Executive Summary

Cherry Creek Subarea BID

2017 Operating Plan and Budget

Business Improvement Districts (BID's) are organized for the benefit of commercial properties to assist with infrastructure improvements and their maintenance, as well as having the ability to perform marketing and economic development activities. This is the operating plan and budget for **Cherry Creek Subarea** and it is submitted annually.

General Description of District and Location: The Cherry Creek Subarea BID is located in the northwest corner of downtown Denver. The BID boundaries generally are Cherry Creek on the southwest, the South Platte River on the northwest, the 16th St. viaduct on the northeast and Wewatta St. on the Southeast.

The BID is a mixed use area including retail, office and residential development. The District was originally created to maintain trees and landscaping along 15th Street and elsewhere within the district's boundaries.

Maintenance, operation and administration expenses of the BID are funded by a mill levy assessed only on commercial real property within the District. The imposed mill levy may not generate more than \$15,000 annually. The BID is a party to an agreement with the Downtown Denver Development Authority (DDA) where the DDA collects the incremental property tax revenues attributable to the BID and then remits to the BID said collections.

District Structure: The Board of Directors oversees the operations of the District. The district has no debt, but has an ad valorem tax that allows revenue collections up to \$15,000. The proposed expenditure budget for 2017 is **\$34,660**. The difference in revenue and expenditures will be made up through the District's reserve funds. The Board of Directors is composed of 5 electors.

For all BIDs that have mill levies: City Council will pass a resolution in December to levy all special district mill levies for the 2017 budget year.
