”
- **Equity**
 - “Providing a better and more inclusive range of housing and employment options in all neighborhoods.”

Public Health, Safety, and General Welfare

The proposed rezoning will ensure that the current building will be able to be used for businesses that will provide amenities and employment opportunities to those in the community. Additionally, should redevelopment of the site take place in the future, the neighborhood and community would see an increase in housing options and/or available space for local businesses.

Justifying Circumstances

The parcel was rezoned to PUD599 on August 22nd, 2005 so that the landlord could use the building as a dental office. Since then, Denver has adopted a new zoning code. The proposed rezoning would bring the parcel into the current zoning code while maintaining the appropriate neighborhood context.

Zone District

- **Proposed District Neighborhood Context Description**
 - In the Urban Neighborhood Context, the Mixed Use zone districts promote a pedestrian-active street front. Buildings are pulled up to the street with parking at the side or rear of the building
- **General Purpose Statement**
 - Promote safe, active, and pedestrian-scaled, diverse areas through the use of building forms that clearly define and activate the public street edge
- **Specific Intent**
 - Areas or intersections served primarily by local streets embedded within an existing or proposed neighborhood where a building of 1 to 2 stories is desired
