25 **Section 234.** That section 56-76, D.R.M.C. shall be amended by deleting the language
26 stricken and adding the language underlined, to read as follows:

27 **Sec. 56-76. - Required.**

28 It shall be unlawful for any person to open any sewer or uncover any public or private
29 sewer, or to lay or cause to be laid in any public way or place or on or within any property or
30 property interest owned by the city any sewer or connection with any public or private sewer
31 located therein, except in strict pursuance of a permit from the manager of ~~public works~~
32 transportation and infrastructure. Such permit shall be kept at the situs of the work and exhibited

12 upon the express condition that the city may use any private sewer as a carrying line for any and
13 all sewers it may construct and connect or permit to be constructed or connected. The manager
14 of ~~public works~~ transportation and infrastructure may permit and allow other property owners to
15 connect with such private sewer upon the payment to the party constructing such private sewer,
16 or any successors in interest, such proportionate sum of the cost of the private sewer as the
17 manager shall adjudge to be just and equitable.

18 **Section 237.** That the introductory portion to section 56-92 and section 56-92 (49), (61)
19 (63), (78), and (79), D.R.M.C. shall be amended by deleting the language stricken and adding the
20 language underlined, to read as follows:

21 **Sec. 56-92. - Definitions.**

22 As used in this article and the rules and regulations of the manager of ~~public works~~
23 transportation and infrastructure, the following words, phrases and forms shall have the
24 meanings given to them in this section except where the context clearly indicates and requires a
25 different meaning. The words "shall" and "must" are to be construed as mandatory and not
26 directory.

27 (49) *Residential equivalent* shall mean a determination by the manager of ~~public works~~
28 transportation and infrastructure as to the number of residential connections that would equal
29 the sewage discharge from a building or buildings used for purposes other than the living
30 quarters of a single family.

31 (61) *Single-family* shall mean a determination made by the manager of ~~public works~~
32 transportation and infrastructure, in conjunction with his determination of residential
33 equivalents, of the average number of persons comprising a single family. The manager will

1 use, but not be limited to, data obtained from the United States Census Bureau.

2 (63) *Special permit* shall mean a permit approved by, and received from, the manager of
3 ~~public works~~ transportation and infrastructure allowing the requesting person to proceed with
4 an operation otherwise prohibited by this division or by the rules and regulations.

5 (78) *Winter billing period* shall mean a period established by the manager of ~~public~~
6 ~~works~~ transportation and infrastructure during the winter months of November through April
7 during which potable water use is determined for billing purposes.

8 (79) *Work permitted* under either a building permit or a permit issued by the manager of
9 ~~public works~~ transportation and infrastructure by virtue of authority of this division shall mean
10 that work for which such a permit was required and obtained pursuant to the ordinances, rules
11 and regulations of the city, and which work shall be readily apparent upon inspection of the
12 premises.

13 **Section 238.** That section 56-92.5 (e), D.R.M.C. shall be amended by deleting the
14 language stricken and adding the language underlined, to read as follows:

15 **Sec. 56-92.5. - Sanitary sewer connection fees.**

16 (e) *Miscellaneous.* Multiple water and/or sewer taps, unusual water tap sizes,
17 exemptions and reductions shall be determined, and any necessary adjustments made, by the
18 manager of ~~public works~~ transportation and infrastructure in conformity with the rules and
19 regulations of the wastewater management division and/or the rules and regulations of metro,
20 as authorized by the service agreement.

21 **Section 239.** That section 56-93 (a)(3), (a)(5), and (b), D.R.M.C. shall be amended by
22 deleting the language stricken and adding the language underlined, to read as follows:

23 **Sec. 56-93. - Sanitary sewage service charges within the city.**

24 (a) *Rates.* The sanitary sewage service charge for each monthly period which shall be
25 made to and against, and collected from each and every lot, parcel of land, building or
26 premises within the legal boundaries and political jurisdiction of the city, and the owners
27 thereof, which are connected to and discharging or to which, by virtue of such connection, there
28 is available the opportunity to discharge sewage, industrial waste, water, liquid or wastewater
29 into the sanitary sewerage system of the city shall be the greatest of the amounts computed as
30 set forth and described in subsections (1) through (4) or in accordance with subsection (5) as
31 follows:

32 (3) For users whose potable water is metered or measured, whether by the board of
33 water commissioners or by other methods approved by the manager of ~~public works~~

1 transportation and infrastructure or both (metered customers), the charge shall be computed by
2 multiplying the volume of potable water into the premises during the billing period by
3 \$3.97/thousand gallons effective July 1, 2016; \$4.17/thousand gallons effective January 1,
4 2017; \$4.34/thousand gallons effective January 1, 2018; \$4.51/thousand gallons effective
5 January 1, 2109; \$4.69/thousand gallons effective January 1, 2020.

6 (5) For users whose sewage is measured by a meter or method approved by the
7 manager of ~~public works~~ transportation and infrastructure, the charge shall be computed by
8 multiplying the volume of sewage during the billing period by \$3.97/thousand gallons effective
9 July 1, 2016; \$4.17/thousand gallons effective January 1, 2017; \$4.34/thousand gallons
10 effective January 1, 2018; \$4.51/thousand gallons effective January 1, 2019; \$4.69/thousand
11 gallons effective January 1, 2020.

12 (b) *Billing periods.* Whenever the manager of ~~public works~~ transportation and
13 infrastructure shall determine that it is necessary or appropriate, he may designate a sanitary
14 sewer account to be billed other than monthly. Such a designation may be used for the
15 convenience of the city or for accounts such as those including an industrial waste surcharge,
16 water gain factor (well), water loss factor (e.g., evaporation or product usage) or high-volume
17 water usage. For users who are designated for sanitary sewer billing on a different periodicity,
18 those who qualify for charges under subsection (a)(1) or (2) of this section shall be charged at
19 prorated amounts based on the rates shown in those subsections for each billing period.
20 Otherwise, the charges will be computed as shown in subsections (a)(3), (4) or (5), as
21 appropriate.

22 **Section 240.** That section 56-96, D.R.M.C. shall be amended by deleting the language
23 stricken and adding the language underlined, to read as follows:

24 **Sec. 56-96. - Measuring, billing and collecting within the city.**

25 (a) For customers whose sewage charges are computed on the basis of the metered
26 volume of water into the premises, the manager of ~~public works~~ transportation and
27 infrastructure shall determine such volume during a winter billing period and apply the rate for
28 sewage charges to that volume for all billing periods; provided, however, that for such
29 customers whose premises are used for purposes other than residential, unless the premises
30 are designated for an "other sewer items" (OSI) account, the manager shall apply the rate for
31 sewage charges to that volume of water into the premises during the period for which the
32 service is billed.

33 (b) If a lot, parcel of land, building or premises within the legal boundaries of the city
34 connected to and discharging sewage, industrial wastes, water or liquid into the sanitary

1 sewerage system of the city is not connected to the water distribution system of the board of
2 water commissioners but receives either in whole or in part water from wells or any source of
3 supply other than the board, then such wells or other sources of supply shall be registered with
4 the manager of ~~public works~~ transportation and infrastructure. If the water from such wells or
5 other sources of supply is not measured by a water meter, or is measured by a water meter not
6 acceptable to the manager, then in such case, the owner shall install and maintain at the
7 owner's expense water meters satisfactory to the manager of the water supply connections,
8 and the quantity of water which is measured by a single meter or the sum of the quantities
9 measured by several meters and which subsequently is contributed to the sewer shall be used
10 to determine the sewerage service charge.

11 (c) Where it can be shown to the satisfaction of the manager of ~~public works~~
12 transportation and infrastructure that a portion of the water volume as measured by the
13 aforesaid meters does not enter the sanitary sewerage system of the city, then the manager
14 will require or permit the installation of additional approved meters at the owner's expense in
15 such manner as to measure the sanitary sewerage discharge from the lot, parcel of land,
16 building or premises of such owner, and the quantity of sewage actually entering the sewerage
17 system as so determined.

18 (d) Charges for sanitary sewerage service within the city shall be computed by the
19 manager of ~~public works~~ transportation and infrastructure and, in the discretion of the manager,
20 shall be billed by the manager or transmitted to the board of water commissioners for billing,
21 payment and collection in the same manner as board charges for water service furnished by
22 the board. Details of any agreed conjunctive billing, payment and collecting system shall be the
23 subject of a contractual relationship between the manager and the board.

24 (e) If the owner of any lot, parcel of land, building or premises within the legal
25 boundaries of the city connected to and discharging sewage, industrial wastes, water or liquid
26 into the sanitary sewerage system of the city shall neglect, fail or refuse to pay the rates,
27 charges or fees fixed by this division for the connection with and use of the sanitary sewerage
28 system of the city, the rates, charges or fees due therefor may, by the manager of ~~public works~~
29 transportation and infrastructure, be periodically certified to the manager of finance who shall
30 record a notice of such lien with the clerk and recorder. Such rates, charges or fees due
31 therefor shall become, from and after the date of such recording of the notice in the office of
32 the clerk and recorder, a continuing lien upon the real property so served by the sewer
33 connection. The manager of finance shall assess and charge the amounts of rates, charges or
34 fees due against the property involved, and collect the same, plus interest thereon, in the

1 manner as are delinquent real property taxes. The lien created hereby shall be superior and
2 prior to all other liens, regardless of their dates of recordation, except liens for general taxes
3 and special assessments. In addition to the remedies set forth herein, an action or other
4 process provided by law may be maintained by the city to recover or collect any amounts,
5 including interest, owing under this provision. Provided, however, that when the failure to pay
6 such rates, charges or fees due is the result of incorrect billing by the manager of ~~public works~~
7 transportation and infrastructure, the owner shall only be billed, with the related certification
8 and notice, if any, for not more than two (2) years prior to the mailing of a corrected billing.

9 **Section 241.** That section 56-97 (a)(2), D.R.M.C. shall be amended by deleting the
10 language stricken and adding the language underlined, to read as follows:

11 **Sec. 56-97. - Agreements with connectors outside the city.**

12 (a) The mayor, upon recommendation of the manager of ~~public works~~ transportation and
13 infrastructure, is hereby authorized and empowered on behalf and in the name of the city, to
14 make and enter into contracts for the carriage and treatment of sewage with persons, cities,
15 towns and incorporated sewer districts and sanitation districts outside the geographical limits of
16 the city, the United States of America and the state and agencies thereof having contractual
17 arrangements with the city and from time to time to renegotiate existing and future contracts
18 with respect thereto and enter into agreements supplementing or amending any such existing
19 or future contract with any such person, city, town or agency, and the manager of ~~public works~~
20 transportation and infrastructure may allow a connector, by written permit, to use the sanitary
21 sewerage system of the city; provided, however, that:

22 (2) Such contracts and agreements shall be subject to the rules and regulations
23 heretofore or hereafter promulgated by the manager of ~~public works~~ transportation and
24 infrastructure with respect to the carriage and treatment of sewage from beyond the limits of
25 the city;

26 **Section 242.** That section 56-101 (a), (c)(2), and (c)(3), D.R.M.C. shall be amended by
27 deleting the language stricken and adding the language underlined, to read as follows:

28 **Sec. 56-101. - Measuring, billing and collecting outside the city.**

29 (a) The manager of ~~public works~~ transportation and infrastructure shall determine the
30 delivery flow rate characteristics of sanitary sewage flowing into the city sewerage system from
31 the connector jurisdiction and from all outside connectors including such metering as is
32 necessary, using acceptable engineering principles and techniques, to determine the actual
33 volume for billing purposes. Any connector who disputes the volume so measured may have an
34 administrative hearing before the manager of ~~public works~~ transportation and infrastructure

1 (who may designate an official of the department of ~~public works~~ transportation and
2 infrastructure to act in the manager's stead) by request, in writing. The connector shall be
3 notified in writing, at least seven (7) days in advance, of the time and place of the hearing.
4 While the hearing shall be administrative, not judicial, in nature, the procedure used during the
5 hearing shall be such as to provide the connector with due process of law.

6 (c) The charges or rates under existing and future contracts for the carriage and
7 treatment of sewage from outside the limits of the city, together with other related charges
8 based on such contracts and imposed by the manager of ~~public works~~ transportation and
9 infrastructure, are hereby fixed and are hereby assessed against each parcel of property lying
10 outside of the municipal and territorial limits of the city which is served by the city by the
11 carriage and treatment of sanitary sewage, whether by direct connection with the sanitary
12 sewer system of the city or by means of intervening sanitary sewerage systems which connect
13 therewith, for each year or portion thereof in which such parcel is so served by such carriage
14 and treatment or by the right to have sanitary sewage so carried and treated.

15 (2) When such rates and charges are not paid in full with respect to any parcel of
16 property at the offices of the treasury of the city thirty (30) days after having been billed, such
17 parcels shall be considered delinquent with respect thereto, and the manager of ~~public works~~
18 transportation and infrastructure shall prepare a list of said delinquent parcels showing the
19 description there, the amount due, and the year or years for which the delinquent amounts
20 were levied.

21 (3) Such list shall then be certified by the city clerk as provided by law to the county in
22 which the property is located, and the manager of ~~public works~~ transportation and infrastructure
23 shall thereafter refuse to accept payment on account of any delinquency so certified.

24 **Section 243.** That section 56-102 (c), (f), (g)(3), (g)(9), (g)(11), (l), and (n), D.R.M.C. shall
25 be amended by deleting the language stricken and adding the language underlined, to read as
26 follows:

27 **Sec. 56-102. - Disposal of wastes and use of public sewers.**

28 (c) *Discharge of wastewater in watercourses.* It shall be unlawful for any person to
29 discharge to any stream or watercourse any domestic or industrial wastewater or other polluted
30 waters, except where suitable treatment has been provided in accordance with the provisions
31 of this division or the rules and regulations of the manager of ~~public works~~ transportation and
32 infrastructure.

33 (f) *Mandatory connection to public sewer.* The owner of any building situated within the
34 city and abutting on any street or alley in which there is now located or may in the future be

1 located a public sewer of the city, is hereby required, at his expense, to connect the building
2 directly with the public sewer designated by the manager of ~~public works~~ transportation and
3 infrastructure, within ninety (90) days after date of official notice to do so, provided that the
4 public sewer is within three hundred (300) feet of the nearest point of the property line and the
5 building is within one thousand (1,000) feet of the public sewer.

6 (g) *Prohibited discharges in sanitary sewer.* It shall be unlawful for any person to
7 discharge or cause to be discharged into the sanitary sewerage system any of the following:

8 (3) Sewage containing any radioactive substance, garbage, night soil, or septic tank
9 pumpage, except pursuant to rules and regulations established by the manager of ~~public works~~
10 transportation and infrastructure;

11 (9) Wastes with phenolic compounds, sulfides, cyanides or compounds capable of
12 liberating hydrocyanic acid gas in excess of limits established by the manager of ~~public works~~
13 transportation and infrastructure;

14 (11) Water or wastes containing the discharge of acid iron pickling wastes or plating
15 solutions unless pretreated to standards established by the manager of ~~public works~~
16 transportation and infrastructure;

17 (l) *Obstruction of operation.* It shall be unlawful for any person to obstruct, hinder, deny
18 access to, or in any way prevent, the manager of ~~public works~~ transportation and infrastructure,
19 or any agent or employee acting under the authority of the manager, from operating,
20 maintaining, supervising or controlling public sewers wherever situate or located.

21 (n) *Exception by special permit.* Whenever the manager of ~~public works~~ transportation
22 and infrastructure shall determine that any of the provisions of this section shall be impractical,
23 unreasonable or unjust in a particular instance, and shall further determine that an exception to
24 such provision would not be detrimental to the sanitary sewerage system of the city or metro,
25 the manager of ~~public works~~ transportation and infrastructure may grant a special permit,
26 excepting the individual user from the application of the pertinent provision.

27 **Section 244.** That section 56-102.5 (b)(17), (d), and (g), D.R.M.C. shall be amended by
28 deleting the language stricken and adding the language underlined, to read as follows:

29 **Sec. 56-102.5. - Industrial pretreatment.**

30 (b) *Definitions.* Unless the context specifically indicates otherwise, the following terms
31 and phrases, as used in this section only, shall have the meanings hereinafter designated.
32 Definitions found in other sections of this Revised Municipal Code may be applicable to this
33 section; however, whenever there shall be any inconsistency or variance between such
34 definitions and the definitions contained herein, the following definitions shall take control and

1 precedence over any such conflicting definition for the purposes of this section only:
