Denver County Courts Transaction Fees Agreement

1. BACKGROUND

Denver County Court is developing an eFiling system that will integrate with Colorado Interactive’s payment and billing applications, as outlined in Work Order 00000892. All Denver County Court transactions will fall under service code dcc_efile in Colorado Interactive’s Transaction Payment Engine (TPE).

2. TRANSACTION REQUIREMENTS

Several different transaction types will be created through the Denver County Court application, which include case access, notifications, filings and services.

2.1 Transaction Fee Table

The table depicts the fee information for all transaction codes to be used when creating a TPE order. Each Fee Code will be represented in TPE as a unique item SKU code. The fees depicted in the following table are NOT configured within the TPE application. The Denver County Court applications will be responsible for passing the fee amount to TPE for each transaction, including \$0 fees when applicable.

The addition of new fee codes must be communicated to Colorado Interactive to ensure the fee will be added to TPE as a unique SKU code. The CI fee associated with any new fee codes will be determined based on their fee category.

2.2 Invoice Payment Surcharge

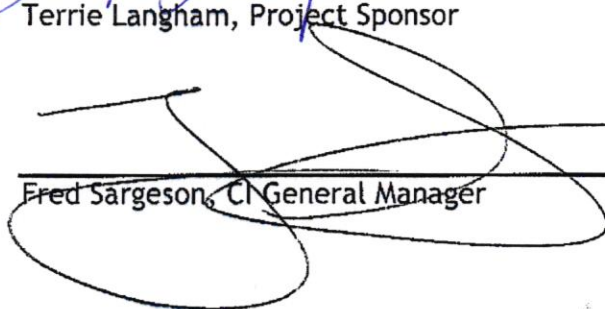

Colorado Interactive is in the process of implementing an invoice payment surcharge with the State Courts. The surcharge will cover the cost of processing invoice payments online. For credit card payments, the surcharge will be approximately 2.17% of the invoice amount, with the exact percentage to be determined prior to implementation. When the surcharge is implemented for the State Courts, the same surcharge will be applicable for Denver County Courts transactions. A separate surcharge fee agreement will be executed, with the exact surcharge percentage for credit cards, prior to implementation.
