SCOPE OF WORK

I. Purpose of Agreement

A. The purpose of this contract is to establish an agreement and Scope of Services between the City and County of Denver's Healthy Food for Denver's Kids ("HFDK") Initiative and Denver Health and Hospital Authority, the ("Grantee"). The Grantee shall provide the identified services for the City under the support and guidance of the Denver Department of Public Health and Environment, **Healthy Food for Denver's Kids Initiative** using best practices and other methods for fostering a sense of collaboration and communication.

Denver Health and Hospital Authority has been awarded the following amounts in Healthy Food for Denver's Kids funds:

- \$478,383 for Term 1 (October 1, 2021 September 30, 2022)
- \$522,650 for Term 2 (October 1, 2022-September 30, 2023)
- \$644,895 for term 3 (October 1, 2023-September 30, 2024)
- Cumulative Maximum Contract Amount: \$1,645,928

II. Program Services and Descriptions

A. The Grantee will be granted funds to provide the following services:

Through the Specialized Co-Enrollment program, we aim to streamline how patients who receive care at Denver Health and Hospital Authority (DHHA) learn about, enroll in, and stay active in the Supplemental Nutrition Assistance Program for Women, Infants, and Children (WIC). By streamlining the enrollment process to happen concurrently with necessary medical appointments and by reducing the administrative burden on enrollees, we aim to increase the WIC participant caseload at Denver County and shrink the eligible but not currently enrolled (EBNE) rate in the County. This program focuses on the retention of WIC participants as well as increasing enrollment in WIC among EBNE pregnant women and children aged 0-5 who receive health care services at DHHA. The federal WIC program is designed to support the health of low-income women, infants, and children up to the age of 5 by providing supplemental foods, information on healthy eating, and referrals to health care. Specialized Co-Enrollment will serve children most at risk due to poverty, during a critical age to support immediate and generational health and development outcomes. Individuals eligible for WIC are also among the special populations served by the DHHA. In Denver, the WIC program is administered by DHHA, which is why the participating clinics within the system are an ideal space for conducting this program. Additionally, DHHA has several programmatic, analytic, and medical staff engaged and has the space needed to ensure the success of the program.

Over the last two years as a HFDK grantee, Specialized Co-Enrollment has been able to expand from a pilot to four Denver Health outpatient sites and successfully sustain the work and the teams at these locations. The model thus far has served more than 3,600 low-income women, infants, and children up to the age of 5 to access food vouchers, receive nutrition education and lactation counseling, and care from registered dietitians for high-risk needs such as jaundice in infants or premature births. We have learned from our staff and participants through thorough evaluation efforts the successes and

SCOPE OF WORK

pain points of the model processes and delivery. Overwhelmingly, our results have been positive from both our staff and participants; we believe based on this positive feedback that we are successfully providing a program tailored to the participants being served by reflecting the cultures and languages of the local community. Based on what we have learned plus some cost savings due to staffing turnover, we plan to continue to expand Specialized Co-Enrollment at Denver Health in year 3. We have been exploring some possible expansion sites including the Women's Care Clinic located on the Denver Health Hospital campus and the Federico F. Pena Southwest Family Health Center outpatient clinic. These two locations are being considered based on the alignment with HFDK priorities and accessibility to WIC-eligible populations. The ability to offer Specialized Co-Enrollment in more locations at Denver Health further supports the adoption of this model as standard practice at the enterprise.

- III. As performed in the previous two years, we will continue to execute engaging community engagement efforts, tailor the workflow to meet the unique needs and environments of our clinics and patients, track data and process improvement measures, and work collaboratively with both internal and external partners. The implementation of Specialized Co-Enrollment at the additional site(s) will support securing additional outpatient clinic site support and resources to adopt Specialized Co-Enrollment as standard care across Denver Health. We believe that these expansion efforts will further the sustainability of this model at Denver Health. Program Locations:
 - **A.** The program will be taking place at the following addresses:

Sam Sandos Westside Family Health Center 1100 Federal Blvd., Denver, CO 80204

Webb Center for Primary Care 301 W 6th Ave 2, Denver, CO 80204

Bernard F. Gipson Sr. Eastside Family Health Center 501 28th St., Denver, CO 80205

Montbello Family Health Center 12600 E. Albrook Dr., Denver, CO 80239

B. Additional locations currently being considered for year 3 expansion include:

Federico F. Peña Southwest Family Health Center 1339 South Federal Blvd, Denver, CO 80219

Denver Health Women's Care Clinic 790 Delaware St, Denver, CO 80204

SCOPE OF WORK

will specify the evaluation questions, process measures (e.g., how the program was implemented, what was done, for whom, and how much barriers and facilitators, etc.), outcome measures (e.g., what results the program had), how the data will be collected, responsible party(ies), and timelines. The final measures will be decided upon with the grantee in collaboration with the HFDK Evaluation team. The HFDK evaluation team is available to provide technical assistance to the grantee on the development and implementation of the evaluation plan, as needed. The grantee will share the final evaluation plan with HFDK staff and the Evaluation team and at the end of the grant term, will report on how the evaluation plan has been implemented and any resulting outcomes.

Participation in the Macro Evaluation

The grantee will participate in the Macro Evaluation, including working in partnership with the HFDK Evaluation team, for shared learning to improve the Denver food system. The HFDK Evaluation team will work with all HFDK grantees to determine which local and macro level data will be collected and reported on through the Reporting Form (see the Reporting Section below). The grantee may also provide organizational and community input on Macro Evaluation activities and products (e.g., Theory of Change, Macro Evaluation plan, annual reports, etc.).

V. Performance Management and Reporting

A. Performance Management

Monitoring will be performed by Denver Department of Public Health and Environment (DDPHE) – **Healthy Food for Denver's Kids** staff and/or designee.

The Grantee will be reviewed for:

- Program Monitoring/Evaluation-Related Activities: Review and analysis of current program information to determine the extent to which grantee contractors are achieving established agreed upon goals. This may include the review and analysis of Evaluation Dashboards, the Reporting Form and Annual reports of grantees (see below). As needed, HFDK may attend evaluation check-ins with the grantee and the HFDK Evaluation team to understand progress towards agreed-upon goals in the grant
- 2. **Fiscal Monitoring:** Review financial systems and billings to ensure that contract funds are allocated and expended in accordance with the terms of the agreement.
- 3. **Administrative Monitoring:** Monitoring to ensure that the requirements of the contract document, Federal, State and City and County regulations, and DDPHE policies are being met.

B. Reporting

The Grantee will be responsible for reporting on program outputs and outcomes, based on the Macro Evaluation Plan. The HFDK Evaluation team will provide a Reporting Form for grantees to submit this data every six months. The grantee data submitted through the Reporting Form will be used in the macro evaluation to measure progress across the entire cohort of HFDK

SCOPE OF WORK

grantees and will additionally be given back to grantees in a collective Evaluation Dashboard and other documents to support their work. Importantly, the Reporting Form may also include a few open-ended questions about strategy, challenges, and successes for the grantee to fill out. Grantees will receive a guide to support completion of the survey and can also access additional technical assistance support for the reporting requirements from the HFDK evaluation team, as needed.

The table below summarizes reporting activity and due dates. The dates are subject to change, and/or frequency of the reporting may be subject to change.

Grantees will be supported around the development or modification of their evaluation plan, evaluation tools, and other general evaluation questions. Additionally, the HFDK evaluation team will provide technical assistance to the HFDK cohort of grantees on a variety of topics, to be determined in the future based on grantees' needs and interests.
