5. General description or background of proposed request. Attach executive summary if more space needed:

This request is for an amendment between Mission Yogurt, LLC and Denver International Airport (DEN) to right size this contract based on the increased cost of designing and building a Concession at DEN. This amendment will help the concessionaire amortize their investment by accounting for the increased capital costs incurred between the time they submitted their proposal and the time they began designing and constructing the concession.

No funding or capital investment will be provided by DEN, as the space was turned over as-is. This project supports Vision 100's goal of "Growing Our Infrastructure" by adding new concession opportunities to meet future passenger demands, which will enhance the customer experience and increase non-aeronautical revenue.

This amendment is part of the Group Two amendments that were presented at the September 17 Transportation and Infrastructure Committee meeting.

6. City Attorney assigned to this request (if applicable): David Steinberger

7. City Council District: Council District 11
