

Randy Murray

I am currently the Senior Manager of Facilities for Janus Henderson Investors located in Cherry Creek. I have worked for JHI for 25 years and oversee the maintenance of our offices in the Americas. I have worked my way up through the organization starting as a Senior Facilities Technician up to my current role. Through this progression I have cultivated many relationships in the architectural, construction, and real estate industries throughout Denver. I have been a member of the International Facilities Management Association (IFMA), Denver Chapter since 2018. I have served two terms on the Executive Board, and I currently serve as the Chair of the Partnership Committee.

In my current role I am directly accountable for the facilities team, project planning and management, office commissioning/decommissioning, vendor management, space planning, and move management. I coordinate with external vendors, general contractors, and other trades to keep Janus Henderson's facility infrastructure running smoothly.

In my spare time I enjoy traveling, golfing, camping, and spending time with my grandchildren.
