Description of Work

Furnish and Install Monroe Frame Mounted "Super-Combo" Granular / Liquid Spreader model MSV-180-84-62-304SS chassis mount Combo unit DIA special MCV hydraulic spreader including:

- 10 gauge stainless steel hopper with 45 degree sloped sides
- Top edge of body is 2" double crimped
- Hopper is 84" in width
- 7 gauge longitudinals with the longitudinals extended for supporting the spinner assembly
- Longitudinals shall be tied together with 3" channel cross sills
- The channel cross sills shall tie the lower edge of the longitudinals to each side support
- The cross supports shall be wide enough to allow to body to slide into a dump body if not frame mounted
- A bolt-on 6" x 9.0# wide flange "H" beam will be elevated 3" above the top edge of the hopper, thus providing a longitudinal brace and hinge point for the top screens
- There shall be a 2" x 2" angle welded from the "H" beam to each hopper side for additional side support
- The 12" x 18", 10 gauge feed gate and ruler shall be provided at the rear of the hopper to allow for accurate discharge
- A Self-locking screw type gate jack shall open and close gate
- There shall be 10 gauge formed side supports that extend the full side angle height spaced on approximately two foot centers
- A heavy duty lift loop shall be provided at each corner for lifting of body
- The rear endplate shall be reinforced inside and supported to give it maximum strength
- Conveyor system shall be of chain bar flight type running longitudinally with the body feeding material to the feed gate opening
- The overall conveyor width shall be 24"
- To protect the chain link strands, a 10 gauge replaceable chain shield shall cover the strands exposing only the drag bar to the material
- The conveyor floor shall be of flat design and manufactured of replaceable 3/16" steel and rolled over edges
- The conveyor chain shall be driven through the worm drive gearbox by a low speed/high-torque "orbital type" hydraulic motor. The motor shall be directly coupled to the gearbox and protected from the elements by a cast housing
- The worm gear drive shaft shall have provision for a servo sensor, integral with the driveshaft
- The cast iron gearbox shall have hardened and ground bronze gears mounted on 2" diameter drive shaft and supported on tapered roller bearings
- The gears shall be machine cut and mounted in anti-friction sealed bearings and running in oil
- The gearbox ratio shall be 50:1
- The drive and idler sprockets shall be 8 tooth cast grey iron sprockets keyed to the 2" diameter drive shaft and 2" idler shaft
- Both conveyor shafts shall have heavy duty, dust sealed self-aligning four bolt flange bearings equipped with grease fittings
- The conveyor shall have an internal front wiper and an external rear wiper
- A heavy duty spring loaded idler adjustment assembly with 4" of adjustment
- Conveyor chain is heat treated, 2.25 pitch, self-cleaning, pintle type, with 7/16" pins and tensile strength per strand of 21,000 pounds
- Chain shall utilize a 3/8" x 1-1/2" x 18-3/4" cross bar welded on both the top and bottom to every other chain link, and shall have an overall width of 22-1/4"
- Cross bars are approximately 4.5" on center
- Spinner disc is 20" in diameter, manufactured from poly
- The disc is mounted on a cast iron replaceable hub that is connected directly to the top mounted spinner motor
- Material is guided from the conveyor to the spinner assembly with two internal adjustable 10 gauge stainless steel material deflectors
- Entire spinner assembly is manufactured of 10 gauge STAINLESS steel and is adjustable in height
- There are 4 external baffles on the spinner assembly that are adjustable
- Hopper length is 15 feet; 84" width; 62" height
- Hopper capacity is 11.9 cubic yards
- Stainless steel chassis mount skid
- Speed sensor in conveyor motor
- Rear grease extensions
- Rear chain slack adjusters
- Inverted V - STAINLESS STEEL
- C-DOT deflector kit
- Rear ladder kit
- Rear conveyor cover kit
- Tandem axle fender kit
- Tip-up spinner assembly with poly spinner disc
- Spinner extension kit

Description of Work

UPDATED MATERIAL OVERFLOW CONTROL:

- Stainless steel sub floor
- Wiper system
- Integrated front overflow material discharge chute

Description of Work

LIQUID:

- 1300 Gallon poly tank kit *TANKS ARE REMOVABLE*
- (3) Lane anti-ice system
- 7 GPM Closed loop prewet system

V-BOX LIGHTING: - (Also listed within 'Lighting Section")

- Integrated TOVAR light bar populated with:
- One (1) oval LED AMBER strobe
- One (1) oval LED BLUE strobe
- Two (2) oval LED RED stop/tail/turn lights
- Three (3) center LED RED 3-ID lights
- Four (4) LED RED clearance lights
- 6-way electric socket
- Chassis mounted V-Box marker lights
- One (1) clear LED spinner light located on the spinner chute assembly actuated from a switch on the Monroe In-Power switch pack

TARP:

Shurco Electric swing arm tarp assembly including:

- 90 degree worm gear motor
- Pilot slide arm
- Electric motor assembly with manual over ride **MOUNTED AT THE FRONT OF THE COMBO UNIT ON "TARP MOTOR SHELF" AS TO NOT INTERFERE WITH REAR DRAG CHAIN AND SPINNER CHUTE.**
- Vinyl tarp
- Actuated from two switches on In-Power switch panel; "tarp-out" & "tarp-in"

Description of Work

TARP NOTE:

System will be installed on the sander and will rotate from curbside to street side to close.

Location of tarp motor shelf

CAMERA KIT:

Force America camera kit displayed in 6100 controller including

- **Camera 1:** Camera 1 is to be located on top of the frame mounted cab shield facing to the rear showing the position of the tarp; "open" - "closed"
- **Camera 2:** Camera 2 is to be located within the Tovar Light bar facing to the rear

Description of Work

SAFETY AND MISCELLANEOUS ITEMS:

- STAINLESS STEEL Front material overflow deflector
- Tandem axle fender kit
- Chassis mounting kit
- Two (2) sets of mud flaps with flap stiffener kit, one (1) set ahead of front tandem and one (1) set behind rear tandem
- Conspicuity tape installed down each side of the Super Combo above tank assemblies
- Weight slip

SNOWPLOW:

Monroe Model MPPJ45R12-ISTT-PARA-LIFT

- Moldboard sheet shall be 3/8" thickness of UHMW polymer with built-in integral shield
- Polymer sheet shall be bolted at the top of the moldboard to a 2" x 3" x 3/8" top moldboard angle
- Two 3" x 10" power reverse cylinders with cushion valve
- 5/8" x 8" AASHO C1080 center punched cutting edge
- Ten 1/2" solid one-piece flame cut vertical ribs
- 4" x 4" x 3/4" bottom moldboard angle
- Six 3/4" adjustable torsion springs
- Parallelogram style lift
- Main push tube is to be 4" x 4" x 4/8" A36 seamless square wall tubing
- Fabricated A36 steel 3-1/2" x 3-1/2" x 1/2" semi-circle
- Moldboard and frame to be 100% continuously welded
- The moldboard height of the plow is 45 inches
- The overall width of the plow is 12 feet
- Rubber snow deflector
- Orange poly sight markers
- Snow wheel mounting brackets

Description of Work

HITCH ASSEMBLY:

PLOW & TRUCK HITCH:

- Parallelogram lift frame
- Flat Plate Parallelogram style
- Cheek plates

Description of Work

LIGHTING:

Furnish and install the following Whelen LED DOT lighting system including:

COMBO UNIT :

REAR LEG MOUNT Whelen "400" series lights as follows:

- -1- CLEAR back up
- -1- RED stop-tail-turn
- Stainless steel twin light mount

WHELEN STROBE LIGHTS:

Strobe Lights:

- Three (3) AMBER 500 series LED lights recessed in the STREETSIDE of the cab shield (1) front, (1) side & (1) rear
- Three (3) BLUE 500 series LED lights recessed in the CURBSIDE of the cab shield (1) front, (1) side & (1) rear
- One (1) AMBER 500 series LED light recessed in the STREETSIDE rear pillar
- One (1) AMBER 500 series LED light recessed in the CURBSIDE rear pillar

Description of Work

Responder Light Bar:

- One (1) Responder series light bar install on raised stainless steel mount in the center of the frame mounted stainless steel cab shield assembly

SWITCHING:

Lighting is to be controlled by Monroe In-Power switch box mounted to Force America 6100 console

- FRONT Responder light bar is to be controlled by one (1) switch
- REAR amber strobes are to be controlled by one (1) switch
- BLUE strobe lights are to be controlled by (1) switch
- FUTURE Wing Strobe are to be controlled by (1) switch (Switch is to be included for possible future use)
- FUTURE Wing work light is to be controlled from one (1) switch (Switch is to be included for possible future use)
- Spinner work light is to be controlled from one (1) switch
- Plow lights are to be controlled by Chassis OEM "snowplow light" switch

SNOWPLOW LIGHTS:

- "ECCO " LED style snowplow lights including:
- Integrated Snow Shield Tech to prevent snow and ice build up
- 100 % waterproof housing
- Fender mounted Stainless steel snowplow light mounts

V-BOX LIGHTING:

Integrated TOVAR light bar populated with:

- One (1) oval LED AMBER strobe
- One (1) oval LED BLUE strobe
- Two (2) oval LED RED stop/tail/turn lights
- Three (3) center LED RED 3-ID lights
- Four (4) LED RED clearance lights

V-BOX SPINNER LIGHT:

- One (1) clear LED spinner light located on the spinner chute assembly actuated from a switch on the Force America console

LIGHTING MISCELLANEOUS:

- Whelen linear DOT LED lighting system ran from the cab of the truck to each light without the use of a junction box. terminating in truck cab within OJW "Power-Tower"
- All light connections will have Deutsch connections
- OJW wiring diagram for Power Tower

Description of Work

Furnish and install one (1) Force America FRONT CRANK drive system including:

PUMP ASSEMBLY:

1060656 CFG-999061 Front Crank Drive Pump including:

- 5.98 cid- CCW-1-1/4" keyed
- 4 Blt C-L.S. - 2-1/2" x 1" SFP side - comp 2380 psi / Max 3800 psi
- Flange kit
- 622AK-L-CFG
- 1061514 Driveline kit with 479 and 329 flange yokes and 1-1/4" C.f - FAD
- FAD-479x329x333x20
- 1012044 Assy- pump shut off valve with relief
- 9172H002

HOSES AND FITTINGS AND MISCELLANEOUS:

- All required plumbing
- Front STREETSIDE mount Stucchi Coupler for plow with Parallelogram mount
- CURBSIDE Mid-mount Stucchi Coupler for wing
- Hydraulic oil

VALVE:

AAF-PK4RV-4-4CB-4CB-F4A-2P-2D2S-VT Valve Details:

- FORCE America Model Add-A-Fold
- 3000 PSI Max
- Double Acting Plow Lift w/Integrated Power float and 500 PSI downside relief
- Double Acting Plow Angle
- **Double Acting Wing Toe with integrated counterbalance valve (Included for possible future use)**
- **Double Acting Wing Heel with integrated counterbalance valve (Included for possible future use)**
- 0-14 GPM Conveyor forward and reverse
- 0-7GPM prewet Liquid
- 0-14GPM direct liquid
- 0-7 GPM spinner
- Includes JIC Fittings *F-A KIT-CFG

Description of Work

ELECTRIC CONTROLS:

MPJC-6100-3-GEN5-ULTRA - DIA W/2FWING including:

- Floor mounted Ultra Controller
- Integrated 6100 Can Bus Spreader Control System
- Dual Axis Joy-Stick for Plow control with pushbutton standby for Spreader
- Dual axis Joy-Stick for Wing Control with push button for Spreader Blast
- Multi-Lane Granular, Prewet and Direct Liquid
- Application module and Harnessing
- Truck mount ISO Bus kit
- Low oil override module
- M12 flow meter sensor

Description of Work

DIA AIR-SIDE CAB SHIELD:

- 201 stainless steel construction
- Frame mounted cab shield
- **Integrated oil reservoir**
- **Integrated hydraulic valve enclosure**
- Six (6) oval cutouts to accommodate Whelen 500 series grommet mounted LED strobe lights
