9. **General description or background of proposed request. Attach executive summary if more space needed:**

This project is part of the City's Public Art Program and procured through 1%-For-Art funds as part of the Concourse Expansion Program at Denver International Airport (DEN). Artist Kipp Kobayashi is creating a suspended artwork to be placed within the circulation space of the newly constructed Concourse B-West expansion at DEN. The artwork will be created from stainless-steel welded mesh titled, *The Cosmology of Flight*. The sculpture will be approx. 140'L x 25'W x 20'H. The artwork which is inspired by scale, perception and size will activate the center circulation space of the newly constructed Concourse B-West expansion with a life-size 737 MAX 9 aircraft. The translucent sculpture will allow passengers the uncommon view of an airplane up-close to appreciate the modern marvel of air travel. Due to escalating costs of labor, materials and manufacturing, the project needs an increase in funds for completion. No additional time is added through this amendment.

10. **City Attorney assigned to this request (if applicable):** Cora Weatherford

11. **City Council District:** Council District 11
