REVIEW CRITERIA

Fox Street Investments LLC (Applicant) is applying to rezone 3901 N Elati St from I-A to C-MX-20. The existing UO-2 Billboard Use Overlay will be removed from the property with this rezoning.

The parcel on the corner of Elati St and W 39th Ave in the Globeville Neighborhood is currently vacant/used for parking. With the new Light Rail Station on 41st and Fox Street and the new TOD typology for the area being more of an 'urban' character, the current I-A zoning is limited in its future uses for any typical Mixed-Use developments. The current adjacencies in this neighborhood include Industrial, Mixed-Use, Multi-Unit and Single Family Residential. The new proposed zoning will match the general neighborhood development and is consistent with the following General Review Criteria:

Consistency with Adopted Plans

The proposed zoning of C-MX-20 is consistent with the City's vision for the neighborhood and supported by all City and County of Denver adopted plans. These following Plans apply to the subject property:

- Denver Comprehensive Plan 2000
- Blueprint Denver
- Globeville Neighborhood Plan (2014)
- 41st and Fox Station Area Plan (2009)

- **Comprehensive Plan 2000**

The proposed new zoning of the subject property is consistent with intent of the Denver Comprehensive Plan strategies. A number of specific alignments with the Comprehensive Plan Objectives and Strategies that would provide value to the public interest include the following:

Land use strategy 3-B – Encourage quality infill development that is consistent with character of the surrounding neighborhood; that offers opportunities for increased density and more amenities; and that broadens the variety of compatible uses.

Land User Strategy 4A – Encourage mixed-use, transit-oriented development that makes effective use of existing transportation infrastructure, supports transit stations, increases transit patronage, reduces impact on the environment, and encourages vibrant urban centers and neighborhoods.

Mobility Strategy 3-B – Promote transit-oriented development (TOD) as an urban design framework for urban centers and development area. Development as transit stations should provide both higher ridership to the transit system and viability and walkability in the area.

Mobility Strategy 4-E – Continue to promote mixed-use development, which enables people to live near work, retail and services.

The proposed rezoning will enable the continued development opportunity of mixed-use development at the 41st street station where services and infrastructure are already under development. The C-MX-20 will allow high-intensity development immediately adjacent to the transit station as well as alignment with existing 18 story student housing facility. The rezoning is consistent with the Denver Comprehensive Plan.

- **Blueprint Denver:**

The property is located on North Elati Street in an Area of Change with the Concept Land Use being designated as Transit Oriented Development (TOD). Areas of Change promote development, growth and change. With the new 41st and Fox light-rail stop being within a quarter mile from the property the proposed new zoning will allow alternative ways to providing housing, services, and employment opportunities for a diverse population in a configuration that facilitates pedestrian and transit access. The new proposed zoning supports Transit Oriented Development with Mixed-Use Office and Residential uses and thus will help create the envisioned change in the adjacency to the transit station served by light rail and bus.

- **Globeville Neighborhood Plan:**

The Globeville Neighborhood Plan is the most recently adopted plan and confirms the vision for the neighborhood as laid out in Blueprint Denver – Transit Oriented Development (TOD) within an Area of Change. The plan's recommendation #4 calls to improve access to Housing and to improve Neighborhood Services. The new proposed zoning would support and accommodate mid-to-high rise redevelopment with a maximum building height of 20 stories. Transit Oriented Development with Commercial Mixed-Use, and Multifamily Residential Uses will help create the envisioned change in the 41st and Fox Station Area balancing the needs of Residents, Commerce and Industry.

- **41st and Fox Station Area Plan:**

This plan is focused on the long-term redevelopment of the area east of the railroad tracks to create a complete, transit-friendly neighborhood. The property is designated as Mixed-Use Office/Residential with a building height of 3-20 stories. The proposed new zoning would allow for the promoted higher intensity with a variety of uses including Commercial and Residential. The plan's focal point of a diverse, transit supportive and environmentally sustainable Urban Center will be supported and create opportunities to add more housing, jobs and services to the station area.

The new proposed C-MX-20 zone district is consistent with the recommendations of the above referenced adopted plans, would enable growth and allow for mixed-use developments to serve the everyday needs of the neighborhood in adjacency to the new transit station.

Uniformity of District Regulations

The general purpose of the Mixed-Use zone district is to promote safe, active and pedestrian-scaled, diverse areas through the allowed building forms to enhance the convenience, ease and

enjoyment of transit, walking, shopping and public gathering within this Urban Center neighborhood. This new proposed zoning will support the vision for this area. The proposed new zoning for this property will result in the uniform application of the Zone District's building form, use and design regulations.

Public Health, Safety and General Welfare

The proposed official map amendment furthers the public health, safety and general welfare of the City. This amendment will improve an industrial site into a new Mixed-Use development incorporating a variety of uses including new mixed-income housing and commercial spaces. The rezoning and future development of this site will contribute to the creation of a safer improved road and pedestrian sidewalk network for existing and future area residents. The new light rail station will provide easy access to downtown and reduce the need for automotive transportation.

The development of this parcel will likely encourage more substantial investment to rehabilitate the property with a useful life for the community by allowing for more local businesses to continue the existing surrounding development structures.

Justifying Circumstances

'The land or its surrounding has changed or is changing to such a degree that it is in the public interest to encourage a redevelopment of the area to recognize the changed character of the area.'

Changes include newer adopted neighborhood plans, recent rezoning and development of other properties in the areas and the new light rail station.

The above referenced section of the DZC applies to this parcel with the existing zoning no longer being appropriate for this site. It is in the public interest to match the surrounding zoning recognizing the changed character of the area.

Also addressed are the new Denver City Council adopted changes to the Denver Zoning Code, including modifications to the Justifying Circumstances language in section 12.4.10.8.A.

- **Denver City Council adopted changes**

On May 21, 2018 the Denver City Council adopted changes to the Denver Zoning Code, including modifications to the Justifying Circumstances language in section 12.4.10.8.A. After review of the adopted language, the Applicant believes the rezoning is justified under sections 12.4.10.8.A.4a and 12.4.10.8.A.4B for the following reasons:

4a) states "a changing condition" to such a degree that the proposed rezoning is in the public interest. The opening of the Gold Line light rail station at 41st in conjunction with recent developments at 3900 Elati Regency Student Housing as well as at the 38th and Fox street commercial developments warrants rezoning to the subject property.

4b) states "A City adopted plan". In 2014, the Globeville Neighborhood Plan was adopted in which the subject property is suggested as mixed use development with a maximum height of 20 stories which is consistent with the C-MX-20 zoning that is requested and believed to be optimum zoning for the public interest.

For this reason and as stated above, the subject project is being submitted for rezoning to C-MX-20 in alignment with the City of Denver Globeville Neighborhood Plan (2014).

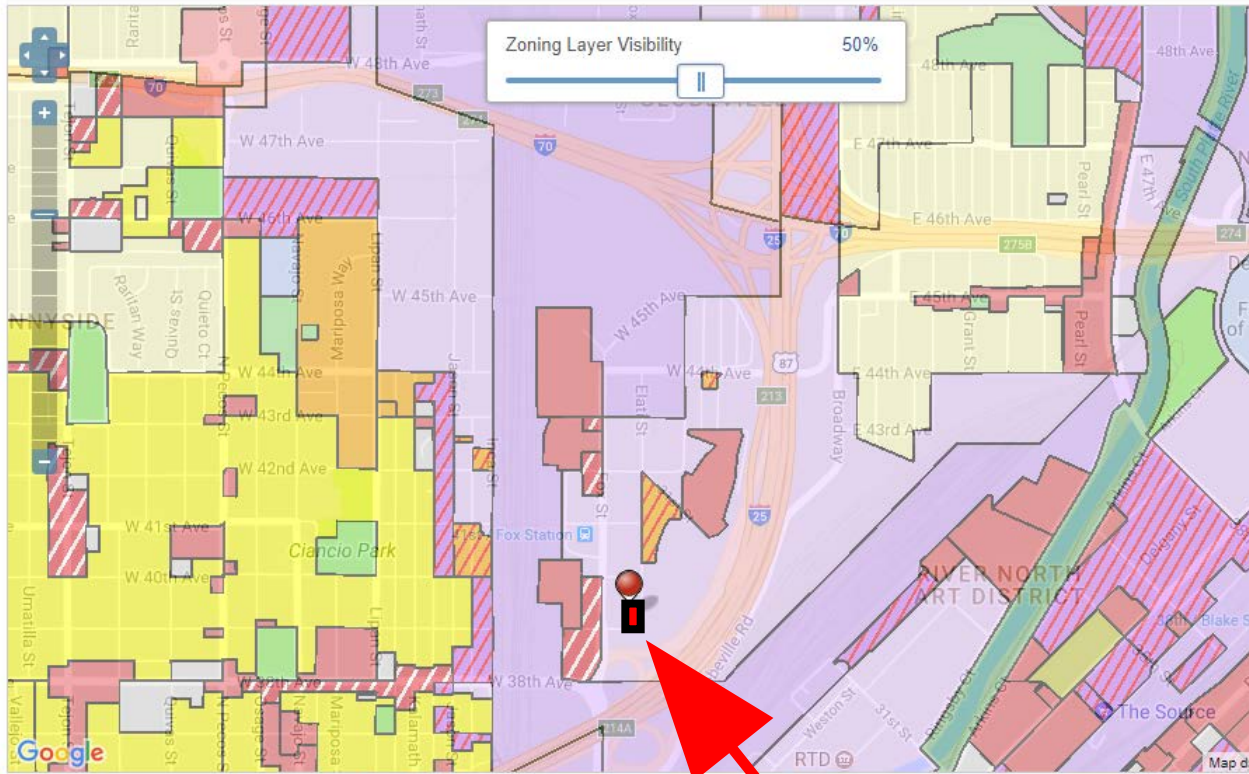

**Consistency with Neighborhood Context Description,
Zone District Purpose and Intent Statements**

The requested C-MX-20 zone district is within the Urban Neighborhood Context. The Mixed-Use districts are intended to promote active, pedestrian-scaled and diverse areas and activate the public street edge. The district standards also intend to enhance the neighborhood and ensure new development that contributes positively to the established character. The proposed rezoning is consistent with the Urban Center context. Given the proximity to transit and the mixed-use arterial Fox Street the proposed rezoning will achieve the intent of the zone district.

Please see enclosed supporting documentation of the surrounding area.
