

# **On-Call Professional Engineering Services Contracts for Public Works**

**There are three on-call engineering service contracts for Public Works currently before the Land Use, Transportation and Infrastructure Committee.**

- All of three of these contracts were procured via an RFP process to provide professional engineering services on an on-call basis for Public Works**
- These contracts are available to provide professional engineering services across a wide range of engineering disciplines. The possible services may include: studies, feasibility analyses, modeling, staff augmentation, design, geotechnical services, survey, utility coordination, and other Engineering services.**
- Each of these contracts has a maximum value of \$2.5M over a five year term, with a yearly expenditure not to exceed \$500k**
- These contracts all had an M/WBE goal of 12% assigned prior to procurement and the individual consultant break downs are as follows:**
  - Icon Engineering**
    - M/WBE Goal 12%,**
    - Commitment 13%**
  - Olsson Associates**
    - M/WBE Goal 12%,**
    - Commitment 12%**
  - Enginuity Engineering Solutions**
    - M/WBE Goal 12%**
    - Commitment 20%**
