ATTACHMENT B
Explained Deviations

DEVIATIONS EXPLAINED

Since the boundaries for both PUD G-24 and PUD G-25 are changing, the rezoning will result in the creation of two new PUDs.

PUD G-24 → PUD G-41

PUD G-24 will be rezoned to PUD G-41 and will introduce a new subarea (Subarea C). Subarea C includes the parcel located at 3058 S. May Station Way (approximately 14,366 square feet).

Subarea C will follow the base zone district of CMP-EI2, consistent with Subarea B.

There are three deviations requested:

1. Height

The maximum height is reduced to 4 stories or 55 feet. The Loretto Heights Small Area Plan recommends a transition from the campus core to the adjacent residential area. Properties directly to the north and west within the PUD are zoned S-RH-2.5, which allows up to 3 stories (45 feet). This reduced height helps create an appropriate transition between the campus core and surrounding residential areas.

2. Primary Street Setback

The primary street setback is increased from 0 feet to 20 feet to align with the established setback pattern in the adjacent zone district to the north and west (PUD G-25 / S-RH-2.5), creating a more consistent streetscape.

3. Bulk Plane (Side Interior Zone Lot Line)

A bulk plane standard is introduced along the side interior zone lot line to provide additional height transitions adjacent to the residential properties to the west, which are within a protected district.

There are **no changes proposed to Subareas A and B.**

PUD G-25 → PUD G-42

PUD G-25 will be rezoned to PUD G-42. The only change is a boundary adjustment to remove the parcel at 3058 S. May Station Way. No other changes to the PUD standards are proposed.

Review Criteria

Rezoning Narratives

The City Council may approve a rezoning application if the proposed rezoning complies with:

I. Consistency with Adopted Plans

The proposed official map amendment is consistent with the City's adopted plans, or the proposed rezoning is necessary to provide land for a community need that was not anticipated at the time of the adoption of the City's plan.

There are three adopted plans that apply to the subject area:

- A. Comprehensive Plan 2040**
- B. Blueprint Denver (2019)**
- C. Loretto Heights Small Area Plan**

These plans are detailed further on the following pages.

A. Comprehensive Plan 2040

The proposed rezoning by changing the boundaries is still consistent with the goals and strategies within the Comprehensive Plan 2040. More specifically, it furthers the following equity, community design, and climate related strategies:

- Equitable, Affordable and Inclusive Goal 1 – Ensure all Denver residents have safe, convenient and affordable access to basic services and a variety of amenities (p. 28).
- Strong and Authentic Neighborhoods Goal 2, Strategy C – Create people-oriented places that embrace community character with thoughtful transitions, aspirational design and an engaging public realm (p. 34).
- Environmentally Resilient Goal 8, Strategy C – Focus growth by transit stations and along high- and medium- capacity transit corridors (p. 54).

The proposed amendment is consistent with the Comprehensive Plan 2040's Equitable, Affordable and Inclusive Goal to ensure all Denver residents have safe, convenient, and affordable access to basic services and a variety of amenities.

B. Blueprint Denver (2019)

Blueprint Denver is Denver's citywide, long range, land use and transportation plan, adopted by City Council in 2019 as a supplement to Comprehensive Plan 2040. The proposed rezoning will promote development that supports the complete neighborhood and transportation network vision in Blueprint Denver, including neighborhood context, future place, street type and growth guidance.

Following are exhibits from Blueprint Denver and further discussion on Neighborhood Context, Future Places, Street Types, Growth Strategies identified in Blueprint Denver.

- A. Neighborhood Contexts
- B. Future Places
- C. Growth Strategies
- D. Adjacent Street Types

A. Neighborhood Contexts

Referencing Blueprint Denver, the site is home to three different context designations in the future: Urban, District, and Suburban as shown in Figures 1 and 2. The change in zoning is consistent with the context.

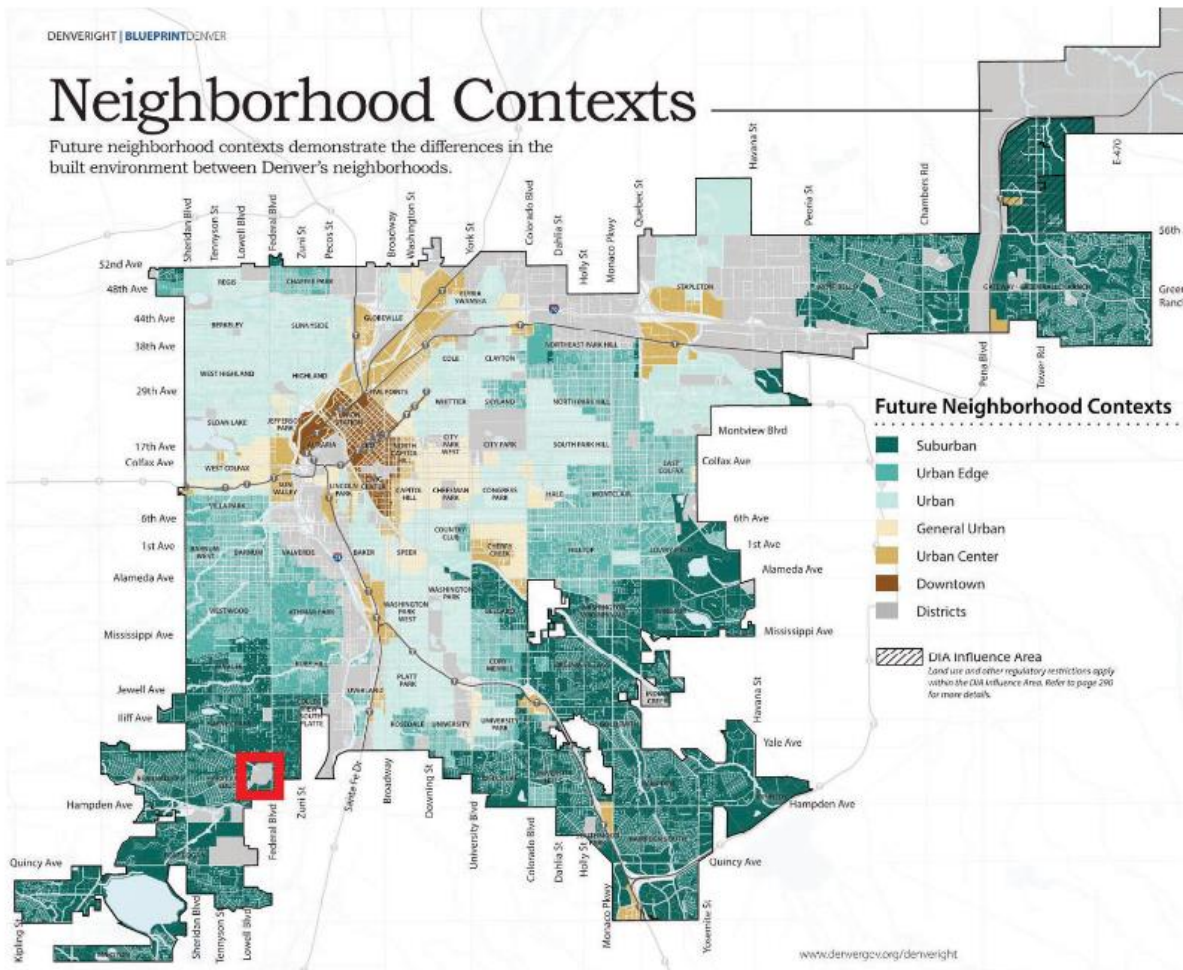

Figure 1: Blueprint Denver - Neighborhood Contexts

- a. **Urban** – Blueprint Denver describes, Urban, as “widely distributed throughout the city. Homes vary from multi-unit developments to compact single-unit homes. Development in this context should be sensitive to the existing neighborhood character and offer residents a mix of uses, with good street activation and connectivity. Residents living in this context have access to varied transit options and amenities. The urban context is walkable due to a predictable street grid in residential areas and the availability of transit and dedicated bike lanes. These areas offer access to neighboring areas and commercial nodes, with some small mixed-use nodes within the neighborhood.”(Section 5.3)
- b. **District** - Districts are areas with a specially designed purpose, such as educational campuses, civic centers or manufacturing areas. (Section 5.7.1 Blueprint Denver)
- c. **Suburban** - The suburban context represents the most varied development in Denver’s neighborhoods. Homes in this context are largely single-unit, but can

also include higher intensity residential. Commercial development is focused along main corridors and centers bordering residential areas. Although this context is more auto-oriented than others, there should still be quality multimodal connectivity. The aspiration of the suburban context in Denver is different than traditional suburban development of the past. Especially compared to other parts of the metro area, Denver’s suburban areas are still more urban in nature and suburban places should reflect that. (section 5.1)

In response to the three Blueprint Denver neighborhood designations on-site, Loretto Heights is requesting a map amendment to support these uses. To achieve “suburban” neighborhood qualities the land adjacent to the residential neighborhoods on the north and west are proposed to be rezoned to a “Residential PUD,” which is based on districts in the Suburban neighborhood context. To achieve “district” neighborhood qualities the existing campus would be rezoned as a “Campus Core PUD,” which is based on a campus zone district. The rezoning will maintain this recommendations with the proposed boundary changes.

B. Future Places

Outlined in Blueprint Denver, the Loretto Heights’ site is home to six different “future place” designations, which accompany the three “neighborhood context” designations referenced in the previous section. Below we will breakdown the six future place designations and narrate how the proposed zoning is supporting that intricate network of designations.

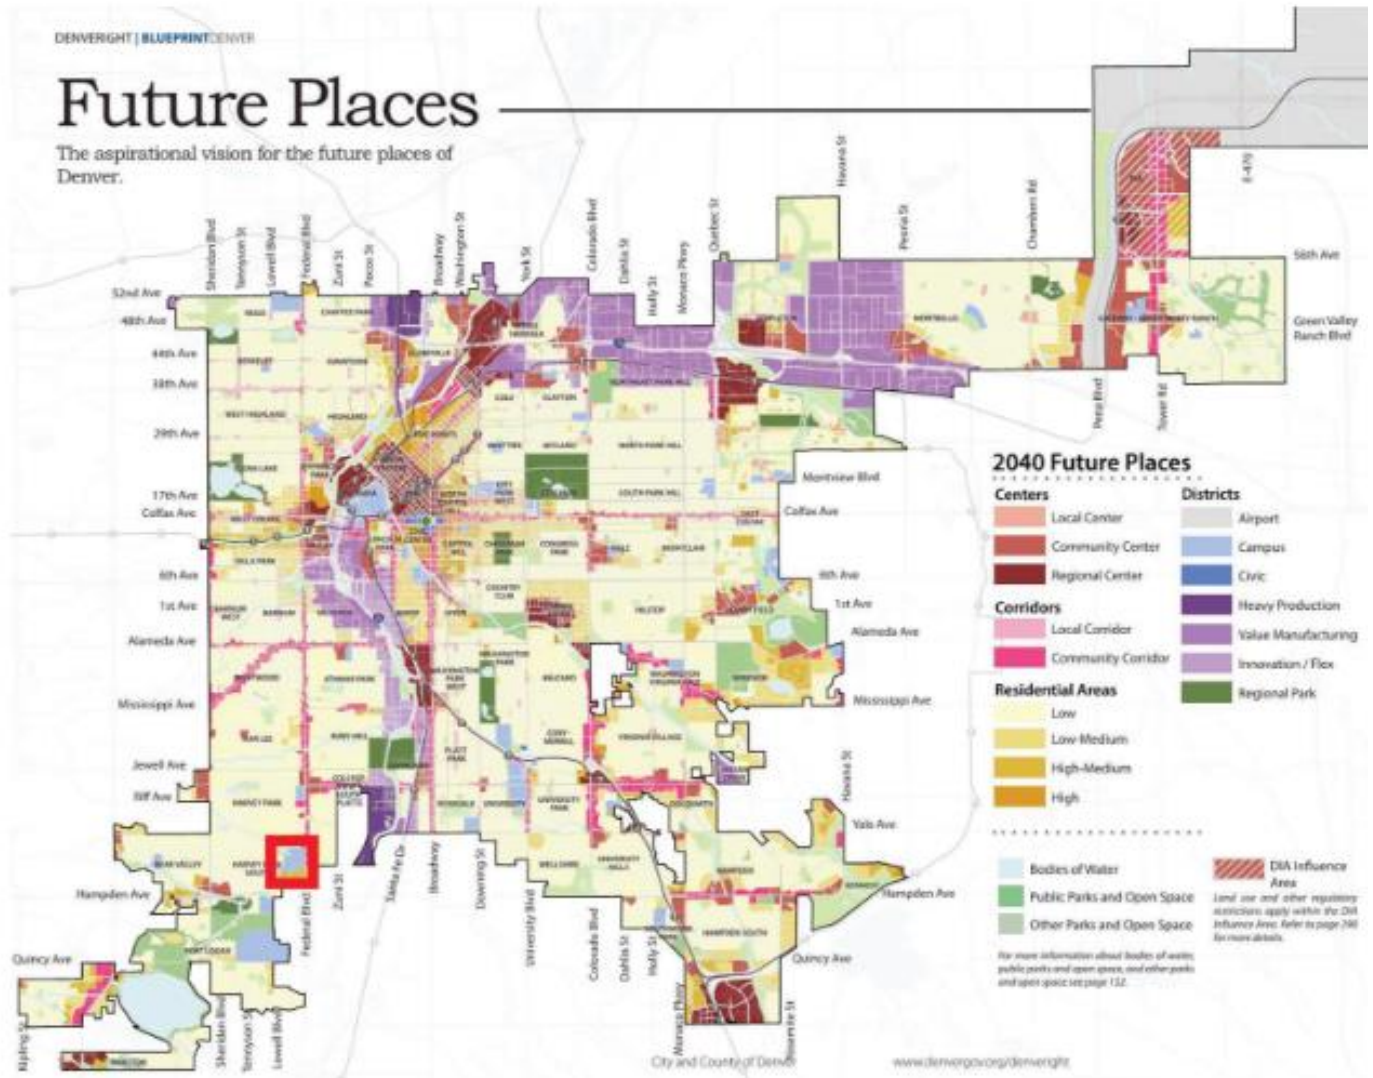

Figure 4: Blueprint Denver – Future Places

- a. **Community Center** - “Typically provides some mix of office, commercial and residential uses. A wide customer draw both of local residents from surrounding neighborhoods and from other parts of the city. Activity levels will vary depending on the type and mix of uses. Buildings are larger in scale than local centers and orient to the street or other public spaces. Strong degree of urbanism with mostly continuous building frontages to define the public realm. Heights are generally up to 5 stories. Open spaces promote social interaction and respond to the distinct uses within the center. Green infrastructure can serve the needs of a site or the surrounding area. Public spaces are flexible to benefit different types of users and daily activities through” (5.3.3)
- b. **Community Corridor**- “Typically provides some mix of office, commercial and residential uses. Have a distinctly linear orientation along the street. Lot coverage is typically higher, with open spaces that are often accommodated by spaces between buildings rather than along the street. Heights are generally up to 5 stories.”

- c. **Campus** - “Campus districts each have a primary purpose such as education or medical services. These environments often provide retail, restaurants, offices and residential uses to support the primary use and serve the surrounding neighborhoods.” (section 5.7.3 Blueprint Denver)
- d. **Residential High-Medium** - “Contains a mix of medium-scale, multi-unit residential types and can accommodate compatible commercial/retail uses. Buildings are generally up to 5 stories in height. Building heights and scaling help provide transitions to adjacent places.” 5.1.5
- e. **Residential Low-Medium** - “Mix of low- to mid-scale multi-unit residential options. Small scale multi-unit buildings are interspersed between single and two-unit residential. A variety of lower scale residential forms including row houses and small multi-unit buildings are found. Buildings are generally 3 stories or less in height.”
- f. **Residential Low** “Generally characterized by single-unit uses on larger lots. Buildings are typically up to 2.5 stories in height. Outdoor space is generally privatized in the form of larger yards in the front and rear. Public parks provide open space and recreation. Canopy trees should be appropriately spaced and abundant within the right-of-way and on private property.” 5.1.5

The request is consistent with the overall intent of Blueprint Denver’s neighborhood contexts map and the future places.

C. Growth Strategy

Blueprint Denver’s growth strategy map is a version of the future places map, showing the aspiration for distributing future growth in Denver (p. 51). The subject is one of the many areas indicated as “All other areas of the city.” These areas anticipate 10% of new jobs growth and 20% of housing growth in the city by 2040 (p. 51).

D. Adjacent Street Types

In Blueprint Denver, street types work together with the future place to evaluate the appropriateness of the intensity of the adjacent development (p. 67). Federal Boulevard – including at 3001 South Federal Boulevard, where the subject property is located – is classified as a Mixed-Use Arterial. Arterial streets are designed for the highest degree of movement and access. Furthermore, streets designated as Mixed Use provide a “varied mix of uses including retail, office, residential and restaurants. Buildings are pedestrian-oriented, typically multi-story, usually with high building coverage with a shallow front setback. A street wall is present, but may vary” (p. 159). Note that residential Collectors are located in the surrounding neighborhoods, although not immediately adjacent to the subject property.

E. Plan Policies and Strategies

The proposed rezoning supports multiple plan and policy objectives that are outlined in Blueprint Denver. Among them:

- The Community Goals are supported by this rezoning by “...promoting enduring and compatible design that responds to an evolving community while embracing historic assets and cultural heritage.” (Goal #8, Pg. 23)
- Land-use and Built Form Recommendations 4-B and 6D (pg 92-93) in particular and Design Quality and Preservation Policies in general, as the proposed rezoning supports the preservation of the existing theater and its renovation through the implementation of adjacent parking to support the theater.

F. Plan Policies and Strategies

Blueprint Denver outlines four key equity concepts—Access to Opportunities, Vulnerability to Displacement, Housing Diversity, and Jobs Diversity—to guide growth in a way that benefits all residents. In this case, the proposed rezoning (maintaining the existing PUD and change to boundaries) is intended to improve walkability, expand access to amenities, and introduce a broader mix of housing and job opportunities. While the area currently has lower access to opportunity and higher vulnerability to displacement, the rezoning aims to address these challenges by increasing residential density, supporting affordable housing options, and creating a more diverse range of employment opportunities, ultimately promoting a more equitable and sustainable community.

C. Loretto Heights Small Area Plan

The Loretto Heights Small Area Plan was produced through a City-led Area Plan process that began in September of 2018 and which was adopted by City Council in September, 2019. The Area Plan process engaged the community to better understand their existing conditions and needs, as well as their future goals and vision for their community.

Future Neighborhood Context

The Loretto Heights development includes three Future Neighborhood Contexts: Urban along the east, Suburban along the north and west, and District within the campus core. (See Future Neighborhoods above under Blueprint Denver.)

Future Neighborhood Contexts

Suburban

The suburban context is significantly influenced by the needs of the automobile although there are both walkable and bikeable areas with some access to transit. Homes in the suburban context are largely single-unit but can also include smaller lot sizes, higher intensity residential such as multi-unit structures and apartment buildings. Commercial development is typically located along main corridors and in centers bordering residential areas.

Urban

The urban context is walkable, with a lower reliance on single-occupancy vehicles, due to a predictable street grid, bike infrastructure and the availability of transit. Homes in this context vary from multi-unit developments to compact single-unit homes. Mixed-use buildings are sited in a pedestrian-friendly manner near the street. Parking is generally located behind buildings or on-street.

Districts

Districts are contexts with a specially designed purpose. Although they have a strong primary purpose, these places can also be mixed-use and offer a diverse range of amenities and complementary services to support the district's primary function. Block patterns, building height, orientation, urban design and mobility connections in this context can vary based on specific use. Many districts provide large scale public open space and community gathering areas.

Figure 2.1. Neighborhood Contexts

Figure 11: Small Area Plan - Future Neighborhood Context

Future Places

The Loretto Heights development includes six Future Place Types: Community Center and Community Corridor along Federal Boulevard; Residential High-to-Medium, Medium-to-Low and low-density Residential along the north and west; and the Campus future place type in the existing campus core. (See Future Places above under Blueprint Denver.) The following exhibit is from the Loretto Heights Small Area Plan. (p. 39)

Future Places

Centers: The community expressed a desire for the creation of a strong commercial core within the redevelopment of the Loretto Heights campus. In fact, the number one hope and opportunity comment (25% of comments) in the land use category centered around the creation of a community destination for residents and visitors alike, with a variety of mixed-use, commercial and retail activity.

Corridors: The community identified the transformation of Federal Boulevard from a dangerous, automobile-dominated state highway to a safe and vibrant community corridor. As safety improvements are made along the corridor and the Loretto Heights campus redevelops, Federal Boulevard should become a larger target for investment and revitalization.

Residential Areas: The community consistently recognized the need for a variety of housing options within the redevelopment of the Loretto Heights campus but advocated for residential development to be properly scaled with the surrounding context and of high quality design. Along the western and northern border of the Loretto Heights campus, there is a strong desire to keep like-for-like when it comes to residential character. That is to say that the community encourages single-unit homes adjacent to single-unit homes with a transition to higher intensity the closer you get to the core of the campus. To the south of the Loretto Heights campus the community supports maintaining the higher intensity of residential uses – high medium – which has already been established.

Note that the Urban Neighborhood Context from Future Neighborhoods mirrors The Community Centers and Corridors indicated in the Future Places Exhibit, indicated above from the Loretto Heights Small Area Plan.

This graphic depicts the existing buildings and open spaces within the Campus Core PUD area that the Small Area Plan indicates as priority historic resources.

II. Public Interest

The proposed official map amendment furthers the public interest of the City.

The City has adopted multiple plans in the interest of public health, safety and the general welfare including Comprehensive Plan 2040 and Blueprint Denver. As described in detail above, the legislative rezoning furthers the goals, policies and strategies in these City plans, and thus by implementing them furthers the health, safety and welfare of the City.

III. Consistency With the Neighborhood Context and With the Intent of the Proposed Zone District(s)

The proposed official map amendment is consistent with the description of the applicable neighborhood context, and with the stated purpose and intent of the proposed Zone Districts.

Campus Core PUD (PUD G-41)

The general purpose of PUD-G 41 is to:

- 1.2.1 Create a community destination.
- 1.2.2 Facilitate redevelopment of the former Loretto Heights campus with mixed-use residential and commercial uses and amenities.

1.2.3 Ensure preservation and rehabilitation of the Remaining Buildings and Remaining Open Spaces defined in PUD-G 41 Section 1.1.2 while facilitating their original use and adaptive reuse.

1.2.4 Achieve significant additional public benefits including publicly accessible open space that draws residents and visitors into the site from surrounding neighborhoods, allows for circulation around the site, outdoor events and dining, and which provides space for shared mobility devices like bicycles.

More specifically, PUD-G 41 is intended to:

1.3.1 Facilitate compatible development through the use of appropriate building form and design that provides a mix of residential and commercial uses and amenities that respond to the surrounding Suburban and Urban Neighborhood Contexts.

1.3.2 Encourage pedestrian-activated spaces as envisioned in the City's adopted plans.

1.3.3 Preserve and complement character-defining features of the Remaining Buildings and Remaining Open Space.

1.3.4 Ensure quality, human-scaled building design that respects both the overall historic development pattern and design integrity of the Loretto Heights Campus.

1.3.5 Protect and frame key views identified in the Loretto Heights Small Area Plan and ensure that new buildings do not rise above the roofline height of the H-shaped portion of the Administration Building.

The proposed Campus PUD map amendment is consistent with the existing Loretto Heights Campus Core – which serves as the Campus PUD's applicable neighborhood context – in that it establishes a zone district and context where remaining buildings and open spaces have already created a community destination, and the PUD establishes the ways by which this zone district and context may evolve in ways that are complimentary to the context and supportive of Blueprint Denver and Small Area Plan guidance and goals.

Residential PUD (PUD G 42)

The general purpose of PUD-G 42 is to facilitate the redevelopment of the former Loretto Heights campus in a responsible and sustainable way and that is compatible with the established residential character found in the adjacent neighborhoods. Future growth and development will take advantage of the unique topography of the site and incorporate an enhanced open space network.

More specifically, PUD-G 42 is intended to:

1.3.1 Allow mixed residential development that contributes to the vibrancy of the surrounding neighborhood and facilitates a transition between future mixed uses in the Campus Core, and existing residential to the west and north.

1.3.2 Facilitate compatible development through the use of appropriate building form and design standards and guidelines that respond to the surrounding Suburban and Urban Contexts.

1.3.3 Encourage pedestrian-activated spaces and connections as envisioned in the City's

adopted plans.

1.3.4 Allow uses and building forms at a scale that is compatible with the surrounding residential neighborhoods and the future mixed-use in the Campus Core.

1.3.5 Ensure quality, human-scaled building design, particularly along South Irving Street/South Julian Street.

1.3.6 Create an enhanced open space network of trails, parkways, and turf that is thoughtfully woven into the neighborhood and connects future residential to regional and local assets like Loretto Heights Park.

The proposed Residential PUD map amendment is consistent with the surrounding applicable neighborhood contexts in that it establishes appropriate future development compatible with the existing neighborhoods to the north and west of Loretto Heights as well as to the Campus Core PUD, which is located south and east of the Residential PUD. Allowable future development will be scaled to honor existing adjacent neighborhoods, allow for a diversity of possible residential types, and promote sustainable development throughout.

IV. Consistency With the Neighborhood Context and With the Intent of the Proposed Zone District(s)

Additional Review Criteria for Rezoning to PUD District (12.4.10.9)

VI-a. PUD G-41 (Campus Core PUD)

A. The PUD District is consistent with the intent and purpose of such districts stated in Article 9, Division 9.6 (Planned Unit Development) of this Code.

9.6.1.1 General Purpose and Intent

A. The general purpose of a Planned Unit Development zone district (“PUD District”) District is to provide an alternative to conventional land use regulations, combining use, density, site plan and building form considerations into a single process, and substituting procedural protections for the more prescriptive requirements in this Code. The PUD District is intended to respond to unique and extraordinary circumstances, where more flexible zoning than what is achievable through a standard zone district is desirable and multiple variances, waivers, and conditions can be avoided.

B. “Unique and extraordinary circumstances” that justify use of a PUD District include, but are not limited to, the following:

1. Where a development site has special physical characteristics, including but not limited to irregular or odd-shaped lots, or lots with significant topographical barriers to standard development or construction practices;

2. Where a customized zoning approach is necessary to protect and preserve the character

of a historic structure or a historic district;

PUD G-41 is consistent with the intent and purpose of PUDs because the subject site has special physical characteristics and assets. Specifically, the existing Remaining Buildings and Remaining Open Spaces indicated in PUD G-41 are a vital part of this zone district, and the PUD addresses how these Remaining Buildings and Remaining Open Spaces are to be treated.

Additionally, site topography warrants the two Subareas indicated in PUD G-41 which allow for heights and stories within the zone district – and across varying topography – while honoring guidance in the Loretto Heights Small Area Plan and Blueprint Denver, as well as the Ruby Hill View Plane. Such height allowances and specificity is not provided in standard zone districts. (Note that both Subareas within PUD G-41 limit heights and stories to be less than what is currently allowed under the existing CMP-EI2 zoning.)

B. The PUD District and the PUD District Plan comply with all applicable standards and criteria stated in Division 9.6

The PUD District complies with all standards and criteria stated in Division 9.6.

C. The development proposed on the subject property is not feasible under any other zone districts, and would require an unreasonable number of variances or waivers and conditions.

The PUD is necessary because there is no standard zone district the addresses existing Remaining Buildings and Remaining Open Spaces, nor the topography outlined in PUD G-41.

D. The PUD District and the PUD District Plan establish permitted uses that are compatible with existing land uses adjacent to the subject property.

PUD-G-41 establishes uses that honor guidance provided in the Loretto Heights Small Area Plan and Blueprint Denver, which recommends adaptive re-use of existing Remaining Buildings and mixed-use development throughout the zone district.

E. The PUD District and the PUD District Plan establish permitted building forms that are compatible with adjacent existing building forms, or which are made compatible through appropriate transitions at the boundaries of the PUD District Plan (e.g., through decreases in building height; through significant distance or separation by rights-of-way, landscaping or similar features; or through innovative building design.)

PUD G-41 establishes limits to height and stories with Subarea A (5 stories/70') and Subarea B (8 stories/110'), and Subarea C (4 stories/55') which are less than the current CMP-EI2 zoning. These heights are consistent with guidance in the Loretto Heights Small Area Plan and Blueprint Denver, as well as the Ruby Hill View Plane.

Furthermore, building forms, setbacks, and – in particular – treatment of Remaining Buildings and Remaining Open Spaces are specified in PDU G-41, such that future development and adaptive re-use of existing buildings with the PUD will both be in keeping with the existing campus context and the Remaining Buildings and Open Spaces that are in the zone district.

VI-b. PUD G-42 (Residential PUD)

A. The PUD District is consistent with the intent and purpose of such districts stated in Article 9, Division 9.6 (Planned Unit Development) of this Code.

9.6.1.1 General Purpose and Intent

A. The general purpose of a Planned Unit Development zone district (“PUD District”) District is to provide an alternative to conventional land use regulations, combining use, density, site plan and building form considerations into a single process, and substituting procedural protections for the more prescriptive requirements in this Code. The PUD District is intended to respond to unique and extraordinary circumstances, where more flexible zoning than what is achievable through a standard zone district is desirable and multiple variances, waivers, and conditions can be avoided.

B. “Unique and extraordinary circumstances” that justify use of a PUD District include, but are not limited to, the following:

1. Where a development site has special physical characteristics, including but not limited to irregular or odd-shaped lots, or lots with significant topographical barriers to standard development or construction practices;
2. Where a customized zoning approach is necessary to protect and preserve the character of a historic structure or a historic district;
3. Where the proposed scale or timing of a development project demands a more customized zoning approach to achieve a successful, phased development

PUD G-42 is consistent with the intent and purpose of PUDs because the subject site has special physical characteristics, including significant topographical barriers to standard development and construction processes, other special and unique physical assets, and the development is of a proposed scale that demands a more customized zoning approach to achieve a phased development.

Specifically, the site topography warrants custom zoning language and requirements to address building-specific or frontage specific base planes, building separation, roof pitches, stories, height, and frontage of homes on open spaces. The Remaining Open Space, including the historic cemetery, are additional special physical characteristics and assets in which PUD G-42 facilitates appropriate buffering, landscaping, and preservation. Finally, the proposed

development is likely to take multiple years, so the PUD G-42 helps facilitate a common thread through all phases.

B. The PUD District and the PUD District Plan comply with all applicable standards and criteria stated in Division 9.6

The PUD District complies with all standards and criteria stated in Division 9.6.

C. The development proposed on the subject property is not feasible under any other zone districts, and would require an unreasonable number of variances, waivers, and conditions.

The PUD is necessary because there is no standard zone district that addresses existing the significant topographic barriers, special physical characteristics such as the Remaining Open Spaces and cemetery, or the proposed scale of the development as outlined in PUD G-42.

D. The PUD District and the PUD District Plan establish permitted uses that are compatible with existing land uses adjacent to the subject property.

PUD-G-42 establishes uses that honor guidance provided in the Loretto Heights Small Area Plan and Blueprint Denver, which recommends preservation of the Cemetery Remaining Open Space, promotes diverse and affordable housing mixes within the zone district, and promotes sustainable building practices through flexibility in building height and form.

E. The PUD District and the PUD District Plan establish permitted building forms that are compatible with adjacent existing building forms, or which are made compatible through appropriate transitions at the boundaries of the PUD District Plan (e.g., through decreases in building height; through significant distance or separation by rights-of-way, landscaping or similar features; or through innovative building design.)

PUD G-42 establishes building forms that are compatible with surrounding neighborhoods, which are predominantly low-to-medium density adjacent to PUD G-42. The PUD allows for low-to-medium density residential development, and it specifies how heights, setbacks, and frontages are to be considered within the topography of the zone district as well as ensure appropriate transition to the future Campus Core neighborhood.

Furthermore, following guidance in the Loretto Heights Small Area Plan, publicly accessible open spaces with buildings fronting them are indicated within the PUD to promote health and wellness opportunities for the public through the multiple trails, greenways, and parks. The Small Area Plan indicates neighborhood use trails and open spaces, and the PUD provides guidance for how these trails and open spaces are to be developed within the zone district to promote pedestrian and bicycle use over the automobile.

VII. Deviations From Standard Zone District:

VII-a. Deviations in PUD G-41 (Campus Core PUD):

The Campus Core PUD G-41 deviates from the PUD G-24 in that:

Introduces Subarea C following the base zone district of CMP-EI2.

There are three deviations requested:

1. Height

The maximum height is reduced to 4 stories or 55 feet. The Loretto Heights Small Area Plan recommends a transition from the campus core to the adjacent residential area. Properties directly to the north and west within the PUD are zoned S-RH-2.5, which allows up to 3 stories (45 feet). This reduced height helps create an appropriate transition between the campus core and surrounding residential areas.

2. Primary Street Setback

The primary street setback is increased from 0 feet to 20 feet to align with the established setback pattern in the adjacent zone district to the north and west (PUD G-25 / S-RH-2.5), creating a more consistent streetscape.

3. Bulk Plane (Side Interior Zone Lot Line)

A bulk plane standard is introduced along the side interior zone lot line to provide additional height transitions adjacent to the residential properties to the west, which are within a protected district.

VII-b. Deviations in PUD G-42 (Residential PUD):

None other than changing the boundary to remove a parcel.

We are finishing up the printed newsletter that goes to press on Friday and should be in mailboxes about two weeks later. That goes to 20,000 households. We are very tight on space in this newsletter and most people won't find the rezoning of interest. Do you feel like you have enough coverage with your newsletter and mailer? I will make room for this if you think it's necessary. I can send the mail list to you if we include it.

Councilman Kevin Flynn HIGH POINTS

News from Denver City Council District 2
Council District 2 has the highest natural point in Denver

April 2025

A note from Councilman Kevin Flynn

In northwest Denver, a duplex (left) is nestled in next to a small, single-family home. A new planning project could allow duplex to four-unit apartment houses on all lots currently zoned for single-family homes.

Housing and parking projects need your input

As the Southwest and Far Southwest Area Plans enter their final leg toward adoption by the City Council later this year, the city's Community Planning and Development office will be starting two more planning projects for which I need your input and opinions.

Unlocking Housing Choices

The first will study how to integrate duplex, triplex and four-unit multi-family buildings into Denver's single-family neighborhoods. The planning office euphemistically calls it Unlocking Housing Choices. I call it Gentrifying Denver's Single-Family Neighborhoods, and I will not support it.

Anyone who's watched Denver's older neighborhoods change over the past 20 years with increased density in the name of making them more affordable, has realized the opposite has occurred. We've actually made them less affordable while pricing long-term residents out. Despite our intentions, these are becoming very expensive neighborhoods.

I believe we can and should add housing density, but if we don't stick to our adopted plans for where growth should occur, we will displace longtime residents by pricing them out over time. Increased housing density needs to be placed with intentionality where we've built infrastructure, including transit, to handle it. I will not support giving one-size-fits-all entitlement to investors, scrapers and the "We Buy Ugly Houses" crowd to swarm over our at-risk neighborhoods to build million-dollar duplexes next to small family bungalows.

In southwest Denver's Suburban Context zoning, our adopted plans call for separate areas for single family, small multifamily duplexes and townhomes, large multifamily complexes, retail and offices. We can add our share of housing without throwing existing plan guidance out the window. If you would like to play an active role by being on the advisory committee for this project, please fill out the interest form on the [Unlocking Housing Choices](#) web page.

Modernizing Parking Requirements

The second planning project, Modernizing Parking Requirements, is a text amendment to the zoning code that could eliminate the requirement to build parking with residential projects. What's that you say? No requirement to provide a certain minimum number of parking spaces based on how many apartments you're building? Another euphemism; this is not modernization, but a step backward.

The city is doing this in compliance with a state law passed last year that directs most cities to eliminate parking minimums. That doesn't necessarily mean no parking would be built. It leaves the decision up to the developer based on their sound judgment. Yeah, OK. What could go wrong?

Once again, this is an issue that calls for more intentionality about where it makes sense. In the more urban parts of town, there is plenty of public transit available but parking is at a premium. Conversely, in our Suburban Context part of town, we have areas with too much parking but very little convenient public transit.

Largely empty parking lots in southwest Denver could accommodate more housing. But with the limited transit options here, I don't plan to support eliminating all parking requirements. There should be a minimum requirement.

There will be a virtual town hall on the parking topic on **Tuesday, April 15**. The time and log-in details will be available soon on the [project web page](#).

Please make your voices heard, whether you agree with my position or not. I'll keep you all informed as the projects progress.

A Look at City Council Action

Here are a few actions I voted on at City Council that you should know about:

25-0191 — Amends a contract with the Downtown Denver Partnership, Inc. to add \$1.5 million to provide activation activities related to the reopening of the 16th Street Mall in Downtown Denver.

25-0261 — Amends the Revised Municipal Code to replace the commemorative holiday of Indigenous Peoples' Day with a designated city holiday beginning in 2025.

25-0260 — Amends the Denver Revised Municipal Code regarding an increase to the emergency telephone charge in an amount not to exceed the threshold set by the public utilities commission.

- Increases the 911 Emergency Services Fee for the City and County of Denver from \$1.20 per month to \$2.12 per month in order to maintain current 911 operations and resolve critical infrastructure and staffing needs.

Ideas needed for projects to be funded with next bond

What needs to be improved in your neighborhood? Join Councilman Kevin Flynn and Mayor Mike Johnston to discuss the upcoming Vibrant Denver Bond and to share your ideas about what should be included in the bond:

Thursday, April 10
5:15 to 6:45 p.m.
Church of All Saints
2559 S. Federal Blvd.

Meeting slated to provide feedback on area plans

A draft area plan for both the Southwest and Far Southwest Neighborhood Planning Initiatives will be released next week. A public open house and multiple presentations at Registered Neighborhood Organization meetings are planned to provide opportunity for public feedback.

Sign up to be notified when the plan is available to review. Then, please find a meeting you can attend and make your feedback heard!

RSVP (preferred but not required)

For a project to be eligible for bond funding, it must be ready to construct quickly and be part of a city-owned asset such as a city park, recreation center, street or library. As you start thinking about projects you'd like to see included, please consider the following projects:

- A parking garage at the soon-to-be Theatre at Loretto Heights
- Renovation of the library building that adjoins the theater
- Reconstruction and expansion of the District 4 police station
- Refurbishing of the tennis courts at Southwest Auto Park
- New playground to replace the one that was removed on Water Avenue in College View
- Sidewalk along Kenyon Avenue from Sheridan to Lowell

Southwest Denver has not had many projects included in the past two bonds so it is crucial for us to work together to advocate for projects that will improve our neighborhoods.

Can't make the meeting? Please visit the Vibrant Denver Bond web page and submit your ideas through the bond survey.

Please share the [printable meeting flyer](#) with your neighbors and get them involved in the process.

Zoning change to allow for parking at Loretto theater

A minor zoning change is needed at the Loretto Heights campus to allow for parking at the Theatre at Loretto Heights and to provide a buffer between the theater and adjacent neighborhood development.

The project will rezone a small, city-owned parcel that is in PUD 25 to instead be included in PUD 24. This zoning modification will allow surface parking for the theater until a parking garage can be funded and built.

The theater is in Phase 1 which includes design and renovation of the theater. Construction of the project will begin at the end of the year.

Questions about the zoning change? Email [Councilman Kevin Flynn](mailto:Kevin.Flynn@denvergov.org). Visit the project web page for updates.

Southwest Denver suggests projects for bond

The City of Denver is seeking a General Obligation Bond to fund new public parks, recreation centers, libraries, arts and cultural venues, roads, bridges, police stations and other public facilities determined by you.

About 65 residents of Council District 2 recently attended a workshop hosted by Councilman Kevin Flynn and Mayor Mike Johnston to discuss projects that southwest Denver would like to include in the bond package.

Residents discussed dozens of potential projects and improvements needed across District 2. Suggestions included the need for a parking garage at the Theatre at Loretto Heights, updated tennis courts at Southwest Auto Park, a renovation of the Bear Valley Library, a regional recreation center in the district, an expansion of the Police District 4 station, and crosswalk signs or flashing beacons for major intersections throughout southwest Denver.

In addition to these ideas, Councilman Flynn suggested:

Councilman Kevin Flynn meets with a small group at the bond workshop held at the Church of All Saints in early April. About 65 people shared their ideas about projects that would improve their neighborhoods.

- Renovation of the library building that adjoins the Loretto Heights theater
- New playground to replace the one that was removed on Water Avenue in College View
- Sidewalk along Kenyon Avenue from Sheridan to Lowell

city-owned asset such a city park, recreation center, street or library.

"Southwest Denver has not had many projects included in the past two bonds so it is crucial for us to work together to advocate for projects that will improve our neighborhoods," Flynn said.

Draft area plans released, time for feedback

A draft area plan for both the Southwest and Far Southwest Neighborhood Planning Initiatives has been released.

Both plans are the result of a thorough, collaborative public process. Each plan represents a long-term, broad vision for all neighborhoods in southwest Denver and functions as a guide for future land use and urban design, promoting orderly and appropriate neighborhood development.

A public open house and multiple presentations at Registered Neighborhood Organization meetings are planned to talk about the plans and provide opportunity for public feedback. Please attend one of the meetings and make your opinions heard.

If you can't attend a meeting, use the online survey to provide feedback by June 9. Both the draft plan and survey can be found on the respective plan website links below.

BOND from Page 1

The next step is for a bond committee made up of City Council members, staff members from city agencies and members of the public to narrow down the list of projects and estimate costs.

Once projects throughout the city are determined, voters will be asked to vote on the Vibrant Denver Bond in the November 2025 election.

Denver voters authorize GO bond programs about every 4-10 years. The bonds are repaid through property taxes. Denver's 2017 Elevate bond and 2021 Rise bond are nearly complete, creating capacity for new projects under the proposed 2025 Vibrant Denver bond without raising the property tax mill levy.

New system and fees for card payments to city

Denver is launching a new payment platform (Euna Solutions) that allows for expanded functionality including Apple Pay and Google Pay. The payment platform has a phased implementation starting in May.

With the new system, the city will implement a 2.5% processing fee on credit and debit card payments. Electronic checks online and cash and checks in-person will continue to be processed at no charge.

Some transactions in Denver, including vehicle registration payments, already have service fees. Multiple Colorado counties assess service fees including Jefferson, Adams, Douglas, and Arapahoe counties. Denver previously absorbed more than \$17 million in processing costs for credit and debit cards in 2024 alone.

Dartmouth Gulch Park to get a makeover

Dartmouth Gulch Park, located at Dartmouth Avenue and Bryant Street in the College View neighborhood, is getting a makeover thanks to a private donor.

A design concept was created in 2023 based on interest from a private donor to support development at the park. The donor then proceeded with a donation for the final design and construction funding.

College View DSST high school's varsity and JV girls' soccer team played their first official games on a new athletic field in early April. Westside Investment Partners, the developer of the Loretto Heights campus adjacent to the school, paid \$2 million toward the purchase and construction of the field, a location on Federal Boulevard identified by Councilman Flynn as the ideal spot.

Getting underway this summer, the project will add pathways, educational signage, a park monument sign, irrigation, trees, shrubs, and landscape restoration/weed management to make the site a welcoming natural space.

Neighborhood outreach will begin soon with plans to finalize the design over the summer and start construction this fall or winter.

Housing choice, parking minimums need input

Denver's Community Planning and Development is launching two new planning projects. Councilman Kevin Flynn wants your input and opinions on these projects.

UNLOCKING HOUSING CHOICES

The Unlocking Housing Choices project will study how to integrate duplex, triplex and four-unit multi-family buildings into Denver's single-family neighborhoods.

In southwest Denver's Suburban Context zoning, the adopted plans call for separate areas for single family, small multifamily duplexes and town homes, large multifamily complexes, retail and offices. If approved, this change would allow multi-family buildings next to small single-family homes in all of our neighborhoods.

"We need more housing, but we must abide by our adopted plans for where that growth occurs," Flynn said. "Density for density's sake has caused displacement in too many neighborhoods."

Unlocking Housing Choices will look at embedding multi-family buildings into all single-family neighborhoods regardless of the zoning context. Here is an example from a neighborhood outside southwest Denver.

TELL US WHAT YOU THINK!

Take this short, three question survey about these two projects. Go to www.surveymonkey.com/r/HousingParkingSurvey or use the QR Code.

MODERNIZING PARKING

This second planning project could eliminate the requirement for developers to build parking with residential projects.

The city is doing this in compliance with a state law passed last year that directs most cities to eliminate parking minimums. The decision

to build parking would be left up to the developer based on their sound judgment.

"What could go wrong with that?" said Flynn "Plenty. With the limited transit options in southwest Denver, I can't support eliminating all parking requirements when we build multi-family housing here."

Ranked choice voting not right for Denver elections

Colorado voters in last November's election wisely rejected Prop 131, which would have brought ranked-choice voting to local elections. Council District 2 voters were against it.

Denver had ranked-choice voting from 1913 to 1935, when voters had the wisdom to repeal it. Our runoff election system guarantees that our mayor, district council members, auditor, and clerk and recorder must win majority support from the voters. RCV rarely produces a majority winner.

In 2021, the City Council also rejected using RCV. The major reason? The draft ordinance for it

literally repealed the City Charter's requirement for a majority winner.

In multiple rounds of switching votes, RCV eliminates the last-place candidate and reassigns those voters' other choices to the remaining candidates. But as more rounds of counting continue, the ballots of voters who haven't ranked a remaining candidate are thrown out of the count as "exhausted ballots," as though the voter got tired and left.

Since those ballots no longer are in the denominator, RCV can claim the winner achieved a majority of the remaining ballots. But most often, the number of eliminated

ballots means the winner never got to 50% plus one.

In a most extreme case, a winner was declared in an RCV race in San Francisco with 51% of the vote. But in reality, she got only 21%, because 60% of the ballots were tossed out of the count. Imagine electing a mayor of Denver with only 21% support from voters.

See Councilman Flynn's presentation from 2021 explaining why going back to this failed system was rejected: bit.ly/FlynnRCVcomments. And read the op-ed he wrote in The Denver Post prior to last year's statewide vote rejecting it: bit.ly/FlynnOpEd

Re: Authorization of Property Owner's Representative for the Rezoning of Property Located at 3058 S May Stanton Way Approx (Parcel No. 0532218017000)

To Whom It May Concern:

The City and County of Denver, as the property owner of the site located at 3058 S May Stanton Way Approx, Parcel No. 0532218017000, is initiating a rezoning application.

The purpose of this action is to rezone the aforementioned property from PUD-G 25 to PUD-G 24. This change is necessary to align more effectively with the established objectives of the Loretto Theatre campus development plan, specifically to accommodate additional parking capacity for the venue.

This correspondence hereby formally designates and authorizes Tariana Navas-Nieves, Deputy Executive Director of Denver Arts and Venues (DAV), to serve as the official property owner's representative and primary point of contact for all matters pertaining to this rezoning application.

For direct communication or inquiries regarding this authorization, please contact:

1.1.2 REMAINING BUILDINGS AND REMAINING OPEN SPACES DEFINED

As shown in Figure 1.2, the following buildings and open spaces are hereby defined within PUD-G #41 as Remaining Buildings and Remaining Open Spaces for the purpose of applying the design Standards provided in Chapter 4 (For purposes of applying the PUD standards, these Remaining Buildings and Remaining Open Spaces retain their historical names):

A. Administration Building

The existing 1891 red sandstone Richardsonian Romanesque-style Building with three main stories plus raised basement and attic in an H-plan oriented north-south and covering 220 feet by 100 feet located in Subarea A as of the adoption of this PUD. The existing Gross Floor Area for the Administration Building and Chapel is 98,880 square feet.

B. Chapel

The existing 1910 red sandstone Richardsonian Romanesque-style Building with rectangular plan oriented east-west and covering 44 by 91 feet and connected by a two-story hypen to the north of the Administration Building located in Subarea A as of the adoption of this PUD. The existing Gross Floor Area for the Administration Building and Chapel is 98,880 square feet.

C. Pancratia Hall

The existing 1930 Building in the Collegiate Gothic style with three main stories plus raised basement in an H-plan oriented north-south along the main hallway with the two wings oriented east-west and covering 126 feet by 184 feet located northwest of the Administration Building in Subarea A as of the adoption of this PUD. The existing Gross Floor Area for Pancratia Hall is 58,837 square feet.

D. Priest's House

The existing one-story 1916 Craftsman-style Building located north of the Chapel and Administration Building in Subarea A as of the adoption of this PUD. The existing Gross Floor Area for the Priest's House is 1,450 square feet.

E. Machebeuf Hall

The existing 1951 Building of two split-level stories in Modernist style with International style and Wrightian influences with a one-story quadrangle-level entry wing oriented north-south, connecting blocks oriented northwest-southeast, and covering approximately 195 by 220 feet located west of the central-campus quadrangle from the Administration Building in Subarea A as of the adoption of this PUD. The existing Gross Floor Area for Machebeuf Hall is 39,095 square feet.

F. May Bonfils Stanton Theater & Library

The existing 1963 complex of the Theater and Library Buildings connected by a glass arcade in the Modernist/New Formalist Style located south-southwest of the Administration Building in Subarea B as of the adoption of this PUD. The Library has a rectangular plan occupying approximately 120 by 164 feet under a flat roof. The Theater's polygonal plan occupies approximately 110 by 158 feet under parapeted roofs. The existing Gross Floor Area for the Library is 47,010 square feet and the Theater is 38,284 square feet.

G. Quadrangle Open Space

The existing passive open space area generally located west of the Administration Building, east of Machebeuf Hall and south of Pancratia Hall in Subarea A as of the adoption of this PUD.

H. Great Lawn Open Space

The existing passive open space area generally located east of the Administration Building, Chapel and Priest's House, and the open space area running between South Federal Boulevard and the Administration building in Subarea A as of the adoption of this PUD.

I. Courtyard Open Space

The existing passive open space area generally located east and northeast of the May Bonfils Stanton Theater & Library in Subarea A as of the adoption of this PUD.

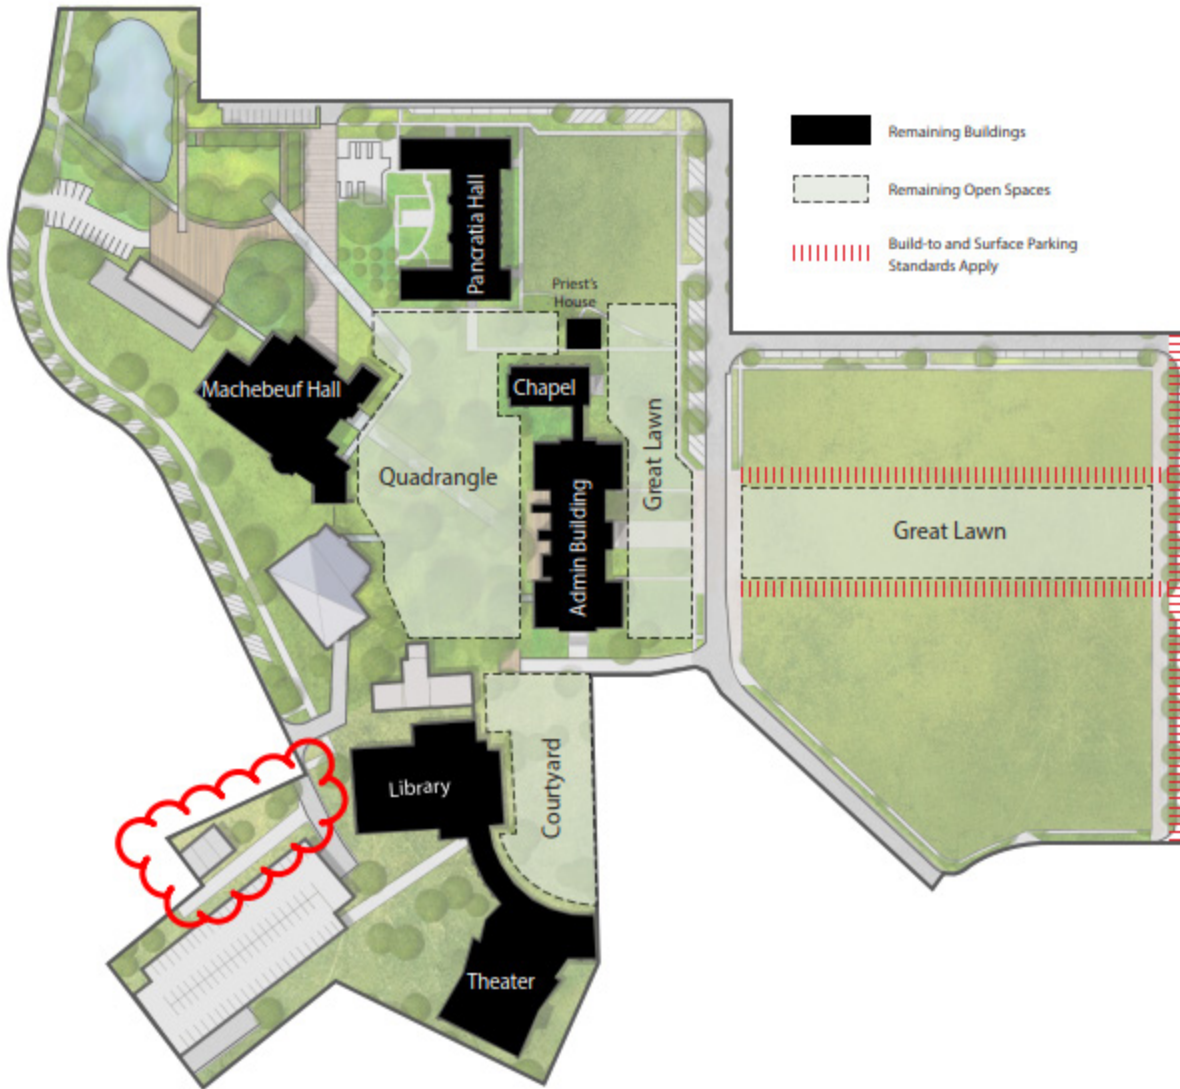

Figure 1.2. Remaining Buildings and Remaining Open Spaces within PUD-G #41. Illustrative only.

SECTION 1.1 PUD-G #41 GENERAL PURPOSE

The general purpose of PUD-G #41 is to:

- 1.1.1 Create a community destination.
- 1.1.2 Facilitate redevelopment of the former Loretto Heights campus with a mix of residential and commercial uses and amenities.
- 1.1.3 Ensure preservation and rehabilitation of the Remaining Buildings and Remaining Open Spaces defined in PUD-G #41 Section 1.1.2 while facilitating their original use and adaptive reuse.
- 1.1.4 Achieve significant additional public benefits including publicly accessible open space that draws residents and visitors into the site from surrounding neighborhoods, allows for circulation around the site, outdoor events and dining, and which provides space for shared mobility devices like bicycles.

SECTION 1.1 PUD-G #41 SPECIFIC INTENT

More specifically, PUD-G #41 is intended to:

- 1.1.1 Facilitate compatible Development through the use of appropriate Building Form Standards and design that provides a mix of residential and commercial uses and amenities that respond to the surrounding neighborhood contexts.
- 1.1.2 Encourage pedestrian-activated spaces as envisioned in the City's adopted plans.
- 1.1.3 Preserve and complement character-defining features of the Remaining Buildings and Remaining Open Spaces.
- 1.1.4 Ensure quality, human-scaled building design that respects both the overall historic development pattern and design integrity of the Loretto Heights Campus.
- 1.1.5 Protect and frame key views identified in the Loretto Heights Small Area Plan and ensure that new Buildings do not rise above the roofline height of the H-shaped portion of the Administration Building.

CHAPTER 2. NEIGHBORHOOD CONTEXT DESCRIPTION

Development within PUD-G #41 shall conform to the Denver Zoning Code Division 9.2, Campus Context Description, as amended from time to time, except as modified in this PUD-G #41.

CHAPTER 3. UNDERLYING ZONE DISTRICT

Development within PUD-G #41 shall conform to the Denver Zoning Code Division 9.2, Campus Context Description, as specifically applicable to the CMP-EI2 Zone District, as amended from time to time, and except as modified in this PUD-G #41.

CHAPTER 4. DESIGN STANDARDS

Development in the PUD-G #41 shall comply with the design standards applicable to the CMP-EI2 zone district in Denver Zoning Code Section 9.2.4., Campus-Education/Institution (CMP-EI, CMP-EI2) and Denver Zoning Code Article 10 General Design Standards, as amended from time to time, except as modified in this PUD-G #41.

SECTION 4.1 PRIMARY AND ACCESSORY BUILDING FORM STANDARDS

4.1.1 DISTRICT SPECIFIC STANDARDS SUMMARY

- A. Primary Structures and Accessory Structures in this PUD-G #41 shall use the General Building Form.
- B. There shall be no maximum number of structures per Zone Lot in PUD-G #41.

4.1.2 DISTRICT SPECIFIC STANDARDS

Development of Primary Structures and Accessory Structures in this PUD-G #41 shall comply with the Denver Zoning Code Section 9.2.4.2.C District Specific Standards as applicable to the CMP-EI2 Zone District, as amended from time to time, except as modified in PUD-G #41, with the following exceptions, additions, and modifications set forth in the Primary and Accessory Building Forms Standards table below.

SECTION 4.2 SUPPLEMENTAL DESIGN STANDARDS FOR PUD-G #41

4.2.1 REQUIRED BUILD-TO AND PARKING LOCATION ADJACENT TO FEDERAL BOULEVARD THE GREAT LAWN

A. Intent

To promote an active, pedestrian-oriented frontage along Federal Boulevard and the nearby portion of Great Lawn Remaining Open Space where active uses are intended to front and interact directly with the open space area.

B. Applicability

This section 4.2.1 shall apply to any Primary Street Zone Lot Line abutting Federal Boulevard or the portion of Great Lawn Remaining Open Space identified on Figure 4.1 within Subarea A of this PUD-G #41.

C. Required Build-to

The required build-to percentage and minimum/maximum build-to range indicated in the building form table in Section 4.1.2 of this PUD-G #41 shall be provided as measured from and perpendicular to any Primary Street Zone Lot Line abutting the sections of Federal Boulevard and Great Lawn Remaining Open Space identified on Figure 4.1.

D. Surface Parking Between the Building and Federal Boulevard or Great Lawn

Surface Parking is not allowed between a Building and any Primary Street Zone Lot Line abutting the sections of Federal Boulevard and Great Lawn Remaining Open Space identified on Figure 4.1.

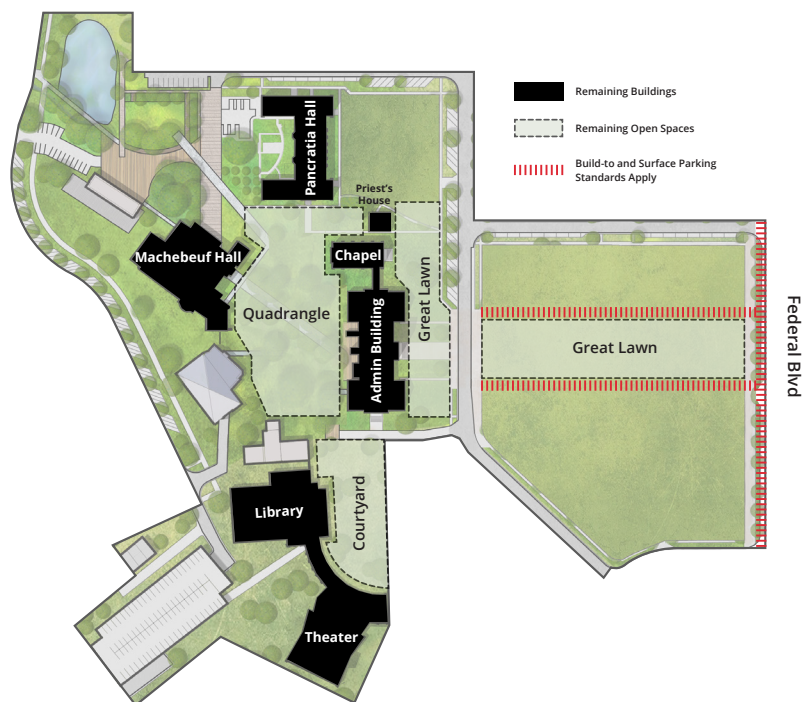

Figure 4.1 Frontages For Build-to and Surface Parking Location Standards. Illustrative only.

4.2.2 DESIGN OF VISIBLE STRUCTURED PARKING

A. Intent

To ensure structured parking design that is compatible in character and quality with adjoining and surrounding Buildings, open spaces and streetscape.

B. Applicability

This section 4.2.2 shall apply to all structured parking as an addition to a Remaining Building as defined in PUD-G #41 or any new Building developed within PUD-G #41. The standards in this Section 4.2.2 apply in addition to Denver Zoning Code Section 10.4.6.5, Parking Structure Design Standards.

C. Parking Structure Design Standards

1. Any structured parking as part of an addition to a Remaining Building shall comply with the Secretary of the Interior's Standards for Rehabilitation.
2. Any facade containing structured parking shall be integrated into the overall facade design of buildings through the use of all of the following:
 - a. Similar building materials to those used on adjacent facade areas that do not contain structured parking.
 - b. Facade articulation and fenestration patterns that integrate with portions of the building facade that do not contain structured parking.
 - c. Design that is compatible with the mass and scale of nearby buildings.
3. Any facade containing structured parking shall minimize the visibility of parking areas through use of all of the following:
 - a. Non-transparent facade materials for a minimum height of 4 feet from the finished floor of each story.
 - b. Fully concealed view of all parked cars and internal light sources from adjacent public rights-of-way and Publicly Accessible Open Space for the full height of the structure.
 - c. Architectural screens or other devices into facade openings that are integral to the building design through the use of:
 - i. Screens with decorative patterns, railings and details to provide visual interest; and
 - ii. Screens made from durable materials.
 - d. Screening or other devices which minimize the glare from headlights and parked cars.
 - e. Incorporate landscape screening consisting of hedges, berms, trees or a fence or wall in combination with plant material, four (4) feet in height, and of sufficient year-round opacity. Openings in the required landscape screening shall be permitted for such features as access ways or drainage ways. Note that landscape screening will not be required where uses other than parking are included at the street level of a facade containing structured parking.

SECTION 4.3 PRESERVATION OF REMAINING BUILDINGS AND REMAINING OPEN SPACES

4.3.1 INTENT

- A. Maintain and preserve exterior design features and architectural elements of the Administration Building, Chapel, Priest's House and Pancratia Hall prior to designation as an Historic Structure.
- B. Maintain and preserve exterior design features and architectural elements of Machebeuf Hall and May Bonfils Stanton Theater & Library, while facilitating their rehabilitation and adaptive reuse.
 - 1. Machebeuf Hall - Preservation of the architecture and architectural features of this building are of the highest priority of the Mid-Century buildings. Alterations including partial demolition, additions, and any related new construction will be reviewed with greater sensitivity than the Theater & Library to ensure compatibility with building integrity and Key Features to Preserve/Retain.
 - 2. May Bonfils Stanton Theater & Library - The theater and library buildings are a pair and shall not be physically separated. They are considered to be of a lesser priority than Machebeuf Hall and have greater flexibility with potential alterations including partial demolition, additions, and any related new construction.
- C. Maintain and preserve the historic character and views of the Quadrangle, Theater & Library Courtyard, and Great Lawn Remaining Open Spaces while supporting compatible alterations and new construction to better engage and support surrounding redevelopment. See Figure 1.2.

4.3.2 APPLICABILITY

- A. This Section 4.3 applies to:
 - 1. Alteration-of and additions-to all Remaining Buildings and Remaining Open Spaces that are not designated as an "Historic Structure" as defined in Denver Zoning Code Division 13.3.
 - 2. The location and compatibility of new Structures with regard to a Remaining Building or Remaining Open Spaces, and the location of all new Temporary Structures within a Remaining Open Space.
- B. All Site Development Plans submitted under this PUD-G #41, and all zoning or building permit applications related to exterior alteration of a Remaining Building or a Remaining Open Space in this PUD-G #41, shall be referred to Community Planning and Development Landmark Preservation Division Staff, which shall review and approve, or deny for compliance with the Standards included in this Section 4.3 of this PUD-G #41 Preservation of Remaining Buildings and Remaining Open Spaces.

4.3.3 HISTORICAL BACKGROUND

The Loretto Heights campus is one of the earliest developed sites in southwest Denver, representing more than 125 years of educational history and campus development. In 1888, the Sisters of Loretto purchased the property for the site of a new Catholic boarding school for elementary and high school girls. The property would remain in educational use until it closed its doors in 2018, with the Sisters of Loretto departing in 1988.

The campus is endowed with historic buildings and landscape designs commissioned by the Sisters of Loretto from 1891 to 1988. The buildings represent a variety of architectural styles ranging from 19th-Century Richardsonian Romanesque to Mid-Century Modernism, designed by several prominent local architects including Frank E. Edbrooke, Harry Edbrooke, John Monroe and Musick & Musick. The buildings were intentionally placed on a hilltop with commanding views of the Rocky Mountains and downtown Denver. The Administration Building served as the iconic entry point to the campus. Two mid-Century era master plans, one designed by landscape architect S.R. DeBoer and one by architects Musick & Musick, included the development of a Quadrangle that tied together the original building phases with the mid-Century building phases, creating a campus core.

The key features to preserve/retain as indicated in Section 4.3.4 provide a clear picture of the original design intent that can be used to guide the rehabilitation and adaptive reuse of the Remaining Buildings and Remaining Open Spaces to ensure compatibility with historic character. The campus core illustrates an evolution and variation of architectural styles and materials that collectively are a character-defining feature of the campus landscape.

More detailed historical and architectural information on the Remaining Buildings and Remaining Open Spaces can be found in the 2019 *Loretto Heights Academy and College, 1891-1988, Inventory of Historic Resources and Survey Report* completed by Square Moon Consultants LLC,.

4.3.4 DEMOLITION OF REMAINING BUILDINGS

- A. Demolition, as defined in DRMC Section 30-2, is prohibited of the following Remaining Buildings: Administration Building, Chapel, Priest's House and Pancratia Hall.
- B. Voluntary Demolition, as defined in Denver Zoning Code Article 13, is prohibited of the following Remaining Buildings: Machebeuf Hall and May Bonfils Stanton Theater & Library.
- C. Alterations allowed by Section 4.3.6., Preservation and Exterior Alteration of Key Features and Building Facades for each Remaining Building and Remaining Open Space, whether taken individually or cumulatively over any period of time, shall not result in the Demolition or Voluntary Demolition of, or cause damage or alterations to, Remaining Buildings.

4.3.5 PRESERVATION AND EXTERIOR ALTERATION OF REMAINING BUILDINGS AND REMAINING OPEN SPACES - GENERAL STANDARDS AND LIMITATIONS

The following standards shall apply to the Remaining Buildings and Remaining Open Spaces:

- A. Existing exterior design features and elements that fall within the period of significance of the site (1891-1970) shall be preserved and maintained including, but not limited to, the Key Features to Preserve/Retain noted in Section 4.3.6 of this PUD-G #41.
- B. Removal of materials, additions, enclosures or features are allowed provided that they (i) fall outside of the period of significance or (ii) are otherwise permitted in this PUD-G #41.

- C. All exterior alterations, additions, and related new construction to Remaining Buildings and Remaining Open Spaces shall comply with the (a) Secretary of Interior's Standards for Rehabilitation, 36 CFR 67, as amended from time to time, and (b) Secretary of the Interior's Guidelines for Rehabilitating Historic Buildings, as amended from time to time, with exceptions identified in Figure 4.2 and permitted by Section 4.3.6 of this PUD-G #41.
- D. Additions and new construction replacing or extending the existing footprint of a Remaining Building are allowed provided they are compatible with the mass, scale, form, materials and Key Features to Preserve/Retain of the Remaining Buildings and conform to the requirements of this PUD-G #41.
- E. New construction replacing a portion of the existing footprint of a Remaining Building shall not exceed the heights and setbacks as illustrated in Figure 4.2 for the following Remaining Buildings: Machebeuf Hall and May Bonfils Stanton Theater & Library.
- F. Any new construction within this PUD-G #41 shall be compatible with the location, mass, scale, form, setback and Key Features to Preserve/Retain of the Remaining Buildings and Remaining Open Spaces through sensitivity of design that respects the historic character.

4.3.6 PRESERVATION AND EXTERIOR ALTERATION OF REMAINING BUILDINGS AND REMAINING OPEN SPACES - KEY FEATURES AND BUILDING ELEVATIONS

The table below records Key Features to Preserve/Retain and sets forth standards for the preservation and permitted alteration of each Remaining Building and Remaining Open Space. For Machebeuf Hall, the May Bonfils Stanton Theater & Library, and the Remaining Open Spaces, the table also provides exceptions to the Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings. See Figure 4.2 Building Elevations and Potential Addition Locations for Machebeuf Hall and the May Bonfils Stanton Theater & Library for additional information.

CHAPTER 5. USES AND REQUIRED MINIMUM PARKING

SECTION 5.1 INTENT

- 5.1.1 Promote a mix of uses to support an active pedestrian-oriented campus environment
- 5.1.2 Allow flexibility in the provision of vehicle parking to support adaptive reuse of the Remaining Buildings
- 5.1.3 Promote sharing of parking between uses within the campus core.
- 5.1.4 Support flexible development phasing, including off-street parking provided in a potential future parking structure.
- 5.1.5 Acknowledge significant on-street vehicle parking resources to be provided on Public Streets within or adjacent-to PUD-G #41

SECTION 5.1 APPLICABILITY

This Chapter 5 applies to all new construction and additions within PUD-G #41;

5.1.1 Sets forth use allowances and bicycle parking requirements that are additional to those provided in Denver Zoning Code Section 9.2.8, Uses and Required Minimum Parking; and

5.1.2 Sets forth a system of minimum vehicle parking requirements to replace the minimum vehicle parking requirements provided in Denver Zoning Code Section 9.2.8, Uses and Required Minimum Parking.

SECTION 5.1 PERMITTED USES AND REQUIRED BICYCLE PARKING

Primary, accessory and temporary uses permitted in PUD-G #41 and associated minimum bicycle parking shall be those same uses permitted in the CMP-EI2 zone district, as stated in Denver Zoning Code, Section 9.2.8, Uses and Required Minimum Parking, as amended from time to time, with the following exceptions:

KEY: * = Need Not be Enclosed P = Permitted Use without Limitations L = Permitted Use with Limitations NP = Not Permitted Use ZP = Zoning Permit Review

SECTION 5.1 REQUIRED MINIMUM VEHICLE PARKING

In lieu of the minimum vehicle parking requirements set forth in Denver Zoning Code Section 9.2.8, Uses and Required Minimum Parking, the minimum vehicular parking standards set forth in this PUD-G #41 Section 5.4 shall apply.

5.1.1 VEHICLE PARKING FOR REMAINING BUILDINGS

A. Intent

To provide flexibility for re-use of the Remaining Buildings on the Loretto Heights Campus.

B. Applicability

This Section 5.4.1 applies to all Remaining Buildings

C. Vehicle Parking Requirements for All Uses

There shall be no minimum vehicle parking requirement for one or more primary or accessory uses located within the recorded Gross Floor Area of the Remaining Buildings identified in Section 1.1.2 of this PUD-G #41.

5.1.2 VEHICLE PARKING FOR USES ESTABLISHED IN NEW CONSTRUCTION AND ADDITIONS TO REMAINING BUILDINGS**A. Intent**

To ensure provision of sufficient off-street vehicle parking to support uses contained within new construction and additions to Remaining Buildings on the Loretto Heights Campus.

B. Applicability

This Section 5.4.2. shall apply to the establishment of one or more primary or accessory uses in new construction or an addition/alteration of a Remaining Building, where the use occupies new Gross Floor Area not included within the recorded Gross Floor Area of the Remaining Building as identified in Section 1.1.2 of PUD-G #41.

C. Vehicle Parking Requirements for Uses in the Residential Primary Use Classification**1. Household Living Uses, All Types**

0.75 off-street vehicle parking spaces shall be provided for each unit.

2. Residential Care Uses, All Types

0.5 off-street vehicle parking spaces shall be provided for each unit.

3. Congregate Care Uses, All Types

1 off-street vehicle parking space shall be provided for each 1,000 s.f. Gross Floor Area.

D. Vehicle Parking for Uses Not in the Residential Primary Use Classification**1. Community Center**

No minimum vehicle parking.

2. Open Space, Conservation

No minimum vehicle parking.

3. Lodging Accommodations, All Others

0.25 off-street vehicle parking spaces shall be provided for each guest room or unit.

4. Temporary Uses

No minimum vehicle parking.

5. Vehicle Parking Requirements for All Other Uses Not in the Residential Primary Use Classification

2.5 off-street vehicle parking spaces shall be provided for each 1,000 s.f. Gross Floor Area.

E. Vehicle Parking for Uses Accessory to Primary Residential or Nonresidential Uses

There shall be no minimum vehicle parking requirement for uses accessory to a primary residential use or for uses accessory to a primary nonresidential use.

5.1.3 LOCATION AND SHARING OF REQUIRED OFF-STREET PARKING**A. Intent**

To reduce the amount of surface parking by allowing the use of shared parking to meet the minimum/maximum vehicle parking requirements for mixed use developments, or for multiple uses that are located near one another, and which have different peak parking demands and/or operating hours.

B. Applicability

This Section 5.4.3 applies to all off-street parking provided to meet the requirements set forth in Section 5.4.2 of PUD-G #41.

C. Allowed Location of Required Off-Street Parking

1. Required off-street parking spaces may be provided on any Zone Lot within PUD-G #41.
2. An applicant may share required vehicle parking among multiple primary uses within the area of this PUD-G #41 according to the provisions of Denver Zoning Code Section 10.4.5.4, Shared Vehicle Parking and need not reserve spaces for individual uses.

CHAPTER 6. ADDITIONAL STANDARDS

Whenever an article division or section of the Denver Zoning Code is referred to in this PUD-G #41, that reference shall extend and apply to the section referred to as subsequently amended, recodified, or renumbered; provided, however, if a section of the Denver Zoning Code, as subsequently amended, recodified, or renumbered conflicts with a provision of this PUD-G #41, this PUD-G #41 shall control.

SECTION 6.1 ARTICLE 1 OF THE DENVER ZONING CODE**6.1.1 APPLICABILITY**

Development in this PUD-G #41 shall conform to Denver Zoning Code Article 1, General Provisions, as amended from time to time, with the following exceptions, additions, and modifications:

A. Public Street Frontage Required for Zone Lots Containing Only Publicly Accessible Open Space as Designated in the Loretto Heights Infrastructure Master Plan

Each Zone Lot containing only Publicly Accessible Open Space as designated in the Loretto Heights Infrastructure Master Plan as Required Open Space or Bonus Open Space shall have at least one Zone Lot line abutting one of the following street types for a minimum and continuous Zone Lot line width of 20 feet:

1. A dedicated named or numbered Public Street; or
2. A privately developed, owned, or maintained portion of "Road A" as designated on the Loretto Heights Infrastructure Master Plan.

B. Public Street or Open Space Frontage Required for Zone Lots Containing Primary Residential or Primary Commercial Sales, Service and Repair Uses

Each Zone Lot containing Primary Residential or Primary Commercial Sales, Service and Repair Uses shall have at least one Zone Lot line abutting:

1. A dedicated named or numbered Public Street; or
2. A privately developed, owned, or maintained portion of "Road A" as designated on the Loretto Heights Infrastructure Master Plan; or
3. A Zone Lot composed of Publicly Accessible Open Space designated within the Loretto Heights Infrastructure Master Plan as Required Open Space or Bonus Open Space.

SECTION 6.1 ARTICLE 9 OF THE DENVER ZONING CODE**6.1.1 APPLICABILITY**

Development in this PUD-G #41 shall conform to Denver Zoning Code Article 9, Special Districts, as amended from time to time, with the following exception:

A. Amendments to Approved PUD District Plans

This PUD District Plan may be amended by subarea, platted lots, or metes and bounds parcels, as allowed in Denver Zoning Code, Section 9.6.1.4, Amendments to Approved PUD District Plans.

SECTION 6.1 ARTICLE 10 OF THE DENVER ZONING CODE

6.1.1 APPLICABILITY

Development in this PUD-G #41 shall conform to Denver Zoning Code Article 10, General Design Standards, as specifically applicable to the CMP-EI2 Zone District and as amended from time to time with the following modification:

A. Perimeter Surface Parking Lot Landscaping Standards Abutting Street Right-of-Way

1. In this PUD-G #41, the Standards set forth in Denver Zoning Code Section 10.5.4.4.B, Perimeter Surface Parking Lot Landscaping Standards Abutting Street Right-of-Way, as applied to the Downtown Neighborhood Context D-AS-12+, D-AS-20+, D-CPV-T, DCPV-R, and D-CPV-C Districts shall apply.
2. The Zoning Administrator may approve an alternative to the required Garden Wall that uses additional landscaping, historic salvage materials, or other means or materials to provide an active sidewalk edge.

SECTION 6.1 ARTICLE 11 OF THE DENVER ZONING CODE

6.1.1 APPLICABILITY

Development in this PUD-G #41 shall conform to Article 11, Use Limitations and Definitions, as specifically applicable to the CMP-EI2 Zone District, as amended from time to time with the following modifications:

A. Community Center

In this PUD-G #41, the limitations applied to a Community Center use shall be those set forth in Denver Zoning Code Section 11.3.3 Community Center as applied to the CMP-EI2 zone district, except that:

1. An unenclosed Community Center use need not be operated and controlled in a manner that prevents unauthorized use.
2. Outdoor lighting for pedestrian safety purposes may operate at any hour.

B. Retail Food Establishments, Mobile

In this PUD-G #41, mobile retail food establishments are permitted subject to compliance only with the following limitations:

1. There shall be no limit on the number of mobile retail food establishments permitted on a Zone Lot.
2. The minimum separation between mobile retail food establishments shall be 25 feet, whether located inside a Completely Enclosed Structure, or operated outdoors.
3. Hour of operation shall be 6am to 12am.
4. Temporary structures, canopies, and outdoor tables and chairs shall be permitted as accessory to the mobile retail food establishment and must be removed or otherwise secured from active use outside of hours of operation.
5. The noise level of mechanical equipment or outside sound equipment used in association with a mobile retail food establishment may not exceed 70 decibels when measured at the closest zone lot line located either across the street from or abutting a residential use.
6. Lighting sources and fixtures attached to the Mobile Retail Food Establishment must be hooded or shielded so that the light source is not directly visible from any residential use.

SECTION 6.1 ARTICLE 12 OF THE DENVER ZONING CODE

6.1.1 APPLICABILITY

Development in this PUD-G #41 shall conform to Denver Zoning Code Article 12, Zoning Procedures and Enforcement, as amended from time to time.

SECTION 6.1 ARTICLE 13 OF THE DENVER ZONING CODE

6.1.1 APPLICABILITY

Development in this PUD-G #41 shall comply with Denver Zoning Code, Article 13, Rules of Measurement and Definitions, as amended from time to time, with the following exceptions/modifications:

A. Building Specific Base Plane Height for PUD-G #41

1. Intent

To establish a consistent base for measuring new construction and additions to Remaining Buildings that front the Quadrangle or Courtyard and accommodate the substantial change in grade within Subarea A and Subarea B of PUD-G #41 for all new construction.

2. Applicability

This section 6.6.1.A shall apply to measurement of height for all Buildings in Subarea A and Subarea B of this PUD-G #41.

3. PUD-G #41 Building Specific Base Plane Rule of Measurement for Buildings Surrounding the Quadrangle

For additions and related new construction to Machebeuf Hall and new construction of buildings surrounding the Quadrangle, the PUD-G #41 Building Specific Base Plane shall be a horizontal plane established at the average elevation of the original grade of the Quadrangle, or 5,495 feet.

4. PUD-G #41 Building Specific Base Plane Rule of Measurement for Buildings Facing the Courtyard

a. Building Specific Base Plane for Library

For additions to the Library, the PUD-G #41 Building Specific Base Plane shall be a horizontal plane established at the average elevation of the original grade of the southern facade of the Library, or 5,463 feet, as shown in Figure 6.1.

b. Building Specific Base Plane for All Other Buildings Facing the Courtyard

For additions to the Theater and new construction of buildings where the primary facade of the structure abuts the Courtyard, the PUD-G #41 Building Specific Base Plane shall be a horizontal plane established at the average elevation of the original grade of the Courtyard, or 5,476 feet. For purposes of this standard, the term "Primary Facade" shall mean the Building Façade which faces either the Quadrangle or the Courtyard as defined in PUD-G #41 Section 1.1.2 and shown in Figure 6.1.

5. PUD-G #41 Building Specific Base Plane Rule of Measurement for Buildings Not Facing the Quadrangle or Courtyard

New construction where the primary facade of the Structure does not face the Quadrangle or Courtyard shall comply with Denver Zoning Code, Section 13.1.3 Height for All Other Zone Districts, as applicable to the Underlying Zone District for each PUD subarea.

B. Additional Height in Stories for Structures on Sloping Sites

1. Intent

To accommodate above-grade Building Stories that become visible on the downhill side of sloping sites for new construction and additions to Remaining Buildings facing the Quadrangle or Courtyard Remaining Open Spaces.

2. Applicability

This section 6.6.1.B shall apply to the measurement of height in Stories for new construction and additions to Remaining Buildings located in the areas specifically indicated as allowing additional stories below the base plane on Figure 6.1.

3. Additional Height in Stories Rule of Measurement

- a. Where new construction, or an addition to a Remaining Building, is located within the areas shown in Figure 6.1, one or two Stories that are additional to the specified maximum number of Stories may be built below the PUD-G #41 Building Specific Base Plane.
 - i. In the One Story Below Plane area, one Story that is additional to the specified maximum number of stories may be built entirely below the PUD-G #41 Building Specific Base Plane
 - ii. In the Two Stories Below Plane area, two stories that are additional to the specified maximum number of stories may be built entirely below the PUD-G #41 Building Specific Base Plane.

Figure 6.1 Additional Height in Stories. Illustrative only.

C. Determination of Primary Street Zone Lot Line, Side Street Zone Lot Line, Side Interior Zone Lot Line, and Rear Zone Lot Line

Within all subareas of this PUD-G #41, Zone Lot Lines shall be determined using the criteria set forth in Denver Zoning Code Section 13.1.5.4 Determination of Primary Street, Side Street, Side Interior, and Rear Zone Lot Lines for all CC, MX, and MS Zone Districts with the following exceptions, additions and modifications:

1. Determination of Primary Street Zone Lot Line

- a. On a Corner Zone Lot that abuts a Remaining Open Space defined in this PUD-G #41, the Primary Street Zone Lot Line shall be the Zone Lot line abutting the Remaining Open Space.
- b. On in Interior Zone Lot that abuts the Great Lawn Remaining Open Spaced defined in this PUD-G #41, the Primary Street Zone Lot Line shall be the Zone Lot line abutting the Great Lawn Remaining Open Space.
- c. On all other Interior or Corner Zone Lots, the Primary Street Zone Lot Line shall be a Zone Lot line abutting:
 - i. A dedicated named or numbered Public Street; or
 - ii. A privately developed, owned, or maintained portion of "Road A" as designated on the Loretto Heights Infrastructure Master Plan; or
 - iii. A Zone Lot containing only Publicly Accessible Open Space that is designated as either Required Open Space or Bonus Open Space within the Loretto Heights Infrastructure Master Plan per the provisions of Section 6.1.1.A of this PUD-G #41. The portion of the Zone Lot containing Required Open Space or Bonus Open Space abutting the Primary Street Zone Lot line shall include:
 - a) A minimum width of 20 feet as measured perpendicular to the Primary Street Zone Lot line; and
 - b) A sidewalk constructed within the minimum Zone Lot width specified in Section 6.6.1.C.1.c.iii.a above, with a minimum width of 6 feet that provides access to a Public Street, or a privately developed, owned, or maintained portion of "Road A" as designated on the Loretto Heights Infrastructure Master Plan.

2. Determination of Side Street Zone Lot Line on a Corner Zone Lot

On a Corner Zone Lot, the Zoning Administrator may designate one or more of the Zone Lot lines meeting the conditions for determination as a Primary Street Zone Lot line per Section 6.7.1.C.1 of this PUD-G #41 as a Side Street Zone Lot line according to the criteria set forth in Denver Zoning Code Section 13.1.5.2.A.3., Criteria for Zoning Administrator Determinations.

D. Definition of Words, Terms and Phrases

1. Protected District Status

This PUD-G #41 will not be considered a Protected District as defined in Denver Zoning Code Division 13.3 Definition of Words, Terms and Phrases.

2. Road A

For the purpose of this PUD-G #41, Road A shall be considered the street running west from Federal Blvd. on the north of this PUD-G #41, thence primarily south along the boundary between this PUD-G #41 and PUD-G 42 as designated in the Loretto Heights Infrastructure Master Plan. Portions of Road A may be privately developed, owned, or maintained Private Street.

3. Underlying Zone District

For the purpose of this PUD-G #41, the definition of Underlying Zone District shall include standard non-overlay zone districts that provide base building form and use requirements when used in combination with an Overlay Zone District or Planned Unit Development (PUD) Zone District.

4. Zone Lot, Corner

For the purpose of this PUD-G #41, the definition of Corner Zone Lot shall include Zone Lots situated at the intersection of a Public Street and Publicly Accessible Open Space that is designated as either Required Open Space or Bonus Open Space within the Loretto Heights Infrastructure Master Plan. See Figure 6.2.

CHAPTER 7. RULES OF INTERPRETATION

Subject to Chapter 8 of this PUD-G #41, whenever a section of the Denver Zoning Code is referred to in this PUD-G #41, that reference shall extend and apply to the section referred to as subsequently amended, recodified, or renumbered; provided, however, if a section of the Denver Zoning Code, as subsequently amended, recodified, or renumbered conflicts with a provision of this PUD-G #41, this PUD-G #41 shall control.

CHAPTER 8. VESTED RIGHTS

This PUD-G #41 shall be established in accordance with Denver Zoning Code Section 9.6.1.2.C, Vested Rights, and Denver Zoning Code Section 9.6.1.5, Vested Rights, and vested property rights shall be created 90 days after the effective date of the ordinance approving this PUD-G #41.

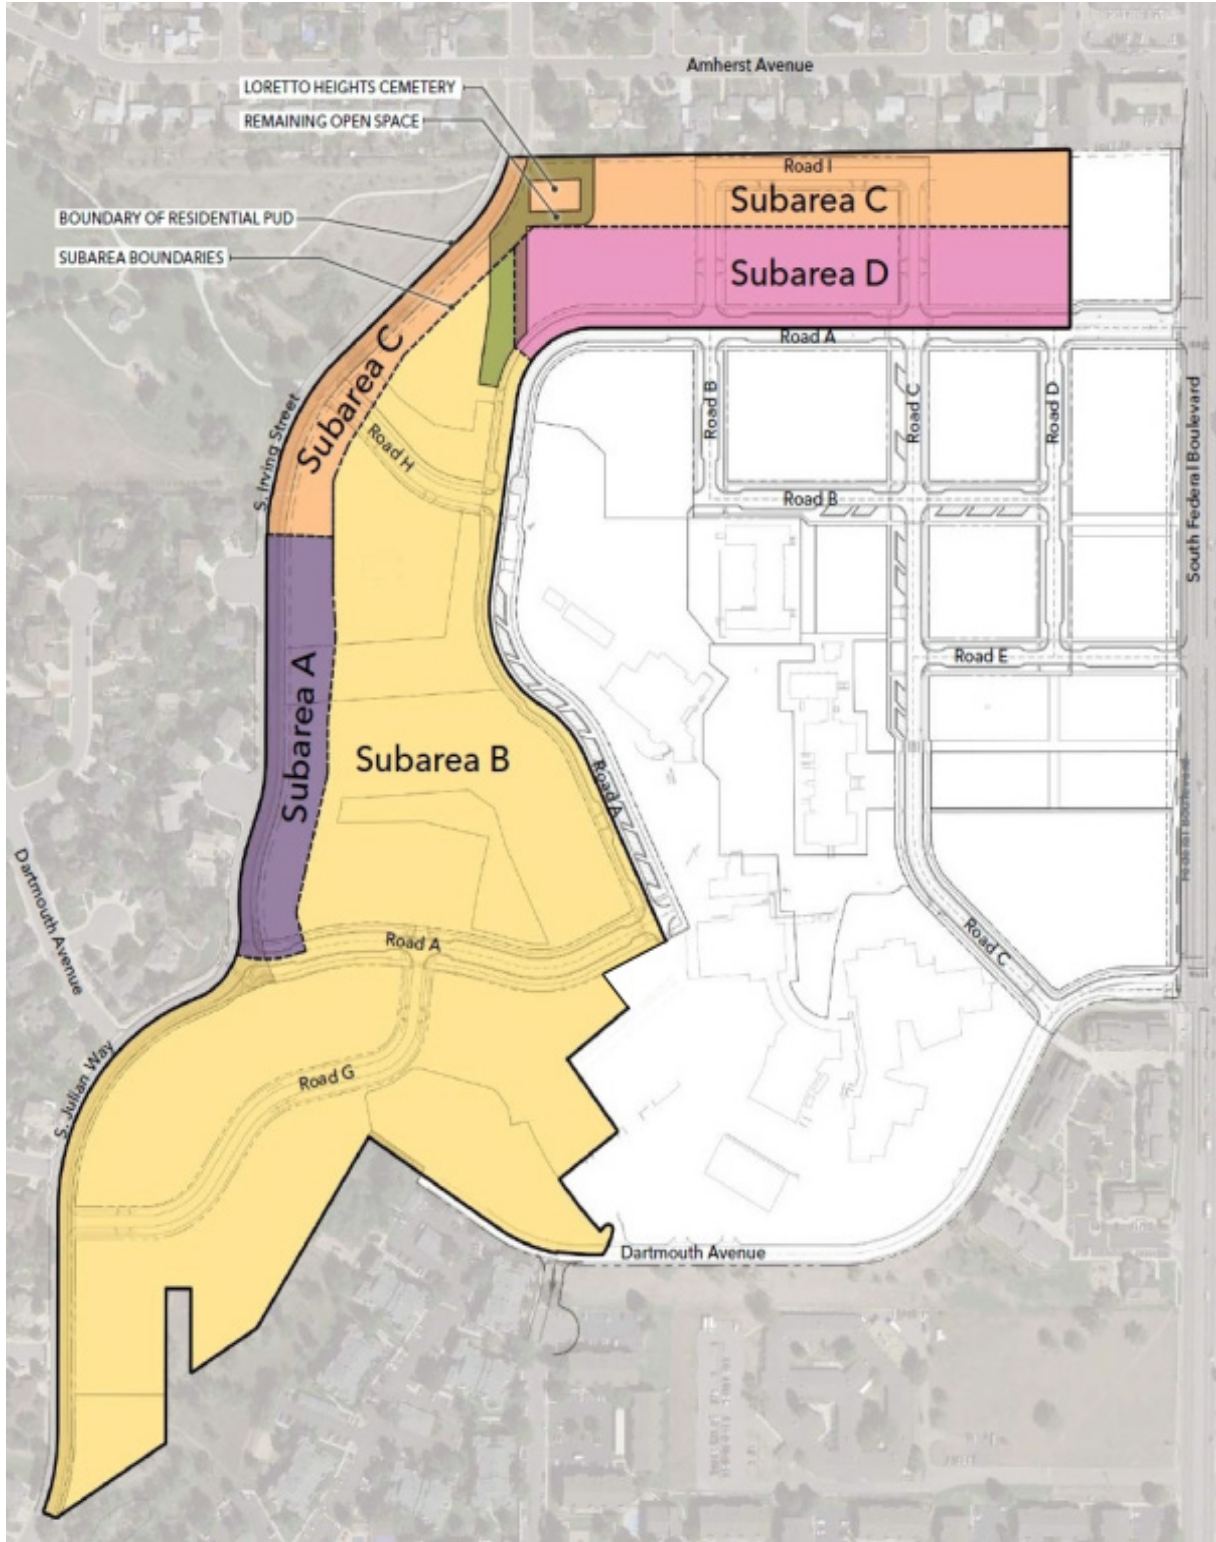

Figure 1.1. Subareas Established and Remaining Open Space Defined within PUD-G #42

SECTION 1.2 PUD-G #42 GENERAL PURPOSE

The general purpose of PUD-G #42 is to facilitate responsible and sustainable redevelopment of the former Loretto Heights campus that is compatible with the established residential character found in the adjacent neighborhoods. Future growth and development will take advantage of the unique topography of the site and incorporate an enhanced open space network.

SECTION 1.3 PUD-G #42 SPECIFIC INTENT

More specifically, PUD-G #42 is intended to:

- 1.3.1 Allow residential development, and some supporting commercial development, that contributes to the vibrancy of the surrounding neighborhood and facilitates a transition between future mixed uses in the Campus Core, and existing residential uses to the north, south and west.
- 1.3.2 Facilitate compatible development through the use of appropriate building form and design standards and guidelines that respond to the surrounding neighborhood contexts.
- 1.3.3 Encourage pedestrian-activated spaces and connections as envisioned in the City's adopted plans.
- 1.3.4 Allow uses and building forms at a scale that is compatible with the surrounding residential neighborhoods and the future mixed use in the Campus Core.
- 1.3.5 Ensure quality, human-scaled building design, particularly along South Irving Street/South Julian Street.
- 1.3.6 Create an enhanced open space network of trails, parkways, and turf that is thoughtfully woven into the neighborhood and connects future residential to regional and local assets like Loretto Heights Park.
- 1.3.7 Preserve and complement character-defining features of the Remaining Open Space.

SECTION 1.4 REMAINING OPEN SPACE DEFINED

As shown in Figure 1.1, a portion of the Remaining Open Space is hereby defined within PUD-G #42 for the purpose of applying the design standards provided in Chapter 4 (this space retains its historical name):

A. Loretto Heights Cemetery Remaining Open Space

The existing 1898 flat grassy landscape feature within Subarea C with an area defined by distances taken from the existing ornamental steel fence, as of the date of this PUD-G #42, north to the PUD-G #42 zone district boundary line, south by 30 feet, east by 30 feet and west to the property line, and including a burial site.

CHAPTER 2. NEIGHBORHOOD CONTEXT DESCRIPTION

SECTION 2.1 SUBURBAN NEIGHBORHOOD CONTEXT DESCRIPTION

All Development in Subareas A, B, and C of PUD-G #42 shall conform to the Denver Zoning Code, Division 3.1, Suburban Neighborhood Context Description, as amended from time to time, except as modified in this PUD-G #42.

SECTION 2.2 URBAN NEIGHBORHOOD CONTEXT DESCRIPTION

All Development in Subarea D of PUD-G #42 shall conform to the Denver Zoning Code, Division 5.1, Urban Neighborhood Context Description, as amended from time to time, except as modified in this PUD-G #42.

CHAPTER 3. UNDERLYING ZONE DISTRICTS

SECTION 3.1 SUBAREA A

All Development in Subarea A of this PUD-G #42 shall conform to the Denver Zoning Code, Division 3.2, Districts, as specifically applicable to the S-SU-A Zone District, as amended from time to time, and except as modified in this PUD-G #42.

SECTION 3.2 SUBAREAS B AND C

All Development in Subarea B and Subarea C of this PUD-G #42 shall conform to the Denver Zoning Code, Division 3.2, Districts, as specifically applicable to the S-RH-2.5 Zone District, as amended from time to time, and except as modified in this PUD-G #42.

SECTION 3.3 SUBAREA D

All Development in Subarea D of this PUD-G #42 shall conform to the Denver Zoning Code, Division 5.2, Districts, as specifically applicable to the U-RX-3 Zone District, as amended from time to time, and except as modified in this PUD-G #42.

CHAPTER 4. DESIGN STANDARDS

Development in this PUD-G #42 shall comply with the Denver Zoning Code, Article 10, General Design Standards, and Article 3, Division 3.3 Design Standards (Subareas A, B and C) or Article 5, Division 5.3 Design Standards (Subarea D), as amended from time to time, except as modified in this PUD-G #42.

SECTION 4.1 PRIMARY BUILDING FORM STANDARDS

4.1.1 District Specific Standards Summary

The maximum number of Primary Structures per Zone Lot and building forms allowed by zone district is summarized below:

SECTION 4.2 DETACHED ACCESSORY BUILDING FORM STANDARDS

Development of Detached Accessory Structures in this PUD-G #42 shall comply with the Denver Zoning Code, Article 3, Section 3.3.4 Detached Accessory Building Form Standards as applicable to the S-SU-A Zone District (Subarea A), S-RH-2.5 Zone District (Subareas B and C) or Article 5, Section 5.3.4 Detached Accessory Building Form Standards as applicable to the U-RX-3 Zone District (Subarea D), as amended from time to time, except that all Detached Accessory Structures in this PUD-G #42 shall comply with the district specific standards for Detached Accessory Structures in Section 4.2.1 of this PUD-G #42 rather than the district specific standards for individual Detached Accessory Structure building forms in the underlying Zone Districts. For example, a Detached Accessory Structure with an accessory dwelling unit use can be built as accessory to a Suburban House building form in Subareas A, B and C according to the standards set forth in Section 4.2.1 of this PUD-G #42 rather than the standards set forth for the Detached Accessory Dwelling Unit building form in Denver Zoning Code Section 3.3.4.5 District Specific Standards.

SECTION 4.3 SUPPLEMENTAL DESIGN STANDARDS

4.3.1 Rooftop and/or Second Story Decks

A. Intent

To allow flexibility for Rooftop and/or Second Story Decks where protection for the privacy of adjacent rear yards in low-scale residential neighborhoods is not needed.

B. Applicability

This Section 4.3 shall apply to Development under all allowed building forms in Subarea B. The underlying zone district standards shall apply to Development under all allowed building forms in Subareas A, C and D.

C. Supplemental Design Standard

Rooftop and/or Second Story Decks are allowed on all portions of a Zone Lot.

4.3.2 Other Supplemental Design Standards in Underlying Zone Districts

All other Supplemental Design Standards set forth in Denver Zoning Code, Section 3.3.5 (Subarea A-C) and Denver Zoning Code, Section 5.3.5 (Subarea D) shall apply to PUD-G #42.

SECTION 4.4 DESIGN STANDARD EXCEPTIONS

The design standard exceptions set forth in Denver Zoning Code, Division 3.3 (Subareas A-C) or Denver Zoning Code, Division 5.3 (Subarea D) are available to Development in PUD-G #42 with the following modification:

4.4.1 Vehicle Access From Alley, Private Alley, Drive or Driveway - Exceptions

Where a building form table in Section 4.1.2 of this PUD-G specifies vehicle access from an Alley, Private Alley, Drive or Driveway, any newly-constructed Off-Street Parking Area, Garage, Carport or other parking facility shall be accessed solely from an Alley, Private Alley, Drive or Driveway that is itself connected to a public Street, unless:

- A. The Department of Transportation and Infrastructure ("DOTI") prohibits use of the Alley, Private Alley, Drive or Driveway for vehicular access to the Zone Lot based upon a determination that the Alley cannot safely or operationally accommodate additional vehicular traffic;
- B. The Primary Use is within the Civic, Public, and Institutional Use Category and DOTI determines that vehicular access is needed from the street; or
- C. The applicant can demonstrate at the time of zoning permit application that vehicular access to an Accessory Garage, Carport, or other Off-Street Parking Area must be provided directly from a public Street because a unique site constraint or condition prevents vehicle access from an Alley, Private Alley, Drive or Driveway and if the Zoning Administrator determines that such exception (1) is consistent with the specific intent of this PUD-G #42, (2) will have no adverse impacts on abutting property, and (3) will be limited in nature so as not to allow multiple vehicle access points to individual zone lots directly from a public Street.

SECTION 4.5 PRESERVATION OF REMAINING OPEN SPACE

A. Intent

Maintain the natural landscape and character of the Loretto Heights Cemetery Remaining Open Space as defined in Section 1.4 of PUD-G #42.

B. Applicability

This Section 4.5 applies to new Development in the Remaining Open Space in Subarea C as illustrated in Figure 1.1 and the location of any Primary, Detached Accessory, and Temporary Structures within the Remaining Open Space.

C. Key Features to Preserve/Retain

1. Existing design features and elements that were established during the period of significance of the Loretto Heights Cemetery (1891-1970) shall be preserved and maintained including the following Key Features to Preserve/Retain:
 - a. Ornamental steel fence and gate
 - b. Tree canopy
 - c. Open, green space
2. Removal of existing design features not listed in Section 4.5.C.1., and elements are allowed provided that they (i) fall outside of the period of significance or (ii) are otherwise permitted in this PUD-G #42.

D. Supplemental Design Standards for Remaining Open Space in Subarea C

1. No permanent enclosed or habitable structure with a foundation shall be constructed within the Remaining Open Space in Subarea C as illustrated in Figure 1.1.
2. New landscaping and flatwork/hardscape elements shall be compatible in character with the existing Remaining Open Space and provide a visual transition between the Remaining Open Space and the surrounding Development.

CHAPTER 5. USES AND REQUIRED MINIMUM PARKING

SECTION 5.1 USES IN SUBAREA A

In Subarea A, Primary, Accessory, and Temporary Uses, and minimum parking allowed in this PUD-G shall be those same uses allowed in the S-SU-A zone district, as stated in the Denver Zoning Code, Division 3.4, Uses and Required Minimum Parking, as amended from time to time, with the following exceptions, additions, and modifications:

5.1.1 Primary Uses

A. Community Center

1. A Primary Community Center use need not be enclosed.
2. No minimum vehicle parking requirement shall apply to the Primary Community Center use.

5.1.2 Accessory Uses

A. Accessory Dwelling Unit

An Accessory Dwelling Unit Use shall be permitted as accessory to a primary Single Unit Dwelling use, subject to the use limitations and permit review procedure required for an Accessory Dwelling Unit use in the U-SU-F1 zone district. See Section 4.2 of this PUD-G #42 for building form standards applicable to an Accessory Dwelling Unit Use located in a detached accessory structure.

SECTION 5.2 USES IN SUBAREAS B AND C

In Subareas B and C, Primary, Accessory, and Temporary Uses, and minimum parking allowed in this PUD-G #42 shall be those same uses allowed in the S-RH-2.5 zone district, as stated in the Denver Zoning Code, Division 3.4, Uses and Required Minimum Parking, as amended from time to time, with the following exceptions, additions, and modifications:

5.2.1 Primary Uses

A. Community Center

1. A Primary Community Center use need not be enclosed.
2. No minimum vehicle parking requirement shall apply to the Primary Community Center use.

B. Cemetery

A Cemetery shall be a permitted Primary Use in Subarea C subject to the same use limitations and permit review procedure required for a Cemetery in Denver Zoning Code, Section 11.3.6.

SECTION 5.3 USES IN SUBAREA D

In Subarea D, Primary, Accessory, and Temporary Uses, and minimum parking allowed in this PUD-G #42 shall be those same uses allowed in the U-RX-3 zone district, as stated in the Denver Zoning Code, Division 5.3, Uses and Required Minimum Parking, as amended from time to time, with the following exceptions, additions, and modifications:

5.3.1 Primary Uses

A. Community Center

1. A Primary Community Center use need not be enclosed.
2. No minimum vehicle parking requirement shall apply to the Primary Community Center use.

CHAPTER 6. ADDITIONAL STANDARDS

SECTION 6.1 ARTICLE 1 OF THE DENVER ZONING CODE

6.1.1 Applicability

Development in this PUD-G #42 shall conform to Article 1, General Provisions of the Denver Zoning Code, as amended from time to time, with the following exceptions, additions, and modifications:

A. Public Street Frontage Required for Zone Lots Containing Only Publicly Accessible Open Space as Designated in the Loretto Heights Infrastructure Master Plan

Each Zone Lot containing Publicly Accessible Open Space designated within the Loretto Heights Infrastructure Master Plan as Required Open Space or Bonus Open Space shall:

1. Have at least one Zone Lot line abutting one of the following street types for a minimum and continuous Zone Lot line width of 20 feet:
 - a. A dedicated named or numbered Public Street; or
 - b. A privately developed, owned, or maintained portion of “Road A” or “Road H” as designated on the Loretto Heights Infrastructure Master Plan.
2. Be designed and configured to maintain visibility of the Publicly Accessible Open Space from (a) one of the street types identified in Section 6.1.1.A.1 of this PUD-G #42, and (b) from any portion of the Zone Lot that will serve as a Primary Street Zone Lot line per the provisions of Section 6.7.1.B.1.c of this PUD-G #42.

B. Public Street or Open Space Frontage Required for Zone Lots Containing Primary Residential or Primary Commercial Sales, Service and Repair Uses

Each Zone Lot containing Primary Residential or Primary Commercial Sales, Service and Repair Uses shall have at least one Zone Lot line abutting:

1. A dedicated named or numbered public Street; or
2. A privately developed, owned, or maintained portion of “Road A” or “Road H” as designated on the Loretto Heights Infrastructure Master Plan; or
3. A Zone Lot composed only of Publicly Accessible Open Space, where such Publicly Accessible Open Space is designated within the Loretto Heights Infrastructure Master Plan as Required Open Space or Bonus Open Space.

Not to Scale. Illustrative Only.

Figure 6.1. Street Frontage for Zone Lots

SECTION 6.2 ARTICLE 2 OF THE DENVER ZONING CODE

6.2.1 Applicability

Development in this PUD-G #42 shall conform to Article 2, Using the Code, of the Denver Zoning Code, as amended from time to time.

SECTION 6.3 ARTICLE 9 OF THE DENVER ZONING CODE

6.3.1 Applicability

Development in this PUD-G #42 shall conform to Article 9, Special Contexts and Districts, of the Denver Zoning Code, as amended from time to time, with the following exceptions:

A. Amendments to Approved PUD District Plans

This PUD District Plan may be amended by subarea, platted lots, or metes and bounds parcels, as allowed in Denver Zoning Code, Section 9.6.1.4, Amendments to Approved PUD District Plans.

SECTION 6.4 ARTICLE 10 OF THE DENVER ZONING CODE

6.4.1 Applicability

Development in PUD-G #42 shall comply with the Denver Zoning Code, Article 10, General Design Standards, as specifically applicable to the S-SU-A, S-SU-F1, S-RH-2.5, and U-RX-3 Zone Districts, as amended from time to time.

SECTION 6.5 ARTICLE 11 OF THE DENVER ZONING CODE

6.5.1 Applicability

Establishment of Uses in this PUD-G #42 shall comply with the Denver Zoning Code, Article 11, Use Limitations and Definitions, as specifically applicable to the S-SU-A, S-RH-2.5, and U-RX-3 Zone Districts, as amended from time to time, as amended from time to time with the following modifications:

A. Community Center

In this PUD-G #42, the limitations applied to a Community Center use shall be those set forth in Denver Zoning Code Section 11.3.3 Community Center as applied to the S-RH-2.5 zone district, except that:

1. An unenclosed Community Center use need not be operated and controlled in a manner that prevents unauthorized use.
2. Outdoor lighting for pedestrian safety purposes may operate at any hour.

SECTION 6.6 ARTICLE 12 OF THE DENVER ZONING CODE

6.6.1 Applicability

All development in this PUD-G #42 shall comply with the Denver Zoning Code, Article 12: Zoning Procedures and Enforcement, as amended from time to time, with the following exceptions/additions:

A. Official Map Amendment

1. This PUD-G #42 may be amended by subarea, platted lots, or metes and bounds parcels, as allowed in the Denver Zoning Code Section 9.6.1.4, Amendment to Approved PUD District Plans.

SECTION 6.7 ARTICLE 13 OF THE DENVER ZONING CODE

6.7.1 Applicability

Development in this PUD-G #42 shall comply with the Denver Zoning Code, Article 13, Rules of Measurement and Definitions, as amended from time to time, with the following exceptions/additions:

A. Height Rules of Measurement

1. Height Rule of Measurement for Subarea A, B and C

The height of development in Subarea A, B and C of this PUD-G #42 shall be measured according to Denver Zoning Code, Section 13.1.2 Height for all SU, TU, RH, E-MU-2.5, E-MU-3 and RO-3 Zone Districts, as applicable to the Underlying Zone District for each PUD subarea, except that all development may use the building-specific base plane described in Denver Zoning Code, Section 13.1.2.2.B.2, Building Specific Base Plane regardless of the Zone Lot size or number of primary buildings located on the Zone Lot.

2. Height Rule of Measurement for Subarea D

The height of development in Subarea D of this PUD-G #42 shall be measured according to Denver Zoning Code, Section 13.1.3, Height for All Other Zone Districts as applicable to the U-RX-3 underlying Zone District.

B. Determination of Primary Street Zone Lot Line, Side Street Zone Lot Line, Side Interior Zone Lot Line, and Rear Zone Lot Line

Within all subareas of this PUD-G #42, Zone Lot Lines shall be determined using the criteria set forth in Denver Zoning Code Section 13.1.5.2 Determination of Primary Street Zone Lot Line, Side Street Zone Lot Line, Side Interior Zone Lot Line and Rear Zone Lot Line for All Zone Districts except Mixed Use Commercial Zone Districts with the following exceptions, additions and modifications:

1. Determination of Primary Street Zone Lot Line

Per Figure 6.2, the Primary Street shall be a Zone Lot line abutting:

- a. A dedicated named or numbered public Street; or
- b. A privately developed, owned, or maintained portion of "Road A" or "Road H" as designated on the Loretto Heights Infrastructure Master Plan; or
- c. A Zone Lot containing only Publicly Accessible Open Space that is designated as either Required Open Space or Bonus Open Space within the Loretto Heights Infrastructure Master Plan per the provisions of Section 6.1.1.A of this PUD-G #42. The portion of the Zone Lot containing Required Open Space or Bonus Open Space abutting the Primary Street Zone Lot line shall include:
 - i. A minimum width of 20 feet as measured perpendicular to the Primary Street Zone Lot line; and
 - ii. A sidewalk, within the minimum Zone Lot width specified in Section 6.7.1.B.1.c.i above, with a minimum width of 6 feet that provides access to a public Street.

2. Determination of Side Street Zone Lot Line on a Corner Zone Lot

Per Figure 6.2, on a Corner Zone Lot, the Zoning Administrator may designate one or more of the Zone Lot lines meeting the conditions for determination as a Primary Street Zone Lot line per Section 6.7.1.B.1 of this PUD-G #42, as a Side Street Zone Lot line according to the criteria set forth in Denver Zoning Code Section 13.1.5.2.A.3, Criteria for Zoning Administrator Determinations, regardless of whether the block is square or oblong.

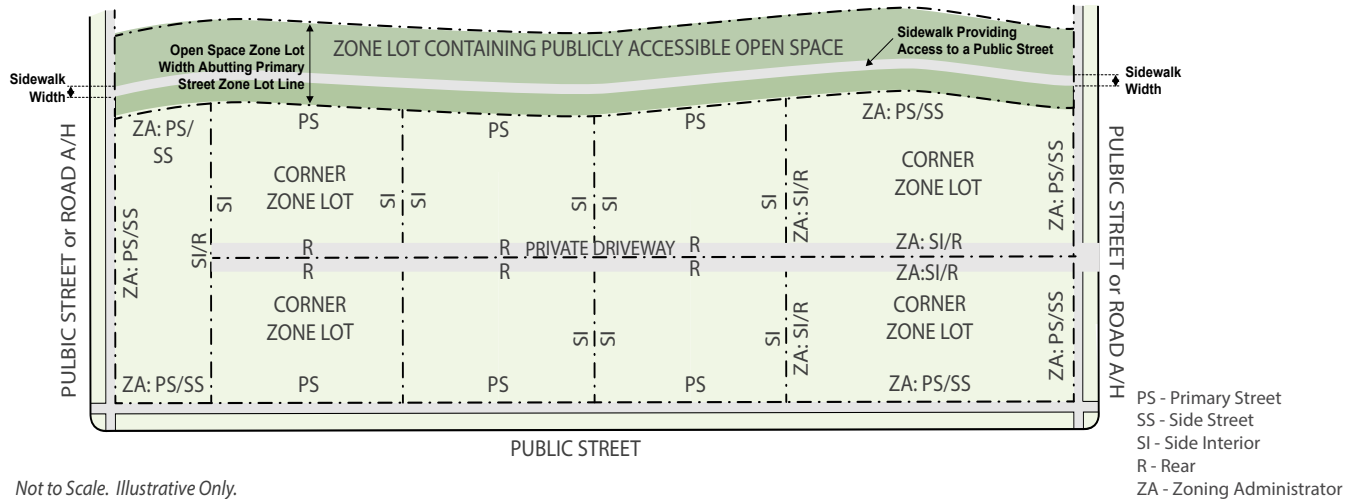

Figure 6.2. Determination of Zone Lot Lines and Conditions for Publicly Accessible Open Space Abutting a Primary Street Zone Lot Line

C. Pedestrian Access

Within all subareas of this PUD-G #42, Pedestrian Access standards shall be measured according to the provisions of Denver Zoning Code Section 13.1.6.3.B. Pedestrian Access, with the exception that references to ‘Street’ or ‘Primary Street’ shall mean ‘Primary Street Zone Lot Line’ within this PUD-G #42. For example, when the Primary Street Zone Lot Line for a Row House building form has been established abutting a Zone Lot containing only Publicly Accessible Open Space per the provisions of Section 6.7.1.B of this PUD-G #42, the street-facing Entrance required for each Row House unit shall face towards the Publicly Accessible Open Space.

D. Definition of Words, Terms and Phrases

1. Protected District Status

This PUD-G #42 will not be considered a Protected District as defined in Denver Zoning Code Division 13.3 Definition of Words, Terms and Phrases.

2. Road A

For the purpose of this PUD-G #42, Road A shall be considered the street running west from Federal Blvd. on the north of PUD-G 41, thence primarily south along the boundary between this PUD-G #42 and PUD-G 41 as designated in the Loretto Heights Infrastructure Master Plan. Portions of Road A may be a privately developed, owned, or maintained Private Street.

3. Road H

For the purpose of this PUD-G #42, Road H shall be considered the street running west/northwest from Road A in Subarea B of this PUD-G #42, thence connecting to South Irving St. in Subarea C of this PUD-G 41 across from Loretto Heights Park as designated in the Loretto Heights Infrastructure Master Plan. All, or portions of, Road H may be a privately developed, owned, or maintained Private Street.

4. Underlying Zone District

For the purpose of this PUD-G #42, the definition of Underlying Zone District shall include standard non-overlay zone districts that provide base building form and use requirements when used in combination with an Overlay Zone District or Planned Unit Development (PUD) Zone District.

5. Zone Lot, Corner

For the purpose of this PUD-G #42, the definition of Corner Zone Lot shall include Zone Lots situated at the intersection of a public street and Publicly Accessible Open Space that is designated as either Required Open Space or Bonus Open Space within the Loretto Heights Infrastructure Master Plan. See Figure 6.2.

CHAPTER 7. RULES OF INTERPRETATION

Subject to Chapter 8 of this PUD-G #42 whenever a section of the Denver Zoning Code is referred to in this PUD-G #42, that reference shall extend and apply to the section referred to as subsequently amended, recodified, or renumbered; provided, however, if a section of the Denver Zoning Code, as subsequently amended, recodified, or renumbered conflicts with a provision of this PUD-G #42, this PUD-G #42 shall control.

CHAPTER 8. VESTED RIGHTS

This PUD-G #42 shall be established in accordance with Denver Zoning Code sections 9.6.1.2.C, Vested Rights, and 9.6.1.5, Vested Rights, and vested property rights shall be created 90 days after the effective date of the ordinance approving this PUD-G #42.
