

## **David R. Brehm - Registered Landscape Architect President**

## **Resumé**

With a commitment to make a positive difference to our built environment, David has been providing land planning, site design, and landscape architectural services for public and private development for over 40 years. David's passion for helping to create financially successful projects, great neighborhoods for the people and long-term assets in the community have become the fundamental principles at Plan West. These core values combined with a tenacious attention to detail have earned David and Plan West respect from staff and officials in the communities where Plan West works. David leads the land use entitlement process while carefully guiding the zoning, site design, landscape architecture and detailed design that solves problems and finds solutions to help create comfortable living environments.

David's collaborative approach and rapport with municipal staff has been instrumental in creating pedestrian friendly neighborhoods and livable communities. As president of Plan West, David continues his passion to help people create great places in the community.

Mr. Brehm has provided leadership on the following projects:
