EXPLANATION of REQUEST

Explanation of why the Requestor wants the right-of-way (ROW) vacated:

I have been living at the property of 3325 Wyandot Street for over 20 years. Over the years I have bought the 2 carriage lot properties to the west of my house property of 3325 Wyandot Street. I have been wanting to renovate the 5 car garages for years and was told by the Denver Building Department that I need to combine all 3 properties and get the alley vacated in order to work on that building. This is why I am making a formal request to vacate the alleyway which has not been used by anyone else but me for over 20 years.

(Utilities in the proposed vacation area will need to be relocated at the owner's expense. If relocation is not feasible, a standard hard surface easement may be required. CenturyLink reserves its utility easement in the alley that is being vacated for public right of way as shown on Exhibit A (attached) as CenturyLink has existing overhead copper cables in that vacation request.

1. There appears to be electric and/or communication lines located in the vacation area. Please work with the respective utility owners to ensure any relocations or easement requirements are met prior to executing the vacation.
2. The existing fence and wall within the ROW does not currently have an Encroachment Permit. The applicant will need to either remove the fence/wall from the ROW or apply for an Encroachment Permit.
3. Survey generally requires uniform ROW designation, which the proposed vacation does not provide. Remove the "jog" in the vacation and maintain 20-foot alley east-west.

Please be aware Public Service Company of Colorado owns and operates existing overhead electric distribution facilities located within the alley proposed to be vacated; therefore, we are able to give conditional approval, PROVIDED, HOWEVER, said vacation shall be subject to the following reservations:
A perpetual, non-exclusive easement is hereby reserved by the City and County of Denver, its successors and assigns, over, under, across, along, and through the vacated area for the purposes of constructing, operating, maintaining, repairing, upgrading and replacing public or private utilities including storm drainage and sanitary sewer facilities and all appurtenances to said utilities. A hard surface shall be maintained by the property owner over the entire easement area. The City reserves the right to authorize the use of the reserved easement by all utility providers with existing facilities in the easement area. No trees, fences, retaining walls, landscaping or structures shall be allowed over, upon or under the easement area. Any such obstruction may be removed by the City or the utility provider at the property owner's expense. The property owner shall not re-grade or alter the ground cover in the easement area without permission from the City and County of Denver. The property owner shall be liable for all damages to such utilities, including their repair and replacement, at the property owner's sole expense. The City and County of Denver, its successors, assigns, licensees, permittees and other authorized users shall not be liable for any damage to property owner's property due to use of this reserved easement.

Finishing out the zone lot amendment that is in progress would be required to use the vacated piece of land, with the other parcels, as an integrated whole. Technically, without the zone lot amendment, the vacated land will not be available for any land use or development activity under the zoning code, and the zone lot amendment creates the opportunity to clean up the land records at issue.
