5. General description or background of proposed request. Attach executive summary if more space needed:

The City and County of Denver primarily self-insures its financial exposures to loss. We purchase insurance when required by law or contract, or when the purchase of insurance is the most cost-effective way to protect the City. Risk Management works through contracted brokers to market insurance coverage on a regular basis and reviews City insurance programs to validate that our practices are the most effective and cost efficient.

The proposed resolution request authorizes a one-year renewal of the City's property and liability insurance policies renewing May 1, 2026. Total not to exceed premium for all policies is \$15,118,569. This amount is slightly increased over 2025 and is reflective of the hardened but stable property and liability insurance markets. The hardened state of the property insurance market is due to catastrophic losses impacting the insurance industry, including the increase in severity and frequency of hail damage/wildfire losses in Colorado and throughout the country over the last five years. Please note these premiums are 'not to exceed' amounts, as we continue to negotiate with insurance carriers up to the renewal date of May 1, 2026.
