- V. BUY AMERICA BUILD AMERICA. Recipients of an award of Federal financial assistance from a program for infrastructure are hereby notified that none of the funds provided under this award may be used for an infrastructure project unless:

(1) All iron and steel used in the project are produced in the United States—this means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States;

(2) All manufactured products used in the project are produced in the United States— this means the manufactured product was manufactured in the United States; and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard that meets or exceeds this standard has been established under applicable law or regulation for determining the minimum amount of domestic content of the manufactured product; and

(3) All construction materials are manufactured in the United States—this means that all manufacturing processes for the construction material occurred in the United States. The construction material standards are listed below.

Incorporation into an infrastructure project. The Buy America Preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America Preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project, but are not an integral part of the structure or permanently affixed to the infrastructure project.

Categorization of articles, materials, and supplies. An article, material, or supply should only be classified into one of the following categories: (i) Iron or steel products; (ii) Manufactured products; (iii) Construction materials; or (iv) Section 70917(c) materials. An article, material, or supply should not be considered to fall into multiple categories. In some cases, an article, material, or supply may not fall under any of the categories listed in this paragraph. The classification of an article, material, or supply as falling into one of the categories listed in this paragraph must be made based on its status at the time it is brought to the work site for incorporation into an infrastructure project. In general, the work site is the location of the infrastructure project at which the iron, steel, manufactured products, and construction materials will be incorporated.

Application of the Buy America Preference by category. An article, material, or supply incorporated into an infrastructure project must meet the Buy America Preference for only the single category in which it is classified.

Determining the cost of components for manufactured products. In determining whether the cost of components for manufactured products is greater than 55 percent of the total cost of all components, use the following instructions:

(a) For components purchased by the manufacturer, the acquisition cost, including transportation costs to the place of incorporation into the manufactured product (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(b) For components manufactured by the manufacturer, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (a), plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the manufactured product.

Construction material standards. The Buy America Preference applies to the following construction materials incorporated into infrastructure projects. Each construction material is followed by a standard for the material to be considered “produced in the United States.” Except as specifically provided, only a single standard should be applied to a single construction material.

(1) Non-ferrous metals. All manufacturing processes, from initial smelting or melting through final shaping, coating, and assembly, occurred in the United States.

(2) Plastic and polymer-based products. All manufacturing processes, from initial combination of constituent plastic or polymer-based inputs, or, where applicable, constituent composite materials, until the item is in its final form, occurred in the United States.

(3) Glass. All manufacturing processes, from initial batching and melting of raw materials through annealing, cooling, and cutting, occurred in the United States.

(4) Fiber optic cable (including drop cable). All manufacturing processes, from the initial ribboning (if applicable), through buffering, fiber stranding and jacketing, occurred in the United States. All manufacturing processes also include the standards for glass and optical fiber, but not for non-ferrous metals, plastic and polymer-based products, or any others.

(5) Optical fiber. All manufacturing processes, from the initial preform fabrication stage through the completion of the draw, occurred in the United States.

(6) Lumber. All manufacturing processes, from initial debarking through treatment and planning, occurred in the United States.

(7) Drywall. All manufacturing processes, from initial blending of mined or synthetic gypsum plaster and additives through cutting and drying of sandwiched panels, occurred in the United States.

(8) Engineered wood. All manufacturing processes from the initial combination of constituent materials until the wood product is in its final form, occurred in the United States.

Waivers. When necessary, recipients may apply for, and the agency may grant, a waiver from these requirements. The agency should notify the recipient for information on the process for requesting a waiver from these requirements.

When the Federal agency has made a determination that one of the following exceptions applies, the awarding official may waive the application of the Buy America Preference in any case in which the agency determines that:

- (1) applying the Buy America Preference would be inconsistent with the public interest;
- (2) the types of iron, steel, manufactured products, or construction materials are not produced in the United States in sufficient and reasonably available quantities or of a satisfactory quality; or
- (3) the inclusion of iron, steel, manufactured products, or construction materials produced in the United States will increase the cost of the overall project by more than 25 percent.

A request to waive the application of the Buy America Preference must be in writing. The agency will provide instructions on the format, contents, and supporting materials required for any waiver request. Waiver requests are subject to public comment periods of no less than 15 days and must be reviewed by the Made in America Office.

There may be instances where an award qualifies, in whole or in part, for an existing waiver described at [USDA Buy America Waivers for Federal Financial Assistance | USDA](#).

END OF ATTACHMENT B: 2 CFR PART 170

ATTACHMENT C: WHISTLEBLOWER NOTICE

Whistleblowers perform an important service to USDA and the public when they come forward with what they reasonably believe to be evidence of wrongdoing. They should never be subject to reprisal for doing so. Federal law protects federal employees as well as personal services contractors and employees of Federal contractors, subcontractors, grantees, and subgrantees against reprisal for whistleblowing. USDA bears the responsibility to ensure that nothing in a non-disclosure agreement which a contractor, subcontractor, grantee, or subgrantee requires their employees to sign should be interpreted as limiting their ability to provide information to the Office of Inspector General (OIG).

41 U.S.C. § 4712 requires the head of each executive agency to ensure that its contractors inform their workers in writing of the rights and remedies under the statute. Accordingly, it is illegal for a personal services contractor or an employee of a Federal contractor, subcontractor, grantee, or subgrantee to be discharged, demoted, or otherwise discriminated against for making a protected whistleblower disclosure. In this context, these categories of individuals are whistleblowers who disclose information that the individual reasonably believes is evidence of one of the following:

- Gross mismanagement of a Federal contract or grant;
- A gross waste of Federal funds;
- An abuse of authority relating to a Federal contract or grant;
- A substantial and specific danger to public health or safety; or
- A violation of law, rule, or regulation related to a Federal contract (including the competition for or negotiation of a contract) or grant.

To be protected under 41 U.S.C. § 4712, the disclosure must be made to one of the following:

- A Member of Congress, or a representative of a committee of Congress;
- The OIG;
- The Government Accountability Office (GAO);
- A Federal employee responsible for contract or grant oversight or management at USDA;
- An otherwise authorized official at USDA or other law enforcement agency;
- A court or grand jury; or
- A management official or other employee of the contractor, subcontractor, or grantee who has the responsibility to investigate, discover, or address misconduct.

Under 41 U.S.C. § 4712, personal services contractors as well as employees of contractors, subcontractors, grantees, or subgrantees may file a complaint with OIG, who will investigate the matter unless they determine that the complaint is frivolous, fails to allege a violation of the prohibition against whistleblower reprisal, or has been addressed in another proceeding. OIG's investigation is then presented to the head of the executive agency who evaluates the facts of the investigation and can order the contractor, subcontractor, grantee, or subgrantee

to take remedial action, such as reinstatement or back pay.

Federal Acquisition Regulation (FAR) Subpart 3.903, *Whistleblower Protections for Contractor Employees, Policy*, prohibits government contractors from retaliating against a contract worker for making a protected disclosure related to the contract. FAR Subpart 3.909-1 prohibits the Government from using funds for a contract with an entity that requires its employees or subcontractors to sign internal confidentiality statements prohibiting or restricting disclosures of fraud, waste, or abuse to designated persons. This prohibition does not contravene agreements pertaining to classified information. The regulation also requires contracting officers to insert FAR clause 52.203-17, *Contractor Employee Whistleblower Rights and Requirement to Inform Employees of Whistleblower Rights*, in all solicitations and contracts that exceed the Simplified Acquisition Threshold as defined in FAR Subpart 3.908. This clause requires notification to contractor employees that they are subject to the whistleblower rights and remedies referenced in 41 U.S.C. § 4712.

In order to make a complaint alleging any of the violations mentioned above, one should complete the OIG Hotline form located at: <https://www.usda.gov/oig/hotline>. For additional information, they may also visit the WPC's webpage at: <https://www.usda.gov/oig/wpc> or they may directly contact the WPC at OIGWPC@oig.usda.gov.
