Land Use & Built Form, General Policy 3: Ensure the Denver Zoning Code continues to respond to the needs of the city, while remaining modern and flexible.

Strategy B: Limit the use of site-specific, customized zoning tools – such as Planned Unit Developments (PUDs) and waivers/conditions – to unique and extraordinary circumstances. The zoning code offers a wide variety of zone districts that cover the diverse contexts and places of Denver. Custom zoning tools are most effective when a standard zone district does not exist to implement the adopted plans for an area (p. 73).

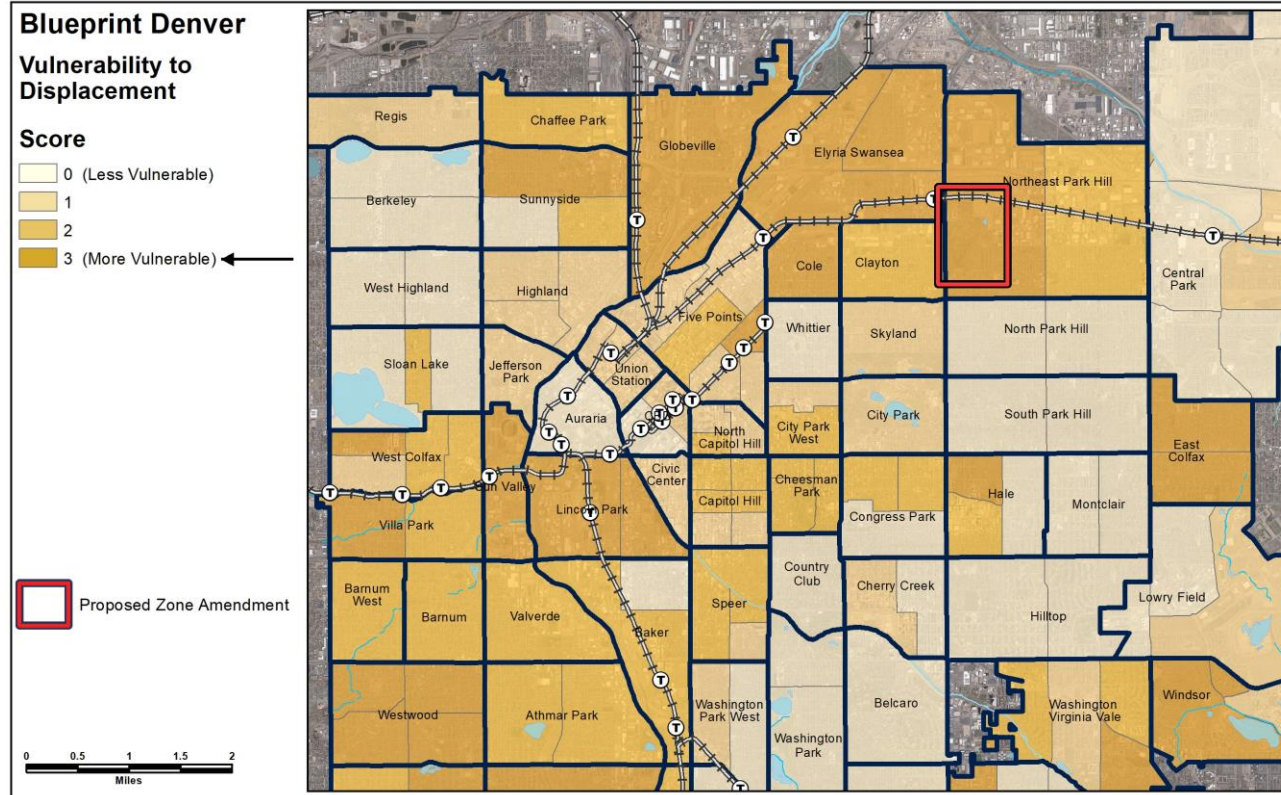

Consistency with Adopted Plans: Blueprint Denver

Access to Opportunity

- Average Access
 - Low access to grocery stores and centers and corridors
 - Less equitable in childhood obesity and life expectancy
- Proposed rezoning will enable a mixed-use development bringing more amenities to the area
- Development agreement includes provisions for affordable housing and 100 acres of publicly accessible park/open space

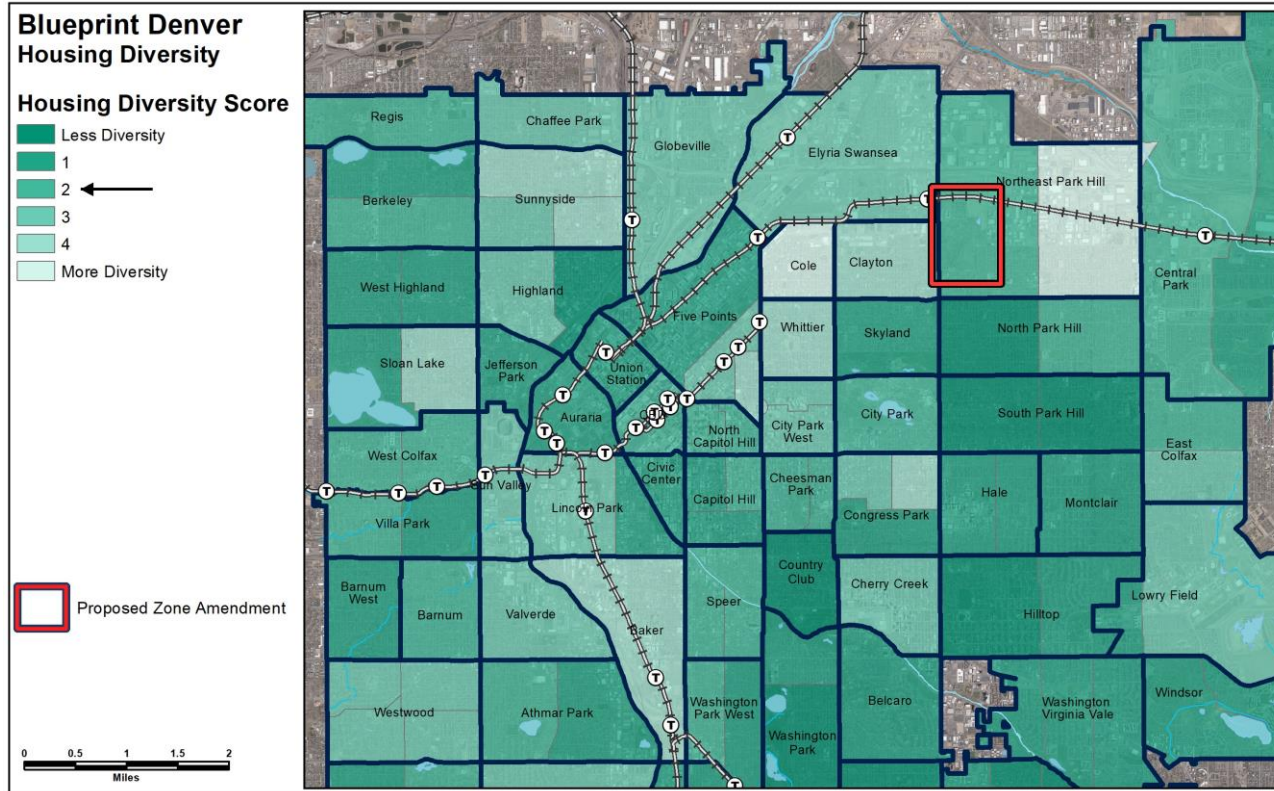

Consistency with Adopted Plans: Blueprint Denver

Vulnerability to Involuntary Displacement

- More vulnerable, based on all three metrics:
 - Educational attainment
 - Median household income
 - Percent renter-occupied
- Applicant is developing a high impact affordable housing compliance plan
 - 25% of total units as income restricted units (IRUs)
 - IRUs include rental units at lower AMI levels, including 30%
 - IRUs also include for sale units with two to three bedrooms

Consistency with Adopted Plans: Blueprint Denver

Housing Diversity

- Below average diversity based on three of five metrics:
 - Housing costs
 - Mix of rented and owned homes
 - Bedroom counts in homes
- Proposed development agreement includes income restricted units, including for-sale units with two and three bedrooms

Consistency with Adopted Plans: Blueprint Denver

Jobs Diversity

- Higher proportion of manufacturing jobs
- Proposed rezoning will allow for various commercial, office, and retail jobs

Consistency with Adopted Plans: Game Plan

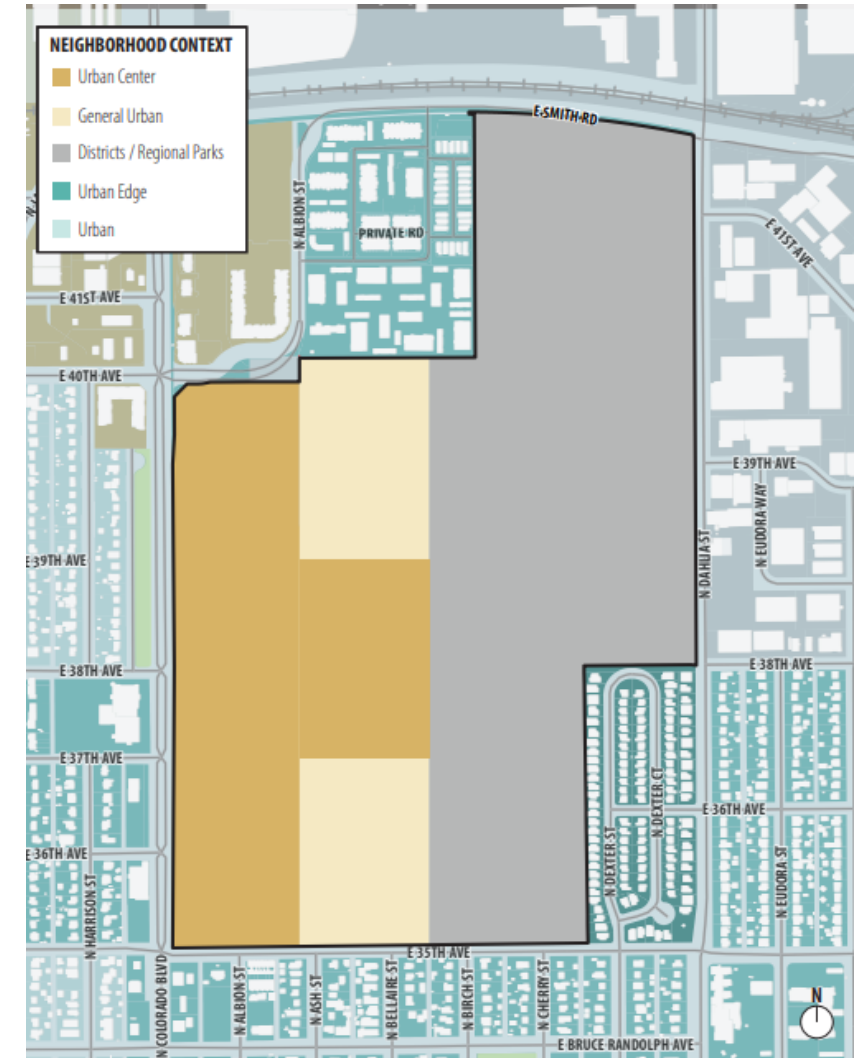

Recommendation 3.1: Acquire land and build facilities to keep pace with growth and meet 10-minute walk standard and service goals

Recommendation 3.5: Ensure a ten-minute walk for park and open space for every neighborhood

Policy Recommendations

The proposed OS-A district will facilitate the creation of a new park:

- Quality of Life, Strategy 1.A: Establish 70-80 acres of contiguous park space that can support a spectrum of recreational activities and serve as a place of connection for the surrounding neighborhoods

The proposed C-MX-12, C-MX-8, C-MS-5 DO-8, C-MX-5, C-MX-5 w/waivers allow for the height of the site to transition from the northwest corner to the east and south:

- Land Use, Strategy 2.A: Transition building height and intensity from highest in the northwest of the site, closest to 40th and Colorado rail station, to lowest at the south and east, closest to existing neighborhoods and future regional park.

Small Area Plan

Policy Recommendations

The proposed C-MS-5 w/DO-8 includes a design overlay that would allow a pedestrian-oriented, active main street with enhanced design standards:

- Design Strategy 3.A: Promote design of a future neighborhood main street that encourages an enjoyable experience through engaging and active uses, such as shops and restaurants located at the street level adjacent to sidewalks and open spaces.
- Design Strategy 3.B: Ensure main street building designs have a strong connection between sidewalks, open spaces, and building activities, which could include design elements such as window and specific first-floor building heights to create engaging storefronts.
- Design Strategy 3.C: Encourage the application of a custom zoning tool like a design overlay to promote an active mix of uses at the street level.

Consistency with Plans: Park Hill Golf Course Small Area Plan

Policy Recommendations

The proposed C-MS-5 w/DO-8, C-MX-5 w/waivers, and G-RX-5 w/waivers uses customized zoning for a design overlay and waivers to achieve a maximum building height of 4 stories:

- Design 4.B: Consider additional regulatory tools to promote specific design outcomes such as buildings designed to incorporate variation in height/scale, open-up views from the regional park or integrate an active and engaging street frontage. Potential regulatory tools could include:
 - Customized zoning solutions such as a design overlay to achieve street level activation.
 - Customized zoning solutions such as waivers to achieve maximum height recommendations.
