# Requests

- 1) Mini Bundle Text Amendment to the Denver Zoning Code (DZC).
- 2) Denver Revised Municipal Code (DRMC) zoning language amendments for Former Chapter 59 zoned properties.

# Mini Bundle Project Overview

The proposed Mini Bundle text amendment to the DZC and DRMC is a small package of text amendments that cover four main topic areas: **Proposition 123/Expedited Reviews for Affordable Housing Projects, Wireless Telecommunications, Accessory Dwelling Units, and Site Development Plans.**

The purpose of this text amendment is to align Denver's regulations with state mandates and incentive programs while incorporating procedural improvements to support good governance and affordable housing.

# Prop 123/Expedited Reviews

- Coordinate approval dates for different types of applications, including zone lot amendments, to be the date of final decision, rather than recordation to avoid delays in the process
- Minor changes to DZC language about Design Review Boards and Urban Design Standards & Guidelines (UDSGs)
- Related: Update USGS to exempt fast tracked affordable housing projects from formal review by Cherry Creek and Downtown Design Advisory Boards

# Wireless Telecommunications

- Add “not physically substantial” modifications to existing telecommunications facilities to the list of development types that do not need a zoning permit (provided the City is notified in writing)
- Related rules & regulations change: Exempt non-substantial changes to existing wireless service or telecommunication facilities from applicability of Urban Design Standards and Guidelines and Design Advisory Board review in Cherry Creek North/Cherry Creek West and Downtown

This kind of facility (example only) 

Not these 

# Accessory Dwelling Units

- Remove Owner Occupancy requirements for Denver Housing Authority owned properties
- Clarify DZC language to ensure Planned Unit Developments (PUDs) allow ADUs if single-unit dwellings are allowed
- Clearly state that any existing ADU prohibitions in PUDs will not be enforced
