

Amendment to CB22-0426 concerning enhancing housing accessibility.

Committee Members,

I move that Council Bill 22-0426 be amended in the following particulars:

- 1) On page 8, line 25, replace “four hundred (400)” with “eight hundred (800)”

Purpose of the Amendment

Explanation: Increase to 800 square feet. This would provide low-income communities the ability to renovate homes in order to accommodate families growing or aging in place.
