6. General description of proposed ordinance including contract scope of work if applicable: The proposed resolution is being requested to evidence the City’s intent to utilize a portion of the City’s Private Activity Bond Volume Cap Allocation for the purpose of financing multifamily housing by December 15, 2013. The State of Colorado’s Department of Local Affairs has allotted more than sufficient Private Activity Volume Cap Allocation to the City for this purpose. This resolution allows for the use of \$16,000,000 to be applied in 2013, consistent with Colorado statutes and the Internal Revenue Code. The affordability election related to Private Activity Bonds will be 40% of the units at 60% Area Median Income (AMI), but the property will consist of approximately 156 affordable rental units serving households at 50% and 60% AMI.

Executive Summary

The proposed resolution is to declare the *intent* of the City and County of Denver to issue an amount not to exceed \$16,000,000 of its Multifamily Housing Revenue Bonds by December 15, 2013 for the proposed Parkhill Village West LLLP project. The proposed project is to be comprised of approximately 156 affordable rental units serving households at 50% and 60% of Area Median Income (AMI).

In general, a private activity bond is a bond issued by a local or state government for the purpose of financing a project to be owned and operated by a private party. The interest paid on the bonds is exempt from Federal taxation. The Federal government allots Private Activity Bond Volume Cap Allocation to each state. The State of Colorado, in turn, allots a portion of such Private Activity Bond Volume Cap Allocation to each local government issuer based on population. This resolution allows for an allocation of \$16 Million of the City's total and currently available Private Activity Bond Volume Cap Allocation of \$157,169,133 to be applied to the proposed multifamily project at 4055 Albion Street consistent with Colorado statutes and the Internal Revenue Code.

Private activity bonds are issued to finance various types of facilities owned or operated by private entities, including multifamily housing projects, single family housing assistance, and industrial development uses. Private Activity Bonds issued by the City are special limited obligations and do not constitute a debt or indebtedness of the City and do not give rise to a charge against the general credit or taxing power of the City. The owner of the project financed with Private Activity Bonds is solely responsible for compliance related to regulations of the tax-exempt bond program and the principal and interest on the bonds.

The applicant is proposing that the City and County of Denver serve as conduit issuer of short-term tax-exempt bonds in an aggregate principal amount of approximately \$15,150,000. The bonds will be cash secured, in an amount sufficient to pay principal of and interest on the bonds to maturity. The Bonds would have a stated maturity of approximately 30 months and would be subject to optional redemption approximately 18 months from date of issuance, by which time it is expected that the Project would have been placed in service and the Bonds can be called for redemption. Proceeds of the Bonds would be deposited into a Project Fund under the Indenture, to satisfy the 50% Rule. The Bonds will be publicly offered and are expected to carry a long-term rating of AA+ or short-term rating of SP-1+ based on the cash collateral and permitted investments of such cash. Upon completion of project construction and its placement in service, the project will qualify for a 4% Low Income Housing Tax Credits (LIHTC), which will have been awarded by CHFA prior to issuance of the bonds. The Private Activity Bond Program allows LIHTC at 4% to be used as a means to create equity in the project.

Upon placement in service of the project, the bonds issued by the City will be redeemed from cash held by the Bond Trustee and Parkhill Village West LLLP. Upon redemption of the bonds issued by the City, the project will be financed on a long-term basis by a FHA mortgage loan extended by Gershman Mortgage.

The approval of the inducement is contingent upon Parkhill Village West LLLP being able to provide and or achieve the following tasks:

- 1) FHA commitment or other credit enhancement acceptable to the City with respect to the long-term permanent financing.
- 2) Demonstrated sufficiency of the cash collateral for the City's bonds to satisfy principal of and interest on the bonds to maturity.
- 3) The award of the Allocation shall expire on December 15, 2013 (the "Expiration Date") if the Bonds are not issued prior to December 14, 2013. The Chief Financial Officer of the City and the Executive Director of the City's Office of Economic Development may extend the Expiration Date to a later date in their sole discretion.
