6. General description of proposed ordinance including contract scope of work if applicable:

The City provides dental benefits to employees on a self-funded basis. Under self-funding, the City is required to reimburse providers on a claim by claim basis. In addition, the City bears the risk for any claim payments that may exceed the amount appropriated to cover the costs of the benefits provided. The City generally makes three payments each month to Delta Dental to cover the costs of the claims.

In 2016, the Self-Insured Dental Plan will cover Career Service employees along with employees in the Police and Fire Departments. The initial set of enrollees numbered 10,171 during the recent Open Enrollment Period. This number will, of course, grow over the course of the year. Employees have three dental plans to choose from including an EPO Plan, a PPO Low Plan, and a PPO High Plan.

The Office of Human Resources is requesting an appropriation for 2017 in the amount of **\$11,107,890.29** for the Self-Insured Dental Fund. The City portion is estimated at 67% or \$7,448,890.18 of the total. The employee portion is estimated at 33% or \$3,049,166.76 of the total. These revenues are collected through the payroll deduction process.
