Is this project associated with a LAND DEVELOPMENT REVIEW?

Yes No If 'Yes', provide Project Master, Site Plan and/or Concept Development Project Numbers:

Is the proposed encroachment located in Future Right-of-Way?

Finalizing permit and/or processing resolution for the Encroachment will not occur until the ROW dedication is finalized.

Yes No If 'Yes', provide ROW Dedication Project Number:

Location Description: (e.g. Located on the South side of 23rd Ave, twenty (20) feet from face of curb, and ten (10) feet west of pavement on Private Drive.)

A PARCEL OF LAND LOCATED IN THE PUBLIC RIGHT-OF-WAY OF WALNUT STREET ADJACENT TO LOTS 27 AND 28, BLOCK 2, CASE & EBERT'S ADDITION TO THE CITY OF DENVER, LYING WITHIN THE SOUTHEAST QUARTER OF SECTION 27, TOWNSHIP 3 SOUTH, RANGE 68 WEST OF THE SIXTH PRINCIPAL MERIDIAN, CITY AND COUNTY OF DENVER, STATE OF COLORADO, BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:
COMMENCING AT THE DENVER RANGE POINT AT THE INTERSECTION OF WALNUT STREET AND 27TH STREET, AS MONUMENTED BY A FOUND 2" ALUMINUM CAP STAMPED "PLS 34977" IN RANGE BOX, WHENCE THE DENVER RANGE POINT AT THE INTERSECTION WALNUT STREET AND 26TH STREET, AS MONUMENTED BY A FOUND 2-1/2" ALUMINUM CAP STAMPED "RP PLS 37066", BEARS S 44°38'50" W, A DISTANCE OF 480.45 FEET.

Description of Encroachment:

Describe the proposed encroachment, including the type and quantity of objects.

The proposed encroachment includes a cast-in-place concrete elevated walkway, a cast-in-place concrete ADA compliant ramp and cast-in-place concrete entry stair.

Reason for Private Improvements in the Public ROW:

Private improvements should be located on private property. Only in cases where there are physical constraints that preclude the placement of private improvements on private property that an encroachment may be considered within the right-of-way. Make your case as to why this is a good use of the public right-of-way.

The south face of the existing 1927 masonry building along Walnut street is directly on the property line. There is currently no access to the existing loading dock and existing front door of the building which are at an elevation over two feet above the adjacent sidewalk elevation. In order to provide a safe and code compliant entrance to the retail building, we are proposing a concrete stair, ramp and walkway built into the existing ROW.

ATTESTATION:

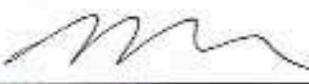

By submitting this permit application and signing below, I understand and agree to the following:

1. That I am the property owner adjacent to the Encroachment Area, or the authorized representative of a Special District, that is responsible for the placement, maintenance, repair, replacement, removal, site restoration, ownership, or is otherwise responsible for the Encroachment in accordance with the Rules & Regulations for Encroachments and Encumbrances in the Public Right-of-Way.
2. That it is the City's sole discretion to classify the Tier of an Encroachment and whether to grant an Encroachment Permit based on any facts the City feels are relevant. The issuance of an Encroachment Permit confers no rights to the Right-of-Way, the Encroachment Permit is revocable and DOTI can order the removal of the Encroachment and restoration of the Encroachment Area for any reason the City feels relevant.
3. Permittee agrees to defend, indemnify, reimburse and hold harmless the City, its appointed and elected officials, agents and employees for, from and against all liabilities, claims, judgments, suits or demands for damages to persons or property arising out of, resulting from, or relating to an Encroachment Permit and the Encroachment ("Claims"). This indemnity shall be interpreted in the broadest possible manner to indemnify City for any acts or omissions of Permittee or its subcontractors either passive or active, irrespective of fault, including City's negligence whether active or passive.
4. Permittee's duty to defend and indemnify City shall arise at the time written notice of the Claim is first provided to City regardless of whether claimant has filed suit on the Claim. Permittee's duty to defend and indemnify City shall arise even if City is the only party sued by claimant and/or claimant alleges that City's negligence or willful misconduct was the sole cause of claimant's damages.
5. Permittee will defend any and all Claims which may be brought or threatened against City and will pay on behalf of City any expenses incurred by reason of such Claims including, but not limited to, court costs and attorney fees incurred in defending and investigating such Claims or seeking to enforce this indemnity obligation. Such payments on behalf of City shall be in addition to any other legal remedies available to City and shall not be considered City's exclusive remedy.
6. Insurance coverage requirements specified in an Encroachment Permit shall in no way lessen or limit the liability of Permittee under the terms of this indemnification obligation. Permittee shall obtain, at its own expense, any additional insurance that it deems necessary for the City's protection.
7. This defense and indemnification obligation shall survive the expiration or termination of any issued Encroachment Permit.
8. Permittee is fully responsible for all costs to install, maintain, repair, replace, remove, and restore the Encroachment Area, including annual City Encroachment Permit Fees. A lien will be placed on the Permittee's property for failure to remove a revoked or abandoned Encroachment for costs incurred by CCD to remove the Encroachment and restore the Encroachment Area on behalf of the Permittee.
9. Indemnity and Insurance for Tier I and Tier II Encroachments: Pursuant to and not superseding any General Terms and Conditions, as a condition for placement of a Tier I or Tier II Encroachment, the Owner of such Tier I or Tier II Encroachment shall hold CCD harmless from all loss or damage to persons or property on account of injury arising from the construction, repair, or maintenance of the Tier I or Tier II Encroachment. Obtain and Maintain a Commercial General Liability insurance policy with limits of \$1,000,000 for each occurrence, \$1,000,000 for each personal and advertising injury claim, \$2,000,000 products and completed operations aggregate, and \$2,000,000 policy aggregate. The City and County of Denver, its Elected and Appointed Officials, Employees and Volunteers shall be included as Additional Insured.
10. Indemnity and Insurance for Tier III Encroachments: Pursuant to and not superseding any General Terms and Conditions, as a condition for placement of a Tier III Encroachment, the Owner of such Tier III Encroachment shall hold CCD harmless from all loss or damage to persons or property on account of injury arising from the construction, repair, or maintenance of the Tier III Encroachment. Obtain and Maintain a Commercial General Liability insurance policy with limits of \$1,000,000 for each occurrence, \$1,000,000 for each personal and advertising injury claim, \$2,000,000 products and completed operations aggregate, and \$5,000,000 policy aggregate. A combination of primary and excess coverage may be used to meet the aggregate limit. The City and County of Denver, its Elected and Appointed Officials, Employees and Volunteers shall be included as Additional Insured.

PSCo/Xcel Energy has existing underground electric distribution facilities for streetlighting within this area. Note that proper clearances must be maintained including ground cover over buried facilities that should not be modified from original depths. In other words, if the original cover is changed (less or more), PSCo facilities must be raised or lowered to accommodate that change. Contact Colorado 811 before excavating. Use caution and hand dig when excavating within 18-inches of each side of the marked facilities. Please be aware that all risk and responsibility for this request are unilaterally that of the Applicant/Requestor.

OCF Comments 4-17-24
1. Address OCF comments on attached redlined plans (redlines show appropriate ROW streetscape design). If redlined plans were not received, email Eric.Huetig@denvergov.org to request a set of redlines (reference project number).
A. NOTE: OCF typically expects at least one ROW tree to be planted. However, due to location of water lines & streetlight, planting one street tree is not feasible.
i. Installing new walk & ramp/stairs without permeable surface is highly concerning. OCF will be willing to approve encroachment provided applicant implements a landscaped planting area in lieu of planting a street tree (plz provide pervious surface in ROW).
ii. See attached redlines (uploaded via ERA site) for recommended landscape area in brown with landscape shrubs indicated in green/yellow. Landscape area shown works with DOTI requirements for walk width while still accommodating necessary ramp & steps.
1. Planting area surfaced with shredded wood mulch; omit weed barrier fabric. If squeegee is preferred, consult with DOTI to verify if approved in this scenario.
