Blueprint Denver 2019

Neighborhood Context: Urban Edge

- Single- and two- unit residential areas. Commercial and mixed-use development tends to be found along the main corridors bordering traditional residential areas.
- Block patterns are generally a mix of suburban and urban elements.

Blueprint Denver 2019

Future Place: Low Residential

- Predominately single- and two-unit uses on small or medium lots.
- Accessory dwelling units and duplexes are appropriate and can be thoughtfully integrated where compatible.

Future Street Type: Local

Evaluation is based on the proposed zone district is consistent with the Future Street Classification, not to assess the traffic impacts of a specific development proposal.

Blueprint Denver 2019

Housing Policy 4 Strategy E

A citywide approach to enable ADUs is preferred. Until a holistic approach is in place, individual rezonings to enable ADUs in all residential areas, specifically where proximate to transit, are appropriate. Unless there is a neighborhood plan supporting ADU's, rezonings should be small in area in order to minimize impacts to the surrounding residential area. (p. 84)

Near Southeast Area Plan

Land Use Policy LU-8. Provide additional housing options, promote preservation and prevent involuntary displacement in Residential Low places by allowing duplexes in appropriate locations and under appropriate conditions and **by allowing accessory dwelling units.**

B. ADUs – Consistent with adopted citywide policies in Blueprint Denver and in coordination with citywide efforts, support the addition of affordable and compatible accessory dwelling units (ADUs) in Near Southeast.

3. Until a uniform citywide approach to ADU development is complete, **support neighborhood wide and individual rezonings to allow ADUs where prohibited.**

Future Place: Residential Low
Predominantly single and two-unit building forms on small to medium-sized lots. **Accessory dwelling units are appropriate and can be integrated where compatible (p.35)**
