Scope of work:

DPD proposes to develop a multidisciplinary approach focused on high-risk youth at six Denver Public Schools. Many of the students who attend these schools are at the highest risk of committing violence and/or being victims of violence. All six of the schools are close to the downtown area, and close to Colfax, which we recognize has seen an increase in crime over the past couple of years. Though all the schools may not be in communities with the highest crime and violence rate, many of the students who attended these schools do live in these communities. Many of the students who have been involved in the justice system are prospective to be placed in these schools when they are transitioning back onto their educational pathway. All these factors provide a wonderful opportunity for a cross sector collaboration to better serve one of our most vulnerable populations who are at a high risk of being impacted by crime and violence. (Fund: 12301 State Grants - Safety, Cost Center: 3511300 Police Department Administrative Management.)
